

ANCHOR CAPITAL CORPORATION

Management Discussion and Analysis

This Management Discussion and Analysis ("MD&A") for Anchor Capital Corporation ("Anchor" or the "Corporation") is a review of the nine months ended September 30, 2017 and should be read in conjunction with the audited financial statements for the year ended December 31, 2016 and the notes thereto. This MD&A relates to events up to November 21, 2017.

The Corporation's financial position, results of operations and cash flows have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The Corporation's reporting currency is the Canadian dollar and all amounts in this MD&A are expressed in Canadian dollars.

DESCRIPTION OF BUSINESS

Anchor Capital Corporation ("Anchor" or the "Corporation") was incorporated pursuant to the provisions of the *Business Corporations Act* (Alberta) on February 20, 2014. The Corporation is a Capital Pool Company ("CPC") as defined pursuant to Policy 2.4 of TSX Venture Exchange Inc. ("TSX Venture"). The Corporation's business is to identify and evaluate corporations, businesses or assets for acquisition and once identified and evaluated, to negotiate an acquisition or participation subject to receipt of shareholder and regulatory approval.

On December 2, 2014 the Corporation completed its initial public offering (the "Offering") raising gross proceeds of \$351,400 pursuant to a prospectus dated September 26, 2014. A total of 3,514,000 common shares in the capital of the Corporation ("Common Shares") were subscribed for at a price of \$0.10 per Common Share. Richardson GMP Limited acted as the agent for the Offering and received a corporate finance fee and a cash commission equal to 10% of the gross proceeds of the Offering, as well as agent's options to purchase 351,400 Common Shares at a price of \$0.10; these options expired on December 2, 2016.

The Common Shares of Anchor commenced trading under the stock symbol "ANC.P" on December 2, 2014.

Anchor entered into a non-binding letter agreement with Mark One dated October 26, 2016 (the "Letter Agreement"), pursuant to which Anchor and Mark One intend to complete a business combination (the "Transaction"). The Corporation announced on October 13, 2017, that it terminated the proposed qualifying transaction.

Anchor received shareholder approval to transfer its listing to the NEX, a separate board of the TSX Venture Exchange, and to cancel an aggregate of 1,000,000 Seed Shares (as defined by the Exchange) held by Non Arm's Length Parties of the CPC (including the officers, directors, insiders and control persons of the Corporation). The NEX provides a trading forum for listed companies that have fallen below TSX and TSX Venture's ongoing listed standards, or companies that have low level of business activity or have ceased to carry on active business. Trading of the common shares of Anchor (the "Common Shares") is currently suspended and the corporation is currently listed on The NEX under the stock symbol "ANC.H". This cancellation resulted in the average cost per common share to these individuals being increased to \$0.10 per common share which equates to the initial public offering price per common share.

CRITICAL ACCOUNTING ESTIMATES

There are no critical or material accounting estimates.

BUSINESS RISKS

The Corporation is a Capital Pool Company under the policies of the TSX Venture. The Corporation had twenty-four months from the date its shares are listed on the TSX Venture, at which time the TSX Venture may suspend or de-list the Corporation's shares from trading. The Corporation's shares began trading on the TSX Venture on December 2, 2014. On March 15, 2017, the Corporation was granted an extension by the TSX Venture for the completion of the Qualifying Transaction (note 9) to September 7, 2017. As at September 30, 2017 the Corporation had not completed the qualifying transaction and as such the Corporation transferred its common shares to NEX, a separate board of TSX Venture Exchange for companies that have fallen below TSX Venture's listing standards by filing a NEX listing notification with the TSX Venture, and cancelled its outstanding seed shares held by non-arm's length parties of the Corporation. This cancellation resulted in the average cost per common share to these individuals being increased to \$0.10 per common share which equates to the initial public offering price per common share.

The Corporation believes it has no significant credit risk.

The Corporation's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2017 the Corporation had cash on hand in excess of its liabilities. All of the Corporation's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

The Corporation has cash balances and no interest-bearing debt.

The Corporation does not have assets or liabilities in foreign currency.

ESTIMATES

Certain accounting policies are identified as critical accounting policies because they require management to make judgments and estimates based on conditions and assumptions that are inherently uncertain. These accounting policies could result in materially different results should the underlying assumptions or conditions change. Management assumptions are based on factors that, in management's opinion are relevant and appropriate at the time such assumptions are made, and may change over time as operating conditions change. There are no critical accounting estimates at this time.

FUTURE ACCOUNTING PRONOUNCEMENTS

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning after January 1, 2016 or later periods. The Corporation has not applied these pronouncements within the condensed interim financial statements for the nine month period ended September 30, 2017.

International Financial Reporting Standard 9, Financial Instruments (“IFRS 9”) was issued in November, 2009 and is the first step to replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The IASB recently suspended the originally planned effective date of this new standard of January 1, 2018 and at present the effective date has not been determined. The Corporation is currently assessing the financial impact of this new standard.

International Accounting Standard 1, Presentation of Financial Statements (“IAS 1”) amendments are part of a major initiative to improve disclosure requirements in IFRS financial statements. The amendments clarify the application of materiality to note disclosure and the presentation of line items in the primary statements provide options on the ordering of financial statements and additional guidance on the presentation of other comprehensive income related to equity investments. The effective date for these amendments is January 1, 2016. The Corporation is in the process of evaluating the impact of these amendments.
