UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED MARCH 31, 2022, AND 2021
(Expressed in Canadian Dollars)

Management's Responsibility for Consolidated Financial Statements

The accompanying unaudited condensed consolidated interim financial statements of PlantFuel Life Inc. (the "Company" or "FUEL") are the responsibility of management and the Board of Directors.

The unaudited condensed consolidated interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited condensed consolidated interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions, which were not complete at the balance sheet date. In the opinion of management, the unaudited condensed consolidated interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

Management has established processes which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the consolidated financial statements do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the consolidated financial statements and (ii) the consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements.

The Board of Directors is responsible for reviewing and approving the consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed consolidated interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim consolidated financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements have been prepared by, and are the responsibility of, the Company's management. The Company's independent auditor has not performed a review of these financial statements.

NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the Three and Six months ended March 31, 2022, and 2021

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

PlantFuel Life Inc.(the “Company”) formerly Sire Bioscience Inc. (“Sire”) is a company incorporated under the Business Corporations Act of British Columbia. The head office of the Company is located at 2500 Meadowpine Blvd. Ste 202, Mississauga, Ontario L5N 6C4.

On March 12, 2021, the Company completed the acquisition of PlantFuel, Inc. See Note 11. The Company focuses on health supplements, nutraceuticals, and plant protein-based products.

In April 2021, the Company received approval and changed its operating name to PlantFuel Life Inc. The Company is listed for trading on the CSE under the symbol “FUEL.CN”, OTC “PLFLF”, and the Frankfurt stock exchange in Germany under the symbol “BR1B”.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. For the three-month period ended March 31, 2022, the Company incurred a net loss of \$5,112,085 (March 31, 2021 – \$1,790,007) and had a working capital surplus of \$1,131,202 (September 30, 2021 \$2,621,295). The continued operations of the Company are dependent on its ability to generate future cash flows from operations or obtain additional financing. Management is of the opinion that based on current forecasts for the nutraceutical business, the Company will require additional funds to meet the Company’s liabilities and commitments as they become due. There is a risk that financing may not be available on a timely basis or on terms acceptable to the Company.

These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. These consolidated financial statements do not reflect adjustments that would be necessary if the going concern basis was not appropriate. Consequently, adjustments would then be necessary to the carrying value of assets and liabilities, the reported expenses and the balance sheet classifications used. Such adjustments, if required, could be material.

The Company has been closely monitoring developments related to COVID-19, including the existing and potential impact on global and local economies. The Company has implemented its business continuity plan ensuring minimal interruption to the business. Governments worldwide have since put in place various measures to contain the spread of the virus, which have directly and indirectly impacted many businesses. The COVID-19 pandemic did not have any significant impact on the Company’s financial statements during the reporting period. The longer-term impacts of the COVID-19 situation will depend on future developments which are highly uncertain, rapidly evolving, and difficult to predict. These impacts may differ in magnitude depending on several scenarios, which the Company continues to monitor and take into consideration.

NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the Three and Six months ended March 31, 2022, and 2021

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION

Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standards as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. These interim condensed consolidated financial statements should be read in conjunction with the audited annual consolidated financial statements for the year ended September 30, 2021, which have been prepared in accordance with IFRS and IFRIC as issued by the IASB in effect as of September 30, 2021.

The accounting policies and methods of computation remain the same as presented in the audited annual consolidated financial statements for the year ended September 30, 2021.

There are no new IFRS and/or IFRIC pronouncements issued that are effective for the first time for this interim period that would be expected to have a material impact on the Company.

The consolidated financial statements were authorized for issue by the Board of Directors on May 27, 2022.

Basis of Measurement

The condensed interim consolidated financial statements have been prepared on a historical cost basis, except for cash flow information and certain financial assets that are measured at fair value as explained in the significant accounting policies set out in Note 3 of the audited annual consolidated financial statements for the year ended September 30, 2021.

The functional and presentation currency of the Company is the Canadian dollar. The functional currency of PlantFuel, Inc., which was acquired in March 2021, is US dollars. All other entities continued to have a functional currency of Canadian dollars throughout 2021 and 2022.

Basis of Consolidation

The condensed interim consolidated financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date control ceases.

These consolidated financial statements include the accounts of the Company and the following wholly owned subsidiaries: Best Cannabis Products Inc., BCP Holdings and Investments Inc., Big Rock Technologies Inc., Fusion Nutrition Inc., and PlantFuel, Inc.

All intercompany balances, transactions, unrealized gains, and losses resulting from intercompany transaction have been eliminated on consolidation.

2. BASIS OF PREPARATION (Continued)

Significant Accounting Estimates and Judgments

The preparation of consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and assumptions are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

Significant estimates and judgments include:

(i) Share-based payments and warrants

Management utilizes option pricing models to determine the fair value of share-based payments and warrants which requires inputs of assumptions including the volatility of the Company's stock price.

(ii) Business combination

The Company applies judgment in determining a business is acquired when the integrated set of assets and activities includes at a minimum, an input and substantive process and whether the acquired set has the ability to contribute to the creation of outputs.

In a business combination, a significant area of judgment and estimation relates to the determination of the fair value of assets and liabilities acquired including any intangible assets and goodwill identified.

(iii) Acquisition of a group of assets

At the date of acquisition of a subsidiary or associate, intangible assets that are deemed separable and that arise from contractual or other legal rights are capitalized and included within the net identifiable assets acquired. The net identifiable assets acquired, and liabilities assumed are measured at their estimated fair value of the consideration paid, based on their relative fair values at the acquisition date except where the fair value cannot be estimated reliably, in which case all financial instruments are measured at fair value and the residual balance is allocated to the value of intangible assets.

(iv) Revenue recognition

The assessment of terms and conditions in contracts which may impact revenue recognition can require significant judgment. Management exercises judgment in estimating the revenue from contracts with customers subject to variable consideration.

2. BASIS OF PREPARATION (Continued)

Significant Accounting Estimates and Judgments (Continued)

(v) Going concern

The assessment of the Company's ability to execute its strategy by effectively operating the Company involves judgment. Management closely monitors the operations and cash flows in the Company. Further information regarding the going concern is outlined in Note 1.

(vi) Income taxes

Management exercises judgment to determine the extent to which deferred tax assets are recoverable and can therefore be recognized in the statements of financial position and statements of loss and comprehensive loss.

(vii) Property, plant, equipment, and intangible assets

Management exercises judgment in determining when property, plant and equipment, and intangible assets are available for use as well as their useful lives.

(viii) Non-financial asset impairment

Management exercises judgment to evaluate the carrying value of property, plant, and equipment, and intangible assets at the end of each reporting period to determine whether there is an indication of asset impairment. If any such indication exists, the Company estimates the recoverable amount of the asset to determine if an asset is impaired.

The Company, via its subsidiary, entered into a purchase and sale agreement (“PSA”) on April 12, 2018, to purchase land and a greenhouse in Leamington, Ontario for total proceeds of \$6,400,000. This transaction was completed by taking a secured loan – vendor takeback mortgage on the property. See Note 9.

The purchase price for the assets acquired under the PSA had been allocated according to their relative fair values as at the date of acquisition. As the Company has decided to focus its efforts on the supplements and plant protein industries, it was decided to return the land and buildings to the original vendor who held the mortgage on the property. A settlement agreement was reached on January 15, 2021, whereby along with the property and buildings, the Company paid \$300,000 in cash and issued the vendor 83,333 common shares of the Company in return for the settlement of all debts and liabilities associated with the property. The fair value of the shares was estimated based on the quoted market price of the Company’s shares at the date of settlement. The resulting loss has been calculated as \$962,669 and recorded in the statements of loss and comprehensive loss for the period ending September 30, 2021.

9. SECURED LOAN

On July 13, 2018, the Company entered into a secured loan agreement for \$5,800,000 as part of a vendor take-back arrangement in connection with the acquisition of land and a greenhouse in Leamington, Ontario (Note 7). The loan was secured by the land and greenhouse assets, bore no interest until the Vendor fully vacates the premises and then at a rate of 12.5% for three years. Principal payments of \$500,000 were due August 13, 2018, and December 13, 2018, and the balance of the loan principal was due on July 13, 2021. Interest was repayable in monthly installments beginning in year two. Due to the interest-free period, the loan was initially recognized at \$4,951,250 which represents the present value of future repayments using a market interest rate of 13%. The effective interest rate on the loan is 14.7%. On January 15, 2021 (the settlement date) the Company completed a transaction transferring the property back to the Vendor and settling the debt. 11. ACQUISITIONS

11 (a) Acquisition of PlantFuel, Inc.

On March 12, 2021, the Company completed its acquisition of PlantFuel, Inc. (PF), an American-based plant protein company. PF is focused on delivering plant-fueled nutritional supplements to consumers using world-class formulations and using clinically proven ingredients. The Company acquired the creative assets and product formulas related to the PlantFuel intellectual property and know-how. The transaction was completed by issuing 10,833,333 common shares of the Company. According to the terms of the agreement, the consideration shares are held in escrow and are to be distributed as follows: The shares were subject to the following release provisions, 10% on closing, 30% three months from closing, 30% six months from closing, and 30% 12 months from closing.

The acquisition of PF does not meet the definition of a business combination under IFRS 3. Consequently, the transaction has been accounted for as an asset acquisition.

The total purchase price was allocated based on the relative fair value of the assets and the liabilities acquired as shown below:

Fair Value of Net Assets acquired on March 12, 2021:

	(\$)
Cash	255
Prepaid assets	6,247

11. ACQUISITIONS (continued)

11 (b). Acquisition of Fusion Nutrition Inc.

On May 3, 2020, the Company completed its acquisition of Fusion Nutrition Inc. (Fusion), a Canadian-based supplement company with national distribution which hosts 12 brands. This transaction will accelerate the Company's speed to market in the nutraceutical space taking advantage of Fusion's sales channels with 800 points of distribution as well as strong brand recognition in the marketplace. The Company believes this transaction will allow it to launch more relevant and highly customized products at a faster pace. Fusion customers include but are not limited to Popeye's Supplements, Sport Chek, Supplement King, GNC, and Herc's Nutrition. The transaction was affected by issuing 48,561 common shares (the consideration shares) of the Company at a value of \$1.20 per share (CSE required no value under \$1.20). According to the terms of the agreement, the consideration shares are held in escrow and are to be distributed as follows: i) upon satisfaction of certain terms in the agreement 50% on the six (6) month anniversary of the closing transaction ii) remaining consideration shares are to be released on the nine (9) and twelve (12) month anniversary in equal portions.

The Company has determined that the operations of Fusion represent a business and as such, the acquisition has been accounted for as a business combination. The Company has finalized the purchase price allocation, which was previously reported as provisional, and it has been allocated to the following identified assets and liabilities based on their estimated fair values.

Fair Value of Net Assets acquired on May 3, 2020:

	\$
Accounts receivable	42,013
Inventories	123,648
Prepaid assets	200
Equipment	9,176
Intangible assets	341,000
Goodwill	91,545
Bank indebtedness	(55,070)
Accounts payable and accruals	(149,922)
Royalty agreement liability	(238,520)
Due to shareholder	(30,000)
Deferred tax liability	(90,365)
	<u>43,705</u>
Fair Value of consideration	
Common shares of PlantFuel Life Inc	<u>43,705</u>

Significant assumptions used by the Company in determining the value of Fusion's brand list (intangible asset) included forecasted revenue and operating income and a weighted average cost of capital of 27% which was used as the discount rate given the current financial position of Fusion.

The fair value of receivables acquired of \$42,013 and the full amount of the receivable is expected to be collected. All other items on the balance sheet were deemed to be at fair market value at the date of acquisition. Though the transaction was agreed to at \$3.00 per share, the actual trading value of PlantFuel Life Inc. shares as of the date of acquisition was \$0.90 per share which resulted in the fair value of \$43,705.

11 (b). Acquisition of Fusion Nutrition Inc. (continued)

As part of the acquisition, the Company negotiated a ten-year royalty and licensing agreement with Acenzia Inc. a supplier of Fusion. Fusion had an outstanding liability of \$238,520 with Acenzia. Rather than payout this liability, the Company and Acenzia came to terms on a royalty and licensing agreement whereby Acenzia has the right to sell Fusion products to a select number of countries in the Middle East. Royalty amounts due under the agreement will be applied to the outstanding balance owed at the date of acquisition for three years at which point the Company has the discretion to pay out any outstanding balance or continue to apply royalties due against said sum. Once paid out in full, the Company will receive license and royalty fees to the end of the agreement.

Subsequent to September 30, 2021, management has decided it will no longer devote any resources to operating Fusion Nutrition Inc. This decision resulting in a negative impact on the CGU impairment analysis and judgment was applied in developing the key assumptions. Based on the impairment analysis performed, the Company concluded the recoverable amount of the CGU is less than the carrying value, resulting in a goodwill (\$91,545), intangible asset (\$292,692), and inventory (\$221,785) impairment charge. The Company recorded an impairment expense during the year ended September 30, 2021, of \$606,022 on the consolidated statement of loss and comprehensive loss.

13. CAPITAL MANAGEMENT

The Company considers its capital resources to be the shareholders' equity, comprising share capital, contributed surplus, warrants, and deficit. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, to support the acquisition and development of its cannabis business. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain the future development of the business.

The Company is primarily dependent on external financing to fund its activities. To carry out the planned business development and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended March 31, 2022. The Company is not subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Risk Management

The Company classifies its other financial assets and other financial liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash, trade receivable, accounts payable, and accrued liabilities, due to shareholder, lease liability, royalty liability, and secured loan.

The fair value of cash, trade receivable, accounts payable, and accrued liabilities, due to shareholder, lease liability, royalty payable approximate their book values because of the short-term nature of these instruments. The fair value of the secured loan approximates its carrying value as it is recorded at market rates.

Financial Instrument Risk Exposure

The Company is exposed in varying degrees to a variety of financial instrument-related risks. The Board approves and monitors the risk management processes.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

Interest rate risk

The Company is not exposed to interest rate risk. The Company does not have significant variable interest-bearing assets or liabilities that are tied into market rates.

Currency risk

As the Company operates on an international basis, foreign exchange risk exposures arise from transactions and balances denominated in foreign currencies. The Company's foreign currency risk arises primarily with respect to the United States Dollar. Fluctuations in the exchange rates between the United States Dollar and the Canadian dollar could have a material effect on the Company's business, financial condition, and results of operations. The Company does not engage in any hedging activity to mitigate this risk.

As at March 31, 2022, the Company had the following financial assets and liabilities denominated in foreign currency presented below in Canadian dollars:

	US Dollars
Cash	\$ 408,088
Receivables	\$ 4,986
