

## **New Age Farm Acquires Additional 21,000 ft<sup>2</sup> Greenhouse for its Washington State Cannabis Facility**

**November 29, 2016 - Vancouver, BC**

New Age Farm Inc. (CSE:NFX) (OTC:NWGFF) (FSE:ONF) ([www.newagefarminc.com](http://www.newagefarminc.com)) (“New Age Farm” or the “Company”), is pleased to report that it is acquiring an additional 21,000 square foot greenhouse structure to complement its newly completed 5600 square foot state of the art facility announced November 24, 2016. This new greenhouse structure combines Cravo, Nexus and Hired Hand Green components. Its 14 foot high trusses create an ideal environment for growing large plants and the additional square footage will allow our Tier 3 licensed tenant-grower to increase its capacity to 89% of its canopy growing capabilities. The Company anticipates that the additional grow capacity will be ready for operation within the next 60 days, thereby accelerating our on-site Master Growers current production plan by allowing them to bring additional production online for our Tenant Grower several months sooner than previously planned. New Age Farm’s Master Growers also report that everything is on track to begin on schedule on November 30, 2016 for New Age Farm’s I-502 Tier 3 licensed tenant-grower as previously announced with initial harvest date anticipated 90 days from the start of seed planting.

### ***About New Age Farm***

#### ***Washington State***

Through its Washington State subsidiary, New Age Farm owns two properties, one located in Sumas, WA, and the other in Oroville, WA, where it offers fully built out turnkey service operations to licensed I-502 tenant-growers who will lease the facilities for production and / or processing. With three leases already in place, operations in Washington State have begun and will expand further as the Company completes its build outs. In compliance with state regulatory requirements, New Age Farm’s facilities feature 24 hour security that enhances the safety and security of the community, our tenant-growers and their operations. All New Age Farm’s tenant-growers hold either Tier 2 or Tier 3 licenses allowing them to produce and / or process marijuana for sale at wholesale to marijuana processor licensees and to other marijuana producer licensees. A Tier 3 license allows for between ten thousand square feet and thirty thousand square feet of dedicated plant canopy while Tier 2 licensees can have up to ten thousand square feet of dedicated plant canopy. Revenue is generated on a base lease rate and the level of service that the tenant-grower requires for its production and / or its processing needs.

#### ***About the Washington I-502 Marijuana Market***

Sales of marijuana products in Washington State have for the first time surpassed \$200 million in a quarter. The News Tribune reports residents and visitors bought more marijuana than ever before in the second quarter of 2016, based on an analysis of purchase and tax records from two state agencies. In the first quarter of 2016 January, February and March people spent \$54.8 million more on spirits than marijuana, which includes the cost of the products and its associated taxes. By the second quarter April, May and June that gap closed to nearly \$37 million. Those amounts include taxes levied by the state on those products. Spirits sales do not include wine and beer. Marijuana sales include all cannabis products, but not paraphernalia. Marijuana sales in the second quarter of 2016 amounted to nearly \$212 million.

Spirits sales in the same period amounted to almost \$249 million. In July, the state closed medical marijuana shops, making all sales go through licensed recreational marijuana storefronts. Sales at retail pot shops shot up by \$66.6 million in the third quarter of the year, to \$278.6 million. Washington voters legalized recreational marijuana in 2012. Earlier this month voters in California, Massachusetts and Nevada approved recreational pot. Colorado, Oregon and Alaska have also legalized recreational marijuana.

### ***British Columbia***

Through its wholly-owned subsidiary, NHS Industries Ltd. (“NHS”), New Age owns a five and a half acre greenhouse facility in the lower mainland of BC with a 48,000 square foot greenhouse facility, capable of growing 2.4 million 4” potted plants annually. NHS is in the process of formulating innovative proposals for small scale agricultural facilities for exploring multiple avenues for cash flow processes. The facility is located minutes from three major Canada – USA border crossings and direct routes to the lower mainland west and to all points east and west along 16<sup>th</sup> Ave to Hwy 99 and to Hwy 1 make its location in South Langley an ideal hub. NHS intends to become a beta site for sustainable growing capabilities as well as minimizing all carbon footprints with regard to all its on-site operations. This facility will meet a growing demand in the Metro Vancouver and Fraser Valley areas to help smaller growers become more efficient, more productive, implement value added product lines, and reduce waste.
