## *About New Age Farm*

New Age Farm is an agricultural services company offering unique turnkey growing infrastructure and services for licensed growers and processors of luxury marijuana crops at three agri-campuses in Washington State. New Age Farm’s facilities will offer in excess of 250,000 square feet of canopy growing space to tenant-growers once fully built out.

In November 2012, the Washington State Liquor and Cannabis Board (“WSLCB”) passed Initiative 502 (“I-502”) pursuant to a vote by the people of the State of Washington. I-502 authorized the WSLCB to regulate and tax recreational marijuana products for persons over twenty-one years of age and thereby created a new industry for the growing, processing and selling of Washington State-regulated recreational marijuana products in compliance with state regulatory requirements,

New Age Farm's facilities feature 24 hour security that enhances the safety and security of the community, our tenant-growers and their operations. All New Age Farm's tenant-growers hold either Tier 2 or Tier 3 licenses allowing them to produce and / or process marijuana for sale at wholesale to marijuana processor licensees and to other marijuana producer licensees. A Tier 3 license allows for between ten thousand square feet and thirty thousand square feet of dedicated plant canopy while Tier 2 licensees can have up to ten thousand square feet of dedicated plant canopy. Revenue is generated on a base lease rate and the level of service that the tenant-grower requires for its production and / or its processing needs.

- ✓ By the end of 2016, Washington had over \$1.1 billion in combined recreational and medical marijuana sales for the year, and in October, November and December, it surpassed Colorado in total monthly marijuana sales (ref. Marijuana Business Daily).
- ✓ In 2016, Washington adult use sales increased by 95 percent from just one year earlier.
- ✓ Legal marijuana sales totals in Washington are nipping at the heels of alcohol sales.

New Age Farm is committed helping its tenant-growers achieve greater yield, higher quality and higher value flower from their crop and to building a reputation for providing what I-502 licensees need to achieve superior results. Year-round growing of crops maximizes the revenue potential for New Age Farm and its tenant growers.
