

UPCO INTERNATIONAL INC.

CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in US Dollars)

For the years ended December 31, 2018 and 2017

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Upco International Inc.

Opinion

We have audited the accompanying consolidated financial statements of Upco International Inc. (the “Company”), which comprise the consolidated statements of financial position as at December 31, 2018 and the consolidated statements of loss and comprehensive loss, changes in shareholders’ equity (deficiency) and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2018, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRS”).

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to the consolidated financial statements, which indicates that the Company incurred a net loss of \$2,526,574 during the year ended December 31, 2018, and has a cumulative deficit of \$4,362,431. As stated in Note 1, these events and conditions indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Matters

The consolidated financial statements of Upco International Inc. for the year ended December 31, 2017 were audited by another auditor who expressed an unmodified opinion on those statements on April 13, 2018.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management’s Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Stephen Hawkshaw.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

1. NATURE OF BUSINESS

Upco International Inc. (the "Company") was incorporated under the Business Corporations Act of British Columbia on March 28, 2012. The Company was previously listed on the Canadian Securities Exchange ("CSE") under the trading symbol NSS.

On October 24, 2017, pursuant to a Share Exchange Agreement (the "Share Exchange Agreement"), the Company, completed a share exchange (Note 3) with Upco Systems Inc. ("Upco"), a private company incorporated on August 13, 2014 under the laws of the State of New York, USA. On October 26, 2017, the Company began trading on the Canadian Securities Exchange under the trading symbol UPCO. The transaction was accounted for as an acquisition of NSS by Upco, resulting in a reverse take-over ("RTO"). Immediately following the RTO, the Company changed its name to Upco International Inc. For purposes of these consolidated financial statements, the "Company" is defined as the consolidated entity and includes the historical financial information of Upco up to the date of the RTO.

The Company operates primarily in the telecommunications industries as a global telecom carrier within the international VoIP (voice over IP) wholesale business with a focus on wholesale international long distance traffic termination. The Company is also in the process of developing a VoIP smartphone application, which will allow a customer to send and receive local and international long-distance calls through an internet connection with the advantages of the Company's existing VoIP network (Note 5).

The Company's head and registered office is located at 200 – 17618 58th Avenue, Surrey, British Columbia, Canada, V3S 1L3.

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its obligations in the normal course of operations. These financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future and prior operating results. The Company has incurred losses and its liabilities exceed the value of its financial assets. The Company's ability to continue its operations will depend upon, but not be limited to, obtaining additional financing and generating revenues sufficient to cover its operating costs. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Management is of the opinion that it will be in a position to raise ongoing financing as needed; however, there is no certainty that these and other strategies will be sufficient to permit the Company to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC") applicable to the preparation of financial statements.

The financial statements were approved by the Board of Directors and authorized for issue on April 16, 2019.

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for certain assets and financial instruments that are measured at their fair values, as explained in the significant accounting policies below. Historical cost is based on the fair value of the consideration given in exchange for assets.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Critical accounting estimates and judgments

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Estimates and underlying assumptions are reviewed on an ongoing basis. The preparation of financial statements also requires management to exercise judgment in the process of applying the accounting policies.

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances, as the basis for its estimates and assumptions. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. Actual outcomes may differ from those estimates under different assumptions and conditions.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the allowance for doubtful accounts, fair value measurements for financial instruments and the recoverability and measurement of deferred tax assets.

Key areas requiring judgment and estimation uncertainty include:

Going concern

The evaluation of the Company's ability to continue as a going concern, to raise additional financing in order to cover its operating expenses and its obligations for the upcoming year requires significant judgment based on past experience and other assumptions including the probability that future events are considered reasonable according to the circumstances.

Valuation of deferred income tax assets and liabilities

A deferred tax asset is recognized for unused losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable income will be available against which they can be utilized. Detailed estimates are required in evaluating the probability that deferred tax assets will be utilized. The Company's assessment is based on existing tax laws, estimates of future profitability, and tax planning strategies.

Intangible asset

The Company incurs research and development costs. Judgment is required to determine whether or not there exists sufficient information to demonstrate it is probable that the internally developed asset will give rise to future economic benefits. Management's judgment involves consideration of trends and other factors in determining the expected useful lives of depreciable assets, to determine depreciation methods and the assets residual value. Intangible assets shall be reviewed by management annually to determine if impairment of the asset is required.

Functional currency

Each entity within the Company has its results measured using the primary economic environment in which the entity operates. Judgment is necessary in assessing each entity's functional currency. The Company considers the primary and secondary indicators as part of its decision-making process.

Business combination

Considerable judgment is required to determine whether a set of assets acquired and liabilities assumed constitute a business and may require the Company to make certain judgments, taking into account all facts and circumstances. A business consists of inputs, including non-current assets and processes, including operational processes, than when applied to those inputs have the ability to create outputs and provide a return to the Company and its shareholders.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Critical accounting estimates and judgments (continued)

In business combinations, it generally requires time to obtain the information necessary to identify and measure the following as of the acquisition date:

- (i) The identifiable assets acquired and liabilities assumed;
- (ii) The consideration transferred in exchange for an interest in the acquiree;
- (iii) The resulting goodwill.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete.

During the measurement period, the Company will retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date. During the measurement period, the Company will also recognize additional assets or liabilities if new information is obtained about facts and circumstances that existed as of the acquisition date and, if known, would have resulted in the recognition of those assets and liabilities as of that date. The measurement period ends as soon as the Company receives the information it was seeking about facts and circumstances that existed as of the acquisition date.

Expected Credit Loss ("ECL")

Per the implementation of IFRS 9, bad debts are assessed using the expected credit loss model. This model uses historical balances to calculate a loss rate for current, 31-60, 61-90 and 91+ day periods. This loss rate is then adjusted depending on the respective aged period to produce a loss rate which is representative to the receivables risk in their respected periods. Applying the ECL model to prior year has minimal effect to the presentation of prior year statements and management has determined the amount to be immaterial.

Impairment of Intangible Asset

Management's judgment involves consideration of trends and other factors in determining the expected useful lives of depreciable assets, to determine depreciation methods and the assets residual value. Intangible assets shall be reviewed by management annually to determine if impairment of the asset is required.

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its controlled entity, as follows:

	Jurisdiction of incorporation	Percentage owned	
		December 31, 2018	December 31, 2017
Upco Systems Inc.	New York, USA	100%	100%
Upco Systems SRL	Milan, Italy	100%	-

The financial statements prior to October 24, 2017 the date of the share exchange (note 3) include only the accounts of Upco. Inter-company transactions and balances are eliminated upon consolidation.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Functional and presentation currency

The functional currency of each of the Company's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in US dollars. The parent company, Upco International, functional currency is CAD, Upco System's functional currency is USD and Upco Srl's functional currency is the Euro.

In preparing the consolidated financial statements of the Company, transactions in currencies other than the Company's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items are recognized in profit or loss in the period in which they arise. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in the statement of comprehensive loss in the period in which they arise, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognized in other comprehensive income in to the extent that gains and losses arising on those non-monetary items are also recognized in other comprehensive income. Where the non-monetary gain or loss is recognized in profit or loss, the exchange component is also recognized in profit or loss.

Loss per share

The Company presents basic and diluted loss per share data for its common shares. Basic loss per share is calculated by dividing the income or loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share is determined by dividing the income or loss attributable to common shareholders by the weighted average number of common shares outstanding and for the effects of all dilutive potential common shares, of which there were 6,813,425 for the year ended December 31, 2018.

Revenues

Currently, the Company is operating in one segment – telecommunications wholesale services. The Company's main service is to provide long-distance services through access to its network, which has the capability to track pertinent data for each individual call to a particular country destination. This allows the Company to rate each call by applying predetermined long-distance rates by country to the volume of minutes provided.

The Company enters into reciprocal transactions pursuant to which the Company may purchase minutes to specific destinations at predetermined rates and the counterparty may purchase minutes from the Company to specific destinations at predetermined rates. The Company earns its revenues from access to, and usage of, its telecommunications network by the counterparty, based on these reciprocal transactions. The number of minutes purchased and sold in a reciprocal transaction are not necessary equal. The Company recognizes revenue and related cost of revenue for these reciprocal transactions based on the prices charged for minutes.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues (continued)

To determine the amount and timing of revenue to be recognized, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognizing revenue when/as performance obligation(s) are satisfied.

Revenue is recognized when the counterparties make long-distance calls through the Company's network. Revenues received in advance of the performance obligation is deferred until future periods.

Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Expenditure on research activities is recognized as an expense in the period in which it is incurred. An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- (i) The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (ii) The intention to complete the intangible asset;
- (iii) The ability to use or sell the intangible asset;
- (iv) How the intangible asset will generate probable future economic benefits;
- (v) The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (vi) The ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognized for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognized, development expenditure is recognized in loss in the period in which it is incurred. Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Impairment of long-lived assets

The carrying amount of the Company's long-lived assets (which includes intangible assets) is reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in the statement of comprehensive loss.

The recoverable amount of assets is the greater of an asset's fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax

UPCO INTERNATIONAL INC.

(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of long-lived assets (continued)

discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount, however, not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment.

Income taxes

Income tax expense is comprised of current and deferred taxes. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to a business combination, or items recognized directly in equity or in other comprehensive income. Current tax is the expected tax payable or recoverable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, as well as any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Financial instruments

Financial assets

The Company has adopted new accounting standard IFRS 9 – Financial Instruments, effective January 1, 2018. The new standard sets out requirements for classifying, recognizing and measuring financial assets and financial liabilities. This standard replaces IAS 39 – Financial Instruments: Recognition and Measurement.

IFRS 9 is effective for annual periods beginning on or after January 1, 2018. IFRS 9 allows for an exemption from restating prior periods in respect of the standard's classification and measurement requirements. The Company has chosen to apply this exemption upon initial adoption, although it was determined that the adoption of IFRS 9 had no impact on the comparative period's financial statements.

IFRS 9 establishes three primary measurement categories for financial assets: fair value through profit and loss ("FVTPL"), fair value through other comprehensive income ("FVOCI") and amortized cost. The basis for classification depends on the entity's business model and the contractual cash flow characteristics of the instrument. For financial liabilities, the new standard retains most of the requirements of IAS 39, except that fair

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

value changes due to changes in an entity's own credit risk are recorded in other comprehensive income rather than in net earnings.

Upon adoption of IFRS 9, the Company has changed its accounting policy for financial instruments as follows:

Classification

The Company determines the classification of its financial instruments at initial recognition. Upon initial recognition, a financial asset is classified as measured at: amortized cost, FVTPL, or FVOCI. The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. The adoption of IFRS 9 has not had a significant effect on the Company's accounting policies related to financial liabilities and derivative financial instruments. A financial liability is classified as measured at amortized cost or FVTPL.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

An equity investment that is held for trading is measured at FVTPL. For other equity investments that are not held for trading, the Company may irrevocably elect to designate them as FVOCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has elected to measure them at FVTPL.

The Company completed an assessment of its financial assets and liabilities as at December 31, 2018. The adoption of IFRS 9 has no quantitative impact on the Company's financial instruments as at December 31, 2018.

However, it has an impact on the classification of the Company's financial instruments compared to the old standard IAS 39 as follows:

UPCO INTERNATIONAL INC.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Asset or Liability	Original classification IAS 39	New classification IFRS 9
Cash	FVTPL	FVTPL
Receivables	Loans and receivables	Amortized cost
Trade and other payables	Other liabilities	Amortized cost

Measurement

Initial measurement

On initial recognition, all financial assets and financial liabilities are measured at fair value adjusted for directly attributable transaction costs except for financial assets and liabilities classified as FVTPL, in which case the transaction costs are expensed as incurred.

Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial instruments:

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

Financial assets at amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

Financial assets at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income is calculated using the effective interest rate method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Impairment of financial instruments

The Company assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired.

For financial assets measured at amortized cost, and debt investments at FVOCI, the Company applies the expected credit loss impairment model. On adoption of the expected credit loss model there was no material adjustment.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

The Company assesses all information available, including on a forward-looking basis, the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the asset as the reporting date, with the risk of default as at the date of initial recognition, based on all information available, and reasonable and supportive forward-looking information.

Financial instrument disclosures

The Company provides disclosures that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the date of the statement of financial position, and how the entity manages these risks.

The Company provides information about its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Equipment

Equipment is stated at historical cost less accumulated depreciation and accumulated impairment losses. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the statement of comprehensive loss during the financial period in which they are incurred.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in profit or loss.

Business combination

The Company accounts for a transaction as a business combination when the acquisition of an asset or group of assets constitutes a business and when the Company obtains control of the entity being acquired. Business combinations are accounted for using the acquisition method. In applying the acquisition method, the Company separately records the identifiable assets acquired, the liabilities assumed, and goodwill acquired and any non-controlling interest in the acquired entity.

The Company measures the identifiable assets acquired and the liabilities assumed at their acquisition-date fair values, less any non-controlling interest at fair value. Goodwill is measured as the excess of the fair value of the consideration transferred, less any non-controlling interest in the entity being acquired over the fair value of the net identifiable assets acquired. The consideration transferred in a business combination is measured as the aggregate of the acquisition-date fair values of the assets transferred by the acquirer, the liabilities incurred by the acquirer to former owners of the acquired entity and the equity interests issued by the Company. Acquisition costs in connection with a business combination are expensed as incurred.

(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Stock-based compensation

The Company operates a Stock Option Plan (the “Plan”). Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is recorded to the reserve. The fair value of options is determined using the Black–Scholes Option Pricing Model. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognized for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

New accounting policies adopted

The Company has initially adopted IFRS 15, Revenue from Contracts with Customers (“IFRS 15”) and IFRS 9, Financial Instruments (“IFRS 9”) from January 1, 2018. IFRS 15 sets out the requirements for recognizing revenue that apply to all contracts with customers, except for contracts that are within the scope of the standards on leases, insurance contracts and financial instruments. IFRS 15 uses a control-based approach to recognize revenue which is a change from the risk and reward approach under the previous standard, IAS 18, Revenue. The Company adopted IFRS 15 using the modified retrospective (cumulative effect) method, with the effect of initially applying this standard recognized at January 1, 2018. The adoption of IFRS 15 did not have a significant impact on the Company’s consolidated financial statements and there were no adjustments required to be recognized at January 1, 2018.

IFRS 9 establishes three primary measurement categories for financial assets: fair value through profit and loss (“FVTPL”), fair value through other comprehensive income (“FVOCI”) and amortized cost. The basis for classification depends on the entity’s business model and the contractual cash flow characteristics of the instrument. For financial liabilities, the new standard retains most of the requirements of IAS 39, except that fair value changes due to changes in an entity’s own credit risk are recorded in other comprehensive income rather than in net earnings.

Recent accounting pronouncements

Certain new standards, interpretations, amendments and improvements to existing standards have been issued by the IASB and become applicable at a future date. The standards impacted that may be applicable to the Company are as follows.

IFRS 16 is a new standard that sets out the principles for recognition, measurement, presentation and disclosure of leases, including guidance for both parties to a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases, as is required by IAS 17 Leases, and instead introduces a single lessee accounting model. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. The Company has evaluated that application of this standard will not have a material impact on the results and financial position of the Company.

Certain other accounting pronouncements were issued but the Company anticipates that the application of these standards, amendments and interpretations in future periods will have no material impact on the results and financial position of the Company except for additional disclosures. The Company is assessing the impact of the new or revised IFRS standards on its financial position and financial performance.

3. SHARE EXCHANGE AGREEMENT

On October 24, 2017, in accordance with the Share Exchange Agreement (Note 1), the Company issued 16,500,000 common shares for all of the issued and outstanding shares of Upco.

The transaction resulted in the shareholders of Upco acquiring control of the Company. Therefore, the transaction has been accounted for as an acquisition of the Company by Upco. As the Company does not meet the definition of a business as defined in IFRS 3, it has been accounted for as a share-based payment transaction in accordance with IFRS 2.

The transaction is recognized in substance as if Upco had proceeded to the issuance of the Company's shares and options outstanding before the transaction in exchange for the net assets acquired.

The substance of the issuance of 16,500,000 common shares by the Company was to make Upco a publicly listed company via an RTO. The Company's financial statements subsequent to October 24, 2017, provide the continuation of Upco's activities.

The fair value of the consideration was calculated as follows:

The fair value of the 11,367,501 common shares of the Company was determined to be CAD \$0.06 (approximately \$0.05) per common share based on the fair value on October 24, 2017.

The fair value of the 900,000 stock options of the Company was estimated using the Black-Scholes Option Pricing Model using the following assumptions: risk free rate of 1.70%, expected life of 5 years, volatility of 100% and no expected dividends.

The fair value of the common shares acquired by the shareholders of Upco exceeded the fair value of the net assets of NSS. Because the Company could not specifically identify any goods or services that related to this excess, IFRS 2 requires that the differences is recognized in the determination of net loss as a listing cost.

The following table provides details of the fair value of the consideration given and the fair value of the assets and liabilities acquired:

	Number	Amount
Consideration		
Outstanding common shares of NSS	11,367,501	\$ 538,022
Outstanding stock options of NSS	900,000	<u>35,280</u>
		<u>573,302</u>
Identifiable assets (liabilities) of NSS acquired		
Cash		4,943
Accounts receivable		4,380
Equipment		639
Trade payables and other liabilities		<u>(23,894)</u>
		<u>(13,932)</u>
Listing expense		<u>\$ 587,234</u>

4. RECEIVABLES

	December 31, 2018	December 31, 2017
Other receivables	\$ -	\$ 18,502
Trade receivables (Note 8)	579,102	461,917
	<u>\$ 579,102</u>	<u>\$ 480,419</u>

Trade receivables

The Company has credit evaluation, approval and monitoring processes to assess new customers' credit quality that mitigate potential credit risks. Credit limits are imposed on each customer, which are reviewed annually. The Company measures bad debts using the expected credit loss model which were \$311,055 for the year ended December 31, 2018.

Other receivables

During the year ended December 31, 2018, the Company has recorded \$15,246 (December 31, 2017 - \$55,093) in other receivables which represents receivables expected to be recovered after a period of 1 year subsequent to year end.

5. INTANGIBLE ASSET

The Company previously incurred certain costs related to its development of a smartphone application, which will allow a customer to send and receive local and international long-distance calls through an internet connection with the advantages of the Company's existing VoIP network.

The intangible asset was not ready for use at December 31, 2016, and therefore no amortization had previously been recorded.

The intangible asset was ready for use during the year ended December 31, 2017. At December 31, 2017, management has assessed the intangible asset for recoverability and if there were events or circumstances that indicated the carrying value may not be recoverable. Therefore, the Company recorded an impairment charge of \$351,850 at December 31, 2017.

During the year ended December 31, 2018, the Company released an updated version of its mobile messaging application. As the application was redeveloped the Company capitalized all costs related to it under intangible assets.

	As at December 31, 2017	Additions	Amortization	As at December 31, 2018
Intangible Assets	\$ -	201,984	(20,102)	\$ 181,882

For the years ended December 31, 2018 and 2017

7. LOANS PAYABLE

On October 30, 2016, the Company entered into a loan agreement for \$31,659 (EUR 30,000) with the former CFO of the Company. The loan was interest bearing at a rate of 7.2% per annum, unsecured and repayable on demand. During the year ended December 31, 2017, the Company repaid \$31,659 in principal, a further \$1,222 in interest was recorded and the Company repaid \$2,635 in interest. As at December 31, 2017, the Company had no further amounts owing pursuant to this loan.

On September 1, 2014, the Company entered into a loan agreement for \$250,000 with APICONNECT GmbH (“APICONNECT”), a company owned by the CEO and director of the Company, incorporated under German law. The loan was interest bearing at a rate of 7% per annum, unsecured and repayable by September 1, 2015. During the year ended December 31, 2017, the Company has repaid the principal and interest in full. As at December 31, 2017, the Company had no further amounts owing pursuant to this loan.

8. RELATED PARTY TRANSACTIONS

	December 31, 2018	December 31, 2017
Due from related parties		
Trade receivables	\$ 414,633	\$ -
Due from related party	-	-
Total	\$ 414,633	\$ -

Trade payables	\$ -	\$ 23,116
Accrued liabilities	96,024	133,925
Short-term loans payable (Note 7)	-	-
Total	\$ 96,024	\$ 157,041

During the years ended December 31, 2018 and 2017, the Company entered into the following transactions with related parties:

- (i) Recorded \$131,510 (2017 - \$199,618) in IT and communication fees to a company controlled by an officer and director of the Company.
- (ii) Recorded \$146,920 (2017 - \$88,864) in management fees to an officer and director of the Company.
- (iii) Recorded \$71,060 (2017 - \$54,160) in consulting fees to an officer and director of the Company.
- (iv) Recorded \$87,157 (2017 - \$59,623) in professional fees to a former officer and director of the Company.
- (v) Recorded \$Nil (2017 - \$4,764) in interest expenses for loans made to the Company by a company controlled by a former officer and director of the Company.
- (vi) Recorded \$320,880 (2017 - \$94,722) in stock-based compensation for options granted to directors and officers of the Company.

The Company recorded revenue of \$59,924 (2017 - \$1,093,549) and cost of revenue of \$8,856 (2017 - \$1,117,866), for transactions with a company controlled by an officer and director of the Company.

The Company recorded revenue of \$544,795 (2017 - \$882,764) and cost of revenue of \$208,133 (2017 - \$851,512), for transactions with a company controlled by a major shareholder of the Company.

UPCO INTERNATIONAL INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in US Dollars)
For the years ended December 31, 2018 and 2017

9. ADVANCES PAYABLE

On July 27, 2015, the Company entered into a Joint Venture Agreement (the “Joint Venture”) with COSERFI Srl (“COSERFI”), a company incorporated under Italian law. Pursuant to the Joint Venture, the Company and COSERFI agreed to carry out jointly certain projects on the telecommunications market, developed by the Company. The parties remain independent, irrespective of the performance of joint projects. The Joint Venture had an initial term of 3 years, commencing August 1, 2015.

COSERFI was required to contribute certain investments. In return for the investments, COSERFI was to receive 30% (the “PL-Rate”) of the net profits of the joint projects. The net profits were to be calculated by the Company as the earned gross margin minus certain costs. The PL-Rate would be reduced to 15% in such case that the investment installments are not made on time, which was the case during previous years. Where COSERFI is unable to complete certain projects, the Company would outsource the projects to a third party and COSERFI will be liable to repay such costs.

On November 18, 2016, the Joint Venture was authorized to terminate by mutual consent, pending completion of a successful acquisition of the Company by a public Canadian company or by a new Canadian public company that will get listed on a public stock exchange (the “Corporate Transaction”). The net advances payable to November 18, 2016 of EUR 1,412,970 would be converted into corporate equity effective September 30, 2016.

All further incoming advances will also be converted to equity and COSERFI will no longer have any rights/claims in accordance with the initial Joint Venture agreement and the Company will not have to repay COSERFI any funds.

During the year ended December 31, 2017, the Company completed an RTO, which met the definition of a Corporate Transaction (note 3). Consequently, the Joint Venture Agreement was terminated and the Company issued 16,500,000 common shares at a fair value of \$780,912 (Note 10) in settlement of the advances payable. Accordingly, the Company recorded a gain on settlement of \$797,300.

10. SHARE CAPITAL

Authorized share capital

The Company is authorized to issue an unlimited number of common shares.

As at December 31, 2018, the Company had 21,000,000 common shares held in escrow.

Issued

On October 24, 2017, in accordance with the Share Exchange Agreement (Note 3), the Company issued 16,500,000 common shares for all of the issued and outstanding shares of Upco. Historic share information has been restated to reflect the exchange ratio of 16,500,000 common shares of the Company for 100 shares of Upco.

On October 24, 2017, concurrent with the Share Exchange Agreement (Note 3), the Company issued 2,000,000 common shares at a fair value of \$94,656, as a finder’s fee. The finder’s fee has been recorded in the statements of comprehensive loss. The Company also issued 16,500,000 common shares at a fair value of \$780,912, in settlement of \$1,578,212 in advances payable (Note 9) and a further 142,500 common shares at a fair value of \$6,744, in settlement of \$6,744 in trade payables.

During the year ended December 31, 2018, 2,200,000 stock options were exercised for proceeds of \$130,931. Furthermore, the Company settled \$23,105 in debt through the issuance of 120,000 common shares. During the year ended December 31, 2018, the Company also issued 18,043,155 shares for proceeds of \$2,706,131. In issuing these shares the Company paid a finder’s fee of \$89,414 and issued finder warrants valued at \$25,583 using the Black Scholes Option Pricing Model.

UPCO INTERNATIONAL INC.

10. SHARE CAPITAL (continued)

Reserves

Reserves records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

Stock options

As of October 24, 2017, all former 900,000 options continued to be stock options of the Company. The Company inherited the existing stock option plan set in place by NSS. The plan inherited by the Company allows total number of shares of stock reserved and available for distribution under the Plan shall be a rolling 10% of common stock issued and outstanding of the Company. The number of shares reserved hereunder may consist in whole or in part of authorized and unissued shares or treasury shares. Options under the Plan may be granted to officers, employees, agents and consultants to the Company. Options shall expire five years from the date of grant but may be cancelled after 30 days of the grantee ceasing from providing the agreed upon service.

During the year ended December 31, 2018, the Company granted 4,640,000 stock options with a fair value of \$634,248 (2017 - \$187,000), based on the Black-Scholes Pricing Model, which was recognized as stock-based compensation. The following assumptions were made when valuing the options granted:

	December 31, 2018	December 31, 2017
Risk-free rate	2.25%	1.71%
Expected Life	5 years	5 years
Volatility	100%	73.34%
Expected Dividends	Nil	Nil

A continuity of stock options for the year ended December 31, 2018 is as follows:

Grant Date	Expiry Date	Exercise Price (CAD)	Opening Balance	Granted	Exercised	Forfeited	Closing Balance
July 30, 2014	July 31, 2019	\$ 0.10	200,000	-	200,000	-	-

10. SHARE CAPITAL (continued)

Warrants

During the year ended December 31, 2018, the Company issued 343,425 finder warrants in conjunction with the private placement that was completed during the year which were recognized as a reduction in share capital. The fair value of the finder warrants were calculated based on the Black-Scholes Pricing Model creating an expense of \$25,583. The inputs for the option pricing model are as follows:

	December 31, 2018	December 31, 2017
Risk-free rate	2.25%	Nil
Expected Life	2 years	Nil
Volatility	100%	Nil
Expected Dividends	Nil	Nil

A continuity of finder warrants is as follows:

Grant Date	Expiry Date	Exercise Price (CAD)	Opening Balance	Granted	Exercised	Forfeited	Closing Balance
June 7, 2018	June 8, 2020	\$ 0.25	-	200,625	-	-	200,625
June 29, 2018	June 30, 2020	\$ 0.25	-	142,800	-	-	142,800
		\$ 0.25	-	343,425	-	-	343,425

There were no warrants outstanding as at December 31, 2017, and 2016.

11. COMMITMENT

On August 1, 2015, the Company entered into a carrier cloud agreement (the “Agreement”) with Digitalk Ltd. (“Service Provider”), a company incorporated under United Kingdom laws. The Service Provider provides cloud-based real-time communications platform-as-a-service solutions. Under the terms of the Agreement, which had a fixed lifetime of 13 months and was automatically renewed for a further 12 months, the Company is required to pay a hosting traffic fee to the Service Provider that is calculated based on the total monthly traffic minutes processed with the amount of \$0.0004 per minute. Under the terms of the agreement, the Company has committed to remitting a minimum amount of \$4,300 per month.

During the year ended December 31, 2018, the Italian subsidiary, Upco Srl, entered into a rent agreement agreeing to pay €450 per month. As at December 31, 2018 there were nine months remaining per the rental agreement.

12. CAPITAL MANAGEMENT

The Company's objective in managing capital is to ensure sufficient liquidity to pursue its strategy of organic growth combined with strategic acquisitions, so that it can provide above average returns for its shareholders. The Company defines capital that it manages as the aggregate of its shareholders' equity (deficiency), which consists of issued capital.

The Company manages its capital structure and makes adjustments to it in light of general economic conditions and the risk characteristics of the underlying assets and the Company's working capital requirements. In order to maintain or adjust the capital structure, the Company, upon approval from its Board of Directors, may issue long-term debt, issue shares, repurchase shares through a normal course issuer bid and pay dividends. The Board of Directors reviews and approves any material transactions not in the ordinary course of business that may include various acquisition proposals, as well as capital and operating budgets.

There were no changes in the Company's approach to capital management during the year ended December 31, 2018.

The Company is not subject to any externally imposed capital requirements.

13. CONTINGENCIES

From time to time, the Company has been, and expects to continue to be, subject to legal proceedings and claims in the ordinary course of business. Such claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

During the year ended December 31, 2016, a legal proceeding was filed by the Company for an amount of \$71,699 for services provided during the year ended December 31, 2015. As at December 31, 2017, the balance has not been received and, accordingly, has been written-off from non-current other receivables to bad debt expense in fiscal 2017.

The Company is not aware of any further legal proceedings or claims that it believes will have, individually or in the aggregate, a material adverse effect on the Company's financial condition or results of operations.

14. FINANCIAL RISK MANAGEMENT

Risk management framework:

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors is responsible for developing and monitoring the Company's risk management policies. The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company has exposure to the following risks from its use of financial instruments:

Credit risk

Credit risk is the risk of a loss if a counterparty to a financial instrument fails to meet its contractual obligations. Trade receivables are the most significant financial instrument that is exposed to credit risk.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer.

However, management also considers the demographics of the Company's customer base, including the default risk of the industry, as these factors may have an influence on credit risk.

A credit policy is established under which each new customer is analyzed individually or in groups for creditworthiness and given appropriate credit limits. The Company's review includes agent review, external ratings when available, and in some cases, bank references. Credit limits are established for each customer and these limits are reviewed on an ongoing basis. Customers that fail to meet the Company's creditworthiness benchmark may transact with the Company only on a prepayment basis.

The Company establishes an allowance for doubtful accounts that represents its estimate of uncollectible accounts in respect of trade and other receivables. With the adoption of IFRS 9 the allowance for doubtful accounts is calculated based on an expected credit loss model. This calculated loss is then recorded on the Company's statement of profit or loss.

Credit risk associated with cash and is minimized significantly by ensuring that these financial instruments are placed with major financial institutions. Credit risk associated with trade and other receivables is mitigated by the Company's large and unrelated customer base and the application of its credit evaluation, control and monitoring processes.

14. FINANCIAL RISK MANAGEMENT (continued)

Liquidity risk

Trade liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows and working capital levels. The Company does not currently believe it will encounter difficulty in meeting its obligations associated with its financial liabilities.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows and working capital levels. The following are the contractual maturities of financial liabilities, including estimated interest payments. At December 31, 2018, the Company has cash of \$165,180 to settle current liabilities of \$289,194.

Currency risk

Currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's statements are presented in US dollars, but it regularly transacts in EUR and CAD for a portion of its business activities. The value of financial instruments or cash flows associated with the instruments denominated in US dollars will be affected by changes in the exchange rate fluctuations in the market between the EUR/CAD and US dollar.

An analysis of the US dollar against the EUR was performed as at December 31 of each year based on the Company's currency risk exposure. The results of the analysis resulting in an increase or decrease on the Company's profit or loss and equity is adjusted through Other Comprehensive Income. The Company does not use derivative financial instruments to cover the variability of cash flows in foreign currencies.

The Company's primary interest rate risk consists of interest rate fluctuations, which may affect the Company's note and lease obligations. The Company does not currently use derivative instruments to limit interest rate risks. There has been no change to the Company's exposure to market risks or the manner in which these risks are managed and measured from the prior year.
