GLOBAL CANNABIS PARTNERS WITH CREATOR OF THE
CANN HELP DECK, ADOLFO GONZALES

Vancouver, British Columbia, Canada, June 8, 2017 – Global Cannabis Applications Corp. ("**GCAC**" or the "**Company**") (CSE:APP, FSE:2FA, OTCQB:FUAPF), a leading developer of innovative smartphone applications for the cannabis industry, is pleased to announce it will be partnering with Adolfo Gonzales to incorporate proprietary user research data into its Citizen Green apps.

Adolfo Gonzales will work with GCAC to launch its Citizen Green apps to medical cannabis users in Europe and Australia. Mr. Gonzales' data set will allow GCAC app users to accurately identify medical cannabis products for their needs and provide user feedback for licensed producers, doctors and pharmacists. Additionally, Citizen Green app users can use Mr. Gonzales' data to educate themselves through cannabis-focused searches, and share and collaborate with other users. The data from Mr. Gonzales will provide a unique and accurate online cannabis experience only available to Citizen Green app users.

With more than ten years of data aggregated from working with medical cannabis users, Adolfo Gonzales created the Cann Help Deck due to the lack of recorded patient feedback. The deck incorporates the results of one-to-one patient consulting, product field testing, and patient surveys. The Cann Help Deck is used by medical cannabis practitioners in Canada to provide a superior level of patient care.

Mr. Gonzales is a much sought after practitioner, author and advocate of safe medical cannabis use. He has participated in multiple studies, including a methadone feasibility study working with high risk users to decrease reliance on methadone through the use of cannabis capsules.   His feasibility study on the replacement therapy using cannabis was accepted, peer reviewed and published by the International Association for Cannabinoid Medicines based in Cologne, Germany.

"I have chosen to work with Global Cannabis Applications Corp. because they are focused on creating a true medicinal cannabis experience by utilizing our research data in their apps," states Mr. Gonzales. "Their goal of helping educate everyone from producers, distributors, governments to users is why we created the Cann Help Deck."

About Global Cannabis Applications Corp.
Global Cannabis Applications Corp. is a global leader in designing, developing, marketing, and acquiring innovative mobile applications. Used in over 25 countries, GCAC's apps facilitate the proliferation of digital conversations by like-minded people. Managed by digital industry experts, GCAC is focused on viral global expansion by providing the best user experience in each target market.
