1. Nature and Continuance of Operations

Global Cannabis Applications Corp. (the "Company", "Global Cannabis", or "GCAC") was incorporated on July 14, 2014, under the *Business Corporations Act* (British Columbia). The Company's shares trade on the Canadian Securities Exchange ("CSE") under the trading symbol "APP". The head office of the Company is Suite 830 - 1100 Melville Street, Vancouver, BC V6E 4A6. The registered and records office of the Company is Suite 1500 - 1055 West Georgia Street, Vancouver, BC V6E 4N7. The Company designs and develops data technologies and applications for the medical cannabis industry.

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2022, the Company has not generated significant revenues from operations and has an accumulated deficit of \$20,984,270 (June 30, 2021: \$19,758,311). The continued operations of the Company are dependent on its ability to generate future cash flows from operations or obtain additional financing. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. These adjustments could be material. Management intends to finance operating costs over the next twelve months with private placements of common shares and loans from directors. While management has been successful in obtaining sufficient funding for its operating and capital requirements from the inception of the Company to date, there is no assurance that additional funding will be available to the Company, when required, or on terms which are acceptable to management.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus ("COVID-19"). The Company continues to operate its business at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations, cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in the future.
