# 1. NATURE OF OPERATIONS AND GOING CONCERN

Avanti Gold Corp. ("AGC" or the "Company") is a mineral exploration company working on a gold opportunity in the Democratic Republic of the Congo ("DRC"), located in the Fizi territory of South Kivu Province. The Company was incorporated on May 9, 2014, and on September 14, 2020, the Company changed its name from JDF Explorations Inc. to Valorem Resources Inc. and on April 21, 2023, the Company changed its name to Avanti Gold Corp. The Company is a publicly listed company on the Canadian Stock Exchange ("CSE"), trading under the symbol "AGC" and on the Frankfurt Stock Exchange under the symbol "X37".

The head office and principal address is 2380 – 1055 West Hasting Street, Vancouver, British Columbia, V6E 2E9. The registered and records office of the Company is located at 2380 – 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9.

The continued operations of the Company are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of such properties, and the profitable production from or disposition of such properties.

# **Going Concern Assumption**

These condensed interim consolidated financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company is in the process of exploring its exploration properties and it has not yet determined whether the mineral properties contain reserves that are economically recoverable. As at July 31, 2024, the Company had not advanced any properties to commercial production. During the period ended July 31, 2024, the Company incurred a net loss and comprehensive loss of \$4,656,045 (2023 - \$1,043,751) and, as of that date, had a deficit of \$35,957,957 (April 30, 2024 - \$31,391,577) and working capital deficiency of \$7,565,865 (April 30, 2024 - \$6,973,884). The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These factors form a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. In addition, if the Company is to advance or develop its projects, it will be necessary to obtain additional financing. Although management has been successful in the past in raising capital, there are no assurances that the Company will be successful raising capital in the future. The Company plans to do additional equity raising, when required, in order to obtain funding to meet on-going expenditures.

These consolidated financial statements do not give effect to the adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

# 2. MATERIAL ACCOUNTING POLICIES AND BASIS OF PREPARATION

# Statement of Compliance to International Financial Reporting Standards

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 – Interim Financial Reporting. These condensed interim consolidated financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements for the year ended April 30, 2024, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements have been prepared following the same accounting policies applied to the Company's audited April 30, 2024 consolidated financial statements. As at July 31, 2024, there is no change in the Company's significant account policies, and significant accounting judgements, estimates and assumptions unless otherwise noted.

# 2. MATERIAL ACCOUNTING POLICIES AND BASIS OF PREPARATION

The preparation of the unaudited condensed interim consolidated financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues and expenses. Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

The consolidated financial statements of the Company as at July 31, 2024 were approved and authorized for issue by the Board of Directors on September 27, 2024.

#### **Basis of Measurement**

These consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. In addition, these consolidated financial statements have been prepared on the historical-cost basis, except for certain financial assets and financial liabilities.

#### Basis of Consolidation

These condensed interim consolidated financial statements incorporate the consolidated financial statements of the Company and the entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All intercompany transactions and balances have been eliminated.

The following material companies have been consolidated within these condensed interim consolidated financial statements:

Entity	Country of Incorporation	Voting Control	Functional Currency
Casa Mining Ltd.	Seychelles	99.43%	United States dollar
Regency Mining Ltd.	Seychelles	100%	United States dollar
Leda Mining Congo S.A.	Congo	73.84%	United States dollar
MTM Ltd	Seychelles	100%	United States dollar
1286492 BC Ltd.	Canada	100%	Canadian dollar

# New accounting standards issued but not yet effective

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's condensed interim consolidated financial statements.

# 3. SHARE EXCHANGE AGREEMENT WITH MTM LTD.

On June 21, 2024, the Company entered into a share exchange agreement with MTM Ltd. ("MTM") to acquire 100% of MTM, a privately held arms-length company established under the laws of the Republic of Seychelles. MTM, with a local partner, holds rights to gold prospecting licenses in the Magisterial District of Molopo, South Africa along with cash on hand. The license rights cover an area of approximately 90 hectares ("ha"), located in the highly prospective Kraaipan Granite-Greenstone Belt terrain, which extends 400 kilometers ("km") from southern Botswana into the Northwest Province of South Africa. As consideration, the Company has issued 29,000,000 common shares.

# 3. SHARE EXCHANGE AGREEMENT WITH MTM LTD. (CONTINUED)

The acquisition of MTM does not constitute a business combination because this entity does not meet the definition of a business under IFRS 3 – Business Combination. As a result, the transaction has been measured at the fair value of equity consideration issued to acquire these entities. The fair value of the consideration paid was determined based on the fair value of the assets received as determined based on IFRS 2 – Share Based Payments.

The following table summarizes the consideration paid and the allocation to the assets and liabilities acquired as at the date of acquisition:

Purchase price	\$
29,000,000 common shares	3,770,000
Total consideration paid	3,770,000
Advances from related parties	(63,250)
Liabilities acquired	(63,250)
Net exploration and evaluation expenditures	3,833,250

The fair value of total consideration paid has been determined using level one inputs.

# 5. LOANS PAYABLE

On May 14, 2022, the Company entered into a Loan Agreement (the "Loan Agreement") with K2 Principal Fund L.P (the "Lender"), whereby the Lender advanced \$450,000 (the "Loan") to the Company. The Loan bears interest of 10% per annum, is unsecured and is due on November 15, 2022. During the year ended April 30, 2023, the Company recorded an interest expense of \$21,699 (2022 - \$Nil) and repaid \$250,000 of the principal. On December 22, 2022, the Company issued 764,478 Units with a fair value of \$502,652 and settled \$200,000 of principal and \$21,699 of interest. Each Unit consists of one common share and one share purchase warrant. Each share purchase warrant entitles the holder to purchase one additional common share with an exercise price of \$0.29 and expires two years from the date of issuance. The estimated fair value of the warrants was \$231,262 measured using the Black-Scholes Option Pricing Model with the following assumptions: share price \$0.355; exercise price - \$0.29; expected life - 2 years; volatility – 194%; dividend yield - \$0; and risk-free rate – 3.83%. The Company recorded a loss on loan settlement of \$280,953. As at April 30, 2024 this loan has been fully settled.

During the year ended April 30, 2024, and three months ended July 31, 2024, the Company assumed debt of \$725,000 and \$140,000 respectively owed to a consultant of the Company. The loan is non-interest bearing, unsecured and due on demand.

# 6. DEFERRED CONSIDERATION

The Company's subsidiary, Casa Mining Ltd., entered into a share repurchase agreement with Tremont Master Holdings. The Company repurchased and cancelled all of the 2,271,265 class "A" shares held by Tremont Master Holdings. As consideration, the Company agreed to pay US \$2,000,000 by January 2020. As at July 31, 2024, the Company is in negotiation to settle this balance of \$2,761,800 (US \$2,000,000).

# 13. CAPITAL MANAGEMENT

The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support the acquisition, exploration, and development of resource properties. The aforementioned exploration and evaluation work will require additional financial resources. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the three months ended July 31, 2024 and the year ended April 30, 2024.

# 14. FINANCIAL RISK MANAGEMENT

The Company is exposed to minimal financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

# i. Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts and other receivables. The Company's cash is deposited in a bank account held with a major bank in Canada. As most of the Company's cash is held by a bank there is a concentration of credit risk. This risk is managed by using major banks that are high-quality financial institutions as determined by rating agencies. Management believes that its credit risk is not significant.

# ii. Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. On July 31, 2024, the Company had a cash balance of \$2,322 (April 30, 2024 - \$242,141) to settle current liabilities of \$7,628,067 (April 30, 2024 - \$7,274,673). All the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

# 14. FINANCIAL RISK MANAGEMENT

#### iii. Currency Risk

As at July 31, 2024, a portion of the Company's financial assets and liabilities held in Canadian dollars and United States dollar consist of cash and cash equivalents, accounts payable and accrued liabilities and deferred consideration. The Company's objective in managing its foreign currency risk is to minimize its net exposure to foreign currency cash flows by transacting, to the greatest extent possible, with third parties in the functional currency. The Company is exposed to currency rate risk in other comprehensive loss, relating to foreign subsidiaries which operate in a foreign currency.

As at July 31, 2024, the Company has determined that a 5% change in US dollars against the Canadian dollar on financial assets and liabilities would result in an increase or decrease of approximately \$190,688 for the three months ended July 31, 2024 (July 31, 2023 - \$180,182) to net loss and comprehensive loss.

#### iv. Commodity Price Risk

The Company is subject to price risk from fluctuations in the market prices of commodities as it relates to the possible underlying values of its commodity based mineral properties and the corresponding ability to raise funds for future operations. Management closely monitors commodity prices to determine the appropriate course of action to be taken in its investing and financing activities. As the Company has not yet developed commercial mineral interests, it is not exposed to significant commodity price risk.

#### v. Interest Rate Risk

The Company has a short term non- interest bearing loan. The Company is not currently exposed to significant interest rate risk.

# 15. SUBSEQUENT EVENTS

Subsequent to the quarter ending July 31, 2024, on August 20, 2024, the Company closed the first tranche of its private placement. The Company issued an aggregate of 4,099,000 units at a price of \$0.125 per Unit for aggregate gross proceeds of \$512,375. Each Unit is comprised of one common share in the share capital of the Company and one common share purchase warrant. Each warrant entitles its holder to purchase one additional common share at a price of \$0.20 for a period of 24 months until August 20, 2026. All common shares and warrants issued pursuant to the offering are subject to a hold period of four months plus one day from the date of issuance of the offered securities being December 21, 2024. In connection with the closing of the first tranche of the placement, the Company will pay finders fees of \$8,706 in cash. No finders' securities were issued.

The proceeds of the Private Placement will be used for exploration on the Misisi Gold Project and general working capital purposes.

On September 26, 2024, Avanti announced that it has issued a total of 6,500,000 RSUs to certain directors, officers and consultants of the Company in accordance with the Company's Omnibus Equity Incentive Plan. The RSUs will be subject to certain vesting provisions. Once vested, each RSU represents the right to receive one common share of the Company or the equivalent cash value thereof, at the Company's discretion.
