BIOMARK ANNOUNCES PATENT GRANTED IN CHINA

Vancouver, British Columbia – (October 25th 2017) – BioMark Diagnostics Inc. (“BioMark”) (CSE: BUX); (FSE: 20B); (OTCMKTS:BMKDF) is pleased to announce that its patent titled “A METHOD FOR ASSAYING THE ACTIVITY OF SPERMIDINE/SPERMINE N1-ACETYLTRANSFERASE” has been prosecuted to allowance and issued in China.

Rashid Ahmed, President and CEO, says, “Granting of this patent expands and strengthens our portfolio beyond a single compound thus allowing the company additional freedom to select potentially better signaling candidates. Issuance of the patent in China is important as we accelerate our development in commercializing our technology platform for this prime diagnostic market. In addition, BioMark is now well positioned as far as expiration of its initial patent is concerned”.

About BioMark Diagnostics Inc.

BioMark is developing proprietary, non-invasive, and accurate cancer diagnostic solutions which can help detect, monitor and assess treatment for cancer early and cost effectively. The technology can also be used for measuring response to treatment and potentially for serial monitoring for cancer survivors.

Further information about BioMark is available under its profile on the SEDAR website www.sedar.com and on the CSE website www.thecse.ca.
