1. Nature and Operations and Going Concern

BioMark Diagnostics Inc. ("BioMark Diagnostics" or the "Company") was incorporated on June 19, 2014, under the *Business Corporation Act of British Columbia*. The head office of the Company is 130 - 3851 Shell Rd, Richmond, British Columbia, V6X 2W2. The ultimate parent of BioMark Diagnostics is BioMark Technologies Inc. ("BTI"), which is located at the same address as the Company.

The Company is developing its early-stage cancer diagnostic technology platform. Biomark Diagnostics' cancer diagnostics liquid biopsy leverages "Omics" and machine learning which allows for early cancer detection. BioMark Diagnostics Inc. is currently focused on bringing its cancer diagnostic tests and detection solution to commercialization. The Company is currently listed for trading on the Canadian Securities Exchange under the symbol "BUX", OTC Market under the symbol "BMKDF" and Frankfurt Stock Exchange under the symbol "20B".

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period of time. As at December 31, 2021, the Company had accumulated deficit of \$9,314,644. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. The Company's ability to continue its operations is uncertain and is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors and generating profitable operations in the future.

These consolidated financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a forced liquidation. These consolidated financial statements do not give effect to adjustments that would be necessary to the carrying amounts and classifications of assets and liabilities should the Company be unable to continue as a going concern.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This has impacted the Company in terms of delays in clinical trials, the conduct of additional research, business development, and delays in establishing potential partnerships. It is not possible for the Company to predict the duration or magnitude of the results of the outbreak and its effects on the Company's business or ability to raise funds. Management continues to monitor the situation.

2. Basis of Preparation

Statement of Compliance

These consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. These condensed consolidated interim financial statements should be read in conjunction with the Company's financial statements for the year ended March 31, 2021.

These financial statements are based on the accounting policies consistent with those disclosed in Note 3 to the 2021 annual consolidated financial statements.

Basis of Measurement and Consolidation

The consolidated financial statements have been prepared on a going concern basis and are based on historical costs, except for certain financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below.

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, BioMark Cancer Systems Inc. ("BioMark Cancer"), BioMark Diagnostic Solutions Inc. ("BioMark Diagnostic Solutions") and BioMark Cancer Diagnostics USA Inc. ("BioMark Cancer Diagnostics USA"). BioMark Cancer was incorporated on February 27, 2014, under the *Business Corporation Act of British Columbia*. BioMark Diagnostic Solutions was incorporated on August 17, 2020, under the *Business Corporation Act of Quebec*. BioMark Cancer Diagnostics USA was incorporated on January 2, 2019, in the State of Delaware, United States. All material inter-company balances and transactions have been eliminated upon consolidation.

The consolidated financial statements are presented in Canadian dollars, unless otherwise noted, which is also the functional currency for the Company and its wholly owned subsidiaries.

3. Related Parties Transactions and Balances (Continued)

Additionally, on April 1, 2021, the Company entered into an Independent Contractor Agreement (the "Agreement") with the CEO of the Company. According to the Agreement, the Company shall pay the CEO \$20,000 with applicable tax per calendar month, to be paid monthly or in such other instalments and at such other times as the Consultant and the Company may mutually agree in writing. The Company shall pay all reasonable business and out-of-pocket expenses actually and properly incurred by the CEO from time to time in furtherance of or in connection with the Services including, but not limited to, all reasonable travel and other business expenses. The CEO will be entitled to a cash bonus in the amount of \$250,000 upon the Company achieving a market capitalization of at least \$75 million USD over a period of 30 trading days. According to the Agreement, the Company engaged CEO service to provide important services that include develop and direct the corporate strategy, resource allocation, review acquisitions or partnerships, drive or generate revenue growth, hire, and retain staff as necessary, support in capital raise rounds, manage past relationships and build business and collaborations. The Company has not compensated the CEO with a cash bonus based on these trading price calculations.

4. Long-term Investments

On June 3, 2020, the Company entered into a license agreement with Bio-Stream Diagnostics Inc. ("Bio-Stream") to provide Bio-Stream with the right to use one of its patents registered to the Company for a one-time cash fee of \$10. Bio-Stream was incorporated in the province of Alberta on June 1, 2020 by the Company, Stream - ML Technologies Inc., Merogenomics Inc., and Gamble Technologies Limited. The Company obtained 45% of Bio-Stream's issued and outstanding common shares upon incorporation, and the Company's CEO has been appointed as one of the four directors. In July 2021 Bio-Stream acquired a new technology based on bio-senior platform which will reduce the company's ownership percentage in Bio-Stream to less than 35%. Bio-Stream was formed to focus on developing and providing a low-cost COVID-19 detection solution in less-than-30 seconds.

On July 27, 2020, the Company entered into an agreement to fund operations and project costs of the business with the Government of Canada under the Regional Relief and Recovery Fund (RRRF). The Company was advanced an interest free contribution of \$40,000. No repayments on the advance are due until December 31, 2022. If the Company repays 75% of the advance by December 31, 2022, the remaining 25% of the advance will be forgiven under the terms of the agreement. Repayments of the Contribution can be made at any time at the discretion of the Company. Shall the contribution not be repaid by December 31, 2022, the balance owing will become due in 36 monthly payments commencing January 31, 2023 and ending December 31, 2025. Any amounts owing at December 31, 2025 will become immediately due bearing interest at the average bank rate plus 3%.

December 31, 2021

7. Long-term Loans (Continued)

On August 18, 2020, the Company entered into a loan with a major Canadian bank by way of a Government sponsored COVID-19 relief line of credit under the Canada Emergency Business Account (CEBA). The revolving line of credit is interest free and due on December 31, 2022, up to a maximum of \$60,000. There is no repayment schedule inherent in the agreement outside of the above due date and the line of credit is interest free until December 31, 2022. If the Company repays 75% of the aggregate amount advanced on or before December 31, 2022, the remaining 25% will be forgiven. Any amounts owing subsequent to December 31, 2022, can be extended to December 31, 2025 at an interest rate of 5% per annum. The Company has drawn on the line of credit in full as at March 31, 2021.

Both advances noted above are interest free and are discounted to their fair value at the inception of the loan. The discounted portion is accounted for as other income in the current year. Interest on the loan is charged using the effective interest rate method and recorded as interest accretion.

9. Financial Instruments

The Company classifies its fair value measurements in accordance with an established hierarchy that prioritizes the inputs in valuation techniques used to measure fair value as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs that are not based on observable market data.

No financial assets were measured at fair value in 2021 and 2020.

Credit risk

The Company is not exposed to credit risk.

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company does not hold any financial liabilities with variable interest rates. The Company does maintain bank accounts which earn interest at variable rates but it does not believe it is currently subject to any significant interest rate risk.

Liquidity risk

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

The Company intends to meet its current obligations in the following year with funds to be raised through private placements, the issuance of shares for debt, loans and related party loans. See Note 1.

10. Capital Risk Management

The Company defines its capital as shareholders' equity. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its technologies and to maintain a flexible capital structure for its projects for the benefit of its shareholders. As the Company is in the development stage, its principal source of funds is from the issuance of common shares.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, acquire or dispose of assets or adjust the amount of cash. The Company is not subject to externally imposed capital requirements.

11. Commitments

a) The Company is committed to an Independent Contractor Agreement with the CEO as described in Note 3.
