The Company assumes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or any other reason.

OVERVIEW

P2P Info Inc. (the “Company” or “P2P”) was incorporated on September 29, 2014 under the laws of British Columbia, Canada and maintains its registered office at Suite 800 – 885 West Georgia Street, Vancouver, British Columbia V6C 3H1. The Company was incorporated as a wholly-owned subsidiary of Cascadia Consumer Electronics Corp. (“Cascadia”) for the purposes of a re-organization of Cascadia pursuant to a plan of arrangement (“Plan of Arrangement”) under the Business Corporation Act of British Columbia. The Plan of Arrangement became effective on November 28, 2014, and the Company was spun off from Cascadia. The Company became a reporting issuer in British Columbia, Alberta and Ontario on November 28, 2014. The principal business of the Company is the identification, evaluation and acquisition of business. As at November 28, 2014, the equivalent share price of the Company is $0.02.

On January 29, 2015, the Company incorporated its wholly-owned subsidiary 1026195 BC Ltd. (“1026195”) under the laws of British Columbia.

On January 29, 2015, the Company completed a non-brokered private placement financing by issuing 1,518,000 common shares in the capital of the Company at a price of $0.02 per common share, for aggregate proceeds of $30,360. Management anticipates that the proceeds of the offering will be for working capital.

As at September 29, 2017, the Company settled its previous shareholder loans along with the accrued interest totaled $132,546 to 26,509,182 common shares.

During the nine months ended June 30, 2018, the Company received shareholder loan of $13,000 from a shareholder who is also a director of the Company. The loan was secured by promissory notes, interest bearing at 8% per annum and was due on demand. Subject to regulatory approval, the loan may be converted into common shares at the option of the Company. Total of shareholder loan and accrual interest of it is $13,424 up to June 30, 2018 nine months period end.

DISCUSSION OF OPERATIONS

The Company is currently in the process of exploring different business opportunities.

During the nine months ended June 30, 2018, the Company reported a net loss of $23,521, compared to net loss of $25,251 in correspondence period in 2017. The Company did not generate any revenue from operations. The increase in loss of $1,730 was mainly attributable to:

1. An increase of professional fee in accounting from $3,500 in nine months ended June 30, 2017 to $11,735 in the same period in 2018 due to change of auditor with more expensive accounting fee;
2. A decrease of bank and interest expense from $5,603 in nine months ended June 30, 2017 to $505 in the same period 2018, due to fewer shareholder loan in the Company and therefore less interest expense accrued;
3. A decrease of rent expense from $4,196 in nine months ended June 30 to $476 in the same period 2018, due to the change of the shared rental office agreement after October 31, 2017;
4. An increase of salary expense from $3,206 in nine months ended June 30, 2017 to $4,878 in the same period 2018.

LIQUIDITY AND CAPITAL RESOURCES

During the nine months ended June 30, 2018, the cash balance decreased by $16,222. The Company received $13,000 shareholder loan from a shareholder of the Company in the nine months ended June 30, 2018. The Company used the working capital to pay various general operating expenses during this period. The net effect of the above transactions is the decrease of cash by $16,222.

The Company had a working capital deficit of $26,914 as at June 30, 2018 compared to the working capital deficit of $122,187 as at June 30, 2017.

Going Concern

The Company has incurred losses since its inception and has an accumulated deficit of $240,690 as at June 30, 2018. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, identifying and acquiring businesses or assets, and generating profitable operations in the future, which raises doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements.

CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed interim consolidated financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Significant areas requiring the use of management estimates include the determination of deferred income tax assets and liabilities, and assumptions used in valuing options in share-based compensation calculations and assumptions used in determining the value of the convertible debentures. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next year. A significant use of judgement is the ability of the Company to continue as a going concern.

FINANCIAL INSTRUMENTS

The Company classifies its cash as a financial asset at FVTPL, and its accounts payable as other financial liabilities. The carrying amount of financial liabilities carried at amortized cost is a reasonable approximation of fair value due to the relatively short period to maturity of these financial instruments.

Fair value

The following table summarizes the carrying values of the Company's financial instruments:

	Nine Months Ended June 30, 2018	Nine Months Ended June 30, 2017
	$	$
Financial assets at fair value through profit or loss (i)	**587**	16,809
Financial assets measured at amortized cost (ii)	**480**	530
Financial liabilities measured at amortized cost (iii)	**28,735**	21,405

(i) Cash and cash equivalents

(ii) Accounts receivable and other receivables - excluding GST recoverable

(iii) Accounts payable and loans payable

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of $587 is classified as Level 1. There were no transfers into or out of Level 2 and Level 3 during the period.

Financial risk management

The Company's financial risks arising from its financial instruments are credit risk, liquidity risk, and interest rate risk. The Company's exposure to these risks and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

Currency risk

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and its current exposure to exchange rate fluctuations is minimal. The Company does not have any foreign currency denominated monetary liabilities.

Credit risk

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents. The Company's credit risk with respect to its cash is minimal as it is held with a quality financial institution.

Liquidity risk

Liquidity risk is the risk that the Company will not meet its obligations associated with its financial liabilities as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations. As at June 30, 2018, the Company had a working capital deficit of $26,914. All the Company's financial liabilities are classified as current.

Interest rate risk

The Company has not entered into any derivative instruments to manage interest rate fluctuations. The Company does not have significant interest rate risk.

CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION

Changes in accounting policy

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

Standard effective for annual periods beginning on or after January 1, 2019

IFRS 16 – *Leases* - On January 13, 2016 the IASB issued IFRS 16, "Leases". This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease.

Entities may elect early application of the above standards. The extent of the impact of adoption of these above standards on the consolidated financial statements of the Company has not yet been determined.
