This Prospectus contains certain statements that may constitute forward-looking information under applicable securities laws. All statements, other than those of historical fact, which address activities, events, outcomes, results, developments, performance or achievements that the Company anticipates or expects, may, or will occur in the future (in whole or in part) should be considered forward-looking information. Such information may involve, but is not limited to, comments with respect to strategies, expectations, planned operations and future actions of the Company. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or statements formed in the future tense or indicating that certain actions, events or results "may", "could", "would", "might" or "will" (or other variations of the foregoing) be taken, occur, be achieved, or come to pass. Forward-looking information is based on currently available competitive, financial and economic data and operating plans, strategies or beliefs as of the date of this Prospectus, but involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of the Company, as applicable, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors may be based on information currently available to the Company, including information obtained from third-party industry analysts and other third-party sources, and are based on management's current expectations or beliefs regarding future growth, results of operations, future capital (including the amount, nature and sources of funding thereof) and expenditures. In making the forward looking statements included in this Prospectus, the Company has made various material assumptions, including but not limited to (i) general business and economic conditions; (ii) the Company's ability to successfully execute its plans and intentions; (iii) the availability of financing on reasonable terms; (iv) the Company's ability to attract and retain skilled management and staff, as applicable; (v) market competition; (vi) the market for and potential revenues to be derived from the Company's products; and (vii) the costs, timing and future plans concerning operations of the Company will be consistent with current expectations. Given these risks, uncertainties and assumptions, prospective purchasers of Common Shares should not place undue reliance on these forward-looking statements. Whether actual results, performance or achievements will conform to the Company's expectations and predictions is subject to a number of known and unknown risks, uncertainties, assumptions and other factors, including those listed under "*Risk Factors*", which include:

- the Company has limited operating history, and a history of losses and the Company cannot assure profitability;

If any of these risks or uncertainties materialize, or if assumptions underlying the forward-looking statements prove incorrect, actual results might vary materially from those anticipated in those forward-looking statements. The assumptions referred to above and described in greater detail under "*Risk Factors*" should be considered carefully by readers.

The Company's forward-looking statements are based on the reasonable beliefs, expectations and opinions of management on the date of this Prospectus (or as of the date they are otherwise stated to be made). Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There is no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. We do not undertake to update or revise any forward-looking statements, except as, and to the extent required by, applicable securities laws in Canada.

All of the forward-looking statements contained in this Prospectus are expressly qualified by the foregoing cautionary statements. There are significant risks associated with the business of the Company, as described above and in section "Risk Factors". Readers are strongly encouraged to carefully read all of the risk factors contained in that section.

## **Impact of COVID-19 Pandemic**

Impacts resulting from the COVID-19 pandemic have resulted in a widespread health crisis that has already adversely affected the economies and financial markets of many countries around the world. The international response to the spread of COVID-19 has led to restrictions on travel, temporary business

closures, quarantines, global stock market and financial market volatility, a general reduction in consumer activity, operating, supply chain and project development delays and disruptions; and declining trade, all of which have and could further affect commodity prices, interest rates, credit ratings and credit risk.

The Company is subject to the cycles of the financial markets, which are now magnified and volatile due to the effects of COVID-19. Many industries are impacted by these market conditions and the COVID-19 virus, including, with respect to the consumer packaged goods industry, manufacturing, distribution and sales. The overall severity and duration of COVID-19-related adverse impacts on the Company will depend on future developments, which the Company cannot currently predict, including directives of federal, state and provincial governments and health authorities. See “*Risk Factors*”.

## MARKET AND REGULATORY OVERVIEW

### Market Size and Opportunity

Exposure to toxins has been linked to diseases such as cancer, heart disease, diabetes, Parkinson's disease, and obesity. The Company is dedicated to reducing the level of toxins ingested by people around the world through their personal care and, eventually, home care products.

Toxins are transmitted into the body three ways: inhalation, ingestion or absorption. The Company's Products use ingredients that are at a minimum non-toxic, with the use of as few artificial ingredients as possible.

#### *Industry Generally*

The global consumer packaged goods industry (defined as containing the following categories: beverage, beauty and personal care, consumer health, eyewear, home care, packaged food, pet care, tissue and hygiene, and tobacco) is a highly attractive market given its considerable scale and stable growth profile. This market is estimated by Euromonitor to have been approximately \$6.2 trillion retail sales in 2020, of which the beauty and personal care and home care categories represented \$487 billion and \$167 billion, respectively.<sup>1</sup>

#### *Natural Personal Skincare*

The natural personal care product market had an estimated global value of approximately US\$8.26 billion in 2020, with an anticipated growth rate of 8.42% annually (CAGR) through 2026.<sup>2</sup> This growth has been, and is expected to continue to be, incited by the increasing education of consumers with respect to health related products and the ingredients contained within those products.

More specifically, the research firm Statista has forecasted the Canadian market for skincare products in 2021 to be around US\$1.739 billion and approximately US\$3.54 billion for personal care products generally, with a CAGR, from 2021 to 2025, projected at approximately 4.2% for skincare products and 2.6% for personal care products.<sup>3</sup> Moreover, sales of organic cosmetics in the United States yielded approximately

US\$750 million in revenues in 2016 and are forecasted to reach roughly US\$1.65 billion by 2022.<sup>4</sup>

Anti-aging sentiment and a growing education towards skincare and the negative aspects of everyday toxins is also expected to continue to push demand in the skincare industry. Within the skincare market, it is perceived that non-toxic skincare products are less likely to have negative side-effects relating to allergies, inflammation, and general irritation of the skin.

The fastest growing area of this sector is expected to be haircare. Dandruff, an irritated scalp, dry hair, hair loss and the desire for healthier hair are expected to continue to push sales in this area.<sup>5</sup>

### Green Cleaning Products

The green cleaning products market includes floor cleaners, glass cleaners, metal cleaners, toilet bowl cleaners and wood cleaners. This market had an estimated global value of US\$3.9 billion in 2019, with an anticipated growth rate of 11.9% annually (CAGR), leading to a value of US\$11.9 Billion by 2029.<sup>6</sup> This growth is largely the result of increasing customer awareness with respect to green cleaning products, which has led to further high-quality products within the industry and an expansion of research and development efforts.<sup>7</sup>

brands offering natural skincare and personal care products. Innovation, brand recognition, quality of products, accessibility, price point and in-store presence and visibility are some of the factors that impact consumers' choices among competing products and brands. Marketing, merchandising and new product demonstrations also have an impact on consumers' purchasing decisions. In North America, the Company operates in a highly competitive market, but plans to distinguish itself from competitors through the quality of its product, both in the effectiveness and low-toxic content of its products.

Internationally, our competition varies by market and the Company will develop strategic approaches to entering international markets, including the evaluation of factors in each market, such as competitiveness, pricing dynamics, growth potential, regulatory environment and the propensity of local consumers to be attracted to foreign brands.

## **Regulatory Matters**

### *General*

The Company's goal is to enter the markets of the United States, Canada and Europe, beginning with its non-toxic shampoo products. These products are not expected to require any regulatory approvals from Health Canada, the US Food and Drug Administration or any other regulatory body in order to reach consumers by. Generally, introducing non-toxic products for consumers and household use require little-to-no regulatory approvals. However, there will be various regulatory aspects that the Company must be aware of.

Additionally, the Company is required to adhere to all general regulatory requirements that apply to corporations doing business in the jurisdictions relevant to the Company, including but not limited to tax, labour, and corporate laws. Non-adherence to any such laws could affect the Company from small fines and censures, to major lawsuits and possibly shutdown.

### *Product Claim and Labelling Regulations*

The Company is subject to product claim and labelling regulations. Regulatory authorities monitor compliance of cosmetic products through market surveillance and inspection of cosmetic manufacturers and distributors to ensure, among other things, that the products neither contain false nor misleading product claims or labeling and that the products are not manufactured under unsanitary conditions or in violation of any applicable laws. Inspections also may arise from consumer or competitor complaints filed with or brought to the attention of regulatory authorities. The Company's claims that our products are non-toxic are particularly susceptible to challenges from regulatory bodies and consumers. Contamination at various stages in the supply chain may present a risk of toxic contamination. The Company will maintain policies to protect the products from such contamination to the extent possible. In the event a regulatory authority or a court identifies false or misleading labeling or unsanitary conditions or otherwise a failure to comply with legal requirements, we may be required by a regulatory authority or a court or we may independently decide to conduct a recall or market withdrawal of our Product or to make changes to our manufacturing processes or product formulations, labelling or marketing, which could result in an insufficient amount of our products in the market, impact our sales and/or harm our reputation. Fines or other payments may also be required by a regulator or court.

### *Environmental Regulations*

The Company's operations are subject to a variety of environmental laws and regulations, including such laws and regulations concerning waste disposal and pollution related to manufacturing, transporting and packaging. The Company works with its suppliers to improve the environmental profile of its products via the design of packaging, ingredients and formulas.

The Company is not aware of any environmental laws that will materially affect our results of operations, or result in material expenditures relating to our operations. However, we cannot predict what environmental laws will be enacted in the future, how existing or future environmental laws will be administered, interpreted or enforced, or the amount of future expenditures that we may need to comply with, or to satisfy claims

relating to, environmental laws.

Specific details of the orientation of each new director would be tailored to that director's individual needs and areas of interest.

The Company does provide continuing education opportunities to directors so that they may maintain or enhance their skills and abilities as directors and ensure that their knowledge and understanding of the Company's business remains current.

## Ethical Business Conduct

The Company has not taken any formal steps to promote a culture of ethical business conduct, but the Company and its management are committed to conducting its business in an ethical manner. This is accomplished by management actively doing the following in its administration and conduct of the Company's business:

1. The promotion of integrity and deterrence of wrongdoing.
2. The promotion of honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest.
3. The promotion of avoidance or absence of conflicts of interest.
4. The promotion of full, fair, accurate, timely and understandable disclosure in public communications made by the Company.

Otherwise, the director must have acted honestly and in good faith, the contract or transaction must have been reasonable and fair to the Company and the contract or transaction be approved by the shareholders by a special resolution after receiving full disclosure of its terms in order for the director to avoid such liability or the contract or transaction being invalid.

### **Nomination of Directors**

The Board as a whole is responsible for identifying and evaluating qualified candidates for nomination to the Board.

In identifying candidates, the Board considers the competencies and skills that the Board considers to be necessary for the Board, as a whole, to possess, the competencies and skills that the Board considers each existing director to possess, the competencies and skills each new nominee will bring to the Board and the ability of each new nominee to devote sufficient time and resources to his or her duties as a director.

### **Compensation**

The Board as a whole is responsible for reviewing the adequacy and form of compensation paid to the Company's executives and key employees, and ensuring that such compensation realistically reflects the responsibilities and risks of such positions. In fulfilling these responsibilities, the Board evaluates the performance of the Company's CEO and other senior management in light of corporate goals and objectives, and makes recommendations with respect to compensation levels based on such evaluation.

For further information regarding the how the Company determines compensation for its directors and executive officers, see "*Executive Compensation*".

The Board has no other committees other than the Audit Committee.

### **Assessments**

The Board has not, as of the present time, taken any formal steps to assess whether the Board, its committees and its individual directors are performing effectively.

## **PLAN OF DISTRIBUTION**

There are no securities being offered in connection with this Prospectus. The Company has applied to the CSE for the Listing, but as of the date of this Prospectus the Company has not received conditional approval from the Exchange for such Listing, and there is no assurance that the Exchange will approve the Listing. Listing will be subject to the Company fulfilling all of the listing requirements of the Exchange.

## **RISK FACTORS**

The Company's business is subject to a number of significant risk factors. The following are certain risk factors related to the Company, its business, and ownership of the Common Shares. If any event arising from the risk factors set forth below occurs, the Company's business, prospects, financial conditions, results of operation or cash flows and in some cases, its reputation, could be materially adversely affected. Although the Company believes that the risk factors described below are the most material risks that the Company faces, they are not the only risks the Company faces. Additional risk factors not presently known to the Company or that the Company currently believes are immaterial could also materially and adversely affect the Company's investments, prospects, cash flows, results of operations or financial conditions and negatively affect the value of the Common Shares. An investment in the Company involves a high degree of risk and should be considered speculative. An investment in the Company should only be undertaken by those persons who can afford the total loss of their investment. Readers should carefully consider each of the risks and uncertainties described bellows, as well as all of the other information contained in this Prospectus, including the financial statement and accompanying notes, before investing in the Company.

### **The Company has a limited operating history and no history of earnings.**

The Company has no history of earnings. There is no assurance that the Company will earn profits in the future, or that profitability will be sustained. There is no assurance that future revenues will be sufficient to generate the funds required to continue the Company's business development and investment activities. If the Company does not have sufficient capital to fund its operations, it may be required to reduce its operations or cease operations entirely, in which case, the value of the Common Shares may decline significantly.

### **The Company has negative cash flow from operations and it may never have positive cash flow from operations.**

Since incorporation the Company has had negative cash flow from operating activities. The Company does not expect to have positive cash flow from operating activities for the foreseeable future, if ever, and to the extent that the Company has negative cash flow in any future period, it will need to raise additional funds to cover this short-fall.

### **Insurance and Uninsured Risks**

The Company's business is subject to a number of risks and hazards generally, including adverse environmental conditions, accidents, labour disputes and changes in the regulatory environment. Such occurrences could result in damage to assets, personal injury or death, environmental damage, delays in operations, monetary losses and possible legal liability. The Company may also be unable to maintain insurance to cover these risks at economically feasible premiums. Losses from these events may cause the Company to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

### **Management of Growth**

The Company may be subject to growth-related risks including capacity constraints and pressure on its internal systems and controls. The ability of the Company to manage growth effectively will require it to continue to implement and improve its operational and financial systems and to expand, train and manage its employee base. The inability of the Company to deal with this growth may have a material adverse effect on the Company's business, financial condition, results of operations and prospects.

### **Need for Additional Financing and Possible Effects of Dilution**

The Company may issue equity securities to finance its activities, including future acquisitions. If the Company were to issue additional Common Shares following the financing described in this Prospectus, existing holders of such Common Shares may experience dilution in their holdings. Moreover, when the

Company's intention to issue additional equity securities becomes publicly known, the Company's share price may be adversely affected.

### **Litigation**

The Company may become party to litigation from time to time in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company such a decision could adversely affect the Company's ability to continue operating and the market price for Common Shares and could use significant resources. Even if the Company is involved in litigation and wins, litigation can redirect significant company resources.

### **Governmental Regulations and Risks**

Government approvals and permits may in the future be required in connection with the Company's operations. To the extent such approvals are required and not obtained, the Company may be curtailed or prohibited from conducting its business. Failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions thereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, or remedial actions. The Company may be required to compensate those suffering loss or damage by reason of its operations and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations. Changes to current laws and regulations may be unfavorable and have an adverse effect on the Company's operations.

### **Competition**

The Company will likely face intense competition from other companies, some of which have longer operating histories and more financial resources and marketing experience than the Company. Increased competition by larger and better-financed competitors could materially and adversely affect the proposed business, financial condition and results of operations of the Company. The Company expects to face additional competition from new entrants. To remain competitive, the Company will require a continued investment in research and development, and technology to be able to compete on costs and functionality. The Company may not have sufficient resources to maintain marketing, sales and patient support efforts on a competitive basis which could materially and adversely affect the business, financial condition and results of operations of the Company.

### **Liability for Actions of Employees, Contractors and Consultants**

The Company could be liable for fraudulent or illegal activity by its employees, contractors and consultants resulting in significant financial losses to claims against the Company.

The Company is exposed to the risk that its employees, independent contractors and consultants may engage in fraudulent or other illegal activity. Misconduct by these parties could include intentional, reckless and/or negligent conduct or disclosure of unauthorized activities to the Company that violates: (i) government regulations; (ii) manufacturing standards; (iii) fraud and abuse laws and regulations; or (iv) laws that require the true, complete and accurate reporting of financial information or data. It is not always possible for the Company to identify and deter misconduct by its employees and other third parties, and the precautions taken by the Company to detect and prevent this activity may not be effective in controlling unknown or unmanaged risks or losses or in protecting the Company from governmental investigations or other actions or lawsuits stemming from a failure to comply with such laws or regulations. If any such actions are instituted against the Company, and it is not successful in defending itself or asserting its rights, those actions could have a significant impact on its business, including the imposition of civil, criminal and administrative penalties, damages, monetary fines, contractual damages, reputational harm, diminished profits and future earnings, the curtailment of the Company's operations or asset seizures, any of which could have a material adverse effect on the Company's business, financial condition and results of operations.

## **Breach of Confidentiality**

While discussing potential business relationships or other transactions with third parties, the Company may disclose confidential information relating to the business, operations or affairs of the Company. Although confidentiality agreements are to be signed by third parties prior to the disclosure of any confidential information, a breach of such confidentiality agreements could put the Company at competitive risk and may cause significant damage to its business. The harm to the Company's business from a breach of confidentiality cannot presently be quantified but may be material and may not be compensable in damages. There can be no assurance that, in the event of a breach of confidentiality, the Company will be able to obtain equitable remedies, such as injunctive relief from a court of competent jurisdiction in a timely manner, if at all, in order to prevent or mitigate any damage to its business that such a breach of confidentiality may cause.

## **Inability to Protect Intellectual Property**

The Company's success is heavily dependent upon its intangible property and technology. The Company relies upon copyrights, patents, trade secrets, unpatented proprietary know-how and continuing innovation to protect the intangible property, technology and information that are considered important to the development of the business. The Company relies on various methods to protect its proprietary rights, including confidentiality agreements with consultants, service providers and management that contain terms and conditions prohibiting unauthorized use and disclosure of confidential information. However, despite efforts to protect intangible property rights, unauthorized parties may attempt to copy or replicate intangible property, technology or processes. There can be no assurances that the steps taken by the Company to protect its intangible property, technology and information will be adequate to prevent misappropriation or independent third-party development of the Company's intangible property, technology or processes. It is likely that other companies can duplicate a production process similar to the Company's. To the extent that any of the above would occur, revenue could be negatively affected, and in the future, the Company may have to litigate to enforce its intangible property rights, which could result in substantial costs and divert management's attention and other resources.

The Company's ability to successfully implement its business plan depends in part on its ability to obtain, maintain and build brand recognition using its trademarks, service marks, trade dress, domain names and other intellectual property rights, including the Company's names and logos. If the Company's efforts to protect its intellectual property are unsuccessful or inadequate, or if any third party misappropriates or infringes on its intellectual property, the value of its brands may be harmed, which could have a material adverse effect on the Company's business and might prevent its brands from achieving or maintaining market acceptance.

The Company may be unable to obtain registrations for its intellectual property rights for various reasons, including refusal by regulatory authorities to register trademarks or other intellectual property protections, prior registrations of which it is not aware, or it may encounter claims from prior users of similar intellectual property in areas where it operates or intends to conduct operations. This could harm its image, brand or competitive position and cause the Company to incur significant penalties and costs.

## **Innovation and Ability to Attract New Customers**

In the area of innovation, the Company must be able to develop new products that appeal to its customers. This depends, in part, on the technological and creative skills of its personnel and on its ability to protect its intellectual property rights. The Company may not be successful in the development, introduction, marketing, and sourcing of new products, that satisfy customer needs, achieve market acceptance, or generate satisfactory financial returns

## **Development of the Business of the Company**

The development of the business of the Company and its ability to execute on its expansion opportunities described herein will depend, in part, upon the amount of additional financing available. Failure to obtain

sufficient financing may result in delaying, scaling back, eliminating or indefinitely postponing expansion opportunities and the business of the Company's current or future operations. There can be no assurance that additional capital or other types of financing will be available if needed or that, if available, the terms of such financing will be acceptable to the Company. In addition, there can be no assurance that future financing can be obtained without substantial dilution to existing shareholders.

### **Financial Projections**

The financial projections contained in this Prospectus reflect management's best estimate to anticipated financial results. Actual results may differ from projected results.

### **Conflicts of Interest**

Members of the Board of the Company may become directors of other reporting companies or have significant shareholdings in other resource companies and, to the extent that such other companies may participate in ventures in which the Company may participate, the Board may have a conflict of interest in negotiating and concluding terms respecting the extent of such participation. The Company and its Board will attempt to minimize such conflicts. In the event that such a conflict of interest arises at a meeting of the Board, a director who has such a conflict will abstain from voting for or against the approval of such participation or such terms. In appropriate cases the Company will establish a special committee of independent directors to review a matter in which several directors, or management, may have a conflict. Conflicts, if any, will be subject to the procedures and remedies as provided under the BCBCA. The provisions of the BCBCA require a director or officer of a corporation who has a material interest in a contract or listing of the corporation, or a director or officer of a corporation who is a director or officer of or has a material interest in a person who has a material interest in a contract or listing with the corporation, to disclose his or her interest and, in the case of directors, to refrain from voting on any matter in respect of such contract unless permitted under the BCBCA, as the case may be. Other than as indicated, the Company has no other procedures or mechanisms to deal with conflicts of interest.

### **COVID-19**

The Company's business, operations, and financial condition, and the market price of the Common Shares (following the Listing), could be materially and adversely affected by the outbreak of epidemics or pandemics or other health crises, including the recent outbreak of COVID-19. To date, there have been a large number of temporary business closures, quarantines, and a general reduction in consumer activity in a number of countries. The outbreak has caused companies and various international jurisdictions to impose travel, gathering and other public health restrictions. While these effects are expected to be temporary, the duration of the various disruptions to businesses locally and internationally and the related financial impact cannot be reasonably estimated at this time. Similarly, the Company cannot estimate whether or to what extent this outbreak and the potential financial impact may extend to countries outside of those currently impacted. Such public health crises can result in volatility and disruptions in the supply and demand for cosmetics, global supply chains and financial markets, as well as declining trade and market sentiment and reduced mobility of people, all of which could affect commodity prices, interest rates, credit ratings, credit risk, share prices and inflation. The risks to the Company of such public health crises also include risks to employee health and safety, a slowdown or temporary suspension of operations in geographic locations impacted by an outbreak, increased labor and fuel costs, regulatory changes, political or economic instabilities or civil unrest. At this point, the extent to which COVID-19 will or may impact the Company is uncertain and these factors are beyond the Company's control; however, it is possible that COVID-19 may have a material adverse effect on the Company's business, results of operations, and financial condition and the market price of the Common Shares (following the Listing).

### **Foreign Currency Risk**

The Company may be impacted by currency exchange rates involved with its intended expansion into the United States and the European Union. The Company's financings are usually in Canadian dollars, but it may incur costs or receive revenues in a variety of foreign currencies. Fluctuations in the exchange rate between these foreign currencies and Canadian dollars may adversely affect the Company's operations.

## **CERTAIN FEDERAL INCOME TAX CONSIDERATIONS**

The Company encourages each security holder to consult with its own tax or professional advisor to understand the tax considerations generally applicable with purchasing or owning Common Shares.

## INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Pure to Pure Beauty Inc. (formerly P2P Info Inc.)

### Opinion

We have audited the accompanying financial statements of Pure to Pure Beauty Inc. (formerly P2P Info Inc.) (the "Company"), which comprise the statements of financial position as at September 30, 2021 and 2020, and the statements of loss and comprehensive loss, changes in shareholders' equity (deficiency) and cash flows for the years ended September 30, 2021 and 2020, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2021 and 2020, and its financial performance and its cash flows for the years ended September 30, 2021 and 2020 in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

### Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Material Uncertainty Related to Going Concern

We draw attention to Note 1 of the financial statements, which indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Other Information

Management is responsible for the other information. The other information comprises the information, other than the financial statements and our auditors' report thereon, in the Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Dong H. Shim.

**1. NATURE OF BUSINESS AND GOING CONCERN**

Pure to Pure Beauty Inc. (formerly P2P Info Inc.) (the "Company" or "P2P") was incorporated on September 29, 2014 under the laws of British Columbia, Canada. Its registered office is located at 2200 HSBC Building 885 West Georgia Street, Vancouver, British Columbia V6C 3E8. The Company was incorporated as a wholly-owned subsidiary of Cascadia Blockchain Group Corp. ("Cascadia") for the purposes of a re-organization of Cascadia pursuant to a plan of arrangement ("Plan of Arrangement ") under the Business Corporation Act of British Columbia. The Plan of Arrangement became effective on November 28, 2014. The Company became a reporting issuer in British Columbia, Alberta and Ontario on November 28, 2014. The principal business of the Company is the development and sale of consumer product goods under its Pure to Pure brand.

On May 10, 2021, the Company changed its name to Pure to Pure Beauty Inc.

**Going concern**

These financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period. As at September 30, 2021, the Company has incurred losses since its inception and has an accumulated deficit of \$350,887 (2020 - \$290,298). The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, identifying and acquiring businesses or assets, and generating profitable operations in the future, which raises significant doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

In March 2020, the World Health Organization declared a global pandemic known as COVID-19. This is causing significant financial market and social dislocation. This has also resulted in significant economic uncertainty and consequently, it is difficult to reliably measure the potential impact of this uncertainty on the Company's future financial results.

**2. BASIS OF PREPARATION**

**Statement of compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by International Accounting Standards Board ("IASB").

**Basis of measurement**

These financial statements have been prepared on a historical cost basis except for certain financial instruments that are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**Functional and presentation currency**

The presentation and functional currency of the Company is the Canadian dollar.

**FOR THE YEARS ENDED SEPTEMBER 30, 2021 AND 2020**  
*(Expressed in Canadian dollars)*

---

**3. SIGNIFICANT ACCOUNTING POLICIES**

**Use of estimates and judgements**

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. A significant area requiring the use of management estimates is the amount to be recognized on deferred income taxes and liabilities. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next fiscal year. The more significant area where management judgement has been applied is the ability of the Company to continue as a going concern.

**Intangible assets**

The Company's intangible assets consist of trademarks, trade secrets, know-how, and domain names (Note 5). Infinite life intangible assets are recorded at cost less accumulated impairment losses. Finite life intangible assets are recorded at cost and are amortized once they are in use on a straight-line basis over their estimated useful lives as follows:

Category	Useful life
Trademarks, trade secrets, know-how, and domain names	10 years

At the end of each reporting period, the Company assesses whether there has been any indication that an asset may be impaired. If an impairment indicator exists, the recoverable amount is determined and compared to the carrying amount of the asset or the CGU to which the asset relates. If the recoverable amount is lower, any difference between the carrying amount and the recoverable amount is written off to profit or loss as an impairment charge.

**Financial instruments**

(i) Financial assets - Classification

The Company classifies its financial assets in the following categories:

- Those to be measured subsequently at fair value (either through Other Comprehensive Income ("FVOCI"), or through profit or loss ("FVTPL"), and
- Those to be measured at amortized cost.

*(Expressed in Canadian dollars)*

---

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

(i) Financial assets - Classification (continued)

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses are either recorded in profit or loss or other comprehensive income.

(ii) Financial assets - Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss. Financial assets are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement of financial assets depends on their classification. There are three measurement categories under which the Company classifies its financial instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included as finance income using the effective interest rate method.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income ("OCI"), except for the recognition of impairment gains and losses, interest revenue, and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains (losses). Interest income from these financial assets is included as finance income using the effective interest method. The Company has not designated any financial assets at FVOCI.
- FVTPL: Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on an investment that is subsequently measured at FVTPL is recognized in profit or loss and presented net as revenue in the Statement of Loss and Comprehensive Loss in the period in which it arises. The Company has classified its cash as FVTPL.

(iii) Financial liabilities

The Company classifies its financial liabilities into the following categories:

- FVTPL; and
- Amortized cost.

A financial liability is classified as at FVTPL if it is classified as held-for-trading or is designated as such on initial recognition. Directly attributable transaction costs are recognized in profit or loss as incurred. The fair value changes to financial liabilities at FVTPL are presented as follows:

**PURE TO PURE BEAUTY INC. (formerly P2P INFO INC.)**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED SEPTEMBER 30, 2021 AND 2020**  
*(Expressed in Canadian dollars)*

---

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

(iii) Financial liabilities (continued)

- the amount of change in the fair value that is attributable to changes in the credit risk of the liability is presented in OCI; and
- the remaining amount of the change in the fair value is presented in profit or loss. The Company has not designated any financial liabilities at FVTPL.

Other non-derivative financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method. The Company has classified its accounts payable and accrued liabilities, shareholder loan and due to related parties as amortized cost.

**Impairment**

(i) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred income tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets (the "cash-generating unit").

An impairment loss is recognized if the carrying amount of a cash-generating unit exceeds its estimated recoverable amount. The recoverable amount of an asset or a cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the assets. Impairment losses are recognized in net income (loss).

Impairment losses recognized in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss has been recognized.

(ii) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Impairment** (continued)

(ii) Financial assets (continued)

The Company recognizes loss allowances for expected credit losses ("ECLs") on its financial assets measured at amortized cost. Due to the nature of its financial assets, the Company measures loss allowances at an amount equal to expected lifetime ECLs. Lifetime ECLs are the anticipated ECLs that result from all possible default events over the expected life of a financial asset. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the related financial asset. The Company does not have any financial assets that contain a financing component.

**Provisions**

Provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all the economic benefits required to settle, a provision is expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount receivable can be measured reliably.

**Share capital**

The Company records proceeds from the issuance of its common shares as equity. Incremental costs directly attributable to the issue of new common shares are shown in equity as a deduction, net of tax, from the proceeds. Common shares issued for consideration other than cash are valued based on their market value at the date that the shares are issued.

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the most easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

**Financing costs**

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise, they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are charged to earnings.

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Loss per share**

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

**Income taxes**

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the statement of financial position date, and includes any adjustment to tax payable or receivable in respect of previous years.

Deferred taxes are recorded using the liability method whereby deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the end of each reporting period. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affect neither accounting nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**Changes in accounting policies including initial adoption**

The Company has not yet adopted certain standards, interpretations to existing standards and amendments which have been issued but have an effective date later than October 1, 2020. These updates are not currently relevant to the Company or are not expected to have a material impact on the financial statements and are therefore not discussed herein.

**9. FINANCIAL INSTRUMENTS**

**Classification and fair value**

The Company's financial instruments consist of cash, amounts receivable - excluding GST recoverable, accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories.

The following table summarized the carrying values of the Company's financial instruments:

	<b>September 30, 2021</b>	September 30, 2020
	\$	\$
Financial assets at fair value through profit or loss (i)	<b>521,117</b>	541
Financial assets measured at amortized cost (ii)	<b>6,482</b>	-
Financial liabilities measured at amortized cost (iii)	<b>104,565</b>	77,741

(i) Cash

(ii) Amounts receivable excluding GST recoverable

(iii) Accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$521,117 is classified as Level 1. The Company does not have any financial assets classified as Level 2 or 3.

The fair value of accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable approximate their book values because of the short-term nature of these instruments.

**Financial risk management**

The Company's financial risks arising from its financial instruments are currency risk, credit risk, liquidity risk, and interest rate risk. The Company's exposure to these risks and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

*Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and its current exposure to exchange rate fluctuations is minimal. The Company does not have any foreign currency denominated monetary assets or liabilities.

*Credit risk*

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The Company does not have any significant credit risk. Cash is held in a major financial institution.

*Liquidity risk*

Liquidity risk is the risk that the Company will not meet its obligations associated with its financial liabilities as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations. As at September 30, 2021, the Company had a working capital of \$500,078 (2020 – working capital deficit of \$76,522). As a result, the Company is not subject to any significant liquidity risk.

*Interest rate risk*

The Company has no interest-bearing debt. The Company has not entered into any derivative instruments to manage interest rate fluctuations. The Company does not have significant interest rate risk.

**10. CAPITAL MANAGEMENT**

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The capital of the Company includes all the accounts in the shareholders' equity (deficiency).

The Company's objective is met by retaining adequate equity to provide for the possibility that cash flows from assets will not be sufficient to meet future cash flow requirements. The Board of Directors does not establish quantitative return on capital criteria for management. Currently, the Company is relying on private placements and advances from the directors and officers to continue its operations. The Company is not subject to any externally imposed capital requirements.

## INDEPENDENT AUDITOR'S REPORT

To the Shareholders of P2P Info Inc.

### Opinion

We have audited the accompanying consolidated financial statements of P2P Info Inc. (the “Company”), which comprise the consolidated statement of financial position as at September 30, 2020, and the consolidated statements of comprehensive loss, changes in shareholders’ deficiency and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at September 30, 2020, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”).

### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Matter

The consolidated financial statements of the Company as at, and for the year ended September 30, 2019 were audited by another auditor who expressed an unmodified opinion on those statements on January 28, 2020.

### Material Uncertainty Related to Going Concern

We draw attention to Note 1 of the consolidated financial statements, which indicates that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Other Information

Management is responsible for the other information. The other information comprises the information included in the Management’s Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the consolidated financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Dong H. Shim.

The Plan of Arrangement became effective on November 28, 2014. The Company became a reporting issuer in British Columbia, Alberta and Ontario on November 28, 2014. The principal business of the Company is the identification, evaluation and acquisition of a business.

The Company is currently in the process of developing and finalizing its intended business operations.

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period. The Company has incurred losses since its inception and has an accumulated deficit of \$290,298 as at September 30, 2020. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, identifying and acquiring businesses or assets, and generating profitable operations in the future, which raises significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Statement of compliance**

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by International Accounting Standards Board ("IASB").

**Basis of consolidation**

These consolidated financial statements incorporate the financial statements of the Company and its wholly-owned subsidiary, 1026195 B.C. Ltd. until January 21, 2019, when the subsidiary was dissolved. All inter-company transactions, balances, income and expenses have been eliminated.

**Basis of measurement**

These consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments that are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**Functional and presentation currency**

The presentation and functional currency of the Company and its subsidiary is the Canadian dollar.

**2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Use of estimates and judgements**

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. A significant area requiring the use of management estimates is the amount to be recognized on deferred income taxes and liabilities. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next fiscal year. The more significant area where management judgement has been applied is the ability of the Company to continue as a going concern.

**Financial instruments**

(i) Financial assets - Classification

The Company classifies its financial assets in the following categories:

- Those to be measured subsequently at fair value (either through Other Comprehensive Income ("FVOCI"), or through profit or loss ("FVTPL"), and
- Those to be measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses are either recorded in profit or loss or other comprehensive income.

(ii) Financial assets - Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss. Financial assets are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**Financial instruments (continued)**

(ii) Financial assets – Measurement (continued)

Subsequent measurement of financial assets depends on their classification. There are three measurement categories under which the Company classifies its financial instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included as finance income using the effective interest rate method.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income ("OCI"), except for the recognition of impairment gains and losses, interest revenue, and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains (losses). Interest income from these financial assets is included as finance income using the effective interest method. The Company has not designated any financial assets at FVOCI.
- **FVTPL:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on an investment that is subsequently measured at FVTPL is recognized in profit or loss and presented net as revenue in the Statement of Loss and Comprehensive Loss in the period in which it arises. The Company has classified its cash as FVTPL.

(iii) Financial liabilities

The Company classifies its financial liabilities into the following categories:

- FVTPL; and
- Amortized cost.

A financial liability is classified as at FVTPL if it is classified as held-for-trading or is designated as such on initial recognition. Directly attributable transaction costs are recognized in profit or loss as incurred. The fair value changes to financial liabilities at FVTPL are presented as follows:

- the amount of change in the fair value that is attributable to changes in the credit risk of the liability is presented in OCI; and
- the remaining amount of the change in the fair value is presented in profit or loss. The Company has not designated any financial liabilities at FVTPL.

Other non-derivative financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method. The Company has classified its accounts payable and shareholder loan as amortized cost.

**2. SIGNIFICANT ACCOUNTING POLICIES** (continued)

**Impairment**

(i) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred income tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets (the "cash-generating unit").

An impairment loss is recognized if the carrying amount of a cash-generating unit exceeds its estimated recoverable amount. The recoverable amount of an asset or a cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cost flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the assets. Impairment losses are recognized in net income (loss).

Impairment losses recognized in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss has been recognized.

(i) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

The Company recognizes loss allowances for expected credit losses ("ECLs") on its financial assets measured at amortized cost. Due to the nature of its financial assets, the Company measures loss allowances at an amount equal to expected lifetime ECLs. Lifetime ECLs are the anticipated ECLs that result from all possible default events over the expected life of a financial asset. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the related financial asset. The Company does not have any financial assets that contain a financing component.

**2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Provisions**

Provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the consolidated statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all the economic benefits required to settle, a provision is expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount receivable can be measured reliably.

**Share capital**

The Company records proceeds from the issuance of its common shares as equity. Incremental costs directly attributable to the issue of new common shares are shown in equity as a deduction, net of tax, from the proceeds. Common shares issued for consideration other than cash are valued based on their market value at the date that the shares are issued.

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the most easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

**Financing costs**

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise, they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are charged to earnings.

**Loss per share**

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

**Income taxes**

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the consolidated statement of financial position date, and includes any adjustment to tax payable or receivable in respect of previous years.

Deferred taxes are recorded using the liability method whereby deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

**FOR YEARS ENDED SEPTEMBER 30, 2020 AND 2019**

**2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Income taxes (continued)**

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the end of each reporting period. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affect neither accounting nor taxable profit nor loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**Changes in accounting policies including initial adoption**

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below:

*Standards effective for annual periods beginning on or after January 1, 2019*

The Company adopted these standards on October 1, 2019.

IFRS 16 - *Leases* - On January 13, 2016 the IASB issued IFRS 16, "Leases". This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease.

The Company does not have any leases or lease-like agreements, and the adoption of this standard had not impact on the financial statements.

**3. SHARE CAPITAL**

**Authorized:**

The Company has authorized an unlimited number of common and preferred shares with no par value.

**Issued and outstanding:**

There was no change in share capital for the years ended September 30, 2020 and 2019.

**6. FINANCIAL INSTRUMENTS**

**Classification and fair value**

The Company's financial instruments consist of cash, other receivables - excluding GST recoverable, accounts payable and shareholder loan. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

The following table summarized the carrying values of the Company's financial instruments:

	2020	2019
	\$	\$
Financial assets at fair value through profit or loss (i)	541	222
Financial liabilities measured at amortized cost (ii)	77,741	60,076

(i) Cash and cash equivalents

(ii) Accounts payable and shareholder loan

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$541 is classified as Level 1. There were no transfers into or out of Level 2 or 3 during the year ended September 30, 2020.

The fair value of accounts payable and shareholder loan approximate their book values because of the short-term nature of these instruments.

**Financial risk management**

The Company's financial risks arising from its financial instruments are credit risk, liquidity risk, and interest rate risk. The Company's exposure to these risks and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

*Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and its current exposure to exchange rate fluctuations is minimal. The Company does not have any foreign currency denominated monetary assets or liabilities.

**Financial risk management (continued)**

*Credit risk*

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The Company does not have any significant credit risk.

*Liquidity risk*

Liquidity risk is the risk that the Company will not meet its obligations associated with its financial liabilities as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations. As at September 30, 2020, the Company had a working capital deficit of \$76,522 (2019 - \$58,972). All the Company's financial liabilities are classified as current.

**7. CAPITAL MANAGEMENT**

The Company's objective when managing capital is to safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits for other stakeholders. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The capital of the Company includes all the accounts in the shareholders' deficiency.

The Company's objective is met by retaining adequate equity to provide for the possibility that cash flows from assets will not be sufficient to meet future cash flow requirements. The Board of Directors does not establish quantitative return on capital criteria for management. Currently, the Company is relying on private placements and advances from the directors and officers to continue its operations. The Company is not subject to any externally imposed capital requirements.

**8. SUBSEQUENT EVENT**

In November 2020, the Company settled all amounts due to a shareholder in the amount of \$61,015 (Note 4) and amounts due to a former officer and a former director of the Company in the amount of \$16,447, for an aggregate settlement amount of \$77,462, for a total consideration of \$75,000 of which \$37,500 is payable in cash or shares at the discretion of the creditors and \$37,500 is payable in cash or shares at the Company's discretion. **1. NATURE OF BUSINESS AND GOING CONCERN**

Pure to Pure Beauty Inc. (formerly P2P Info Inc.) (the "Company" or "P2P") was incorporated on September 29, 2014 under the laws of British Columbia, Canada. Its registered office is located at 2200 HSBC Building 885 West Georgia Street, Vancouver, British Columbia V6C 3E8. The Company was incorporated as a wholly-owned subsidiary of Cascadia Blockchain Group Corp. ("Cascadia") for the purposes of a re-organization of Cascadia pursuant to a plan of arrangement ("Plan of Arrangement ") under the Business Corporation Act of British Columbia. The Plan of Arrangement became effective on November 28, 2014. The Company became a reporting issuer in British Columbia, Alberta and Ontario on November 28, 2014. The principal business of the Company is the development and sale of consumer product goods under its Pure to Pure brand.

On May 10, 2021, the Company changed its name to Pure to Pure Beauty Inc.

**Going concern**

These financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period. As at December 31, 2021, the Company has incurred losses since its inception and has an accumulated deficit of \$407,425. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, identifying and acquiring businesses or assets, and generating profitable operations in the future, which raises significant doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

In March 2020, the World Health Organization declared a global pandemic known as COVID-19. This is causing significant financial market and social dislocation. This has also resulted in significant economic uncertainty and consequently, it is difficult to reliably measure the potential impact of this uncertainty on the Company's future financial results.

**2. BASIS OF PREPARATION**

**Statement of compliance**

The interim financial statements of the Company have been prepared in accordance with International Accounting Standards ("IAS") 34, 'Interim Financial Reporting' using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

**Basis of measurement**

These financial statements have been prepared on a historical cost basis except for certain financial instruments that are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**Functional and presentation currency**

The presentation and functional currency of the Company is the Canadian dollar.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**Use of estimates and judgements**

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. A significant area requiring the use of management estimates is the amount to be recognized on deferred income taxes and liabilities. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next fiscal year. The more significant area where management judgement has been applied is the ability of the Company to continue as a going concern.

**Intangible assets**

The Company's intangible assets consist of trademarks, trade secrets, know-how, and domain names (Note 5). Infinite life intangible assets are recorded at cost less accumulated impairment losses. Finite life intangible assets are recorded at cost and are amortized once they are in use on a straight-line basis over their estimated useful lives as follows:

Category	Useful life
Trademarks, trade secrets, know-how, and domain names	10 years

At the end of each reporting period, the Company assesses whether there has been any indication that an asset may be impaired. If an impairment indicator exists, the recoverable amount is determined and compared to the carrying amount of the asset or the CGU to which the asset relates. If the recoverable amount is lower, any difference between the carrying amount and the recoverable amount is written off to profit or loss as an impairment charge.

**Financial instruments**

(i) Financial assets - Classification

The Company classifies its financial assets in the following categories:

- Those to be measured subsequently at fair value (either through Other Comprehensive Income ("FVOCI"), or through profit or loss ("FVTPL"), and
- Those to be measured at amortized cost.

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

(i) Financial assets - Classification (continued)

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses are either recorded in profit or loss or other comprehensive income.

(ii) Financial assets - Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss. Financial assets are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement of financial assets depends on their classification. There are three measurement categories under which the Company classifies its financial instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included as finance income using the effective interest rate method.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income ("OCI"), except for the recognition of impairment gains and losses, interest revenue, and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains (losses). Interest income from these financial assets is included as finance income using the effective interest method. The Company has not designated any financial assets at FVOCI.
- **FVTPL:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on an investment that is subsequently measured at FVTPL is recognized in profit or loss and presented net as revenue in the Statement of Loss and Comprehensive Loss in the period in which it arises. The Company has classified its cash as FVTPL.

(iii) Financial liabilities

The Company classifies its financial liabilities into the following categories:

- FVTPL; and
- Amortized cost.

A financial liability is classified as at FVTPL if it is classified as held-for-trading or is designated as such on initial recognition. Directly attributable transaction costs are recognized in profit or loss as incurred. The fair value changes to financial liabilities at FVTPL are presented as follows:

**PURE TO PURE BEAUTY INC.**  
**(formerly P2P INFO INC.)**

**FOR THREE MONTHS ENDED DECEMBER 31, 2021 AND 2020**  
*(Expressed in Canadian dollars)*

---

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Financial instruments (continued)**

(iii) Financial liabilities (continued)

- the amount of change in the fair value that is attributable to changes in the credit risk of the liability is presented in OCI; and
- the remaining amount of the change in the fair value is presented in profit or loss. The Company has not designated any financial liabilities at FVTPL.

Other non-derivative financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method. The Company has classified its accounts payable and accrued liabilities, shareholder loan and due to related parties as amortized cost.

**Impairment**

(i) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred income tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets (the "cash-generating unit").

An impairment loss is recognized if the carrying amount of a cash-generating unit exceeds its estimated recoverable amount. The recoverable amount of an asset or a cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the assets. Impairment losses are recognized in net income (loss).

Impairment losses recognized in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss has been recognized.

(ii) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Impairment** (continued)

(ii) Financial assets (continued)

The Company recognizes loss allowances for expected credit losses ("ECLs") on its financial assets measured at amortized cost. Due to the nature of its financial assets, the Company measures loss allowances at an amount equal to expected lifetime ECLs. Lifetime ECLs are the anticipated ECLs that result from all possible default events over the expected life of a financial asset. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the related financial asset. The Company does not have any financial assets that contain a financing component.

**Provisions**

Provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all the economic benefits required to settle, a provision is expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount receivable can be measured reliably.

**Share capital**

The Company records proceeds from the issuance of its common shares as equity. Incremental costs directly attributable to the issue of new common shares are shown in equity as a deduction, net of tax, from the proceeds. Common shares issued for consideration other than cash are valued based on their market value at the date that the shares are issued.

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the most easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

**Financing costs**

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise, they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are charged to earnings.

**3. SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Loss per share**

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti dilutive.

**Income taxes**

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the statement of financial position date, and includes any adjustment to tax payable or receivable in respect of previous years.

Deferred taxes are recorded using the liability method whereby deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the end of each reporting period. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affect neither accounting nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**Changes in accounting policies including initial adoption**

The Company has not yet adopted certain standards, interpretations to existing standards and amendments which have been issued but have an effective date later than October 1, 2020. These updates are not currently relevant to the Company or are not expected to have a material impact on the financial statements and are therefore not discussed herein.

**9. FINANCIAL INSTRUMENTS**

**Classification and fair value**

The Company's financial instruments consist of cash, other receivables - excluding GST recoverable, accounts payable and shareholder loan. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

The following table summarized the carrying values of the Company's financial instruments:

	<b>December 31,2021</b>	September 30,2021
	\$	\$
Financial assets at fair value through profit or loss (i)	<b>493,631</b>	521,117
Financial assets measured at amortized cost (ii)	-	6,482
Financial liabilities measured at amortized cost (ii)	<b>128,061</b>	104,565

(i) Cash and cash equivalents

(ii) Amounts receivable excluding GST recoverable

(iii) Accounts payable and shareholder loan

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$493,631 is classified as Level 1. There were no transfers into or out of Level 2 or 3 during the three months ended December 31, 2021.

The fair value of accounts payable and shareholder loan approximate their book values because of the short-term nature of these instruments.

**Financial risk management**

The Company's financial risks arising from its financial instruments are credit risk, liquidity risk, and interest rate risk. The Company's exposure to these risks and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

*Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and its current exposure to exchange rate fluctuations is minimal. The Company does not have any foreign currency denominated monetary assets or liabilities.

**9. FINANCIAL INSTRUMENTS (continued)**

**Financial risk management (continued)**

*Credit risk*

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The Company does not have any significant credit risk.

*Liquidity risk*

Liquidity risk is the risk that the Company will not meet its obligations associated with its financial liabilities as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations. As at December 31, 2021, the Company had a working capital of \$444,790 (September 30, 2021 - \$500,078). All the Company's financial liabilities are classified as current.

*Interest rate risk*

The Company has no interest-bearing debt. The Company has not entered into any derivative instruments to manage interest rate fluctuations. The Company does not have significant interest rate risk.

**10. CAPITAL MANAGEMENT**

The Company's objective when managing capital is to safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits for other stakeholders. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The capital of the Company includes all the accounts in the shareholders' deficiency.

The Company's objective is met by retaining adequate equity to provide for the possibility that cash flows from assets will not be sufficient to meet future cash flow requirements. The Board of Directors does not establish quantitative return on capital criteria for management. Currently, the Company is relying on private placements and advances from the directors and officers to continue its operations. The Company is not subject to any externally imposed capital requirements.

## CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Significant areas requiring the use of management estimates include the determination of deferred income tax assets and liabilities, assumptions used in valuing options in share-based compensation calculations and assumptions used in determining the value of the convertible debentures. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next year. A significant use of judgement is the ability of the Company to continue as a going concern.

## FINANCIAL INSTRUMENTS

### Classification and fair value

The Company's financial instruments consist of cash, amounts receivable - excluding GST recoverable, accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

The following table summarized the carrying values of the Company's financial instruments:

	<b>September 30, 2021</b>	September 30, 2020
Financial assets at fair value through profit or loss (i)	<b>\$ 521,117</b>	\$ 541
Financial assets measured at amortized cost (ii)	<b>6,482</b>	-
Financial liabilities measured at amortized cost (iii)	<b>104,565</b>	77,741

(i) Cash

(ii) Amounts receivable excluding GST recoverable

(iii) Accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$521,117 is classified as Level 1. The Company does not have any financial assets classification as Level 2 or 3.

The fair value of accounts payable and accrued liabilities, shareholder loan, due to related parties and note payable approximate their book values because of the short-term nature of these instruments.

## DISCUSSION OF OPERATIONS

The Company is currently in the process of exploring different business opportunities and did not generate any revenue for the operations.

### Three months ended September 30, 2020 compared to three months ended September 30, 2019

During the three months ended September 30, 2020, the Company reported a net income of \$3,813, compared to net loss of \$2,997 for the three months ended September 30, 2019. The decrease in loss of \$6,810 was mainly due to the following:

1. An decrease of \$3,562 in bank and interest charge from \$704 during the three months ended September 30, 2019 to a recovery of \$2,858 for the three months ended September 30, 2020. The decrease is due to the reversal of interest accruals for the current year on a shareholder loan (see notes for Related Party Transactions).
2. A decrease in listing and transfer agent expenses of \$307 from \$1,230 for the three months ended September 30, 2019 to \$923 for the three months ended September 30, 2020.

3. A decrease in salaries and benefits of \$213 from \$1,063 for the three months ended September 30, 2019 to \$850 for the three months ended September 30, 2020.
4. A gain on settlement of debt of \$3,162 for the three months ended September 30, 2020 compared to \$Nil for the three months ended September 30, 2019. The gain for the current period is due to the settlement of a shareholder loan subsequent to year end (see notes for Related Party Transactions).
5. The above decreases were partially set off by an increase of \$435 in professional fees from \$nil for the three months ended September 30, 2019 to \$435 during the three months ended September 30, 2020. The increase is due to the Company evaluating a change in management.

Year ended September 30, 2020 compared to year ended September 30, 2019

During the year ended September 30, 2020, the Company reported a net loss of \$17,550, compared to net loss of \$25,801 for year ended September 30, 2019. The decrease in loss of \$8,251 was mainly attributable to:

1. A decrease of \$2,333 in bank and interest charge from \$2,430 during the year ended September 30, 2019 to \$97 for the year ended September 30, 2020. The decrease is due to no interest accrued on a shareholder loan (see notes for Related Party Transactions).
2. A decrease of \$7,164 in professional fees from \$13,771 for the year ended September 30, 2019 to \$6,601 for the year ended September 30, 2020. The decrease is due to a reduction in audit fees and lower legal expenses throughout the year. Higher legal expenses in the prior year were due to the Company exploring potential qualifying transactions.
3. A gain on settlement of debt of \$3,162 in the current year, due to an agreement to repay a fixed amount for a shareholder loan, whereby only the principal is repayable. (see notes for Related Party Transactions).

These decreases in expenses and gains were partially set-off by the following increases in expenses:

4. An increase of \$3,054 in listing and transfer agent expenses from \$6,191 for the year ended September 30, 2019 to \$9,245 for the year ended September 30, 2020. The increase was due to higher charges by the transfer agent and for printing and mailing materials regarding the Company's AGM.
5. An increase in salaries and benefits of \$1,456 from \$3,307 for the year ended September 30, 2019 to \$4,763 for the year ended September 30, 2020.

### CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Significant areas requiring the use of management estimates include the determination of deferred income tax assets and liabilities, assumptions used in valuing options in share-based compensation calculations and assumptions used in determining the value of the convertible debentures. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next year. A significant use of judgement is the ability of the Company to continue as a going concern.

## FINANCIAL INSTRUMENTS

### Classification and fair value

The Company's financial instruments consist of cash, other receivables – excluding GST recoverable, accounts payable and shareholder loan. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

The following table summarized the carrying values of the Company's financial instruments:

	2020	2019
	\$	\$
Financial assets at fair value through profit or loss (i)	541	222
Financial assets measured at amortized cost (ii)	-	-
Financial liabilities measured at amortized cost (iii)	77,741	60,076

(i) Cash and cash equivalents

(ii) Other receivables - excluding GST recoverable

(iii) Accounts payable and shareholder loan

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$541 is classified as Level 1. There were no transfers into or out of Level 2 or 3 during the year ended September 30, 2020.

The fair value of other receivables – excluding GST recoverable, accounts payable and shareholder loan approximate their book values because of the short-term nature of these instruments.

### Financial risk management

The Company's financial risks arising from its financial instruments are credit risk, liquidity risk, and interest rate risk. The Company's exposure to these risks and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

#### *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and its current exposure to exchange rate fluctuations is minimal. The Company does not have any foreign currency denominated monetary assets or liabilities.

#### *Credit risk*

Credit risk is the risk of potential loss to the Company if the counter party to a financial instrument fails to meet its contractual obligations. The Company does not have any significant credit risk.

## **CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION**

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below:

### *Standards effective for annual periods beginning on or after January 1, 2019*

The Company adopted these standards on October 1, 2019.

**IFRS 16 - Leases** - On January 13, 2016 the IASB issued IFRS 16, "Leases". This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease.

The Company does not have any leases or lease-like agreements, and the adoption of this standard had not impact on the financial statements.

## CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Significant areas requiring the use of management estimates include the determination of deferred income tax assets and liabilities, assumptions used in valuing options in share-based compensation calculations and assumptions used in determining the value of the convertible debentures. Actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting judgements are accounting policies that have been identified as being complex or involve subjective judgments or assessments with a significant risk of material adjustment in the next year. A significant use of judgement is the ability of the Company to continue as a going concern.

## FINANCIAL INSTRUMENTS

### Classification and fair value

The Company's financial instruments consist of cash, amounts receivable - excluding GST recoverable, accounts payable and accrued liabilities, and due to related parties. Financial instruments are classified into one of the following categories: FVTPL, FVTOC, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

The following table summarized the carrying values of the Company's financial instruments:

	December 31, 2021	September 30, 2021
Financial assets at fair value through profit or loss (i)	\$ 493,631	\$ 521,117
Financial assets measured at amortized cost (ii)	-	6,482
Financial liabilities measured at amortized cost (ii)	128,061	104,565

(i) Cash

(ii) Amounts receivable excluding GST recoverable

(iii) Accounts payable and accrued liabilities, shareholder loan and due to related parties

Financial instruments measured at fair value on a recurring basis are classified into one of three levels in the fair value hierarchy based on the degree to which the inputs used to determine the fair value are observable. The three levels of the fair value hierarchy are:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable input).

Cash of \$493,631 is classified as Level 1.

There were no transfers into or out of Level 2 or 3 during the three months ended December 31, 2021.

The fair value of accounts payable and accrued liabilities, shareholder loan and due to related parties approximate their book values because of the short-term nature of these instruments.
