Vancouver, BC – February 12, 2019 – Global Li-Ion Graphite Corp. (the “**Company**”) is pleased to announce that further to its news release dated February 8, 2019, it has closed a non-brokered private placement (the “**Offering**”), generating gross proceeds of \$609,600.00 by issuance of 6,096,000 units (each a “**Unit**”) at a price of \$0.10 per Unit. Each Unit consists of one common share and one common share purchase warrant (a “**Warrant**”). Each Warrant entitles the holder to purchase one common share for a period of two years at a price of \$0.25.

In addition, the Company settled outstanding debt with a related party for \$31,250 by issuance of 312,500 Units.

The securities issued under the Offering and debt settlement will be subject to a hold period of four months and one day from the closing date of the Private Placement, in accordance with applicable securities regulations.

The issuance of the Units in the debt settlement transaction and a portion of the Offering constitute Related Party Transactions within the meaning of Multilateral Instrument 61-101, as a director of the Company and two entities who share a mutual director as the Company will receive an aggregate of 1,568,500 Units. All the directors of the Company without a material interest in the debt settlement, acting in good faith, considered the debt settlement and have determined that the value of the consideration to be received by the Company for the Units is fair and reasonable. The Company is relying on exemptions from the formal valuation and minority approval requirements of MI 61-101 contained in sections 5.5(a) and 5.7(1)(a) of MI 61-101 as the fair market value of the debt settlement insofar as it involves Related Parties, does not exceed 25 per cent of the market capitalization of the Company. Additionally, no new Insider nor new Control Person will be created as a result of either the debt conversion transaction or the private placement Offering.
