NOTICE TO SHAREHOLDERS

The accompanying unaudited condensed consolidated interim financial statements of Canna-V-Cell Sciences Inc. (formerly Midnight Star Ventures Corp.) for the three and six months ended October 31, 2019 have been prepared by management in accordance with International Financial Reporting Standards applicable to consolidated interim financial statements (Note 2). Recognizing that the Company is responsible for both the integrity and objectivity of the unaudited condensed consolidated interim financial statements, management is satisfied that these unaudited condensed consolidated interim financial statements have been fairly presented.

Under National Instrument 51-102, part 4, sub-section 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The Company's independent auditor has not performed a review of these unaudited condensed consolidated interim financial statements in accordance with standards established by the Institute of Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

Notes to Condensed Consolidated Interim Financial Statements

For the Three and Six Months Ended October 31, 2019 and 2018

(U.S. dollars in thousands, except per share data)

1. General

Canna-V-Cell Sciences Inc. (formerly Midnight Star Ventures Corp. (“Midnight Star”) (the “Company” or “CannaVCell”, or collectively with its subsidiaries, the “Group”) was incorporated under the Business Corporations Act of British Columbia on April 19, 2013.

On September 27, 2018, the Company completed a qualifying transaction (the Transaction”) with Bio Harvest Ltd. (“BioHarvest”), a company incorporated in Israel, and BioHarvest’s 100% wholly owned subsidiary, Dolarin Ltd. (“Dolarin”), a corporation incorporated in the Israel (“Business Combination Agreement”). The Company issued 48,337,496 shares to BioHarvest in consideration for 100% of the issued share capital of Dolarin (1,000,000 shares). As a result of the Transaction, Dolarin became a wholly-owned subsidiary of the Company. Completion of the Transaction resulted in a Reverse Takeover and change of business for the Company (the “RTO”). BioHarvest is the ultimate parent of the Group.

Following the completion of the Transaction, Midnight Star Ventures Corp. changed its name to Canna-V-Cell Sciences Inc. Subsequent to the Transaction, the Company’s principal business is to develop and produce cannabis active ingredients based on biopharming technology. The Company obtained final approval for the Transaction from the Exchange on October 2, 2018 and is traded on the Canadian Securities Exchange under the symbol “CNVC”.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on December 30, 2019.

A. Licensing and Service Agreement

On April 19, 2018, BioHarvest and Dolarin entered into a license agreement, which has an effective date of the closing of the Transaction (“License Agreement”). Pursuant to the license agreement Dolarin acquired certain worldwide, non-transferable, Sales-based royalty bearing license in perpetuity from BioHarvest for the use of BioHarvest’s biotechnology for the production and sale of cannabis products for the medical and recreational markets (the “License”).

Dolarin acquired the licenses for the following consideration:

- a) The issuance of 900,000 common shares of Dolarin to BioHarvest.
- b) The payment of \$160 in 16 equal monthly payments of \$10 commencing on the effective date.
- c) The payment to BioHarvest of a milestone payment comprising \$840 upon the commencement of construction of the first manufacturing facility for relevant licensed product.

On April 19, 2018, BioHarvest and Dolarin also entered into a services agreement with an effective date of the closing of the Transaction (“Service Agreement”). Pursuant to the Service Agreement, Dolarin contracted BioHarvest to perform certain limited research, development and commercialization of BioHarvest’s technology in the field of cannabis including the equipment, materials, facilities and personnel.

B. Going Concern

These financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary, should the Company be unable to continue as a going concern, and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying condensed consolidated interim financial statements. Such adjustments could be material. It is not possible to predict whether the Company will be able to raise adequate financing or to ultimately attain profit levels of operations. These conditions indicate the existence of material uncertainties that may cause significant doubt about the Company’s ability to continue as a going concern. Changes in future conditions could require material write downs of the carrying values. The Company has yet to have any revenues and has incurred losses to date resulting in a cumulative deficit of \$5,794 as at October 31, 2019. The recoverability of the carrying value of the assets and the Company’s continued existence is dependent upon the achievement of profitable operations. While management has been historically successful in raising the necessary capital, it cannot provide assurance that it will be able to execute its business strategy or be successful in future financing activities.

Canna-V-Cell Sciences Inc. (Formerly Midnight Star Ventures Corp.)

Notes to Condensed Consolidated Interim Financial Statements

For the Three and Six Months Ended October 31, 2019 and 2018

(U.S. dollars in thousands, except per share data)

2. Basis of Preparation

Statement of Compliance

The Company prepares its unaudited condensed consolidated interim financial statements in accordance with International Financial Reporting Standards (“IFRS”) using the accounting policies described herein as issued by International Accounting Standards Board (“IASB”) and International Financial Reporting Interpretations Committee (“IFRIC”) interpretations. The unaudited condensed consolidated interim financial statements are in compliance with IAS 34. Accordingly, certain information and note disclosures normally included in the annual consolidated financial statements prepared in accordance with IFRS have been omitted or condensed.

Basis of Presentation

The financial statements have been prepared on a historical cost basis except for certain financial assets measured at fair value. All dollar amounts presented are in Canadian dollars unless otherwise specified.

Foreign currencies

These condensed consolidated interim financial statements are presented in United States dollars. The functional currency of the Company and its subsidiary is the United States dollar.

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its directly owned 100% subsidiary, Dolarin.

All inter-company balances, and transactions, have been eliminated upon consolidation.

Significant accounting judgments and estimates

Determining the fair value of share-based payment transactions

The fair value of share-based payment transactions is determined upon initial recognition by an acceptable option pricing model. The inputs to the model include share price, exercise price, assumptions regarding expected volatility, expected life of share option and expected dividend yield.

Fair value of derivative financial instruments

Management assesses the fair value of the Company’s financial derivatives in accordance with the accounting policies in the consolidated financial statements. Fair value of the warrant liability has been measured using the Black-Scholes model, taking into account the terms and conditions upon which the warrants are granted. These calculations require the use of estimates and assumptions. Changes in assumptions concerning volatilities, interest rates, foreign exchange rates, and expected life could have a significant impact on the fair value attributed to the Company’s financial derivatives.

Income Taxes

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

Canna-V-Cell Sciences Inc. (Formerly Midnight Star Ventures Corp.)

Notes to Condensed Consolidated Interim Financial Statements

For the Three and Six Months Ended October 31, 2019 and 2018

(U.S. dollars in thousands, except per share data)

2. Basis of Preparation (continued)

Significant accounting judgments and estimates(continued)

Business Combination

In a business combination, substantially all identifiable assets, liabilities and contingent liabilities acquired are recorded at the date of acquisition at their respective fair values. One of the most significant areas of judgment and estimation relates to the determination of the fair value of these assets and liabilities, including the fair value of contingent consideration, if applicable. If any intangible assets are identified, depending on the type of intangible asset and the complexity of determining its fair value, an independent external valuation expert may develop the fair value, using appropriate valuation techniques, which are generally based on a forecast of the total expected future net cash flows. These valuations are linked closely to the assumptions made by management regarding the future performance of the assets concerned and any changes in the discount rate applied. In certain circumstances where estimates have been made, the Company may obtain third-party valuations of certain assets, which could result in further refinement of the fair-value allocation of certain purchase prices and accounting adjustments.

Amortization of intangible assets

Amortization of intangible assets are dependent upon estimates of useful lives, which are determined through the exercise of judgment and market comparable information.

Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditures are capitalized, information becomes available suggesting that the recovery of expenditures is unlikely, the amounts capitalized are written off to net income in the period the new information becomes available.

3. Critical accounting estimates and judgements:

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses.

4. License:

As part of the License Agreement, Dolarin issued 900,000 common shares to BioHarvest to consummate the License Agreement. The fair value of the shares issued was determined by reference to the 49,867,707 shares issued by The Company to BioHarvest to acquire Dolarin. Accordingly, the fair value of the shares issued is \$4,234.

As the company considers it is probable that it will reach the milestone and construct the factory, it recorded a liability for the Milestone payment. The company currently does not consider the royalty stream probable and therefore did not recognize a liability for future streams.

As Dolarin assumed an amount payable of \$590 to BioHarvest to recognize the periodic payments pursuant to the agreement, the fair value of the License Agreement has been computed by the total consideration transferred which is \$4,757.

Canna-V-Cell Sciences Inc. (Formerly Midnight Star Ventures Corp.)**Notes to Condensed Consolidated Interim Financial Statements****For the Three and Six Months Ended October 31, 2019 and 2018****(U.S. dollars in thousands, except per share data)****5. Derivative liability - Warrants:**

A summary of changes in share purchase warrants for the six months period ending October 31, 2019 is presented below:

	Number	Weighted Average Exercise Price
Balance, April 30, 2019	20,890,148	\$ 0.17
Issued during the period (Note 6)	6,666,667	0.23
Balance, October 31, 2019	27,556,815	\$ 18.45

The following table summarizes information about warrants outstanding as at October 31, 2019:

Date of issuance	Date of expiry	Exercise price	Exercisable at October 31, 2019
September 27, 2018	September 26, 2020	\$ 0.17 (CAD 0.23)	20,890,148 see (1)
September 23, 2019	September 22, 2021	\$ 0.23 (CAD 0.3)	6,666,667 see (2)

Each warrant entitles the holder to purchase one common share of the Company.

The Company uses the Black-Scholes option pricing model to estimate fair value of the warrant liability at the end of each reporting period. The following assumptions were used to estimate the fair value of the derivative warrant liability on:

1)	October 31, 2019	April 30, 2019
Expected life of warrants	0.9 years	1.4 years
Expected volatility	100%	100%
Expected dividend yield	0%	0%
Risk-free interest rate	1.6%	1.8%
Market price of Common share	CAD 0.115	CAD 0.20
Exercise price	CAD 0.23	CAD 0.23

2)	At Issuance and as of October 31, 2019
Expected life of warrants	2 years
Expected volatility	100%
Expected dividend yield	0%
Risk-free interest rate	1.6%
Market price of Common share	CAD 0.115
Exercise price	CAD 0.3

The Company considers expected volatility of the shares of comparable companies and its Common shares in estimating its future stock price volatility. The risk-free interest rate for the expected life of the options was based on the yield available on Canadian government benchmark bonds with an approximate equivalent remaining term at the time of the grant. The expected life is based on the contractual term. For the three and six month periods ended October 31, 2019, the Company recorded a gain of \$307 and \$973, respectively, in the statement of comprehensive loss as a result of a decrease in the fair value of the warrant liability as of October 31, 2019 (2018: loss of \$1,515 and \$1,515, respectively).

Canna-V-Cell Sciences Inc. (Formerly Midnight Star Ventures Corp.)

Notes to Condensed Consolidated Interim Financial Statements

For the Three and Six Months Ended October 31, 2019 and 2018

(U.S. dollars in thousands, except per share data)

6. Share Capital:

	Number of shares	
	October 31, 2019 Issued and outstanding	April 30, 2019 Issued and outstanding
Ordinary shares without par value	103,243,680	96,577,013

On September 23, 2019 the Company has closed a private placement financing (the “Private Placement Financing”) by issuing 6,666,667 units at a price of \$0.15 per unit for gross proceeds of \$753,580 CAD\$1,000 (CAD\$985 after payment of commissions and finder’s fees). The securities issued under the Private Placement Financing will be subject to a hold period expiring four months and one day from the date of issuance pursuant to applicable Canadian securities laws. Each unit consists of one common share of the Company and one non-transferable share purchase warrant (“Private Placement Warrant”). Each Private Placement Warrant will be exercisable to purchase an additional common share at a price of \$0.30 per share for a period of two years from closing of the Private Placement Financing.

The Private Placement Warrants have been valued at \$172, using black-Scholes options pricing model with the following assumptions: Share price: CAD\$0.115, exercise price: CAD\$0.30, risk-free rate: 1.60%, dividend yield: Nil, volatility: 100%, expected life: 2 years.

Since the Private Placement Warrants have an exercise price denominated in a different currency (Canadian Dollars) than the functional currency of the Company (US Dollars), the Private Placement Warrant are recorded at their fair value as a derivative liability.

The increase in Additional Paid in Capital is \$570, being the net proceeds received (\$742) less the fair value of the Private Placement Warrants (172).

7. Stock Options

The Company maintains a stock option plan (the “Plan”) for the directors, officers, consultants and employees of the Company. The maximum number of options issuable under the Plan shall be equal to ten percent (10%) of the outstanding shares of the Company less the aggregate number of shares reserved for issuance or issuable under any other security-based compensation arrangement of the Company.

No options were issued during the three and six month period ended October 31, 2019.

During the three and six months ended October 31, 2019, share-based compensation of \$206 and \$115, respectively was recognized based on options vested during the period (three and six months ended October 31, 2018 - \$78 and \$78, respectively)

The following table summarizes information about the options outstanding as at October 31, 2019 and April 30, 2019:

Options Outstanding		Options Exercisable		
Number Outstanding at October 31, 2019	Exercise Price	Weighted Average Remaining Contractual Life (years)	Number Exercisable at October 30, 2019	Weighted Average Exercise Price
10,405,105	\$ 0.15	4.76	3,797,998	\$ 0.15
10,405,105	\$ 0.15	4.76	3,797,998	\$ 0.15

Canna-V-Cell Sciences Inc. (Formerly Midnight Star Ventures Corp.)

Notes to Condensed Consolidated Interim Financial Statements

(U.S. dollars in thousands, except per share data)

8. Financial instruments and risk management:

The Company is exposed to a variety of financial risks, which results from its financing, operating and investing activities. The objective of financial risk management is to contain, where appropriate, exposures in these financial risks to limit any negative impact on the Company's financial performance and position. The Company's financial instruments are its cash, trade and other receivables, trade payables and other liabilities. The main purpose of these financial instruments is to raise finance for the Company's operation. The Company actively measures, monitors and manages its financial risk exposures by various functions pursuant to the segregation of duties and principals. The risks arising from the Company's financial instruments are mainly currency risk and liquidity risk. The Company has no interest rate risk as the balances exposure to interest is minimal. The risk management policies employed by the Company to manage these risks discussed below.

Fair value of financial assets and liabilities:

The fair value of the Company's current financial assets and liabilities approximates their carrying amounts as their maturity date is less than 1 year and they do not bear a fixed interest rate.

The following table summarises the information about the level 3 fair value measurements:

Item	Fair value	Valuation technique	Fair value hierarchy level	Significant unobservable inputs
Derivative liability - Warrants	490	Black-Scholes model	level 3	Volatility of firm's assets returns*

* A change in the volatility measure by 5% results in a change of +/- \$50 of the fair value.

Capital management:

The Company's objective is to maintain, as much as is possible, a stable capital structure. In the opinion of management its current capital structure is stable. Consistent with others in the industry, the Company monitors capital, including others also, on the basis of the gearing ratio.

This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the condensed consolidated interim statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the condensed consolidated interim statement of financial position plus net debt.

measurements that are categorized within Level 3 of the fair value hierarchy:

Derivative liability - Warrants	\$
Balance as of May 1,2019	1,291
Issuance of Warrants	175
Loss recognized in Profit or loss:	(976)
Balance as of October 31,2019	490

11. Subsequent events

On December 2, 2019, the Company established a wholly owned subsidiary in the Israel, Biofarming Ltd (“Acquisition Sub”). Acquisition Sub agreed to merge with BioHarvest with the merger consideration being the issuance of 299,200,000 common shares of the Company to the shareholders of BioHarvest.

BioHarvest's existing shareholding of 48,337,496 common shares of the Company will be returned to the Company's treasury.

The merger will be completed under the Israel Companies Law and is subject to a number of conditions including:

- Shareholder approval at meetings called for that purpose;
- Approval of the Israeli Securities Authority;
- The indebtedness of BioHarvest at closing not exceeding \$500;
- Approval of the Canadian Securities Exchange;
- The agreement of convertible debt holders of BioHarvest to accept warrants of the Company to replace their warrants in BioHarvest; and
- Termination of BioHarvest's outstanding options to directors, officers, employees and consultant.
