

BENJAMIN HILL MINING CORP

FOR IMMEDIATE RELEASE

CSE: BNN

SEPTEMBER 29, 2021

BENJAMIN HILL CONTINUES TO DISCOVER HIGH-GRADE GOLD MINERALIZATION ON THE SONORA COPPER AND SAGUARO STRUCTURES

Vancouver, British Columbia (September 29, 2021) - Benjamin Hill Mining Corp. (CSE: BNN) (OTCBB: BNNHF) (“BHM” or the “Company”) is pleased to provide an update on the Sonora copper vein structure mapped over 1200 meters in length and contains highlight values of 9.6 g/t gold, 169 g/t silver, and 4.3 % copper. The vein structure is mappable over three levels of underground workings and can be traced as a high-angle mineralized body with at least 120 m known depth. (Figure. 2, 3, 4 and Table. 1)

The Saguaro vein outcrops over several kilometers including a continuous section up to 3,500 meters in length with highlight assays of up to 3.5 g/t gold, 72 g/t silver and 1.7 % copper.

Sr. Sergio A. Trelles, Special Advisor, states: “We see strong economic potential in the Sonora Copper area, based on the observed precious and base metal enrichment seen along the outcropping mineralized structures. The positive results are encouraging us to go on with exploration and evaluation activities”.

Historically, mineralized structures have been mined by access made through the La Cascabel, Guadalupe and Sonora Copper adits. There are additional sublevels of adits and stopes yet to be mapped and sampled pending safety evaluations.

Benjamin Hill is currently integrating technical information for the modeling of rock blocks, veins, and historic adits and stopes to develop a safety first mine rehabilitation plan. The objective is to gain access to yet unassessed sublevels in these historic mines with the goal of underground diamond drilling on the mineralized structures (Figure 1.).

About Benjamin Hill Mining Corp.

Benjamin Hill Mining Corp. is a Canadian-listed junior gold exploration company focused on exploring and developing projects in Mexico. The Company's Sonora Gold project covers 6,000 ha of highly prospective mineral concessions in the Caborca gold belt of Sonora, Mexico in close proximity to Magna Gold Corp's San Francisco mine.

Qualified Person

Greg Bronson, P.Geo, President and Director of the Company is a qualified person as defined by National Instrument 43-101 and has reviewed and approved the scientific and technical disclosure in this news release.

On behalf of the Board of Directors

"Cole McClay", CEO Benjamin Hill Mining Corp.

Forward Looking Statements

Certain of the statements made and information contained herein may contain forward- looking information within the meaning of applicable Canadian securities laws. Forward-looking information includes, but is not limited to, information concerning the Company's intentions with respect to the development of its mineral properties. Forward-looking information is based on the views, opinions, intentions and estimates of management at the date the information is made, and is based on a number of assumptions and subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated or projected in the forward-looking information (including the actions of other parties who have agreed to do certain things and the approval of certain regulatory bodies). Many of these assumptions are based on factors and events that are not within the control of the Company and there is no assurance they will prove to be correct. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. The Company undertakes no obligation to update forward-looking information if circumstances or management's estimates or opinions should change except as required by applicable securities laws, or to comment on analyses, expectations or statements made by third parties in respect of the Company, its financial or operating results or its securities. The reader is cautioned not to place undue reliance on forward-looking information. We seek safe harbour.
