Toronto / Vancouver, Canada / Erie PA / New York, NY – March 22, 2021 – [Liquid Avatar Technologies Inc.](#) (CSE: LQID / OTC:TRWRF / FRA:4T51) Liquid Avatar Technologies, a global blockchain, digital identity and fintech solutions company together with [ImagineAR Inc.](#) (CSE:IP / OTCQB:IPNFF), an Augmented Reality platform company, reports that [Oasis Digital Studios](#) (“Oasis”) is excited to announce that they have partnered with [Apex Comics Group](#), founded by comic book industry veteran, Mariano Nicieza, to bring the PHAZER Universe and other published characters to Liquid Avatar as custom digital icons, integrated multi-media, Augmented Reality items and cinematic, AR enhanced Non-Fungible Tokens (NFTs). A cinematic trailer is available at the Oasis website – www.oasisdigitalstudios.com

The integrated campaign, expected to launch in early Spring, will feature a series of limited-edition collector cinematic and AR enhanced NFTs, Liquid Avatar digital icons available in the [Liquid Avatar Marketplace](#), and a fully immersive cinematic and 3D global Augmented Reality scavenger hunt powered by ImagineAR. A pre-sale waiting list is available for prospective purchasers and collectors at the Oasis website – www.oasisdigitalstudios.com

“It’s truly exciting and extremely gratifying to be partnered with Liquid Avatar and Oasis! The Apex Comics Group characters have come to life in prose-novels, comic books, trading cards and posters; Avatars, Augmented Reality, and cinematic NFTs will propel these characters to brand new levels!” stated Mariano Nicieza, Apex Comics Group President and creator of Phazer Universe.

Non-Fungible Tokens (NFT) are digital assets that represent a wide range of unique tangible and intangible items, from art, comic books and collectible sports cards to virtual real estate and even digital sneakers. One of the main benefits of owning a digital collectible versus a physical collectible like a rookie card or a rare-minted coin is that each NFT contains

distinguishing information that makes it both distinct from any other NFT and easily verifiable. This makes the creation and circulation of fake collectibles pointless because each item can be traced back to the original issuer.

ABOUT THE PHAZER UNIVERSE

This sci-fi action-adventure opus centers around Project: P.H.A.Z.E.R., a highly classified military project, created to study Alpha-Zachyon, a new type of energy and develop defenses against extraterrestrial invasion. Scientist Mark Moreno, head of the project, becomes the victim of a sabotaged experiment that sends him uncontrollably shifting through the time-stream where his altered molecular structure manifests different paranormal powers in every time-period he lands in. Hunted by a shape-shifting alien his daily existence is a fight for survival as he struggles to find a cure and return to the world he's left behind.

Along the way, he makes unlikely alliances with Blackray, a hybrid humanoid who can breathe underwater, Agent Three Zero, a special-forces operative with a unique armored suit that allows her to detect camouflaged extraterrestrial beings, and the Cosmic Raiders, a quartet of super-powered women.

The Blue Sultan, an insane terrorist with a hidden past is also pursuing the secrets of Alpha-Zachyon energy to further his own ambitions for world domination. His mad schemes threaten to destroy the Earth.

Mark Moreno's chase through countless time-periods culminates back on his present Earth with a final battle on the frozen wasteland of Antarctica, and the discovery of an ultimate, ancient weapon that could spell the end of mankind.

This is an exciting time for digital collectibles, avatars, digital identity augmented reality and NFTs," said David Lucatch, CEO "Oasis, together with Liquid Avatar and ImagineAR are spearheading the drive towards immersive experiences integrated with Blockchain technologies."

The Oasis AR Enhanced NFT experience will be available exclusively through the Liquid Avatar Mobile App, which features the ability to create digital icons that allow users to manage, control and create value from their biometrically verified digital identity, and is available in the Google Play and Apple App Store.
