

## **NuRAN Receives a \$540 000.00 Repeat Purchase Orders from Tier-one client in Nuclear Imaging**

*Quebec, QC, November 12, 2015* – NuRAN Wireless Inc. (“NuRAN Wireless” or the “Company”) is pleased to announce that its wholly owned subsidiary Nutaq Innovation Inc. (“Nutaq”) has received a repeat purchase order of approximately \$540,000 from a Tier-One international customer in Nuclear Imaging for their worldwide distributed Positron Emission Tomography (PET) systems.

The purchase order is a continuation of a long term relationship between Nutaq and Sofie Biosciences ([www.sofiebio.com](http://www.sofiebio.com)). Nutaq’s multichannel digitizer product which captures and processes the signals from multiple sensors, was first sold as a development system and is now being used as a key component of Sofie’s multi-modal scanners that provide highly sensitive and quantitative biological assays in such fields as oncology, immunology, neurobiology, cardiology, and pharmacology.

“We are proud to provide our digitizers technology to this important client and be such an important component of their products. It once again demonstrates that the low cost per channel and the scalability of the different platforms developed by NuRAN makes them a reliable and cost-effective solution for volume production. It is an important advantage not only for the Wireless industry but for the Life Science Market as well.” said Francis Letourneau, Vice-President of Sales and Marketing.

### **About NuRAN Wireless**

NuRAN Wireless is a leading supplier of mobile and broadband wireless solutions. Its innovative GSM, LTE, and White Space radio access network (RAN) and backhaul products dramatically drop the total cost of ownership, thereby creating new opportunities for mobile network operators and internet service providers.

The company provides a variety of specialized systems for indoor coverage, rural connectivity in emerging markets, connectivity to offshore platforms and ships, private mobile networks or custom solutions for specific markets such as Internet of Thing (IoT), public safety, emergency or crisis communications.

The company is headquartered in Quebec, QC with offices in Europe.

Further information about the NuRAN Wireless is available under its profile on the SEDAR website, [www.sedar.com](http://www.sedar.com), on the CSE website, [www.thecse.com](http://www.thecse.com), and the Company’s website, [www.nuranwireless.com](http://www.nuranwireless.com). ### ***Forward Looking Statements***

This press release contains forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “is expected”, “estimates”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Nuran Wireless to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this press release. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to: the ability of NuRAN Wireless to obtain necessary financing; general economic conditions in Canada and globally; competition for, among other things, capital and skilled personnel; our ability to hire and retain qualified employees and key management personnel; possibility that government policies or laws may change; possible disruptive effects of organizational or personnel changes; technological change, new products and standards; risks related to acquisitions and international expansion; reliance on large customers; reliance on a limited number of suppliers; risks related to the Company’s competition; and the Company’s failure to adequately protect its intellectual property; interruption or failure of information technology systems and other risk factors described in the Company’s reports filed on SEDAR ([www.sedar.com](http://www.sedar.com)), including its financial statements for the year ended October 31, 2014, and those referred to under the heading “Risk Factors”. These forward-looking statements should not be relied upon as representing NuRAN Wireless’ views as of any date subsequent to the date of this press release.
