

NuRAN Wireless Receives a \$4M Order for Deployment in Africa for a Tier-One Operator

Quebec, QC, Canada, May 25th, 2017 - NuRAN Wireless Inc. (“NuRAN Wireless” or the “Company”) (CSE:NUR) (OTC:NRRWF) is pleased to announce it has received a purchase order of approximately \$4 Million CAD for deploying hundreds of its rural basestations, namely LiteCell 1.5, for a Tier-One Operator in Africa.

NuRAN received a purchase order for a Tier-One Operator for hundreds of units of LiteCell 1.5 and the LiteRAN 2G, a complete carrier-grade rural GSM solution that has the lowest total cost of ownership and the lowest power consumption in the industry. In addition, the LiteRAN 2G also has the most efficient satellite optimizer which reduces the bandwidth requirement by a factor of 10, thus offering a viable and profitable solution to connect rural and remote areas.

“NuRAN is currently making a lot of progress and is getting much recognition in the broad African telecom sector. This deployment is currently the biggest purchase order in NuRAN’s history. Africa presents an extensive growth opportunity for NuRAN and we’re confident that our disruptive technology combined with our leading position in the market will lead us to even greater achievements”, explained Martin Bedard, Co-CEO of NuRAN Wireless.

This project has the potential to evolve into a total deployment of more than 1000 units in Africa over the next 5 years.

About NuRAN Wireless

NuRAN Wireless, with its wholly owned subsidiary Nutaq Innovation, is a leading supplier of mobile and broadband wireless solutions. Its innovative GSM, LTE, and White Space radio access network (RAN) and backhaul products dramatically drop the total cost of ownership, thereby creating new opportunities for mobile network operators and internet service providers.

The Company provides a variety of specialist systems for indoor coverage, rural and urban connectivity in emerging markets, connectivity to offshore platforms and ships, and for emergency and crisis communications.
