1 - GOVERNING STATUTES AND NATURE OF OPERATIONS

The Company is incorporated under the Business Corporations Act (B.C.) and operates in the research, development, manufacturing and marketing of digital electronic circuits and wireless telecommunication products.

2 - GENERAL INFORMATION, STATEMENT OF COMPLIANCE WITH IFRSs AND GOING CONCERN ASSUMPTION

The Company's registered office is at 2150 Cyrille-Duquet Street, Québec, Quebec G1N 2G3.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Accordingly, they do not include all the disclosures required under IFRS for annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the 2014 audited annual financial statements of Nutaq Innovation Inc included in the Listing Form 2A dated September 16, 2015 as completed and published on the CSE. They are based on the assumption that the Company is a going concern, meaning it will be able to realize its assets and discharge its liabilities in the normal course of its operations.

In light of operating losses incurred during the nine-month period ended July 31, 2017 and the past years there is significant doubt about the Company's ability to continue as a going concern. The Company's ability to realize its assets and discharge its liabilities depends on the continued financial support of its shareholders, the growth and profitability of the future sales of its products that are now marketed and the obtaining of additional financing. However, the Company has completed the development of its main products, which are distributed in many countries. In addition, the Company has concluded a private financing agreement on a voluntary basis and has a cash flow managing plan to deal with the situation. If necessary, the Company may review the prioritization and, if needed, defer some of its research and development projects.

The carrying amounts of assets, liabilities, revenues and expenses presented in the condensed interim consolidated financial statements and the condensed interim consolidated statements of financial position's classification have not been adjusted as would be required if the going concern assumption were not appropriate.

The condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on September 13, 2017.

3 - THE ARRANGEMENT AND AMALGAMATION AGREEMENT

Nuran Wireless Inc. (the "Company") was incorporated under the *Business Corporations Act* (B.C.) on September 23, 2014 under the name "1014372 B.C. Ltd." The Company was formed in connection with the plan of arrangement (the "Arrangement") between 1014379 B.C. Ltd and Bravura Ventures Corp. ("Bravura") dated October 14, 2014. The purpose of the Arrangement was to restructure Bravura by creating two companies, which would become reporting issuers in the provinces of British Columbia and Alberta and pursue different lines of business than Bravura.

The final court order approving the Arrangement was received on December 10, 2014 and the Arrangement was closed effective March 11, 2015. Following completion of the Arrangement, the Company became a reporting issuer in Alberta and British Columbia and existing Bravura shareholders received 2,121,875 common shares of the Company pursuant to the terms of the Arrangement and a further 5,350,000 common shares were issued to subscribers of a private placement of the Company completed in connection with the Arrangement for gross proceeds of \$107,000.

The Company entered into an amalgamation agreement dated as of March 11, 2015 with Nutaq Innovation Inc. ("Nutaq"), and 9215174 Canada Inc. ("Newco"), a wholly owned subsidiary of the Company formed for the purpose of the amalgamation, (the "Amalgamation Agreement") pursuant to which the Company acquired all of the issued and outstanding shares of Nutaq in consideration of an aggregate 32,999,994 common shares of the Company based on a ratio of 2.749 common shares of the Company for each share of Nutaq issued and outstanding at the closing date. Following the closing of the transaction, the Company had 40,471,869 common shares issued and outstanding and former shareholders of Nutaq acquired 81.5% of the issued and outstanding common shares of the Company. Following closing of the Amalgamation Agreement the Company operates the prior business of Nutaq through its sole operating subsidiary, Nutaq.

Amalgamation transaction:

For accounting purposes, Nutaq is the acquirer and the transaction will be accounted for as a reverse takeover. Considering that the Company does not meet the definition of a business, the transaction will be considered a capital transaction in substance. Accordingly, the transaction is equivalent to the issuance of shares by Nutaq for the net assets of the Company.

4 - SUMMARY OF ACCOUNTING POLICIES

Overall considerations

The accounting policies are in accordance with those used in the preparation of the 2016 annual financial statements.

Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the condensed interim financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the condensed interim financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's last annual financial statements for the year ended October 31, 2016.

a) The loan from companies under common control is secured by a chattel mortgage on the universality of the Company's assets.

The loan from companies under common control relates to a factoring agreement for a maximum of \$2,500,000. As at July 31, 2017, the Company has \$891 807 (\$802 093 as at October 31, 2016) in accounts receivable and scientific research and experimental development tax credits receivable that have been transferred in factoring to Finexcorp Inc. and 9134-8169 Québec inc., companies under common control, for which an amount of \$300 790 (\$396 773 as at October 31, 2016) has been retained as a factoring reserve.

These factoring agreements stipulate that the Company shall pay on time the government remittances and shall repay the loans received related to invoices that are past due over 105 days and 120 days, respectively. As at July 31, 2016, these terms are not respected.

b) On February 27, 2017, the Company closed a fully subscribed brokered private placement of senior secured convertible debentures (each a "Debenture") for gross proceeds of \$3,500,000 (the "Offering") previously announced on February 7, 2017. Each Debenture matures 18 months following closing, bears interest an annual rate of 12% and is convertible, at the option of the Debentureholder, in whole or in part, into common shares in the capital of NuRAN at any time before the maturity date at a price of \$0.25 per common share subject to adjustment in the event that the Corporation issues common shares at a price below \$0.25 per share while the Debenture is outstanding. For each \$0.25 of Debenture purchased, subscribers will receive (i) one-half of one transferable share purchase warrant (an "A Warrant"), with each whole A Warrant entitling the holder thereof to acquire one common share at a price of \$0.30 per warrant share until the date that is 24 months from the closing date; and (ii) one-half of one transferable share purchase warrant (a "B Warrant"), with each whole B Warrant entitling the holder thereof to acquire one warrant share at a price of \$0.45 per share until the date that is 36 months from the closing date. In the event that the closing price of NuRAN's common shares on the Canadian Securities Exchange is \$0.60 or greater per common share during any twenty (20) consecutive trading days period at any time after 4 months from the Closing Date and within 24 months after the closing date, the B Warrant will expire, at the sole discretion of NuRAN, at 4:00 p.m. (Toronto time) on the 30th day after the date on which NuRAN provides notice of acceleration to the B Warrant holders. The Corporation shall be entitled to prepay the full amount of the Debentures without penalty at any time after 6 months from their issuance date.

A commission was paid to the selling agents in connection with the private placement consisting of a cash payment in the aggregate amount of \$185,200 and the issuance of broker warrants entitling the agents to purchase up to 740,800 broker warrants. Each Broker Warrant is exercisable into (a) one common share; (b) one half of one A Warrant; and (c) one half of one B Warrant, at an exercise price of \$0.25 per Broker Warrant, for a period of 24 months from the closing date. All securities issued
