

NuRAN Receives New Purchase Orders Totaling 1,25M CAD from AMN for Africa

Quebec City, Canada, February 4th, 2019

Highlights:

- *Over 500 units*
- *New orders for deployment in Africa*
- *Part of the 3000+ potential sites as stated in the previously announced agreement with AMN*
- *All units to be delivered in 2019*

NuRAN Wireless Inc. (“NuRAN Wireless” or the “Company”) ([CSE: NUR](#)) ([OTC: NRRWF](#)) ([FSE: 1RN](#)), a leading supplier of mobile and broadband wireless infrastructure solutions is pleased to announce that it has received new purchase orders totaling \$1.25 Million CAD related to an [agreement signed and previously announced](#) (the “Agreement”) with Africa Mobile Networks (“AMN”) on June 14, 2018.

The Agreement stipulates that NuRAN is to supply the OC-2G, a GSM basestation that is developed by NuRAN, to over 3,000 sites throughout Africa. These AMN purchase orders comprised of over 500 units contributes to the [Telecom Infra Project’s OpenCellular](#), a Facebook ([FB:NASDAQ](#)) initiative. NuRAN plans to deliver the OC-2G units for AMN in Africa in 2019.

As previously stated, Africa Mobile Networks is a group of companies organised with its corporate head office in the UK and subsidiary operating companies in several sub-Saharan African countries. Per the [announcement on October 16, 2018](#), AMN partnered with Intelsat ([I:NYSE](#)) to connect ultra-rural sub-Saharan Africa. In that announcement, Intelsat stated that it has made a strategic investment in AMN to accelerate the adoption of mobile connectivity in the region and close the digital divide.

Intelsat operates the world’s first Globalized Network, delivering high-quality, cost-effective video and broadband services anywhere in the world. Intelsat’s Globalized Network combines the world’s largest satellite backbone with terrestrial infrastructure, managed services and an open, interoperable architecture to enable customers to drive revenue and reach through a new generation of network services. Thousands of organizations serving billions of people worldwide rely on Intelsat to provide ubiquitous broadband connectivity, multi-format video broadcasting, secure satellite communications and seamless mobility services. The end result is an entirely new world, one that allows us to envision the impossible, connect without boundaries and transform the ways in which we live.

About Africa Mobile Networks

AMN's mission is to build mobile network base stations serving rural communities in sub-Saharan Africa which have no existing service, providing mobile network operators with a capex-free route to add new subscribers and new revenues and with incremental costs. The vision of AMN is a fully-connected Africa, with no community of any significant size being without basic telecommunications services to deliver social, economic, educational and other benefits to the population.

About NuRAN Wireless

NuRAN Wireless is a leading supplier of mobile and broadband wireless infrastructure solutions. Its innovative radio access network (RAN), core network, and backhaul products dramatically drop the total cost of ownership, thereby creating new opportunities for established, as well as emerging mobile network operators. Indoor coverage, isolated rural communities, offshore platforms and ships, NuRAN Wireless helps its customers reach everyone, everywhere.

Forward Looking Statements

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes, without limitation, statements regarding the timing of the Offering, the use of proceeds from the Offering, and the future plans or prospects of the Company. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of NuRAN Wireless Inc., as the case may be, to be materially different from those expressed or implied by such forward-looking information. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. Other factors which could materially affect such forward-looking information are described in the risk factors in the Company's most recent annual management's discussion and analysis that is available on the Company's profile on SEDAR at www.sedar.com. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
