1 - GOVERNING STATUTES AND NATURE OF OPERATIONS

Nuran Wireless Inc. is incorporated under the Business Corporations Act (B.C.) and with its subsidiaries (together, the "Company") operates in the research, development, manufacturing, marketing and operation of digital electronic circuits and wireless telecommunication products and services to the mobile telephony industry.

Along with its subsidiaries, Nuran Wireless Cameroon Ltd. and Nuran Wireless DRC S.A.R.L.U., the Company provides products and services that help mobile network operators profitably serve off-grid markets that are currently not served. The strategy is to build and operate rural cellular infrastructure, monetizing the assets through a Network as a service (NAAS) business model that has been developed by the Company and is seeing growing interest in a number of markets globally.

2 - GENERAL INFORMATION, STATEMENT OF COMPLIANCE WITH IFRSs AND GOING CONCERN ASSUMPTION

The Company's registered office is at 1000 – 595 Burrard Street, Vancouver BC V7X 1S8 and its place of business is at 2150, Cyrille-Duquet, suite 100, Québec (Québec) G1N 2G3.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Accordingly, they do not include all the disclosures required under IFRS for annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the 2021 audited annual financial statements. They are based on the assumption that the Company is a going concern, meaning it will be able to realize its assets and discharge its liabilities in the normal course of its operations.

During the three-month period ended March 31, 2022, the Company incurred a net loss of \$3,249,229 and has a deficit of \$45,053,589 as at March 31, 2022. This reflects the significant and upfront nature of capital expenditures required of the NaaS model. In parallel to deploying this model the Company has taken significant steps forward in improving its balance sheet and restructuring and repositioning operations however there is uncertainty that may cast doubts as to whether the Company will have the ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its capacity to continue to reposition its operations in line with the NaaS model and to obtain additional financing and execute the NaaS contracts signed in September 2020, February 2021, December 2021 and April 2022. In addition, the

As at March 31, 2022 and April 30, 2021 (In Canadian dollars) (Unaudited)

Company has continued to make expenditures towards the rollout of the NaaS contracts in Cameroon and DRC.

As at the date of these financial statements, the Company announced the successful conclusion of commercial bank financing as well as the signing of mandate letters for significant DFI credit facilities. In addition the Company is advancing discussions with providers of equity finance to support the DFI finance. There are however operational risks resulting in uncertainties that this plan will be implemented successfully. If the Company is unable to continue to successfully implement the above, there is a possibility that the Company may be unable to continue to realize on its assets and to discharge its liabilities in the normal course of operations.

The condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on May 30, 2022.

3 - SUMMARY OF ACCOUNTING POLICIES

Overall considerations

The accounting policies are in accordance with those used in the preparation of the 2021 annual financial statements.

Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the condensed interim financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the condensed interim financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's last annual financial statements for the year ended December 31, 2021.

As at March 31, 2022 and April 30, 2021 (In Canadian dollars) (Unaudited)

As at March 31, 2022 and April 30, 2021 (In Canadian dollars) (Unaudited)

As at March 17, 2022, the Company issued secured convertible debentures in the principal amount of \$2,235,465 with an original issue discount equal to 10% of the Purchase Price. Each debenture matures on March 17, 2023. Interest is accrued until the Maturity date, early repayment by the Company or any event of default, after either event if any amount remains unpaid, the remaining balance shall accrue interest at a rate of 22% per annum. The debenture value determined using the current value method was \$1,941,840.

The principal amount is convertible, at the option of the debenture holder, into common shares of the Company at any time before the maturity date at a price of \$1.35 per common share.

The debenture holders also received 1,490,309 share purchase warrants at a price of \$2,00 for a term of two years. The fair value of \$295,081 assigned to the warrants issued was established using a Black-Scholes pricing model.

The Black-Scholes pricing model used for the warrants and the conversion options used the following assumptions:

Share	\$1,04
price	ψ1,04
Exercise price	\$2,00
Time to maturity	2 years
Risk-free rate	1,89%
Expected volatility	94.99%
Dividend yield	Nil
Dilution factor	28,72%

The debentures may be prepaid by the Company at any time prior to the Maturity Date, upon ten business days' notice to the debentureholder, subject to the Company paying a price equal to 103% of the principal amount of the Debentures then outstanding plus accrued and unpaid interest thereon;

The debentures will rank pari passu in right of payment of principal and interest, the holders will all enter into an interlender agreement appointing a collateral agent;

The debentures are subject to accelerated repayment (subject to a prepayment penalty amount) at the option of the Company or the debentureholder if the Company completes an equity or debt financing for gross proceeds of \$3,000,000 or more.

The fair value of the conversion option on March 31, 2022 was estimated at \$48,021, which was derived using a Black-Scholes option pricing model.

As at March 31, 2022 and April 30, 2021 (In Canadian dollars) (Unaudited)
