#### 1 - GOVERNING STATUTES AND NATURE OF OPERATIONS

Nuran Wireless Inc. is incorporated under the Business Corporations Act (B.C.) and with its subsidiaries (together, the "Company") operates in the research, development, manufacturing, marketing and operation of digital electronic circuits and wireless telecommunication products and services to the mobile telephony industry.

Along with its subsidiaries, Nuran Wireless Cameroon Ltd., Nuran Wireless DRC S.A.R.L.U. and NuRAN Wireless (Africa) Holding, the Company provides products and services that help mobile network operators profitably serve off-grid markets that are currently not served. The strategy is to build and operate rural cellular infrastructure, monetizing the assets through a Network as a Service (NAAS) business model that has been developed by the Company and is seeing growing interest in a number of markets globally.

## 2 - GENERAL INFORMATION, STATEMENT OF COMPLIANCE WITH IFRSs AND GOING CONCERN ASSUMPTION

The Company's registered office is at 1000 – 595 Burrard Street, Vancouver BC V7X 1S8 and its place of business is at 2150, Cyrille-Duquet, suite 100, Québec (Québec) G1N 2G3.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Accordingly, they do not include all the disclosures required under IFRS for annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the 2021 audited annual financial statements. They are based on the assumption that the Company is a going concern, meaning it will be able to realize its assets and discharge its liabilities in the normal course of its operations.

During the six-month period ended June 30, 2022, the Company incurred a net loss of \$5,597,831 and has a deficit of \$47,402,191 as at June 30, 2022. This reflects the significant and upfront nature of capital and operating expenditures in network infrastructure required of the NaaS model. In parallel to deploying this model the Company has taken significant steps forward in improving its balance sheet and restructuring and repositioning operations however there is uncertainty that may cast doubts as to whether the Company will have the ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its capacity to continue to reposition its operations in line with the NaaS model and to obtain additional financing and execute the

As at June 30, 2022 and July 31, 2021 (In Canadian dollars) (Unaudited)

NaaS contracts signed in September 2020, February 2021, December 2021 and April 2022.

The Company has previously announced the successful conclusion of commercial bank financing as well as the signing of mandate letters for significant DFI credit facilities and as at the date of these financial statements a non-brokered private placement of convertible debentures and the restructuring and extension of a previous convertible debenture financing. In addition, the Company is advancing discussions with providers of equity finance to support the DFI finance. There are however operational risks resulting in uncertainties that this plan will be implemented successfully. If the Company is unable to continue to successfully implement the above, there is a possibility that the Company may be unable to continue to realize on its assets and to discharge its liabilities in the normal course of operations.

The condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on August 29, 2022.

#### 3 - SUMMARY OF ACCOUNTING POLICIES

#### Overall considerations

The accounting policies are in accordance with those used in the preparation of the 2021 annual financial statements.

## Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the condensed interim financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the condensed interim financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's last annual financial statements for the year ended December 31, 2021.

As at June 30, 2022 and July 31, 2021 (In Canadian dollars) (Unaudited)

As at March 17, 2022, the Company issued secured convertible debentures in the principal amount of \$2,235,465 with an original issue discount equal to 10% of the Purchase Price. Each debenture matures on March 17, 2023. Interest is accrued until the Maturity date, early repayment by the Company or any event of default, after either event if any amount remains unpaid, the remaining balance shall accrue interest at a rate of 22% per annum. The debenture value determined using the current value method was \$1,941,840.

The principal amount is convertible, at the option of the debenture holder, into common shares of the Company at any time before the maturity date at a price of \$1.35 per common share.

The debenture holders also received 1,490,309 share purchase warrants at a price of \$2,00 for a term of two years. The fair value of \$295,081 assigned to the warrants issued was established using a Black-Scholes pricing model.

The Black-Scholes pricing model used for the warrants and the conversion options used the following assumptions:

Share	\$1,04
price	ψ1,04
Exercise price	\$2,00
Time to maturity	2 years
Risk-free rate	1,89%
Expected volatility	94.99%
Dividend yield	Nil
Dilution factor	28,72%

The debentures may be prepaid by the Company at any time prior to the Maturity Date, upon ten business days' notice to the debentureholder, subject to the Company paying a price equal to 103% of the principal amount of the Debentures then outstanding plus accrued and unpaid interest thereon;

The debentures will rank pari passu in right of payment of principal and interest, the holders will all enter into an interlender agreement appointing a collateral agent;

The debentures are subject to accelerated repayment (subject to a prepayment penalty amount) at the option of the Company or the debentureholder if the Company completes an equity or debt financing for gross proceeds of \$3,000,000 or more.

As at June 30, 2022 and July 31, 2021 (In Canadian dollars) (Unaudited)

Basic and diluted losses per share have been calculated based on the net loss available for common shareholders by the weighted average number of common shares outstanding during the period. There were no adjustments to the numerator and denominator of basic earnings used in calculating diluted earnings.

Details of share options and warrants issued that could potentially dilute earnings per share in the future are given in Notes 11 and 12.

#### 14 - RELATED PARTY TRANSACTIONS

The Company's related parties include companies under common control as well as key management personnel.

Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received.

#### 15 - POST-REPORTING DATE EVENTS

On July 12, 2022, the Company announced the closing of a non-brokered private placement of convertible debentures with a strategic investor for aggregate gross proceeds of \$2,000,000 (the "Convertible Debenture").

The Convertible Debenture has an original issuance discount of 10% and the principal of \$2,222,222 is convertible into common shares at a fixed price of \$1.35 at the option of the debenture holder during the term. The principal amount is due one year from the date of closing and does not bear interest until the maturity date or an event of default occurs. The investor also received 1,481,481 share purchase warrants, exercisable to acquire one common share of the Company at a price of \$2.00 for a period of 24 months from the date of closing. The debentures may be prepaid by the Company, upon ten business days' notice to the debenture holder, subject to the Company paying a price equal to 103% of the principal amount of the Debentures then outstanding plus accrued and unpaid interest thereon. As a condition of closing of the Offering, NuRAN entered into a sales agreement pursuant to which NuRAN agreed to engage the investor as its exclusive transmission equipment provider for a term of the earlier of seven years or until such time as the Company completes the purchase of a committed volume of equipment for its African operations.

The Company intends to use the net proceeds from the Offering for working capital purposes, to fund its purchases under the sales agreement and for capital expenditures under the Company's NaaS agreements. The Convertible Debenture and Warrants, and any securities

As at June 30, 2022 and July 31, 2021 (In Canadian dollars) (Unaudited)

issuable upon conversion or exercise thereof, will be subject to a statutory holder period of four months and one day from the issuance of the Convertible Debenture.

On August 22, 2022, the Company announced that it has restructured the terms of the secured convertible debenture financing closed on March 18, 2022 in the principal amount of \$2,222,222.

In connection with the Company's DFI Loan Facilities announced in January, the increased working capital requirements following the Company's entry into several Network as a Service agreements with MTN Group, and the Company's successful RFP selection and group framework agreement (GFA) with MTN Group, the secured lenders from the March Debenture Offering agreed to restructure the existing secured debt, extend the maturity date to August 19, 2023 and advance an additional \$900,000 to NuRAN. The restructuring gives the Company the flexibility to either convert or repay the obligations and thereby manage the financial impact leading to closing of the non-dilutive Loan Facilities. The Company entered into debt settlement agreements with each of the secured lenders pursuant to which the prior securities and agreements were cancelled and the company agreed to issue the following: (i) secured convertible debentures (the "New Debentures") in the aggregate principal amount of \$3,517,512 with a blended conversion price of approximately \$0.905 representing a 25% premium to the 5 day volume weighted average price of NuRAN's common shares with \$1,951,804 of the principal amount convertible at \$0.95 at the option of the debenture holder and the remaining principal amount convertible at a price of \$0.85, provided that if at any time while the debentures remain outstanding, the volume weighted average price of the common shares does not exceed \$0.85 for a period of 50 consecutive trading days, the Conversion Price will be reduced to \$0.73. \$1,398,278 of the principal amount of the debentures bears interest at a rate of 12% until maturity and the remaining principal amount does not bear interest until maturity; (ii) 2,694,667 share purchase warrants (the "New Warrants"), with each warrant exercisable to acquire one common share of the Company at an exercise price of \$1.10 until August 19, 2025; and (iii) 153,954 bonus common shares of the Company. In connection with the debt restructuring the secured lenders also agreed to forbear their right to enforce their security and accelerate payment of the debenture amounts under the terms of their security agreements and debentures issued pursuant to the March Debenture Offering relating to any technical default under the debentures due to the cease trade order issued in May 2022.

The Debentures may be prepaid by the Company at any time prior to the Maturity Date, upon ten business days' notice, subject to the Company paying a price equal to 103% of the principal amount of the Debentures then outstanding plus accrued and unpaid interest thereon. In connection with the Debenture Offering the Company also agreed to settle outstanding fees of \$220,979 by issuing a New Debenture in the same principal amount, 205,333 New Warrants, and 28,886 bonus common shares of the Company.

The Company has received \$500,000 of the proceeds advanced prior to closing and intends to use remaining net proceeds from the Offering to fund the continuation of rollout of its NaaS networks in Cameroon, the DRC and South Sudan, including the incorporation of new subsidiaries in South Sudan, Sudan and Namibia and set up costs associated with its recent

As at June 30, 2022 and July 31, 2021 (In Canadian dollars) (Unaudited)

agreements with MTN Group and for working capital purposes. Subject to completion of the DFI loan and the conversion rights of the debenture holders, the Company intends to repay the New Debentures prior to maturity.

Any securities issuable upon conversion or exercise of the New Debentures held by individual debenture holders, New Warrants, and bonus common shares will be subject to a statutory hold period of four months and one day from August 19, 2022.
