1 - GOVERNING STATUTES AND NATURE OF OPERATIONS

Nuran Wireless Inc. is incorporated under the Business Corporations Act (B.C.) and with its subsidiaries (together, the "Company") operates in the research, development, manufacturing, marketing and operation of digital electronic circuits and wireless telecommunication products and services to the mobile telephony industry.

Along with its subsidiaries, Nuran Wireless Cameroon Ltd., Nuran Wireless DRC S.A.R.L.U. and NuRAN Wireless (Africa) Holding, the Company provides products and services that help mobile network operators profitably serve off-grid markets that are currently not served. The strategy is to build and operate rural cellular infrastructure, monetizing the assets through a Network as a Service (NAAS) business model that has been developed by the Company and is seeing growing interest in a number of markets globally.

2 - GENERAL INFORMATION, STATEMENT OF COMPLIANCE WITH IFRSs AND GOING CONCERN ASSUMPTION

The Company's registered office is at 1000 – 595 Burrard Street, Vancouver BC V7X 1S8 and its place of business is at 2150, Cyrille-Duquet, suite 100, Québec (Québec) G1N 2G3.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Accordingly, they do not include all the disclosures required under IFRS for annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the 2021 audited annual financial statements. They are based on the assumption that the Company is a going concern, meaning it will be able to realize its assets and discharge its liabilities in the normal course of its operations.

During the nine-month period ended September 30, 2022, the Company incurred a net loss of \$8,369,386 and has a deficit of \$50,196,780 as at September 30, 2022. This reflects the significant and upfront nature of capital and operating expenditures in network infrastructure required of the NaaS model. In parallel to deploying this model the Company has taken significant steps forward in repositioning its operations however there is uncertainty that may cast doubts as to whether the Company will have the ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its capacity to continue to reposition its operations in line with the NaaS model and to obtain additional financing and execute the NaaS contracts for the

deployment of over 4,100 rural mobile sites signed from September 2020 to October 2022 with more in the pipeline.

The Company recently announced the approval by two separate Development Finance Institutions (DFIs) of a combined USD 27 million in credit facilities with final negotiations underway for the closing of loan documentation as at the date of these financial statements. In addition NuRAN completed a non-brokered private placement of convertible debentures and successfully restructured and extended a previous convertible debenture financing during the quarter. The Company is also advancing discussions with providers of equity finance to support the DFI finance and is about to launch a second tranche of loan financing which already has proven interest in the market. Each of these initiatives is evidence of the interest in the NaaS model as well as belief in the management team and will be transformative for the NuRAN business. There are however operational risks resulting in uncertainties that this plan will be implemented successfully. If the Company is unable to continue to successfully implement the above, there is a possibility that the Company may be unable to continue to realize on its assets and to discharge its liabilities in the normal course of operations.

The condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on November 29, 2022.

3 - SUMMARY OF ACCOUNTING POLICIES

Overall considerations

The accounting policies are in accordance with those used in the preparation of the 2021 annual financial statements.

Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the condensed interim financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the condensed interim financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's last annual financial statements for the year ended December 31, 2021.

As at August 19, 2022, the Company announced that it has restructured the terms of the secured convertible debenture financing closed on March 17, 2022 in the principal amount of \$2,235,465.

The Company entered into debt settlement agreements with each of the secured lenders pursuant to which the prior secured debentures, related security agreements and previously issued warrants from the March Debenture Offering were cancelled and the company agreed to issue the following to the secured lenders:

- (i) secured convertible debentures in the aggregate principal amount of \$3,517,512 (inclusive of all advances, accrued interest and default fees) with a blended conversion price of approximately \$0.905 representing a 25% premium to the 5 day volume weighted average price of NuRAN's common shares with \$1,951,804 of the principal amount convertible at \$0.95 at the option of the debenture holder and the remaining principal amount convertible at a price of \$0.85, provided that if at any time while the debentures remain outstanding, the volume weighted average price of the common shares does not exceed \$0.85 for a period of 50 consecutive trading days, the Conversion Price will be reduced to \$0.73. \$1,398,278 of the principal amount of the debentures bears interest at a rate of 12% until maturity and the remaining principal amount does not bear interest until maturity;
- (ii) 2,899,999 share purchase warrants, with each warrant exercisable to acquire one common share of the Company at an exercise price of \$1.10 for a term of three years;
- (iii) 182,840 bonus common shares of the Company.

In connection with the debt restructuring the secured lenders also agreed to forbear their right to enforce their security and accelerate payment of the debenture amounts under the terms of their security agreements and debentures issued pursuant to the March Debenture Offering relating to any technical default under the debentures due to the cease trade order issued in May 2022.

The debentures may be prepaid by the Company at any time prior to the Maturity Date, upon ten business days' notice to the debenture holder, subject to the Company paying a price equal to 103% of the principal amount of the Debentures then outstanding plus accrued and unpaid interest thereon

15 - POST-REPORTING DATE EVENTS

On October 6th, 2022, the Company announced that the European Investment Bank (EIB) formally approved its senior credit facility for a total of US\$18,000,000. The approval is expected to trigger the release of an additional EUR 8,000,000 senior secured credit facility with a second DFI for which final approval was already granted in July 2022. The combined proceeds are to be used for project expenditures relating to the installation of network infrastructure by NuRAN and roll out of up to 242 rural sites in Cameroon and 850 sites in Democratic Republic of the Congo (DRC) and will be provided to NuRAN Wireless (Africa) Holding in Mauritius which owns the two subsidiaries. Drawdown is subject to entering into formal loan agreements as well as compliance with a number of customary closing conditions, including the Company providing evidence of investing a minimum of USD\$ 6,000,000 in Cameroon and DRC which it has completed.

On October 31st NuRAN obtained a waiver from its debentureholders over the occurrence of an event of default concerning the DFI financing that was triggered as at October 31st. The waiver was in effect until November 15th and on November 15th the Company obtained a further waiver until December 15th.

Also on October 31st the Company was advised by the holders of its Convertible Debentures that the volume weighted average price of its common shares did not exceed \$0.85 for a period of 50 consecutive trading days and therefore the Conversion Price will be reduced to \$0.73.
