#### **1 - GOVERNING STATUTES AND NATURE OF OPERATIONS**

Nuran Wireless Inc. is incorporated under the Business Corporations Act (B.C.) and with its subsidiaries (together, the "Company") operates in the research, development, manufacturing, marketing and operation of digital electronic circuits and wireless telecommunication products and services to the mobile telephony industry.

Along with its subsidiaries, Nuran Wireless Cameroon Ltd., Nuran Wireless DRC S.A.R.L.U., NuRAN Wireless (Africa) Holding and Innovation Nutaq Inc., the Company provides products and services that help mobile network operators profitably serve off-grid markets that are currently not served. The strategy is to build and operate rural cellular infrastructure, monetizing the assets through a Network as a Service (NaaS) business model that has been developed by the Company and is seeing growing interest in a number of markets globally.

In 2021, Nuran Wireless Inc. ("NuRAN") modified its by laws to change its financial yearend from October 31 to December 31.

# 2 - GENERAL INFORMATION, STATEMENT OF COMPLIANCE WITH IFRSs AND GOING CONCERN ASSUMPTION

The Company's registered office is at 1000 – 595 Burrard Street, Vancouver BC V7X 1S8 and its place of business is at 2150, Cyrille-Duquet, suite 100, Québec (Québec) G1N 2G3.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. Accordingly, they do not include all the disclosures required under IFRS for annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the 2022 audited annual financial statements. They are based on the assumption that the Company is a going concern, meaning it will be able to realize its assets and discharge its liabilities in the normal course of its operations.

During the six-month period ended June 30, 2023, the Company incurred a net loss of \$6,175,514 which includes \$6,264 of non-cash costs which was determined to be the value of stock options, RSUs and performance warrants issued to key management personnel as part of their employment agreements entered into during 2021 and has a deficit of \$57,895,022 as at June 30, 2023. This reflects the significant and upfront nature of capital and operating expenditures in network infrastructure required of the NaaS model as well as historical historical operating losses for the business prior to the repositioning

As at June 30, 2023 and June 30, 2022 (In Canadian dollars) (Unaudited)

into NaaS. In parallel to deploying this model the Company has taken significant steps forward in restructuring and repositioning its operations however there is uncertainty that may cast doubts as to whether the Company will have the ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its capacity to continue to reposition its operations in line with the NaaS model and to obtain additional financing and execute the NaaS contracts for the deployment of over 4,600 rural mobile sites signed from September 2020 to January 2023.

As at the date of these financial statements, the Company is negotiating financing contracts with two Development Finance Institutions (DFIs). These represent a combined US\$ 27 million in available credit facilities for the deployment of a total of 850 and 242 rural mobile sites in the DRC and Cameroon respectively. In addition, NuRAN completed a non-brokered private placement of convertible debentures in 2022, successfully restructured and extended a previous convertible debenture financing during the year and obtained loan financing to help bridge the Company to obtaining the DFI financing. The Company has also initiated discussions with providers of equity finance to support the drawdown of further amounts under these agreements and has launched a second tranche of loan financing to support the rollout of additional mobile sites under its NaaS agreements. There are however operational risks resulting in uncertainties that this plan will be implemented successfully. If the Company is unable to continue to successfully implement the above, there is a possibility that the Company may be unable to continue to realize on its assets and to discharge its liabilities in the normal course of operations.

The condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on August 29, 2023.
