1. NATURE AND CONTINUANCE OF OPERATIONS

Deeprocks Minerals Inc. (the “Company”) is a mining property exploration company whose common shares trade on the Canadian Securities Exchange (“CSE”). On March 6, 2017, the Company changed its name to Deeprocks Minerals Inc. On November 14, 2018, the Company completed its initial public offering (“IPO”) dated July 24, 2018 and became a reporting issuer. On November 16, 2018, the Company commenced trading under the trading symbol “DEEP”. The Company was incorporated as a private company by Certificate of Incorporation issued pursuant to the provisions of the *British Columbia Business Corporations Act* on December 1, 2014.

The head office and principal office of the Company is located at Suite 500, Park Place 666 Burrard Street; Vancouver, BC V6C 3P6.

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. At February 29, 2020, the Company has not achieved profitable operations, has accumulated losses of \$1,450,440 since inception and expects to incur further losses in the development of its business. The above material uncertainties cast significant doubt about the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is dependent upon successful results from its operations, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

Subsequent to period-end, there was a global pandemic outbreak of COVID-19. The actual and threatened spread of the virus globally has had a material adverse effect on the global economy and, specifically, the regional economies in which the Company operates. The pandemic could continue to have a negative impact on the stock market, including trading prices of the Company’s shares and its ability to raise new capital. These factors, amongst others, could have a significant impact on the Company’s operations.

2. BASIS OF PRESENTATION

These financial statements are prepared in accordance and compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) applicable to the preparation of interim financial statements, including the International Accounting Standard (“IAS”) 34 – Interim Financial Reporting.

These financial statements are presented in Canadian dollars, which is the Company’s functional and reporting currency. These financial statements are prepared on a historical cost basis except for financial instruments classified as fair value through profit or loss (“FVTPL”), which are stated at their fair value.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. The areas involving higher degree of judgement of complexity, or areas where assumptions and estimates are significant to the financial statements. The most significant is the assumption that the Company is a going concern and will continue in operation for the foreseeable future and at least one year.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in the preparation of these financial statements set out below have been applied consistently with those used in the preparation of the audited financial statements as at November 30, 2019.

Accounting standards issued adopted during the period

The following new standard and interpretation adopted December 1, 2019.

On January 13, 2016, the IASB issued IFRS 16 *Leases* which requires entities to recognize lease assets and lease obligations on the balance sheet. IFRS 16 eliminates the classification of leases as either operating leases or finance leases for a lessee. Instead leases are “capitalized” by recognizing the present value of the lease payments and showing them either as lease assets (right-of-use assets) or together with property, plant and equipment. If lease payments are made over time, a company also recognizes a financial liability representing its obligations to make future lease payments. This standard is effective for reporting periods beginning on or after January 1, 2019.

The adoption of this standard did not have a material effect on the Company’s condensed interim consolidated financial statements.

4. EXPLORATION AND EVALUATION ASSETS

The following table summarizes the Company’s mineral property assets as at February 29, 2020 and November 30, 2019 and the changes for the three months ended February 29, 2020 and for the year ended November 30, 2019 and exploration expenditures for the three months ended February 29, 2020 and for the year ended November 30, 2019.

Ralleau Property

On April 5, 2017 and amended on March 15, 2018 and June 30, 2018, the Company entered into an option agreement with Megastar Development Corp. ("Megastar"), whereby Megastar granted the Company the right to acquire a 50% interest in and to the Ralleau Property located in the Quevillon area of Quebec. In order to acquire the 50% interest in the Ralleau Property the Company shall pay \$100,000 in cash, issue 1,700,000 common shares of the Company and incur \$250,000 in eligible exploration work as follows:

(a) Cash payment of \$100,000 and issuance of 1,700,000 common shares as follows:

- (i) \$5,000 on or before the execution of this agreement (paid);
- (ii) \$5,000 and 600,000 common shares on the earlier of the exchange listing date or August 31, 2018; (issued and paid subsequent to November 30, 2018)
- (iii) \$5,000 (paid) and 200,000 common shares (issued) on or before the first anniversary date of this agreement, April 5, 2018;
- (iv) \$10,000 (paid) and 400,000 common shares (issued) on or before the second anniversary date of this agreement, April 5, 2019;

6. CAPITAL DISCLOSURES

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity and cash as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to pay for general administrative costs, the Company will raise additional amounts as needed. The Company is not subject to any capital requirements imposed by a regulator. There has been no change in the Company's approach to capital management during the three months ended February 29, 2020.

7. LOANS PAYABLE

As at February 29, 2020, external parties had temporarily advanced \$8,650 (November 30, 2019: \$8,650) to the Company in order to finance its short-term operating expenses. These loans are non-interest bearing and have no fixed terms of repayment.

8. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, accounts payable and accrued liabilities, due to related party and loan payable. The fair values of cash, accounts payable, accrued liabilities, due to related party and loan payable approximate their carrying values due to their short-term nature of these instruments.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

The Company's credit risk was primarily attributable to bank balances. The Company limits its credit exposure on cash held in bank accounts firstly by holding its key transactional bank accounts with banks of international financial institutions.

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at February 29, 2020, the Company had cash balance of \$29,201 and current liabilities of \$375,974. All of the Company's financial liabilities are subject to normal trade terms. Management is considering different alternatives to secure adequate debt or equity financing to meet the Company short term cash requirement.

Interest risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market risk. The Company's sensitivity to interest rates is currently immaterial.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company holds no financial instruments that are denominated in a currency other than Canadian dollar. Accrued liabilities are denominated in Canadian currency. Therefore, the Company's exposure to currency risk is minimal.
