Allied Critical Metals is a private company incorporated under the laws of Ontario, Canada, having a registered office in Toronto, Ontario, which is engaged in the acquisition, exploration, and potential development of tungsten projects in Portugal. ACM owns, through its wholly owned Portuguese subsidiary, ACM Tungsten Unipessoal Lda. ("**PortCo**"), a Portuguese company named Pan Metals Unipessoal Lda. ("**Pan Metals**"), which beneficially owns 90% of the two historical and established Portuguese tungsten projects (the "**Tungsten Projects**"): the Borralha Tungsten Project; and the Vila Verde Tungsten Project. ACM has the right to purchase the remaining 10% of the Tungsten Properties at a discount. Borralha is comprised of a Mining License that allows for production of up to 150,000 tonnes per year of mineralized material covering an area of 382.5 hectares (3.8 sq. km). Vila Verde is comprised of an Experimental Exploration License area covering 1,400 hectares (14 sq. km). Both properties were past producing mines which have excellent infrastructure including paved and gravel roads, electricity, water, nearby skilled labour and the ability to use existing waste dumps.

ACM has raised approximately \$3.5 million in equity financing over the past 18 months of which over \$3.25 million has been spent on 3,685m drilling and other exploration and the acquisition of the Tungsten Projects, which includes a recent aggregate investment of approximately \$480,000 strategic investment by Majestic Gold Corp. (TSXV: MJS) ("**Majestic**") (see <https://majesticgold.com>) and some of its significant shareholders. Majestic has over 13 years' experience itself in building and operating underground and open pit mines. ACM believes its relationship with Majestic will be helpful as ACM progresses its projects through exploration and development towards the goal of eventual production.
