CleanGo Innovations to Showcase Eco-Friendly CG-100 at AOG Patagonia 2024 Expo with Indioquimica S.A.

Vancouver, BC – October 17, 2024 - CleanGo Innovations Inc. (CSE:CGII) (OTC:CLGOF) (FRA:APO2) (“CleanGo”) or (the “Company”) a leader in green certified eco-friendly industrial, commercial and household cleaning solutions, is pleased to announce that Indioquimica S.A., a renowned Argentine chemical company, will represent and showcase CleanGo’s breakthrough product, CG-100, at the Argentina Oil & Gas (AOG) Patagonia 2024 Expo in Neuquén, Argentina.

CEO Commentary:

"We're excited to have Indioquimica S.A. showcase our CG-100 at one of the biggest oil and gas events in South America," said **Anthony Sarvucci**, CEO of CleanGo Innovations. "Their expertise and strong market presence in South America make them the perfect partner to introduce our new, green certified, environmentally responsible cleaning solutions to key players in the oil and gas industry. We continue to place emphasis on the industrial application of CG-100 and believe this focus will drive sustainable revenue generation in 2025."

CG-100: A new product for the Oil & Gas Industry

CleanGo’s **CG-100** is an eco-friendly solution designed to tackle the unique challenges of the oil and gas industry, from improving waterflood efficiency to cleaning wellbores and flowlines. CleanGo products are certified by **Green Seal** and our CG-100 offers a range of applications including:

- **Reservoir Waterflood Enhancement:** Improves sweep efficiency by reducing interfacial tension and easing wettability concerns for hydrocarbon passage through the reservoir.
- **Wellbore Tubular Cleaning:** Effectively clears wax deposits, restoring flow and production.
- **Flowline Cleaning:** Ensures efficient operations with eco-friendly maintenance solutions.
- **Facility Cleaning (Turnaround and Maintenance):** Provides environmentally friendly cleaning solutions for facility turnarounds and routine maintenance
- **Historical Perforation/Frac Port Cleaning:** Through a surfactant soak, the eco-friendly product cleans damage from existing perforations to reconnect the reservoir flow paths to the wellbore.

- **Completion Systems: Frac Spearheading/Acid Enhancement:** Augments the effectiveness of acid treatments.
- **Facility Cleaning (Turnaround and Maintenance):** Provides an environmentally friendly cleaning solution for facility turnarounds and routine maintenance.
- **Diluent Replacement for Well Abandonments:** Offers a safe and environmentally responsible alternative to traditional diluents used in well abandonment procedures.
- **General Cleaning:** CG-100 is a versatile cleaning solution for various auxiliary services in the oilfield.

Sustainability at the Core: Indioquimica S.A.

"We're proud to represent CleanGo Innovations at AOG Patagonia," said **Mariano Castro**, CEO of Indioquimica S.A. "CG-100 offers a sustainable alternative to traditional chemicals, and we look forward to demonstrating how it can help oil and gas companies reduce their environmental impact while operating more efficiently."
