NON-OFFERING PROSPECTUS

August 22, 2017

**Green 2 Blue Energy Corp.  
(formerly, Brigade Resource Corp.)  
(the "Company")**

This Prospectus (the "**Prospectus**") is being filed with the British Columbia and Alberta Securities Commission for the purpose of complying with Policy 2 – *Qualification for Listing* published by the Canadian Securities Exchange (the "**Exchange**").

No securities are being offered pursuant to this Prospectus. This Prospectus is being filed with the British Columbia and Alberta Securities Commissions for the purpose of providing full public disclosure regarding the acquisition by the Company of all of the securities of G2BE Canada Inc. ("**TargetCo**"), a private British Columbia company, and the plans to seek a listing on the Canadian Securities Exchange (the "**Listing**"). As no securities are being offered pursuant to this Prospectus, no proceeds will be raised in connection with this Prospectus.

**There is no market through which the securities of the Company may be sold. This may affect the pricing of the Company's securities in the secondary market, the transparency and availability of trading prices, the liquidity of the Company's securities and the extent of issuer regulation. See "Risk Factors".**

**The Company has applied to list its common shares on the Exchange. Listing will be subject to the Company fulfilling all of the listing requirements of the Exchange, including without limitation, the distribution of the Company's common shares to a minimum number of public shareholders and the Company meeting certain financial and other requirements.**

**No underwriters or selling agents have been involved in the preparation of this Prospectus or performed any review or independent due diligence of the contents of this Prospectus.**

As of the date of this Prospectus, the Company does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, a U.S. marketplace, or a marketplace outside of Canada and the United States of America (other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc).

Unless otherwise noted, all currency amounts in this Prospectus are stated in Canadian dollars.

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus contains "forward-looking information" within the meaning of applicable securities legislation. Forward-looking information may include, but is not limited to, assumptions about general business and economic conditions, changes in financial markets generally, the Company's ability to attract and retain skilled staff, government regulation of wood pellet production operations, environmental risks, limitations on insurance coverage and the completion of regulatory approvals. In certain cases, forward-looking information can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information in this Prospectus includes, among other things, proposed expenditures for research and development work for the Company's operations, general and administrative expenses, the ability of the Company to raise further capital for corporate purposes and the utilization of the net proceeds of the Concurrent Financing. See "Narrative Description of the Business – Recommendations", "Available Funds and Use of Available Funds" and "Risk Factors" below.

Such forward-looking statements are based on a number of material factors and assumptions, including, but not limited in any manner, to those disclosed in any other of the Company's public filings and those about general business and economic conditions, changes in financial markets generally, the Company's ability to attract and retain skilled staff and the Company's capital expenditure program. While the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect. Actual results may vary from such forward-looking information for a variety of reasons, including but not limited to, risks and uncertainties disclosed in this Prospectus. See "Risk Factors" below. The Company has no specific policies or procedures for updating forward-looking information. Forward-looking statements are based upon management's beliefs, estimates and opinions on the date the statements are made and, other than as required by law, the Company does not intend, and undertakes no obligation, to update any forward-looking information to reflect, among other things, new information or future events.

Investors are cautioned against placing undue reliance on forward-looking statements.

## SUMMARY OF PROSPECTUS

*The following is a summary of the principal features of this Prospectus and should be read together with the more detailed information and financial data and statements contained elsewhere in this Prospectus.*

**The Company:** The Company was incorporated as a wholly-owned subsidiary of Voltaire pursuant to the BCBCA on October 9, 2014 under the name "Brigade Resource Corp.". Its head office is located at Suite 1518, 800 West Pender Street, Vancouver, British Columbia, V6C 2V6 and its registered and records office is located at Lotz & Company, Suite 1170, 1040 West Georgia Street, Vancouver, British Columbia, V6E 4H1.

On November 20, 2014, the Company entered into the Arrangement Agreement with Voltaire and Brigadier. The Arrangement Agreement contemplated the Arrangement whereby the Company would become a reporting issuer in the provinces of Alberta and British Columbia and Brigadier would become a wholly-owned subsidiary of the Company. The Arrangement was approved by the Supreme Court of British Columbia on January 5, 2015 and was completed on July 6, 2015.

Brigadier was incorporated pursuant to the BCBCA on August 13, 2014 under the name "Brigadier Exploration Corp."

On March 3, 2017, the Company's subsidiaries, Brigadier Exploration Corp., Battalion Capital Corp. and Hussar Exploration Corp. merged with the Company through a vertical short form amalgamation, which was approved by the Company's Board of Directors on March 2, 2017.

On July 21, 2017, the Company changed its name to "Green 2 Blue Energy Corp."

**The Company's Business:** The Company was previously engaged in the business of mineral exploration and the acquisition of mineral property assets in Ontario through its subsidiary, Brigadier. The Company has since terminated all of its mineral property interests and does not carry on an active business.

The Company's present objective is to evaluate potential business opportunities in the renewable energy sector and to become a listed company on the Exchange.

To this end, the Company entered into the Acquisition Agreement with TargetCo, a private British Columbia company incorporated on May 30, 2014. The Company is now engaged in the production of wood pellets used for generating heat and power, at its facility in Rzeczenica, Poland.

**The Acquisition and Acquisition Agreement:** The Company entered into a non-binding letter of intent with TargetCo dated December 2, 2016, which described the essential terms and conditions of a proposed reverse-takeover transaction whereby the Company would acquire all of the issued and outstanding common shares in the capital of TargetCo. This non-binding letter of intent was later replaced and superseded by the Acquisition Agreement. The Acquisition was approved by written consent resolutions of each of the Boards of Directors of the respective parties. The Acquisition was completed on the July 21, 2017.

The Company acquired a 100% interest in TargetCo pursuant to, on the terms and subject to the conditions set out in the Acquisition Agreement, a copy of which is available under the Company's profile on SEDAR. Pursuant to the terms of the Acquisition Agreement, upon the Closing of the Acquisition:

- (a) TargetCo, as attorney for the TargetCo Shareholders, delivered share certificates representing all of the issued and outstanding TargetCo Shares along with duly executed instruments of transfer to the Company;
- (b) As consideration and in exchange for the TargetCo Shares, the Company issued a

corresponding number of Company Shares to the TargetCo Shareholders at a deemed price of \$0.10 per Company Share;

- (c) The share certificates representing the TargetCo Shareholders' TargetCo Shares were cancelled and a single share certificate was issued to the Company showing that the Company is the sole holder of all of the issued and outstanding TargetCo Shares, being 47,000,002 TargetCo Shares; and
- (d) TargetCo became a wholly-owned subsidiary of the Company.

At the Closing, the Company issued an aggregate 47,000,002 Company Shares to the TargetCo Shareholders on the basis of one Company Share for every one TargetCo Share. Upon completion of the Acquisition, the TargetCo Shareholders held approximately 76.96% (66.38% fully diluted) of the issued and outstanding Company Shares and became shareholders of the Company.

**Inter-corporate Relationships:**

The diagram below describes the inter-corporate relationship between the Company and TargetCo post-Acquisition:

**Management, Directors and Officers:**

The directors and officers of the Company are:

- Slawek Smulewicz – President, Chief Executive Officer, Director
- Michael Young – Chief Financial Officer, Director
- Glenn Little – Director
- Jon Sherron – Director

**Loan to TargetCo:** As of May 24, 2017, the Company has loaned TargetCo the principal amount of \$174,172.30 (the "**Bridge Loan**") for working capital purposes. The Bridge Loan is due and payable in full by TargetCo on December 5, 2017 and shall bear simple interest at the rate of 5% per annum.

**Concurrent Financing:** On August 1, 2017, the Company completed an equity financing by way of private placement relying on the prospectus and registration exemptions pursuant to NI 45-106 and other applicable laws, rules and regulations to issue 8,348,000 units of the Company at a price of \$0.10 per unit to raise gross proceeds of \$834,800. Each unit consisted of one Company Share and one common share purchase warrant, each warrant entitling the holder thereof to purchase one Company Share for the price of \$0.10 per share during the twelve-month period following the closing of the Concurrent Financing and thereafter one Company Share for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the closing of the Concurrent Financing.

**Funds Available and Use of Available Funds:** The gross proceeds received by the Company from the Concurrent Financing were \$834,800. The total funds available to the Company at the closing of the Concurrent Financing, after deducting \$324,800 used to re-start pellet operations and cover administrative costs for office rent, legal fees, finder's fees, its listing application, accounting and audit services and including the Company's working capital of \$10,000 as at July 31, 2017, are \$520,000. To the extent that the Company has negative operating cash flow in future periods, the Company may use a portion of the unallocated capital referenced in the table below to fund such negative operating cash flow. The principal purposes for the use of those funds for the next twelve months will be as follows:

<b>Item</b>	<b>Amount (\$)</b>
<b>Funds Available:</b>	
Working capital of the Company as at July 31, 2017	10,000
Net proceeds from the Concurrent Financing	500,000
<b>Total:</b>	<b>510,000</b>
<b>Principal Purposes for use of Funds Available:</b>	
Estimated cost of prospectus and CSE listing	100,000
Facility upgrades, product development and production	310,000
General and administrative costs <sup>(1)</sup>	50,000
Unallocated working capital	50,000
<b>Total:</b>	<b>510,000</b>

Note:

(1) Administrative costs include office rent, management, consulting and administration services and fees, miscellaneous office and supplies, transfer agent, legal, accounting and audit expenses.

The Company intends to spend the funds available to it as stated in this Prospectus. There may be circumstances, however, where for sound business reasons a reallocation of funds may be necessary. Use of the Company's working capital and proceeds from the Concurrent Financing will be subject to the discretion of management.

**Summary of Financial Information:** The following selected financial information is subject to the detailed information contained in the audited financial statements of the Company and TargetCo and the notes thereto appearing elsewhere in this Prospectus. The selected financial information is derived from and should be read in conjunction with: (i) the Company's audited financial statements for the financial years ended March 31, 2015, 2016 and 2017; (ii) the Company's unaudited interim consolidated financial statements for the period ended December 31, 2016; (iii) TargetCo's audited consolidated financial statements for the financial years ended June 30, 2015 and June 30, 2016; (iv) TargetCo's unaudited interim consolidated financial statements for the period ended March 31, 2017; and (v) the pro forma consolidated interim financial statements of the Company as of March 31, 2017.

As at March 31, 2017	Company (\$)	TargetCo (\$)	Pro Forma Adjustment (\$)

See "Pro Forma Consolidated Financial Information" below.

**Risk Factors:**

An investment in the Company should be considered highly speculative and involves a substantial degree of risk due to the nature of the business of the Company. These risks, uncertainties and other factors, many of which are beyond the control of the Company that could influence actual results include, but are not limited to: limited operating history, reliance on management, requirements for additional financing, competition, difficulty in forecasting sales, conflicts of interest, litigation, price fluctuation of the Company's securities, no earnings or dividend record, limited market for the Company's securities, intellectual property rights, low barriers to entry, changes in governmental and legal uncertainties, acquisitions, risks related to international operations, protecting intellectual property rights and other factors. See "Risk Factors" below.

**Currency:**

Unless otherwise indicated, all currency amounts herein are stated in Canadian Dollars.

## CORPORATE STRUCTURE

### Name, Address and Incorporation

Green 2 Blue Energy Corp. was incorporated pursuant to the BCBCA on October 9, 2014 as "Brigade Resource Corp.". On July 14, 2017, the Company changed its name to "Green 2 Blue Energy Corp."

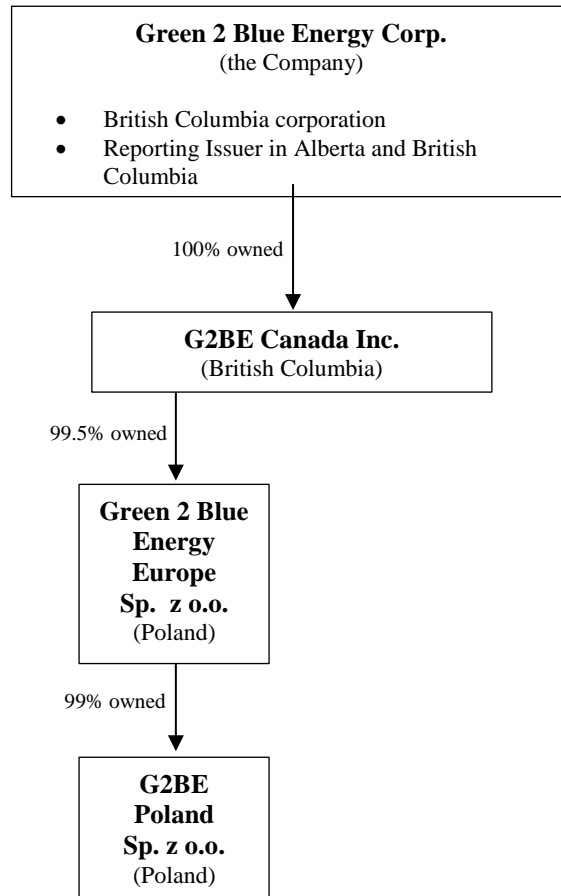

The Company was incorporated as a wholly-owned subsidiary of Voltaire. On November 20, 2014, the Company entered into the Arrangement Agreement with Voltaire and Brigadier. The Arrangement Agreement contemplated the Arrangement whereby the Company would become a reporting issuer in the provinces of Alberta and British Columbia and Brigadier would become a wholly-owned subsidiary of the Company. The Arrangement was approved by the Supreme Court of British Columbia on January 5, 2015 and was completed on July 6, 2015.

On March 3, 2017, the Company merged with its subsidiaries Brigadier Exploration Corp., Battalion Capital Corp. and Hussar Exploration Corp. by way of a vertical short form amalgamation. The Amalgamation was approved by the Company's Board of Directors on March 2, 2017.

On July 21, 2017, the Company completed the Acquisition with TargetCo. Consequently, the Company now has three subsidiaries: (i) TargetCo, which was incorporated under the BCBCA on May 30, 2014; (ii) Green 2 Blue Energy Europe Sp. z o.o. ("G2BEE"), which is 99.5% owned by TargetCo and was incorporated under the laws of Poland on October 13, 2014; and (iii) G2BE Poland Sp. z o.o., which is 99% owned by G2BEE and was incorporated under the laws of Poland on June 28, 2016. The Company's head office is located at Suite 1518, 800 West Pender Street, Vancouver, British Columbia, V6C 2V6 and its registered and records office is located at Lotz & Company, Suite 1170, 1040 West Georgia Street, Vancouver, British Columbia, V6E 4H1.

### Intercorporate Relationships

The diagram below describes the intercorporate relationship between the Company and its subsidiaries following the completion of the Acquisition.

## GENERAL DEVELOPMENT OF THE BUSINESS

### **Business of the Company**

The Company currently operates in the renewable energy marketplace and is focused on low cost wood pellet production through the integration of biomass gasification technology. See "Narrative Description of the Business" below.

### **History**

#### ***Private Placement Financings***

Subsequent to its incorporation and up to December 16, 2016, the Company completed private seed capital equity financing, raising aggregate gross proceeds of approximately \$720,390. The funds were used for general working capital purposes and for the acquisition of mineral properties through several property option agreements (see "Business of the Company" below).

On August 1, 2017, the Company completed the Concurrent Financing to raise gross proceeds of \$834,800 through the issuance of 8,348,000 units at a price of \$0.10 per unit, pursuant to available prospectus and registration exemptions under NI 45-106 and other applicable laws, rules and regulations. Each unit consisted of one Company Share and one common share purchase warrant, each warrant entitling the holder thereof to purchase one Company Share for the price of \$0.10 per share during the twelve-month period following the closing of the Concurrent Financing and thereafter one Company Share for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the closing of the Concurrent Financing.

#### ***Bridge Loan***

Pursuant to the Acquisition Agreement, on January 16, 2017, the Company loaned TargetCo the principal amount of \$174,172.30 (the "**Bridge Loan**") for working capital purposes. The Bridge Loan is due and payable in full by TargetCo on December 5, 2017 and shall bear simple interest at the rate of 5% per annum.

#### ***Amalgamation of Subsidiaries***

On March 3, 2017, the Company merged with its wholly-owned subsidiaries Brigadier, Battalion and Hussar by way of a vertical short form amalgamation. The Amalgamation was approved by the Company's Board of Directors on March 2, 2017. Upon completion of the Amalgamation, the Company remained as a single corporate entity with no subsidiaries.

### ***Business of the Company***

The Company was previously engaged in the business of mineral exploration and the acquisition of mineral property assets in Ontario through its subsidiary, Brigadier. To this end, Brigadier entered into the following property option agreements (the "**Property Option Agreements**") with Voltaire:

1. Surprise Lake, dated April 15, 2015;
2. Boyer Lake, dated April 15, 2015;
3. Brooks Lake, dated April 15, 2015; and
4. Joyce River, dated July 27, 2015.

The execution of each of the Property Option Agreements gave the Company the option to acquire a 100% interest in and to the mineral claims comprising each of the above-named properties. Due to challenges in the mining industry, the Company chose not to exercise its options and formally acknowledged the termination of each Property Option Agreement on February 21, 2017.

Upon the Closing of the Acquisition, the Company became engaged in the business of wood pellet production in Poland. The Company's present objective is to evaluate further potential business opportunities in the renewable energy sector and to become a listed company on the Exchange.

### ***Business of TargetCo***

On December 12, 2014, G2BEE was granted permission (the "Permit") by the Czuluchów County Commissioner to process up to 220,000 tonnes of biomass per year, from which 205,000 tonnes can be used for the purpose of pellet production and 15,000 tonnes for energy generation. The Permit will remain valid until November 30, 2024. Subsequently, that same month TargetCo acquired and installed its initial pellet mill equipment, allowing for capacity to produce up to 1,800 tonnes a month of residential or commercial wood pellets. Over the next several months, TargetCo started its first residential pellet production on a small scale to focus on perfecting product, including market specifications, analysis, heat values and production line efficiency. In September 2015, the Company slowly increased production, eventually ramping up to approximately 350 tonnes of residential pellet production in the month of December 2015. All pellets were sold to local buyers within 30 days.

During the months of January 2016 through October 2016, the company focused on upgrades to its production facility including the purchase and installation of a new high efficiency drying system for its residual sawdust feedstock used in production. Between July, 2016 and December 2, 2016, TargetCo temporarily limited its operations in order to focus on raising working capital to achieve business growth objectives and larger scale production. To this end, in October 2016, TargetCo began discussions to secure both a steady supply of feedstock (wet sawdust) and purchase orders to re-start production. TargetCo also began discussing the Acquisition and the Bridge Loan with the Company and entered into a non-binding letter of intent with the Company on December 2, 2016, which was later replaced by a binding Acquisition Agreement. As a result of the Bridge Loan being advanced to TargetCo by the Company, TargetCo was able to re-start wood pellet production in December 2016 and has continued production since that time.

On November 9, 2016 G2BEE signed its first purchase order contract with Biomasa Partners Sp. z o.o. for up to 1,800 tonnes of pellets per month, which purchase order contract will continue for an indefinite term until terminated by giving notice of no less than 3 months. G2BEE started production and delivery in December 2016 with 190 tonnes of residential pellets and intends to incrementally ramp up production to 1,800 tonnes per month by October 2017.

Upon the Closing of the Acquisition, the Company took up TargetCo's operations and business. The Company intends to use the proceeds of the Concurrent Financing to increase production. The proceeds of the Concurrent Financing became available to the Company on August 1, 2017.

### **Significant Acquisitions and Dispositions**

#### ***Acquisition of Brigadier***

The Company acquired a 100% interest in Brigadier pursuant to, on the terms and subject to the conditions set out in the Arrangement Agreement, a copy of which is available under the Company's profile on SEDAR. Pursuant to the Arrangement Agreement, Brigadier acquired all of the issued and outstanding shares of the Company from Voltaire and the Company acquired all of Brigadier's issued and outstanding common shares in exchange for Company Shares at an exchange rate of one Company share for each common share in the capital of Brigadier. Upon the completion of the Arrangement, Brigadier became a wholly-owned subsidiary of the Company.

#### ***Acquisition of TargetCo***

The Company acquired a 100% interest in TargetCo pursuant to, and on the terms and subject to the conditions set out in, the Acquisition Agreement, a copy of which is available under the Company's profile on SEDAR. Pursuant to the Acquisition Agreement, the Company issued an aggregate 47,000,002 Company Shares to the TargetCo Shareholders. The Acquisition was approved by a written consent resolution of the Boards of Directors of the respective parties. Upon completion of the Acquisition, the TargetCo Shareholders became securityholders of the Company.

#### **The Acquisition Agreement**

The Company entered into a non-binding letter of intent with TargetCo dated December 2, 2016, which described the essential terms and conditions of a proposed reverse-takeover transaction whereby the Company would acquire all of the issued and outstanding common shares in the capital of TargetCo. This non-binding letter of intent was replaced and superseded on January 16, 2017 by the Acquisition Agreement.

The Acquisition Agreement contemplated a share exchange at a ratio of two (2) shares of the Company for every share of TargetCo, pursuant to which the Company acquired all of the issued and outstanding shares of TargetCo on terms

more particularly set forth in the Acquisition Agreement.

Upon completion of the Acquisition, the TargetCo Shareholders held 47,000,002 Company Shares. It is expected that 31,520,602 Company Shares will be subject to escrow.

#### Pre-Acquisition and Post-Acquisition Events

Upon the terms and subject to the conditions set forth in the Acquisition Agreement, the following occurred:

1. The Company loaned TargetCo the principal amount of \$174,172.30 for working capital purposes;
2. The Company filed a preliminary prospectus with the Principal Regulator;
3. The Company's preliminary prospectus and preliminary receipt are available on SEDAR under the Company's profile;
4. TargetCo completed the Forward Stock-Split; and
5. The Company closed the Concurrent Financing.

Upon the terms and subject to the conditions set forth in the Acquisition Agreement, the following shall occur:

1. The Company will file an amended and restated preliminary prospectus with the Principal Regulator.
2. Upon receiving the receipt for the amended and restated preliminary prospectus, the amended and restated preliminary prospectus and receipt will be available on SEDAR under the Company's profile.
3. The Company will file the necessary documents with the Exchange to receive conditional approval from the Exchange for the listing of the Company Shares on the Exchange;
4. The Company will file a final prospectus with the Principal Regulator;
5. Concurrent with filing the final prospectus with the Principal Regulator, the Company will file the necessary documents with the Exchange to receive final Exchange approval for the listing of the Company Shares on the Exchange; and
6. Upon receiving the final receipt from the Principal Regulator, the final prospectus and the final receipt will be available on SEDAR under the Company's profile.

#### Acquisition Events

Upon the terms and subject to the conditions set forth in the Acquisition Agreement, at the Closing of the Acquisition:

1. TargetCo, as attorney for the TargetCo Shareholders delivered share certificates representing all of the issued and outstanding TargetCo Shares along with duly executed instruments of transfer to the Company;
2. As consideration and in exchange for the TargetCo Shares, the Company issued a corresponding number of Company Shares to the TargetCo Shareholders at a deemed price of \$0.10 per Company Share;
3. The share certificates representing the TargetCo Shareholders' TargetCo Shares were cancelled and a single share certificate was issued to the Company showing that the Company is the sole holder of all of the issued and outstanding TargetCo Shares, being 47,000,002 TargetCo Shares; and
4. TargetCo became a wholly-owned subsidiary of the Company.

## NARRATIVE DESCRIPTION OF THE BUSINESS

### Business of the Company

The Company currently operates in the renewable energy marketplace and is focused on low cost wood pellet production through the integration of biomass gasification technology. Through its subsidiaries TargetCo, Green 2 Blue Energy Europe Sp. z o.o. ("G2BEE") and G2BE Poland Sp. z o.o., the Company owns and operates a wood pellet production facility in Rzeczenica, located in north-western Poland.

Across Europe, sustainable energy policies have been driving demand in the manufacturing and production of wood pellets. Wood pellets are created from those portions of trees that have been traditionally discarded as waste. In the pellet manufacturing process, residual sawdust, chips, bark, branches and stems are compacted into small pellets, anywhere from 6 millimeters to 8 millimeters in diameter and 20 millimeters to 30 millimeters in length. Generally, these pellets will be burned as fuel for large scale municipal boilers and energy producers across Europe and the United Kingdom, thereby replacing coal and similar fossil fuels as a primary generator of electricity.

Biomass or wood waste pellets typically composed of saw dust residuals have proven to be a viable renewable energy alternative to conventional fossil fuel for many years now. With the steady decline and retrofit of coal fired facilities over to biomass the global market has grown enormously over recent years and is expected to continue at an 11% compound annual growth rate through 2019<sup>1</sup>.

The Company's operation strategically lies 200 kilometers east from the Polish/German border in the dense forest area of North Western Poland. There are shipping port services north-east of the facility in both the city of Gdansk and a port facility with year-round accessibility in Kolobrzeg. G2BEE's current pellet production line is a customized installation that was designed to G2BEE's specifications by an ISO 9001 certified manufacturer that specializes in the design, fabrication and installation of biomass processing equipment. All components of the production line were manufactured in 2012 for use in this project. The production capacity of the three granulators fluctuates in the range from 3.5 tonnes to as much as 4 tonnes per hour. Current production capacity is up to 1,800 tonnes of pellets per month.

G2BEE analyzes, verifies and certifies its pellets once per day during production hours to ensure it meets all the required energy values and standards for its purchasers. It recently incorporated the ENplus methodology for all of its pellet production. ENplus is a multinational certification standard for wood pellets and considered to be the highest standard of certification in the industry. G2BEE feels this currently provides a competitive advantage over other pellet manufactures in both Europe and North America that are still using older standards.

In addition to developing the ENplus standard in order to regulate the quality of wood pellets, the European Union and major European utility companies are developing certification schemes to ensure the sustainability of wood pellets. In 2013, the European Union promulgated the EU Timber Regulation to prohibit illegal timber from entering the European Union markets. That same year, many of the major European utility companies formed the Sustainable Biomass Partnership (SBP) to harmonize national sustainability standards and develop one universal standard. In furtherance of that goal, SBP has released six standards, each governing a different element of the supply chain.<sup>2</sup>

On November 9, 2016 G2BEE signed its first purchase order contract with Biomasa Partners Sp. z o.o. to start production and delivery of 190 tonnes of residential pellets per month commencing in December 2016, and intends to incrementally ramp up production to 1,800 tonnes per month by October 2017.

To coincide with the closing of its current financing G2BEE is in discussions with other European power companies to supply larger quantities of pellets. Over the next financial year the Company intends to continue with additional equipment upgrades to increase production capacity up to 2,400 tonnes a month in order to meet its expected ongoing product demand. The Company is also looking to expand its use of biomass gasification technology through the further utilization of such technology in its business. To this end, the Company is currently exploring various options in regards to realizing its biomass gasification technology interests.

## **Operations**

The Company is based in Vancouver, British Columbia and operates through three subsidiary companies; see "Intercorporate Relationships" above.

Through its subsidiary G2BEE, the Company owns and operates a wood pellet production plant located in Rzeczenica, Poland. The 27,000 square foot facility currently houses a complete production line, a warehouse for raw material and a storage area for finished product. A large area remains available for future expansion plans.

The Company currently leases the 6.67 hectare property it operates on, with a first right of refusal option to purchase the land at a fixed price of 1.823 million polish zloty (PLN) (approximately \$645,000 CAD) plus value added tax, which is refundable once purchased. Currently, the Company pays a monthly lease of 25,000 PLN (approximately \$8,845 CAD) plus value added tax. Purchasing of the premises will provide up to an additional \$264,000 (CAD) savings for the next three years due to a special municipal incentive for new entrepreneurs purchasing local premises that focus on the production of goods. These new business owners are freed of the local land tax for a period of three to five years, depending on the number of new jobs created.

The Company does not have any immediate plans to use its first right of refusal option to purchase the property it operates on, however, it does intend to purchase the property at some point by utilizing future cash flows generated by pellet sales or through raising additional capital.

G2BEE is strategically located 200 kilometers east from the Polish/German border in the dense forest area of North Western Poland. There are shipping port services north-east of the facility in both the city of Gdansk and a port facility with year-round accessibility in Kolobrzeg, located approximately 155 and 120 kilometers away from the Company's operations, respectively.

## **Competition and Markets**

Wood pellets are a popular form of sustainable energy within the European Union because they are regarded as having a smaller carbon footprint than traditional fossil fuels and coal. With the introduction of the EU's Renewable Energy Directive ("RED") in 2009, demand for wood pellets has increased exponentially. With RED, the EU created 20/20/20 targets for the year 2020 which has objectives to: reduce greenhouse gas emissions by 20 percent compared to emission levels in the year 1990, increase renewable energy use to 20 percent, and improve energy efficiency by 20 percent. Each European Union country will have its own individualized target.

In 2016, the wood pellet market in Europe reached a size of 19 million tons per annum ("Mtpa"), while production capacity stood at 23.5 Mtpa, and consists of two largely independent sectors with only limited interaction. The industrial market is focused on large-scale bioenergy generation, while the premium market is focused on small-scale residential and commercial heat generation.

### ***Industrial Markets***

The use of pellets for industrial-scale energy generation has not been widely adopted across Europe, with the United Kingdom, Denmark, Belgium and the Netherlands leading the market. Nevertheless, this sector accounted for 51 percent (9.7 Mtpa) of total pellet demand in Europe in 2016. Demand is likely to reach levels of between 12.4 Mtpa and 20.2 Mtpa by 2025, depending on some outstanding political decisions.

However, governments often do not regard large-scale biopower generation as a long-term option, and in the United Kingdom and the Netherlands, support for these plants will begin to end in 2027 and 2028 as things stand currently. Governments should start recognizing the importance of this industry sector that is able to provide baseload power to electricity networks, compensating for an increasing share of intermittent energy sources. Support schemes should be extended at appropriate levels to avoid having most of these large-scale biopower plants become uneconomical.

Supply of pellets to the industrial market from directly within Europe is limited, with only the Baltics and Portugal playing a relevant role. In total, this European production capacity amounts to just 2.6 Mtpa, covering only a small portion of the demand in the industrial market.

### ***Premium Markets***

Total demand in Europe has grown steadily and reached around 9.4 Mtpa in 2016. This market segment is expected to continue growing as EU member states work toward achieving their heating and cooling targets under RED. Demand for premium pellets is expected to reach levels of between 10.1 Mtpa and 16.4 Mtpa by 2020 and 2021 as a result.

Currently, most EU member states still have not yet formalized their renewable heat strategies out past 2020 and any demand predictions beyond then is considered speculative in nature. It is clear, though, that biomass heating will continue to play a key role in meeting any future renewable heating targets.

To date, European premium pellet markets have been supplied by small and medium scale pellet mills (average 55,000 Mtpa), often through traders, wholesalers and distributors. This market segment has to cope with considerable overcapacity and low utilization rates across an estimated 20.9 Mtpa of capacity. Exposure to raw material price fluctuations is also of concern for many producers, especially those who are independent, with sawmills increasingly establishing their own pellet production capacity.

Some producers are also concerned about the threat of pellet imports from overseas, as mills in regions such as the Southeast United States and Russia can supply at competitive price levels and, in many cases, have already gained ENPlus certification.

In summary, the Company's competitive advantages lie in a unique combination of:

- Existing Technologies – The use of biomass gasification technology to significantly reduce the cost of pellet production by providing both power to operate the facility and exhaust heat to dry feedstock. Surplus electricity can be sold to the grid.
- Feedstock Availability – The G2BEE production facility is situated in the dense forest region of Pomeranian, where there are hundreds of wood production facilities and saw mills that have an abundance of sawdust and woodchips available feedstock.
- Low Transportation Cost – The township of Rzeczenica is strategically located in North Eastern Poland and close to the German border and two shipping ports, in Gdansk and Kolobrzeg.
- High Regional Market Demand – European demand for wood pellets is forecasted to increase year over year for the foreseeable future. Approximately 75% of the pellets produced world-wide are used in Europe, while conversely only 51% of the world's pellets are produced in Europe.
- Incentives – Government subsidies and mandates to switch from fossil fuels to clean energy sources.
- Product Standards – The use of ENplus methodology and certification.

According to “BioEnergy International” EU pellet production covered 70% of EU demand in 2015.

### **Intellectual Property**

The Company maintains trade secrets in respect of its biomass drying and wood pellet production procedures. At this time, the Company does not have any registered trademarks

### **USE OF PROCEEDS**

This is a non-offering prospectus. The Company is not raising any funds in conjunction with this Prospectus. Accordingly, there are no proceeds to the Company in connection with the filing of this Prospectus.

### **Funds Available and Use of Available Funds**

The gross proceeds received by the Company from the Concurrent Financing were \$834,800. The total funds available to the Company at the closing of the Concurrent Financing, after deducting \$334,800 used to re-start pellet operations and cover administrative costs for office rent, legal fees, its listing application, accounting and audit services and including the Company's estimated working capital of \$10,000 as at July 31, 2017, are estimated to be \$510,000. To the extent that Company has negative operating cash flow in future periods, the Company intends to allocate profits generated from sales and may use a portion of the unallocated capital referenced in the table below to fund such negative operating cash flow. The principal purposes for the use of those funds for the next twelve

months will be as follows:

Item	Amount (\$)
<b>Funds Available:</b>	
Working capital of the Company as at July 31, 2017	10,000
Net proceeds from the Concurrent Financing	500,000
<b>Total:</b>	<b>510,000</b>
<b>Principal Purposes for use of Funds Available:</b>	
Estimated cost of Prospectus and CSE Listing	100,000
Facility upgrades, Product Development and Production	310,000
General and Administrative Costs <sup>(1)</sup>	50,000
Unallocated Working Capital	50,000
<b>Total:</b>	<b>510,000</b>

Note:

(1) Administrative costs include office rent, management, consulting and administration services and fees, miscellaneous office and supplies, transfer agent, legal, accounting and audit expenses.

The Company intends to spend the funds available to it as stated in this Prospectus. There may be circumstances, however, where for sound business reasons a reallocation of funds may be necessary. Use of the Company's working capital and proceeds from financing will be subject to the discretion of management.

## Business Objectives and Milestones

### General

Following completion of the Acquisition, the Company's primary business objectives for and milestones for the twelve-month period following the completion of the Acquisition are as follows

Objective	Timeline/Comment	Estimated Remaining Cost (\$)	Allocation of Available Funds (\$)	Allocation of Revenues \$( <sup>1</sup> )
File final Prospectus and apply to list Company Shares on the Exchange		100,000	100,000	0
Additional equipment purchases to increase capacity	Month 1 -2	200,000	198,640	0
Increase of feed stock inventory	Month 1 – 5	180,000	61,360	63,980
Research, Product Development & Production	Month 1 – 12	120,000	50,000	70,000
General & Administrative (2)		50,000	50,000	0(2)
Unallocated Working Capital		50,000	50,000	0
<b>Total:</b>		<b>643,980</b>	<b>510,000</b>	<b>133,980</b>

Note:

(1) The Company anticipates sufficient revenues to fund certain objectives and expenditures.

(2) The Company will utilize profits from production ramp up (sales) to cover increased G&A costs.

**Dividends or Distributions**

The Company intends to retain its earnings, if any, to finance growth and expand its operations and does not anticipate paying any dividends on the Company Shares in the foreseeable future.

The Company has neither declared nor paid any dividends on its common shares since its incorporation. While there are no restrictions in the Company's articles or pursuant to any agreement or understanding which could prevent the Company from paying dividends or distributions, the Company has negative operating cash flow and anticipates using all available cash resources to fund working capital, increase its wood pellet operations and to evaluate further potential business opportunities in the renewable energy sector. As such, there are no plans to pay dividends in the foreseeable future. Any decisions to pay dividends in cash or otherwise in the future will be made by the Board of Directors of the Company on the basis of the Company's earnings, financial requirements and other conditions existing

at the time such determination is made.

### **Management's Discussion and Analysis**

The Company's Management's Discussion and Analysis provides an analysis of the Company's financial results for the years ended March 31, 2015, 2016 and 2017, and the period ending December 31, 2016, and should be read in conjunction with the financial statements of the Company for such periods, and the notes thereto respectively. The Company's financial statements and Management's Discussion and Analysis are available on the Company's SEDAR profile at [www.sedar.com](http://www.sedar.com).

TargetCo's Management's Discussion and Analysis provides an analysis of TargetCo's financial results for the financial year ending June 30, 2016, and should be read in conjunction with the financial statements of TargetCo for such period, and the notes thereto respectively. TargetCo's Management's Discussion and Analysis and financial statements are attached as Schedule "A" and Schedule "B", respectively.

Certain information included in the Company's and TargetCo's Management's Discussion and Analysis is forward-looking and based upon assumptions and anticipated results that are subject to uncertainties. Should one or more of these uncertainties materialize or should the underlying assumptions prove incorrect, actual results may vary significantly from those expected. See "Caution Regarding Forward-Looking Statements" for further details.

## **DESCRIPTION OF SECURITIES**

### **Common Shares**

The Company's authorized capital consists of an unlimited number of Company Shares of which, as of the date of this Prospectus, 61,918,402 are issued and outstanding as fully paid and non-assessable. Holders of the Company Shares are entitled to vote at shareholder meetings and to receive dividends if, as and when declared by the directors. The Company Shares are not subject to call or assessment rights, redemption rights, rights regarding purchase for cancellation or surrender, or any pre-emptive or conversion rights.

Prior to the Closing of the Acquisition, TargetCo completed a forward stock-split of its issued and outstanding TargetCo Shares on the basis of one old TargetCo Share for two new TargetCo Shares. As a result of the forward stock-split, there were 47,000,002 TargetCo Shares issued and are outstanding as fully paid and non-assessable immediately prior to the Acquisition.

### **Warrants**

In connection with a private placement that closed on December 16, 2016, the Company issued 2,238,400 common share purchase warrants. Each warrant entitles the holder thereof to purchase one Company Share at a price of \$0.10 per share for the first twelve months from the date of issue and thereafter for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the date of issue. Of these warrants, 96,000 were issued to three individuals as a finder's fee.

In connection with the closing of the Concurrent Financing, the Company issued 8,348,000 common share purchase warrants. Each warrant entitles the holder thereof to purchase one Company Share at a price of \$0.10 per share during the twelve-month period following the closing of the Concurrent Financing and thereafter one Company Share for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the closing of the Concurrent Financing.

### **Listing of Company Shares**

The Company has applied to list the Company Shares on the Exchange. Listing will be subject to the Company fulfilling all the listing requirements of the Exchange, including without limitation, the distribution of the Company Shares to a minimum number of public shareholders and the Company meeting certain financial and other requirements.

As at the date of this Prospectus, the Company does not have any of its securities listed or quoted, has applied to list or quote any of their securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, Aequitas NEO Exchange Inc., a U.S. marketplace, or a marketplace outside of Canada and the United States of America (other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets

operated by PLUS Markets Group PLC).

### CONSOLIDATED CAPITALIZATION

The following table sets out the share capitalization of the Company:

<b>Designation of Security</b>	<b>Amount authorized or to be authorized</b>	<b>Amount outstanding as of the date of this Prospectus</b>
Common Shares	Unlimited	61,918,402

#### *Fully Diluted Share Capital*

The following table sets out the fully diluted share capital of the Company:

	<b>Number of Securities Issued or Reserved</b>	<b>% of total issued and outstanding as of the Closing of the Acquisition</b>
Company Shares issued and outstanding prior to entering into Acquisition Agreement.	6,570,400	9.06%
Company Shares issued pursuant to Concurrent Financing.	8,348,000	11.51%
Company Shares issued at the Closing of the Acquisition.	47,000,002	64.82%
Company Shares to be issued on exercise of outstanding Company share purchase warrants.	10,586,400	14.60%
<b>Total</b>	<b>72,504,802</b>	<b>100%</b>

### OPTIONS TO PURCHASE SECURITIES

#### **Stock Option Plan**

As of the date of this Prospectus, the Company has no outstanding or unexercised stock options. The Company's Stock Option Plan was adopted on May 22, 2015 and permits the Board from time to time, in its discretion and in accordance with applicable securities laws and Exchange policies, to grant to directors, officers, employees and consultants options to purchase Company Shares, provided that the number of Company Shares reserved for issuance will not exceed 10% of the then issued and outstanding Company Shares. The options are exercisable for a period determined by the Board, so long as the optionee maintains the optionee's position with the Company. The number of Company Shares reserved for issuance to any one individual cannot exceed 5% of the then issued and outstanding shares and the number of Company Shares reserved for issuance to one consultant or person conducting investor relations activities cannot exceed 2% of the then issued and outstanding shares.

Subject to a minimum exercise price of \$0.10 per Company Share, the minimum exercise price of an option granted under the Stock Option Plan must not be less than the closing market price of the Company Shares on the trading day immediately preceding the date of grant, less any applicable discount allowed by the Exchange.

Options granted to an optionee who ceases to be a director, officer, employee or consultant for any reason other than death shall be exercisable within a period of 90 days after the date of termination.

#### **Incentive Plans**

On February 6, 2015, TargetCo adopted an equity compensation plan and established an incentive share pool consisting of 5,000,000 TargetCo Shares reserved for issuance founders of TargetCo and key employees, officers, advisors and partners. The purpose of the incentive share pool was (i) to compensate founders for their unpaid services and efforts required for the establishment of the company and its business; and (ii) to provide TargetCo with the means to attract and compensate key employees, officers, advisors, partners that TargetCo would otherwise not be able to attract because of the need to conserve cash. The equity compensation plan and incentive share pool were discontinued upon the Closing of the Acquisition.

## PRIOR SALES

### The Company

Since August ●, 2016, the Company has issued ● Company Shares as follows:

Issue Date	Price Per Security (\$)	Number of Company Shares Issued	Proceeds to the Issuer (\$)
December 16, 2016	0.10	2,238,400 <sup>(1)(2)</sup>	223,840
July 21, 2017	0.10	47,000,002 <sup>(3)</sup>	--
August ●, 2017	0.10	8,348,000 <sup>(4)</sup>	834,800
<b>Total:</b>		<b>57,586,402</b>	<b>1,058,640</b>

Notes:

(1) Issued pursuant to a private placement of units. Each unit consisted of one share and one common share purchase warrant. Each warrant is exercisable for one Company Share at a price of \$0.10 per share for the first twelve months from the date of issue and thereafter for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the date of issue.

(2) Of the units issued in connection with the private placement in Note 1, 96,000 were issued at a deemed price of \$0.10 per unit as part of finder's fee paid to three individuals representing an amount equal to 8% of the units subscribed for by purchasers introduced to the Company by the finder. Each unit was issued on the same terms as the units issued to subscribers under the offering.

(3) Issued pursuant to the Acquisition to the TargetCo Shareholders at a deemed price of \$0.10 per share on July 21, 2017.

(4) Issued pursuant to the Concurrent Financing. Each unit consisted of one Company Share and one common share purchase warrant. Each warrant is exercisable for one Company Share \$0.10 per share during the twelve-month period following the closing of the Concurrent Financing and thereafter one Company Share for the price of \$0.20 per share until the expiry of the period ending twenty-four months from the closing of the Concurrent Financing.

### TargetCo

Since August 22, 2016 TargetCo has issued 3,595,000 TargetCo Shares as follows:

Issue Date	Price Per Security (\$)	Number of Company Shares Issued	Proceeds to the Issuer (\$)

## ESCROWED SECURITIES

### Escrowed Securities

Under the applicable policies and notices of the Exchange, securities held by certain shareholders of the Company are required to be held in escrow in accordance with the escrow requirements set out in CSE Policy 2 – *Qualification for Listing*.

The Escrowed Securities will be held in escrow pursuant to the Escrow Agreement. There are to be 31,520,602 Company Shares held in escrow upon completion of the Listing.

The Exchange escrow agreement provides that the Escrowed Securities are held in escrow pursuant to its terms and the beneficial ownership thereof and may not be sold, assigned, hypothecated, transferred within escrow or otherwise dealt with in any manner without the prior written consent of the Exchange. In the event of the bankruptcy of an escrow shareholder, provided the Exchange does not object, the escrowed shares held by such escrow shareholder may be transferred to the trustees in the bankruptcy or such person legally entitled to the escrowed shares, which shares will remain in escrow subject to the escrow agreement. In the event of the death of an escrow shareholder,

provided the Exchange does not object, the escrowed shares held by the escrow shareholder will be released from escrow.

The following table sets out, as at the date of this Prospectus, the number and percentage of Company Shares held in escrow prior to giving effect to the Acquisition, and the number and percentage of the Company Shares that will be held in escrow after giving effect to the Acquisition, but before giving effect to the initial release of the escrowed Company Shares under the escrow agreement.

(2) Based on 61,918,402 Company Shares outstanding upon completion of the Acquisition and the Concurrent Financing.

The Escrowed Securities will be held in escrow pursuant to the Escrow Agreement. There are to be 31,520,602 Company Shares to be held in escrow (the "Escrowed Securities"). These will be held in escrow as required by Exchange policy on completion of the Listing.

The Escrowed Securities are to be subject to the release schedule set out in the form of escrow required by s. 1.8 of Policy 8 – Fundamental Changes of the Exchange. Ten (10%) percent of the Escrowed Securities are to be released upon the date of listing on the Exchange and an additional 15% are to be released every 6 months thereafter until all Escrowed Securities have been released (36 months following the date of listing on the Exchange).

The Escrow Agreement provides that the Escrowed Securities are held in escrow pursuant to its terms and the beneficial ownership thereof may not be sold, assigned, hypothecated, transferred within escrow or otherwise dealt with in any manner without the prior written consent of the Exchange. In the event of the bankruptcy of

an escrow shareholder, provided the Exchange does not object, the Escrowed Securities held by such escrow shareholder may be transferred to the trustees in the bankruptcy or such person legally entitled to the Escrowed Securities which shares will remain in escrow subject to the escrow agreement. In the event of the death of an escrow shareholder, provided the Exchange does not object, the Escrowed Securities held by the escrow shareholder will be released from escrow.

The following table sets forth details of the Escrowed Securities that will be held in escrow after giving effect to the Acquisition:

## **Directors and Management**

### Slawomir Smulewicz – President, Chief Executive Officer and Director

Mr. Smulewicz has over 25 years of international experience with demonstrated leadership and teamwork skills. Mr. Smulewicz employs a strategic vision for building complex geographically dispersed businesses and has a proven track record for delivering results. He has served in various executive capacities and as a board member of several European and Canadian companies in both the information technology and industrial sectors.

Mr. Smulewicz founded TargetCo in 2014, which operates through its subsidiaries to supply wood-waste biomass for global sales, trade and energy production.

From 2008-2014 Mr. Smulewicz acted as Vice President of MicroCoal Technologies Inc. (formerly Carbon Friendly Solutions Inc.) and was appointed CEO in 2011. He carried out the transformation of the company from a "carbon credits" business to a technology company. He was also a key leader in the acquisition of a unique global technology for drying coal using microwaves for the company. He was instrumental in developing the technology to a commercial ready phase and successfully completed the first agreement to build a commercial plant in Indonesia in 2013.

Mr. Smulewicz received his Master's degree in Agriculture & Business Administration Warsaw University of Life Science (SGGW) Warsaw, Poland in 1995. He is fluent in both English and Polish.

Mr. Smulewicz is an independent contractor of TargetCo and will continue as such with the Company and is 47 years of age; it is not anticipated that he will enter into a non-competition or non-disclosure agreement with the Company.

### Michael Young – Chief Financial Officer and Director

Mr. Young has been the Chief Financial Officer and a director of TargetCo since August 2015 and provides his services to TargetCo on a part-time basis. He will devote approximately 50% of his time to the affairs of the Company. In his capacity as Chief Financial Officer, Mr. Young reports to the President of TargetCo regarding all strategic and tactical matters as they relate to budget management, cost-benefit analysis, forecasting needs and securing adequate funding.

Mr. Young has over 20 years of extensive business experience in all facets of corporate development, senior management, sales, marketing, finance and operations, in both the private and public sectors. His experience includes spearheading growth strategies, financial reporting, quarterly and annual budgets, overseeing corporate administration, while achieving company objectives and maintaining internal cost controls. Mr. Young also completed the Certified Financial Planning (CFP) Program in 2004.

On January 16, 2017 Mr. Young was appointed President and CEO of Westridge Resources Inc., a NEX listed company. From 2011 to 2015, he was President, CFO & Director of DraftTeam Fantasy Sports Inc. a digital entertainment company focused on daily fantasy sports and social gaming. From 2008 to 2010 Mr. Young was Chief Executive Officer and a director of MicroCoal Technologies Inc., formerly Carbon Friendly Solutions Inc. ("CFS") a TSX Venture listed company that develops projects to generate and sell verified emission offsets that reduce or offset CO2 emissions. During his time with CFS, the company raised over \$5 million CAD for reforestation projects and other emission offset activities.

Prior to that time, he was a director responsible for corporate development of Stream Communications Network & Media Inc., an Eastern European cable & internet company. During his 6 years, the company grew from start up to 60,000 customers generating over \$7 million USD in annual revenues and raised over \$12 million USD by way of debt and equity to accomplish growth objectives.

Mr. Young is an independent contractor of TargetCo and will continue as such with the Company and is 54 years of age; it is not anticipated that he will enter into a non-competition or non-disclosure agreement with the Company.

### Glenn Little – Director

Mr. Little, age 61, has been the CEO of the Company since October 2015 and a director of the Company since March 2015. He has also been the President of Brigadier since October 19, 2015 and a director of same since March 10, 2015. He will serve as a director of the Company and devote approximately 75% of his time to its affairs.

Mr. Little brings extensive business, corporate development and public company experience to the board of directors and will help oversee the Company's policy and corporate governance with respect to corporate communications and risk management. He will also act as a member of the Company's Audit Committee.

Mr. Little was the CEO, CFO and a Director of Laguna Blends Inc. (formerly Grenadier Resource Corp.) (CSE: LAG) from December 2014 until October 2015 and previously provided corporate development services for that company from September 2014. He also previously served as CEO, CFO and President of Corporate Development for Intelimax Media Inc. (now Draft Team Fantasy Sports Inc. (CSE: DFS) from 2006 until 2012.

Mr. Little was a founder of Trooper Technologies Inc. (now Stream Communications Network & Media Inc.), a cable television services provider which raised approximately \$20 million USD in debt and equity financing, and served as a director for same from 1993 to 2005.

It is expected that Mr. Little will be an independent contractor (consultant) of the Company; it is not anticipated that he will enter into a non-competition or non-disclosure agreement with same.

#### Jon Sherron

Mr. Sherron, age 46, is a director of the Company and brings more than 20 years of senior management experience in various industries including investments, beverages and real estate. He also holds a Bachelor of Science degree from Montana State University.

From 2009 to present, Mr. Sherron has acted as Vice President of EDI Inc., an investment company which he established, which has a portfolio of funds focused on the commercial real estate industry. His experience in sales, marketing and branding has driven profitable growth for some of the most recognizable brands in the world including SAB Miller, Molson Coors, Constellation and Diageo.

Prior to establishing EDI Inc., Mr. Sherron held management roles at the Gallo Winery and Coors Brewing Company. He was Vice President of a leading beverage distributor and sat on the board of directors of the Montana Beer and Wine Wholesalers Association. He served as a director of Laguna Blends Inc. from June 2014 until September 2015.

Mr. Sherron will serve as a director of the Company and help oversee policy and corporate governance with respect to its corporate communications and risk management. He will also act as a member of the Company's Audit Committee. He will devote approximately 20% of his time to the affairs of the Company.

Mr. Sherron is not expected to be an independent contractor or employee of the Company and will not enter into a non-competition or non-disclosure agreement with same.

### **Corporate Cease Trade Orders or Bankruptcies**

Except as disclosed herein, to the best of the Company's knowledge, no existing or proposed director or officer of the Company, nor any shareholder holding sufficient securities of the Company to affect materially the control of the Company is, or within the ten years prior to the date hereof has been, a director, CEO or CFO of any corporation (including the Company) that, while that person was acting in the capacity of director or CEO or CFO of that corporation, was the subject of a cease trade order or similar order or an order that denied the corporation access to any exemption under securities legislation for a period of more than 30 consecutive days.

Jon Sherron was a director of European Ferro Metals Ltd, now Boreal Metals Corp., when it received a cease trade order from the British Columbia Securities Commission on September 11, 2015 for failure to file the required financial information. The order was revoked on December 1, 2015. Mr. Sherron was also a director of Enfield Exploration Corp. on March 6, 2015 and October 6, 2015 when cease trade orders were issued for failure to file the required financial information. The orders were revoked on March 9, 2015 and October 21, 2015, respectively.

### **Penalties or Sanctions**

To the best of the Company's knowledge, no existing or proposed director or officer of the Company, nor any shareholder holding sufficient securities of the Company to materially affect control of the Company has been subject to any penalties or sanctions imposed by a court relating to Canadian securities legislation or by a Canadian securities regulatory authority or has entered into a settlement agreement with a Canadian securities regulatory authority or been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor making an investment decision.

### **Personal Bankruptcies**

Except as disclosed herein, to the best of the Company's knowledge, no existing or proposed director or officer of the Company, nor any shareholder holding sufficient securities of the Company to affect materially the control of the Company, nor any personal holding company of any such person has, within the ten years before the date of this Prospectus become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or been subject to or instituted any proceedings, arrangements or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of that person.

On December 17, 2013, Mr. Little filed a Division 11 Consumer Proposal and a Trustee in Bankruptcy was appointed. The proposal was accepted by the court and creditors on January 1, 2014.

### **Conflicts of Interest**

The directors of the Company are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interests, which they may have in any project or opportunity of the Company. If a

conflict of interest arises at a meeting of the Board of Directors, any director in a conflict will disclose his interest and abstain from voting on such matter.

To the best of the Company's knowledge, and other than as disclosed herein, there are no known existing or potential conflicts of interest among the Company, its promoters, directors and officers or other members of management of the Company or of any proposed promoter, director, officer or other member of management as a result of their outside business interests except that certain of the directors and officers serve as directors and officers of other companies, and therefore it is possible that a conflict may arise between their duties to the Company and their duties as a director or officer of such other companies.

### Statement of Executive Compensation Compensation Discussion and Analysis

The Company does not have a compensation committee or a formal compensation policy and relies solely on the Board of Directors to determine the compensation of its NEOs. In determining NEO compensation, the Board of Directors considers industry standards, the Company's financial situation as well as the position held by each NEO, the related responsibilities and functions performed by the NEO and individual performance, but does not currently have any formal objectives or criteria.

NEOs are expected to carry out their duties in an effective and efficient manner so as to advance the business objectives of the Company. The satisfactory discharge of such duties is subject to ongoing monitoring by the Company's directors, having in mind the business strengths of the individual and the purpose of originally appointing the individual as an officer.

In addition to, or in lieu of, the compensation components described above, payments may be made from time to time to individuals, including NEOs or directors of the Company or companies they control for the provision of management or consulting services. Such services are paid for by the Company at competitive industry rates for work of a similar nature by reputable arm's length services providers.

The Company may also issue stock options pursuant to its Stock Option Plan. See "Stock Option Plan" above.

Notes:

- (1) Pursuant to consulting agreements entered into by TargetCo with Mr. Smulewicz and 1051208 BC Ltd., and Gold Medal Performance Corp. and Michael Young (see notes 2 and 3 below), which consulting agreements were assigned by to the Company on July 22, 2017, 500,000 stock options are to be issued during the term of such consulting agreements at a time and price to be determined by the directors of the Company.
- (2) To be paid as a consulting fee on a monthly basis to 1051208 BC Ltd., a company controlled by Mr. Smulewicz, for Mr. Smulewicz's services as President and CEO of the Company at the rate of \$12,500 per month.
- (3) To be paid as a consulting fee on a monthly basis to Gold Medal Performance Corp., a company controlled by Mr. Young for Mr. Young's services in his capacity as Chief Executive Officer and Vice President of Corporate Development to the Company at a rate of \$10,00 per month.

***Director Compensation***

The Company anticipates paying Jon Sherron \$6,000 annually for attending meetings in his capacity as a director.

The Company is expected to enter into a consulting agreement with Glenn Little for corporate development services. The Company will pay Mr. Little \$5,000 per month for these services. However, as at the date hereof, no contract has been entered into with Mr. Little. In addition, Mr. Little has agreed to defer some or all compensation until the Company is profitable or generates higher cash flow, if and when at such time such contract is entered into.

**AUDIT COMMITTEE AND CORPORATE GOVERNANCE**

**Audit Committee**

***Audit Committee Charter***

The text of the Company's audit committee's charter is attached hereto as Schedule "D".

***Composition of the Audit Committee***

Michael Young	Related	Financially literate <sup>(2)</sup>
Glenn Little	Related	Financially literate <sup>(2)</sup>
Jon Sherron	Independent <sup>(1)</sup>	Financially literate <sup>(2)</sup>

Notes:

- (1) A member of an audit committee is independent if the member has no direct or indirect material relationship with the Issuer, which could, in the view of the Issuer's Board of Directors, reasonably interfere with the exercise of a member's independent judgment.
- (2) An individual is financially literate if he has the ability to read and understand a set of financial statements that present a breadth of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Issuer's financial statements.

***Relevant Education and Experience***

Each member of the Company's Audit Committee has adequate education and experience that is relevant to their performance as an Audit Committee member and, in particular, the requisite education and experience that have provided the member with:

- (a) an understanding of the accounting principles used by the Issuer to prepare its financial statements and the ability to assess the general application of those principles in connection with estimates, accruals and reserves;
- (b) the ability to assess the general application of such accounting principles in connection with the accounting for estimates, accruals and provisions;
- (c) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the Issuer's financial statements or experience actively supervising individuals engaged in such activities; and

- (d) an understanding of internal controls and procedures for financial reporting.

Michael Young: Mr. Young has over 20 years of experience with marketing, finance and operations, in both the private and public sectors. His experience includes financial reporting, quarterly and annual budgets, overseeing corporate administration, while achieving company objectives and maintaining internal cost controls. Mr. Young also completed of the Certified Financial Planning (CFP) Program in 2004.

Glenn Little: Mr. Little has extensive business, corporate development and public company experience through serving as a director and CFO of several public companies. As such, he is familiar with financial reporting requirements applicable to public companies in Canada.

Jon Sherron: Mr. Sherron has more than 20 years of senior management experience in various industries including investments, beverages and real estate. He is currently the Vice President of EDI Inc., an investment company which he established and which has a portfolio of funds focused on the commercial real estate industry. He is also currently the the CFO to Enfield Exploration Corp.

See "Directors and Officers" above for further details.

#### ***Audit Committee Oversight***

The Audit Committee was originally established on December 5, 2014, and its composition was most recently amended on July 19, 2017, and will, among other things, make recommendations to the Board of Directors to nominate or compensate an external auditor. As of the date of this Prospectus, the Audit Committee has not made any such recommendations for the Board to consider.

#### ***Reliance on Certain Exemptions***

At no time since the beginning of the fiscal period ended March 31, 2017 has the Company or TargetCo relied on the exemption provided in section 2.4 of NI 52-110 (De Minimis Non-Audit Services) or an exemption from NI 52-110, in whole or in part, granted under Part 8 (Exemption). It is not anticipated that the Company will rely on any of the above exemptions.

#### ***Pre-Approval Policies and Procedures***

The audit committee of the Company has not adopted specific policies and procedures for the engagement of non-audit services but all such services will be subject to the prior approval of the audit committee. It is not anticipated that the Company will adopt specific policies and procedures.

#### ***External Auditor Service Fees***

The aggregate fees billed by the external auditors of the Company and TargetCo for the last two financial years are as follows:

##### The Company

## **Corporate Governance Practices**

Corporate governance relates to the activities of the Board of Directors, the members of which are elected by and are accountable to the shareholders, and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day-to-day management of the Company. The Board is committed to sound corporate governance practices, which are both in the interest of its shareholders and contribute to effective and efficient decision making. The Board is of the view that the Company's general approach to corporate governance, summarized below, is appropriate and substantially consistent with objectives reflected in the guidelines for improved corporate governance in Canada adopted by the Canadian Securities Administrators (the "National Guidelines").

### ***Board of Directors***

The Board is currently composed of four directors.

The National Guidelines suggest that the board of directors of every listed company should be constituted with a majority of individuals who qualify as "unrelated" directors. An "unrelated" director is a director who is independent of management and is free from any interest and any business or other relationship which could or could reasonably be perceived to materially interfere with the director's ability to act with a view to the best interests of the Company, other than interests and relationships arising from shareholding. In addition, where a company has a significant shareholder, the National Guidelines suggest that the board of directors should include a number of directors who do not have interests in either the company or the significant shareholder.

Currently, Jon Sherron is considered by the Board to be "unrelated" within the meaning of the Guidelines.

### ***Other Directorships***

The following table sets out the proposed directors of the Company that are currently directors, officers or promoters of other issuers that are reporting issuers in any Canadian jurisdiction.

<b>Name</b>	<b>Reporting Issuer</b>
Michael Young	Westridge Resources Inc. Sparrow Ventures Corp. Winston Resources Inc.
Jon Sherron	Enfield Exploration Corp.

### ***Orientation and Continuing Education***

The Board has not adopted formal steps to orient new board members. The Board's continuing education is typically derived from correspondence with the legal counsel of the Company to remain up to date with developments in relevant corporate and securities law matters. It is not anticipated that the board of the Company will adopt formal steps in the twelve months following completion of the Acquisition.

### ***Ethical Business Conduct***

The Board has not adopted formal guidelines to encourage and promote a culture of ethical business conduct but does promote ethical business conduct by nominating board members it considers ethical, by avoiding or minimizing conflicts of interest and by having a sufficient number of its board members independent of corporate matters. It is not anticipated that the board of the Company will adopt formal guidelines in the twelve months following completion of the Acquisition.

## **RISK FACTORS**

The following are certain factors relating to the Acquisition and business of the Company, which factors investors should carefully consider when making an investment decision concerning the shares of the Company. These risks and uncertainties are not the only ones facing the Company. Additional risks and uncertainties not presently known to the Company, TargetCo or the Company which are currently deemed immaterial, may also impair the operations of the Company. If any such risks actually occur, shareholders could lose all or part of their investment and the financial condition, liquidity and results of operations of the Company could be materially adversely affected and the

ability of the Company to implement its growth plans could be adversely affected.

An investment in the Company is speculative. An investment in the Company will be subject to certain material risks and investors should not invest in securities of the Company unless they can afford to lose their entire investment. The following is a description of certain risks and uncertainties that may affect the business of the Company.

## **General**

A purchase of any of the securities of the Company involves a high degree of risk and should be undertaken only by purchasers whose financial resources are sufficient to enable them to assume such risks and who have no need for immediate liquidity in their investment. An investment in the securities of the Company should not constitute a major portion of an individual's investment portfolio and should only be made by persons who can afford a total loss of their investment. Prospective purchasers should evaluate carefully the following risk factors associated with an investment in the Company's securities prior to purchasing any of the securities.

### Risks Related to the Company

#### ***Negative Cash Flow for the Foreseeable Future***

The Company has no history of earnings or cash flow from operations and there can be no guarantee that the Company will achieve self-sustaining operations for several years, if at all. To the extent that the Company has negative cash flow in future periods, the Company may need to allocate a portion of its cash reserves to fund such negative cash flow.

#### ***Reliance on Management***

The success of the Company is dependent upon the ability, expertise, judgment, discretion and good faith of its senior management. While consulting agreements are customarily used as a primary method of retaining the services of key consultants, these agreements cannot assure the continued services of such consultants. Any loss of the services of such individuals could have a material adverse effect on the Company's business, operating results or financial condition.

#### ***Additional financing needs***

The Company will require equity, debt financing or both to support on-going operations, to undertake capital expenditures or to undertake acquisitions or other business combination transactions. There can be no assurance that additional financing will be available to the Company when needed or on terms which are acceptable. The Company's inability to raise financing to fund capital expenditures or acquisitions could limit its growth and may have a material adverse effect upon future profitability.

If additional funds are raised through further issuances of equity or convertible debt securities, existing shareholders could suffer significant dilution, and any new equity securities issued could have rights, preferences and privileges superior to those of holders of Company Shares. Any debt financing secured in the future could involve restrictive covenants relating to capital raising activities and other financial and operational matters, which may make it more difficult for the Company to obtain additional capital and to pursue business opportunities, including potential acquisitions.

Because of the early stage of the industry in which the Company will operate, the Company expects to face additional competition from new entrants. To become and remain competitive, the Company will require research and development, marketing, sales and client support. The Company may not have sufficient resources to maintain research and development, marketing, sales and client support efforts on a competitive basis which could materially and adversely affect the business, financial condition and results of operations of the Company.

#### ***Conflicts of Interest***

Certain of the directors and officers of the Company are, or may become directors and officers of other companies, and conflicts of interest may arise between their duties as officers and directors of the Company and as officers and directors of such other companies.

### ***Litigation***

The Company may become party to litigation from time to time in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company such a decision could adversely affect the Company's ability to continue operating and the market price for the Company's common shares. Even if the Company is involved in litigation and wins, litigation can redirect significant company resources.

### ***Uninsurable Risks***

The business of the Company may not be insurable or the insurance may not be purchased due to high cost. Should such liabilities arise, they could reduce or eliminate any future profitability and result in increasing costs and a decline in the value of the Company.

### ***The market price of the Company's Common Shares may be subject to wide price fluctuations***

The market price of the Company's common shares may be subject to wide fluctuations in response to many factors, including variations in the operating results of the Company and its subsidiaries, divergence in financial results from analysts' expectations, changes in earnings estimates by stock market analysts, changes in the business prospects for the Company and its subsidiaries, general economic conditions, legislative changes, and other events and factors outside of the Company's control. In addition, stock markets have from time to time experienced extreme price and volume fluctuations, which, as well as general economic and political conditions, could adversely affect the market price for the Company's common shares.

### ***Dividends***

The Company has no earnings or dividend record, and does not anticipate paying any dividends on the common shares in the foreseeable future. Dividends paid by the Company would be subject to tax and, potentially, withholdings.

### ***Limited Market for Securities***

It is proposed that the Company's common shares will be listed on the Exchange, however, there can be no assurance that such listing will be obtained and even if obtained, that an active and liquid market for the common shares will develop or be maintained and an investor may find it difficult to resell any securities of the Company.

### ***Variable Revenues / Earnings***

The revenues and earnings of the Company may fluctuate from quarter to quarter, which could affect the market price of the Company's Common Shares. Revenues and earnings may vary quarter to quarter as a result of a number of factors, including the timing of releases of new products or services, the timing of substantial sales orders or deliveries, activities of the Company's competitors, cyclical fluctuations related to the evolution of technologies, concentration in the Company's customer base, and possible delays or shortages in component supplies.

### ***Permits and Licenses***

The operations of Company may require licenses and permits from various governmental authorities. There can be no assurance that such licenses and permits will be granted.

### ***Technology***

The Company operates in a highly competitive environment where its products and services are subject to technological change and evolving industry standards. The Company's future success depends on its ability to maintain robust equipment and to avoid heavy maintenance leading to reduced output, as well as to deliver enhancements to its existing products and services, accurately predict and respond to technological advances in its industry and its customers' increasingly sophisticated needs. If the Company is unable to respond to evolving industry standards and technological changes, fails or delays to develop products in a timely and cost-effective manner, its products and services may become obsolete, and the Company may be unable to recover its research and development expenses which could negatively impact sales, profitability and the continued viability of the business.

### ***Market Demand for the Product and Services***

The Company's success is dependent on its ability to market its products and services. There is no guarantee the Company's products and services will remain competitive. There is no guarantee the Company will be able to respond to market demands. If the Company is unable to effectively develop and expand the market for its products and services, its growth may be adversely affected.

### ***Intellectual Property Rights***

The Company could be adversely affected if it does not adequately protect its intellectual property rights. None of the Company or any of its subsidiaries currently hold any registered trademarks. The Company regards its marks, rights, and trade secrets and other intellectual property rights as critical to its success. To protect its investments and the Company's rights in these various intellectual properties, it may rely on a combination of patents, trademark and copyright law, trade secret protection and confidentiality agreements and other contractual arrangements with its employees, clients, strategic partners, acquisition targets and others to protect proprietary rights. There can be no assurance that the steps taken by the Company to protect proprietary rights will be adequate or that third parties will not infringe or misappropriate the Company's copyrights, trademarks and similar proprietary rights, or that the Company will be able to detect unauthorized use and take appropriate steps to enforce rights. In addition, although the Company believes that its proprietary rights do not infringe on the intellectual property rights of others, there can be no assurance that other parties will not assert infringement claims against the Company. Such claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.

The Company will rely on trade secrets to protect technology where it does not believe patent protection is appropriate or obtainable. Trade secrets are difficult to protect. While commercially reasonable efforts to protect trade secrets will be used, strategic partners, employees, consultants, contractors or scientific and other advisors may unintentionally or willfully disclose information to competitors.

If the Company is not able to defend patents or trade secrets, then it will not be able to exclude competitors from developing or marketing competing products, and the Company may not generate enough revenue from product sales to justify the cost of development of products and to achieve or maintain profitability.

### ***Low Barriers to Entry and Competition***

There is high potential that the Company will face intense competition from other companies, some of which can be expected to have longer operating histories and more financial resources and manufacturing and marketing experience than the Company. Increased competition by larger and better financed competitors could materially and adversely affect the business, financial condition and results of operations of the Company. There may be larger, better financed companies which may become competition for the Company.

### ***Risks Associated with Brand Development***

The Company believes that continuing to strengthen its brand is critical to achieving widespread acceptance of the Company, particularly in light of the competitive nature of the Company's market. Promoting and positioning its brand will depend largely on the success of the Company's marketing efforts and the ability of the Company to provide high quality services. In order to promote its brand, the Company will need to increase its marketing budget and otherwise increase its financial commitment to creating and maintaining brand loyalty among consumers. There can be no assurance that brand promotion activities will yield increased revenues or that any such revenues would offset the expenses incurred by the Company in building its brand. If the Company fails to promote and maintain its brand or incurs substantial expenses in an attempt to promote and maintain its brand or if the Company's existing or future strategic relationships fail to promote the Company's brand or increase brand awareness, the Company's business, results of operations and financial condition would be materially adversely affected.

### ***Risks Associated with Acquisitions***

If appropriate opportunities present themselves, the Company intends to acquire businesses, technologies, services or products that the Company believes are strategic. The Company currently has no understandings, commitments or agreements with respect to any other material acquisition and no other material acquisition is currently being pursued. There can be no assurance that the Company will be able to identify, negotiate or finance future acquisitions successfully, or to integrate such acquisitions with its current business. The process of integrating an acquired business, technology, service or product into the Company may result in unforeseen operating difficulties and

expenditures and may absorb significant management attention that would otherwise be available for ongoing development of the Company's business. Future acquisitions could result in potentially dilutive issuances of equity securities, the incurrence of debt, contingent liabilities and/or amortization expenses related to goodwill and other intangible assets, which could materially adversely affect the Company's business, results of operations and financial condition. Any such future acquisitions of other businesses, technologies, services or products might require the Company to obtain additional equity or debt financing, which might not be available on terms favourable to the Company, or at all, and such financing, if available, might be dilutive.

#### ***Risks Associated with International Operations***

A component of the Company's strategy is to expand internationally. Expansion into the international markets will require management attention and resources. The Company has limited experience in localizing its service, and the Company believes that many of its competitors are also undertaking expansion into foreign markets. There can be no assurance that the Company will be successful in expanding into international markets. In addition to the uncertainty regarding the Company's ability to generate revenues from foreign operations and expand its international presence, there are certain risks inherent in doing business on an international basis, including, among others, regulatory requirements, legal uncertainty regarding liability, tariffs, and other trade barriers, difficulties in staffing and managing foreign operations, longer payment cycles, different accounting practices, problems in collecting accounts receivable, political instability, seasonal reductions in business activity and potentially adverse tax consequences, any of which could adversely affect the success of the Company's international operations. To the extent the Company expands its international operations and has additional portions of its international revenues denominated in foreign currencies, the Company could become subject to increased risks relating to foreign currency exchange rate fluctuations. There can be no assurance that one or more of the factors discussed above will not have a material adverse effect on the Company's future international operations and, consequently, on the Company's business, results of operations and financial condition.

#### ***Risks Associated with Polish Operations***

The Company's business operations are located in Poland and carried out through a Polish subsidiary. Although Poland has experienced economic growth for the past several years, a protracted period of slower growth in the euro area could have large effects on Poland via trade and confidence channels. An abrupt surge in volatility in global financial markets, or a severe deterioration in external financing conditions could affect Poland's economy given its relatively high external financing needs. Persistent geopolitical tensions in the region add to downside risks. Polish law also limits foreign ownership of companies in selected strategic sectors, as well as foreign acquisition of real estate. Poland's weak transportation infrastructure may increase the cost of doing business by limiting ready access to all of the markets within Poland and diminishes the country's potential as a regional distribution hub. There can be no assurance that one or more of the factors discussed above will not have a material adverse effect on the Company's Polish operations and, consequently, on the Company's business, results of operations and financial conditions.

#### ***Risk Related to Restitution Claims***

During the communist regime, between 1945 and 1989, many privately-owned properties and businesses were taken over by the state in most of the Central and Eastern European ("CEE") countries. In many cases the requisition of the property took place in contravention of the prevailing law. After the CEE countries moved to the market economy system in 1989, many former property owners or their legal successors took steps to recover the lost properties or to obtain adequate compensation. Some of the CEE countries (such as Romania) have enacted laws that regulate the restitution rights of former owners or their legal successors to the real properties. In Poland, former owners of real property or their legal successors may raise restitution claims, and may be entitled to recover such real property. As at the date of this prospectus, the Company is not aware of any restitution claims being threatened against any of the real property owned by the Company and its subsidiaries. Some of them (such as Poland) have not passed such laws, which, however, does not prevent the former owners or their legal successors to raise restitution claims based on general provisions of law. As at the date of this Prospectus, the Company is not aware of any restitution claims being threatened against any of the real property used by any of its subsidiaries, however, there can be no assurance that restitution claims may not be brought against any property used by the Company or its subsidiaries, or any property owned by the Company or any of its subsidiaries in the future, and this could have a material adverse effect on the business, financial condition or results of the Company.

#### ***Risks Associated with Polish Environmental Requirements***

The Company is subject to various environmental laws and regulations in Poland and is required to obtain

environmental permits from various authorities for its operations. Compliance with environmental regulations may materially increase the Company's expenditures. The Company may also incur future expenditures in order to satisfy any potential new environmental requirements. Certain environmental permits required for the Company's operations may require periodic renewal and the Company cannot predict whether it will be able to renew such permits or whether material changes in permit conditions will be imposed. Violations of these permits could result in the shutdown of the Company's production facility, fines or litigation being commenced against the Company. All or any of the above factors may have an adverse effect on the operations, financial condition and results of the Company.

***The Polish energy industry is subject to significant and changing regulation which could have a negative effect on the Company***

The energy industry is subject to significant and changing regulation which could adversely affect the Company and the Company may be subject to, among other things, both Polish and EU energy market and environmental regulations. The Polish Energy Law dated 10 April 1997 (the "Energy Law") and laws concerning the renewable energy sector were amended in 2015 which significantly changed the rules with respect to the functioning of the Polish energy market. The aforementioned could result in an adverse change in the performance of long-term agreements for the purchase of electricity and property rights, which could affect the feasibility of new investments and operations in the energy sector, particular for renewable energy sources.

Further, the Company conducts its business operations in a sector in which the market regulator plays an active role. Pursuant to the Energy Law, the Polish state may limit the sale of fuels as well as the supply and usage of electricity and heat. In addition, local government entities may affect the activity of firms in the energy sector by such acts which include, but are not limited to, determining local plans for the supply of heat and electricity. The Energy Law and related secondary legislation in Poland have undergone frequent changes, which, coupled with the lack of uniform interpretation of law in Poland, may have a material adverse effect on the Company's business, operating results or financial condition.

***Protection and Enforcement of Intellectual Property Rights***

The Company regards the protection of its copyrights, service marks, trademarks, trade dress and trade secrets as critical to its future success and relies on a combination of copyright, trademark, service mark and trade secret laws and contractual restrictions to establish and protect its proprietary rights in products and services. The Company has entered into confidentiality and invention assignment agreements with its employees and contractors, and nondisclosure agreements with parties with which it conducts business in order to limit access to and disclosure of its proprietary information. There can be no assurance that these contractual arrangements or the other steps taken by the Company to protect its intellectual property will prove sufficient to prevent misappropriation of the Company's technology or to deter independent third-party development of similar technologies.

To date, the Company has not been notified that its technologies infringe the proprietary rights of third parties, but there can be no assurance that third parties will not claim infringement by the Company with respect to past, current or future technologies. The Company expects that participants in its markets will be increasingly subject to infringement claims as the number of services and competitors in the Company's industry segment grows. Any such claim, whether meritorious or not, could be time-consuming, result in costly litigation, cause service upgrade delays or require the Company to enter into royalty or licensing agreements. Such royalty or licensing agreements might not be available on terms acceptable to the Company or at all. As a result, any such claim could have a material adverse effect upon the Company's business, results of operations and financial condition.

***Economic Environment***

The Company's operations could be affected by the economic context should the unemployment level, interest rates or inflation reach levels that influence consumer trends and consequently, impact the Company's future sales and profitability.

***Global Economy Risk***

The ongoing economic slowdown and downturn of global capital markets has generally made the raising of capital by equity or debt financing more difficult. Access to financing has been negatively impacted by the ongoing global economic risks. As such, the Company is subject to liquidity risks in meeting our development and future operating cost requirements in instances where cash positions are unable to be maintained or appropriate financing is unavailable. These factors may impact the Company's ability to raise equity or obtain loans and other credit facilities

in the future and on terms favorable to the Company. If uncertain market conditions persist, the Company's ability to raise capital could be jeopardized, which could have an adverse impact on the Company's operations and the trading price of the Company Shares on the stock exchange.

### ***Going Concern Risk***

The financial statements have been prepared on a going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. The Company's future operations are dependent upon the identification and successful completion of equity or debt financing and the achievement of profitable operations at an indeterminate time in the future. There can be no assurances that the Company will be successful in completing equity or debt financing or in achieving profitability from its operations.

The financial statements do not give effect to any adjustments relating to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

### ***Financial Risk Exposures***

The Company may have financial risk exposure to varying degrees relating to the currency of each of the countries where it operates and has financial risk exposure towards digital currencies. The level of the financial risk exposure related to a currency and exchange rate fluctuations will depend on the Company's ability to hedge such risk or use another protection mechanism.

### ***Attracting and keeping senior management and key scientific personnel***

The success of the Company depends on the continued ability to attract, retain, and motivate highly qualified management, clinical, and scientific personnel and to develop and maintain important relationships with leading academic institutions, companies, and thought leaders.

### ***Accounting Estimates***

The Company and TargetCo prepare their financial statements in Canadian dollars in accordance with International Financial Reporting Standards ("IFRS"). Management makes various estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and revenues and expenses for each year presented. The significant estimates for the Company include testing for impairment of goodwill and provision for warranty. The significant estimates for TargetCo include allowance for doubtful accounts, use life and recoverability of property and equipment, measurement of provisions, valuation of inventory, fair value of derivative liabilities, fair value of share based payments and deferred income tax asset valuation allowances. Changes in estimates and assumptions will occur based on the passage of time and the occurrence of certain events.

### ***Internal Controls***

Internal controls over financial reporting are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with IFRS. However, the system of internal controls over financial reporting is not guaranteed to provide absolute assurance with regard to the reliability of financial reporting and financial statements.

## **PROMOTERS**

Slawomir Smulewicz, the founder of TargetCo and the CEO and a director of the Company and Michael Young, a co-founder of TargetCo and the CFO and a director of the Company are considered to be promoters of the Company. Mr. Smulewicz beneficially owns, or has control over, directly or indirectly, 16,700,002 Company Shares being 27.35% of the issued and outstanding Company Shares on an undiluted basis. Mr. Young beneficially owns, or has control over, directly or indirectly, 4,200,000 Company Shares being 6.88% of the issued and outstanding Company Shares on an undiluted basis.

Other than as disclosed in this section and under "Executive Compensation" or elsewhere in this Prospectus, no person who was a promoter of the Company within the last two years:

1. received anything of value directly or indirectly from the Company or a subsidiary;

2. sold or otherwise transferred any asset to the Company or a subsidiary within the last 2 years;
3. has been a director, officer or promoter of any company that during the past 10 years was the subject of a cease trade order or similar order or an order that denied the company access to any exemptions under securities legislation for a period of more than 30 consecutive days or became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or been subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver or receiver manager or trustee appointed to hold its assets;
4. has been subject to any penalties or sanctions imposed by a court relating to Canadian securities legislation or by a Canadian securities regulatory authority or has entered into a settlement agreement with a Canadian securities regulatory authority;
5. has been subject to any other penalties or sanctions imposed by a court or regulatory body that would be likely to be considered important to a reasonable investor making an investment decision; or
6. has within the past 10 years become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or been subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver or receiver manager or trustee appointed to hold its assets.

#### **LEGAL PROCEEDINGS**

None the Company or any of its subsidiaries are a party to any legal proceedings and management of the Company is not aware of any legal proceedings to which any of the Company's or its subsidiaries' property or assets is the subject matter. Management of the Company is not aware of any such proceedings known to be contemplated

No penalties or sanctions have been imposed against the Company or any of its subsidiaries by a court relating to provincial and territorial securities legislation or by a securities regulatory body within the three years immediately preceding the date of this Prospectus. Management of the Company is not aware of any such penalties or sanctions imposed against the Company or any of its subsidiaries.

None the Company or any of its subsidiaries have entered into any settlement agreements before a court relating to provincial and territorial securities legislation or with a securities regulatory authority within the three years immediately preceding the date of this Prospectus. Management of the Company is not aware of any such settlement agreements entered into by the Company or any of its subsidiaries.

#### **INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS**

Other than as set forth in this Prospectus, management of the Company is not aware of any material interest, direct or indirect, of any director, executive officer, any person or company beneficially owning, controlling or directing, directly or indirectly, more than ten (10%) percent of the Company's outstanding voting securities, or any Associate or Affiliate of the foregoing persons, in any transaction in which the Company has participated within the three years before the date of this Prospectus, that has materially affected or is reasonably expected to materially affect the Company.

#### **INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS**

## INDEPENDENT AUDITORS' REPORT

### To the Shareholders of Green 2 Blue Energy Corp.

We have audited the accompanying consolidated financial statements of Green 2 Blue Energy Corp. which comprise the statements of financial position as at June 30, 2016 and 2015, and the consolidated statements of operations and comprehensive loss, changes in equity, and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also involves evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Green 2 Blue Energy Corp. as at June 30, 2016 and 2015 and the results of its operations and its cash flows for the years then ended, in accordance with International Financial Reporting Standards.

#### Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2(d) of the consolidated financial statements which indicates the existence of a material uncertainty that may cast significant doubt on the ability of Green 2 Blue Energy Corp. to continue as a going concern.

# GREEN 2 BLUE ENERGY CORP.

Notes to the Consolidated Financial Statements

Years Ended June 30, 2016 and 2015

(Expressed in Canadian dollars)

## 1. Corporate Information

Green 2 Blue Energy Corp. (the "Company") was incorporated on May 30, 2014 under the laws of British Columbia. The Company manufactures, markets and distributes softwood pellets and shavings for consumer and industrial customers and arranges transactions between buyers and sellers of alternative energy products. The address of the Company's registered office is at Suite 415, 1040 West Georgia Street, Vancouver, BC.

## 2. Basis of Presentation

### (a) Statement of Compliance and Principles of Consolidation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") on a going concern basis.

These consolidated financial statements include the accounts of the Company and its subsidiaries: (i) Green 2 Blue Energy Europe Sp. z.o.o. ("G2BE Europe"), incorporated in Poland in October 2014 and is 99.5% owned by the Company; (ii) G2BE Services PTE Ltd. ("G2BE Services"), incorporated in Singapore and is wholly owned by the Company; and (iii) G2BE Poland Sp z o.o. ("G2BE Poland"), incorporated in Poland and is owned 49% by the Company and 51% by the President of the G2BE Europe.

All significant intercompany transactions have been eliminated on consolidation.

### (b) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis and are presented in Canadian dollars. The Company's functional currencies are:

Green 2 Blue Energy Corp.	Canadian dollars
G2BE Europe	Polish zloty
G2BE Services	US dollars
G2BE Poland	Polish zloty

### (c) Use of Estimates and Judgments

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the period. These estimates are, by their nature, uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities.

Significant areas of estimation include the allowance for doubtful accounts, useful life and recoverability of property and equipment, measurement of provisions, valuation of inventory, fair value of derivative liabilities, fair value of share-based payments, and deferred income tax asset valuation allowances.

## **GREEN 2 BLUE ENERGY CORP.**

Notes to the Consolidated Financial Statements

Years Ended June 30, 2016 and 2015

(Expressed in Canadian dollars)

### **2. Basis of Presentation (continued)**

#### (c) Use of Estimates and Judgments (continued)

The Company's policy for property and equipment requires judgment in determining whether the present value of future expected economic benefits exceeds capitalized costs. The policy requires management to make certain estimates and assumptions about future economic benefits related to its operations. Estimates and assumptions may change if new information becomes available. If information becomes available suggesting that the recovery of capitalized cost is unlikely, the capitalized cost is written off to the consolidated statement of operations.

The assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

#### (d) Going Concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2016, the Company had negative cash flows from operations, had a working capital deficit of \$513,219, and had an accumulated deficit of \$2,160,069. Furthermore, the Company defaulted on a lease obligation and incurred a net loss of \$1,501,902 during the year ended June 30, 2016. To obtain future profitability, the Company will need to increase the volume of production and sales, and is reliant on the co-operation on creditors to pay outstanding amounts on a timely basis. These factors, among others, create substantial doubt as to the ability of the Company to continue as a going concern. Management believes that the proceeds from additional equity financing activities that it is currently pursuing, combined with revenue that the Company expects to generate in subsequent periods, will provide the Company with sufficient working capital to satisfy its liabilities and commitments as they become due for the foreseeable future. There can be no assurances that sufficient equity can be raised on a timely basis or on terms that are acceptable to the Company. These factors, current market conditions, and inability to secure new assets to date, however, indicate the existence of a material uncertainty that casts significant doubt on the ability of the Company to continue as a going concern or in its present form. These consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

### **3. Summary of Significant Accounting Policies**

#### (a) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance, are readily convertible to known amounts of cash, and which are subject to insignificant risk of changes in value, to be cash equivalents.

#### (b) Accounts Receivable

Accounts receivable is comprised of amounts due from customers for purchases of the Company's products and is recorded net of allowance for doubtful accounts. Factors such as current economic conditions, historical information, and reasons for any accounts being past due are all considered when determining whether to write off accounts receivable.

#### (c) Inventory

Inventory is comprised of raw material and finished goods, which are valued at the lower of cost and net realizable value. Costs are determined using the weighted average basis for raw materials and manufactured goods and first-in-first-out for goods purchased for resale. Net realizable value is determined on the basis of anticipated sales proceeds less the estimated selling expenses. Inventory is reviewed at least annually for impairment due to slow moving or obsolescence.

## GREEN 2 BLUE ENERGY CORP.

Notes to the Consolidated Financial Statements

Years Ended June 30, 2016 and 2015

(Expressed in Canadian dollars)

### 3. Summary of Significant Accounting Policies (continued)

#### (d) Property and Equipment

Property and equipment is recorded at cost less accumulated depreciation and impairment charges, if any. Cost includes expenditures directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset only when it is probable that future economic benefits associated with the item will flow to the Company and the costs of the item can be reliably measured. All other expenditures are charged to operating expenses as incurred.

When major components of property and equipment have different useful lives, they are accounted for as separate items. Depreciation of property and equipment is based on the estimated useful lives of the assets using the following rates:

Forklifts	14% declining balance
Furniture and fixtures	5 years straight-line
Technical equipment and machinery	5 years straight-line
Vehicles	4 years straight-line

#### (e) Impairment of Non-financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If indicators exist, then the asset's recoverable amount is estimated. The recoverable amounts of the following types of intangible assets are measured annually whether or not there is any indication that they may be impaired:

- an intangible asset with an indefinite useful life;
- an intangible asset not yet available for use; and
- goodwill acquired in a business combination.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit, or "CGU").

The Company's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs.

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

In respect of assets other than goodwill and intangible assets that have indefinite useful lives, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### **3. Summary of Significant Accounting Policies (continued)**

#### **(f) Leases**

The Company leases assets for administrative purposes. The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment by the Company of whether the arrangement conveys a right to use the asset. Leases are classified as finance leases if the terms of the lease transfer substantially all the risks and rewards of ownership to the Company. Otherwise, leases are classified as operating leases.

Operating lease expense is recognized on a straight-line basis over the lease term.

Finance lease payments are recorded at the present value at the inception of the lease and apportioned at each disbursement date between financing costs and the lease liability using the implicit interest rate of the lease. They are presented in property and equipment, and obligations under finance lease in the consolidated statement of financial position.

#### **(g) Financial Instruments**

The Company's financial instruments consist of cash, accounts receivable, accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, derivative liabilities, and obligations under finance lease.

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

At initial recognition, the Company classifies its financial instruments in the following categories depending on the purpose for which the instruments were acquired:

- (i) Financial assets and liabilities at fair value through profit or loss: A financial asset or liability is classified in this category if acquired principally for the purpose of selling or repurchasing in the short-term.

Financial instruments in this category are recognized at fair value and subsequently carried at fair value. Gains and losses arising from changes in fair value are recorded in the consolidated statement of operations in the period in which they arise. Financial assets and liabilities at fair value through profit or loss are classified as current except if they are expected to be realized beyond 12 months of the consolidated statement of financial position date, where they are classified as non-current. Cash is classified as fair value through profit or loss.

- (ii) Held-to-maturity investments: Held-to-maturity investments are recognized on a trade-date basis and are initially measured at fair value, including transaction costs. The Company does not have any assets classified as held-to-maturity investments.

- (iii) Available-for-sale investments: Available-for-sale investments are non-derivatives that are either designated in this category or not classified in any of the other categories.

Available-for-sale investments are recognized at fair value and are subsequently carried at fair value. Gains or losses arising from changes in fair value are recognized in other comprehensive loss. Available-for-sale investments are classified as current except if they are expected to be realized beyond 12 months of the consolidated statement of financial position date, where they are classified as non-current. The Company does not have any assets classified as available-for-sale.

#### (g) Financial Instruments (continued)

(iv) Loans and receivables: Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest rate method, less any impairment losses. Accounts receivable are classified as loans and receivables.

(v) Non-derivative financial liabilities: The Company initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated at fair value through profit or loss) are recognized initially on the trade at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expire. Financial assets and liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The Company has the following non-derivative financial liabilities: accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, and obligations under finance lease.

Such financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

(vi) Financial liabilities designated at fair value through profit or loss include derivatives, including separated derivatives are also classified as held for trading and recognized at fair value with change in fair value recognized in earnings unless they are designate as effective hedging instruments. Fair value changes on financial liabilities classified as fair value through profit or loss are recognized in the consolidated statement of operations. The Company's financial liabilities designated at fair value through profit or loss include derivative liabilities.

#### (h) Impairment of Financial Assets

At each reporting date, the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or group of financial assets.

#### (i) Revenue Recognition

Revenue is recognized when title and risk of loss is passed to the customer, reliable estimates can be made of relevant deductions, the sales price to the customer is fixed and determinable and collection of the resulting receivable is reasonably assured. Revenue is measured based on the customer's sales price. Gross revenue is reduced by discounts, credits, allowances, and product returns. Generally, revenue is recognized when the risks and rewards are transferred to the customer based on shipping terms negotiated in sales contracts.

#### (j) Foreign Currency Translation

The functional and reporting currency is the Canadian dollar. Transactions denominated in foreign currencies are translated using the exchange rate in effect on the transaction date or at an average rate. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange in effect at the consolidated statement of financial position date. Non-monetary items are translated using the historical rate on the date of the transaction. Foreign exchange gains and losses are included in the consolidated statement of operations.

### **3. Summary of Significant Accounting Policies (continued)**

#### **(k) Income Taxes**

Income tax comprises current and deferred income tax. Current income tax and deferred income tax are recognized in the consolidated statement of operations except to the extent that they relate to a business combination, or items recognized directly in equity or in the other comprehensive loss.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustments to income tax payable in respect of previous years. Current income taxes are determined using tax rates and laws that have been enacted or substantively enacted by the year-end date.

Deferred income tax assets and liabilities are recognized where the carrying amounts of an asset or liability differs from its tax base, except for the taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor the consolidated statement of operations.

Recognition of deferred income tax assets for unused tax losses, tax credits, and deductible temporary differences is restricted to those instances where it is probable that future taxable income will be available against which the deferred income tax asset can be utilized. At the end of each reporting period, the Company re-assesses unrecognized deferred income tax assets. The Company recognizes a previously unrecognized deferred income tax asset to the extent that it has become probable that future taxable income will allow the deferred income tax asset to be recovered.

#### **(l) Loss per Share**

Basic loss per share is computed using the weighted average number of common shares outstanding during the period. The treasury stock method is used for the calculation of diluted loss per share, whereby all "in the money" stock options and share purchase warrants are assumed to have been exercised at the beginning of the period and the proceeds from their exercise are assumed to have been used to purchase common shares at the average market price during the period. When a loss is incurred during the period, the exercise of stock options and share purchase warrants is considered to be anti-dilutive and basic and diluted loss per share are the same. As at June 30, 2016, the Company has 441,938 (2015 – 6,122,202) potentially dilutive shares.

#### **(m) Comprehensive Income (Loss)**

Comprehensive income (loss) is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in the consolidated statement of operations. For the years ended June 30, 2016 and 2015, comprehensive income (loss) consists of foreign currency translation gains and losses.

#### **(n) Share-based Payments**

The grant date fair value of share-based payment awards granted to employees is recognized as a stock-based compensation expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

### 3. Summary of Significant Accounting Policies (continued)

#### (o) Accounting Standards Issued But Not Yet Effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for annual periods beginning after July 1, 2016 or later periods.

The following new IFRSs that have not been early adopted in these consolidated financial statements will not have a material effect on the Company's future results and financial position:

- i) IFRS 9, *Financial Instruments* (New; to replace IAS 39 and IFRIC 9);
- ii) IFRS 15, *Revenue from Contracts with Customers* (New); and
- iii) IFRS 16, *Leases* (New).

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

### 4. Green 2 Blue Energy Europe Sp. z.o.o.

On October 13, 2014, Green 2 Blue Energy Europe Sp. z.o.o. ("G2BE Europe") was incorporated and 100 shares were issued. The Company acquired 60 shares of G2BE Europe for \$997 (PLN\$3,000) while the President of G2BE Europe owned 16 shares and two unrelated individuals owned the remaining 24 shares. On July 3, 2015, the President of G2BE Europe and the two unrelated individuals sold all of their shares in G2BE Europe to a company controlled by the President of G2BE Europe.

### 10. Convertible Debt – Related Party (continued)

The conversion feature failed to meet equity classification and will be accounted for as a derivative liability and accounted for separately from the host instrument. The principal balance will be accounted for at amortized cost, and the embedded derivative liability is measured at fair value with changes in value being recorded in the consolidated statement of operations.

During the year ended June 30, 2016, the Company received advances of \$51,079 (2015 - \$346,110). The Company recorded a derivative liability related to the convertible debt equal to the estimated fair value of the conversion feature of \$51,079 (2015 - \$286,047) with an equivalent discount on the convertible debenture. During the year ended June 30, 2016, the Company repaid \$10,092 (2015 - \$40,000) of the convertible debt and \$9,908 (2015 - \$nil) of interest.

On January 31, 2016, the Company issued 6,100,000 common shares with a fair value of \$610,000 to the President of the Company and the wife of the President of the Company upon the conversion of \$305,000 of the convertible debt, resulting in a loss on settlement of debt of \$305,000. On March 30, 2016, the Company issued 200,000 common shares with a fair value of \$20,000 to the President of the Company to settle \$20,000 of the convertible debt.

During the year ended June 30, 2016, the Company recognized accretion expense of \$244,130 (2015 - \$70,923). As at June 30, 2016, the Company had \$22,097 (2015 - \$306,110) of convertible debt outstanding, net of discount of \$22,073 (2015 - \$215,124) resulting in a carrying value of \$24 (2015 - \$90,896).

### 11. Derivative Liabilities

The conversion feature described in Note 10 failed to meet equity classification and, as a result, is accounted for as a derivative liability separately from the host debt instrument. The fair value of the conversion feature (derivative liability) is revalued at each reporting date and the fair value changes will be recorded in the consolidated statement of operations.

The table below sets forth a summary of changes in the fair value of the Company's Level 3 financial liabilities:

	June 30, 2016 \$	June 30, 2015 \$
Balance at the beginning of year	451,341	–
Original discount limited to proceeds of notes	51,079	286,047
Conversion of derivative liabilities	(376,846)	–
Extinguishment of derivative liabilities upon settlement of convertible debt	(12,038)	(66,692)
Change in fair value of derivative liabilities	(87,451)	231,986
Balance at the end of the year	26,085	451,341

During the year ended June 30, 2016, the Company recorded a gain of \$87,451 (2015 – loss of \$231,986) on the change in fair value of the derivative liabilities.

The Company uses the Black-Scholes option pricing model to calculate the fair values of the derivative liabilities. The following table shows the weighted average assumptions used in the calculations:

	Expected Volatility	Risk-free Interest Rate	Expected Dividend Yield	Expected Life (in years)
As at issuance date	168%	0.97%	0%	2.05
As at June 30, 2015	149%	0.53%	0%	1.34
As at June 30, 2016	168%	0.49%	0%	0.33

The Company is exposed in varying degrees to a variety of financial instrument and related risks. Those risks and management's approach to mitigating those risks are as follows:

#### (a) Fair Values

The Company categorizes its financial assets measured at the fair value into one of three different levels depending on the observation of the inputs used in the measurement. As at June 30, 2016, the Company has financial instruments in Level 1 and Level 3 as follows:

	Fair Value Measurements Using			Balance, June 30, 2016 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash	5,244	–	–	5,244
Derivative liabilities	–	–	(26,085)	(26,085)
	5,244	–	(26,085)	(20,841)

There were no transfers between levels during the year.

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities with active markets.

Level 2: Fair value is based on inputs other than quoted prices included within Level 1 that are not observable for the asset or liability, either directly (as prices) or indirectly (derived from prices), and

Level 3: Fair value is based on valuation techniques that require one or more significant unobservable inputs.

The fair values of other financial instruments, which include accounts receivable, accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, amounts due to related parties, and obligations under finance lease, approximate their carrying values due to the relatively short-term maturity of these instruments.

#### (b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's exposure to credit risk is in its cash and accounts receivable. Cash is held with major banks in Canada, which are high credit quality financial institutions as determined by rating agencies. The carrying amount of financial assets represents the maximum credit exposure.

### 16. Financial Instruments and Risk Management (continued)

#### (b) Credit Risk (continued)

Amounts receivable consists of trade receivables and input tax credits. The following table represents the customers that represented 10% or more of total trade receivables as of June 30:

	2016	2015
Customer A	65%	59%
Customer B	0%	18%
Customer C	0%	16%

The following table represents the customers that represented 10% or more of total revenue for the year ended June 30:

	2016	2015
Customer A	11%	33%
Customer B	6%	16%
Customer C	20%	14%
Customer D	25%	0%
Customer E	11%	0%

#### Currency Risk

The Company's functional currencies are the Canadian dollar, US dollar, and Polish zloty. Currency risk is the risk that the fair value of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company's head office and some operating expenses are denominated in Canadian dollars. The Company's revenue and a large portion of operating expenses are denominated in Polish zloty. If the Polish zloty depreciates compared to the Canadian dollar, revenue would decrease in Canadian dollars. A 10% change in the foreign currency exchange rate would have an impact of \$29,200 on net loss. The Company manages its exposure to foreign currency fluctuations by maintaining foreign currency bank accounts to offset foreign currency payables where possible. Management relies on the natural hedge created by this matching process and thus has chosen not to otherwise hedge its foreign exchange risk. Significant balances as expressed in Polish zloty are as follows:

	June 30, 2016 PLN\$	June 30, 2015 PLN\$
Cash	14,099	24,726
Accounts receivable	26,695	148,795
Prepaid expenses	19,852	13,122
Accounts payable and accrued liabilities	(705,578)	(267,733)
Obligations under finance lease	(1,129,430)	(1,248,795)
Net Polish zloty liabilities	(1,774,362)	(1,329,885)

#### (d) Interest Rate Risk

The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates and its short-term term deposits at prescribed market rates. The fair value of the Company's cash is not significantly affected by changes in short-term interest rates. The income earned from the bank accounts and short-term term deposits is subject to movements in interest rates.

#### (e) Liquidity and Funding Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available capital in order to meet its liquidity requirements. Management maintains sufficient cash to satisfy short-term liabilities in highly liquid investments.

Property and equipment	29,167	10,619
Total deferred income tax assets	295,225	158,609
Unrecognized deferred income tax assets	(295,225)	(158,609)
Net deferred income tax assets	–	–

As at June 30, 2016, the Company has non-capital losses carried forward of \$1,178,298 in Canada, Singapore, and Poland which are available to offset future years' taxable income. These losses expire as follows:

	\$
2035	638,799
2036	539,499
	1,178,298

### 20. Subsequent Events

- On September 29, 2016, the Company issued 100,000 common shares at \$0.10 per share for proceeds of \$10,000.
- On December 7, 2016, the Company and the President sold their interests in G2BE Poland to the Company's wholly-owned subsidiary, G2BE Europe. At that time, G2BE Poland became wholly-owned by the Company's wholly-owned subsidiary. On March 6, 2017, G2BE Europe acquired an additional 50% interest in G2BE Poland.
- On November 30, 2016, the Company issued 250,000 common shares at \$0.10 per share for proceeds of \$25,000.
- On January 17, 2017, the Company entered into a share exchange agreement (the "Agreement") with Brigade Resource Corp. ("Brigade"). Under the terms of the Agreement, Brigade will acquire all of the issued and outstanding common shares of the Company in exchange for 47,000,002 common shares of Brigade. As the shareholders of the Company will hold a majority of the common shares of Brigade and will continue its existing business, the Company is considered to have acquired Brigade on an accounting basis, and the transaction will be accounted for as a reverse takeover.

Notes to the Condensed Consolidated Financial Statements

March 31, 2017

(Expressed in Canadian dollars)

(Unaudited)

### **1. Corporate Information**

Green 2 Blue Energy Europe Corp. (the "Company") was incorporated on May 30, 2014 under the laws of British Columbia. The Company manufactures, markets, and distributes softwood pellets and shavings for consumer and industrial customers and arranges transactions between buyers and sellers of alternative energy products. The address of the Company's registered office is at Suite 415, 1040 West Georgia Street, Vancouver BC.

### **2. Basis of Presentation**

#### **(a) Statement of Compliance and Principles of Consolidation**

These condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*, on a going concern basis.

These condensed consolidated financial statements include the accounts of the Company and its subsidiaries: (i) Green 2 Blue Energy Europe Sp. z.o.o. ("G2BE Europe"), incorporated in Poland in October 2014 and is 99.5% owned by the Company; (ii) G2BE Services PTE Ltd. ("G2BE Services"), incorporated in Singapore and is wholly owned by the Company; and (iii) G2BE Poland Sp z o.o. ("G2BE Poland"), incorporated in Poland and is owned 99% by the Green 2 Blue Energy Europe. The Company sold its interest in G2BE Services effective March 27, 2017.

All significant intercompany transactions have been eliminated on consolidation.

#### **(b) Basis of Measurement**

These interim condensed consolidated financial statements have been prepared on a historical cost basis and are presented in Canadian dollars. The Company's functional currency is Canadian dollars. G2BE Europe's and G2BE Poland's functional currency is Polish zloty. G2BE Services' functional currency is US dollars.

#### **(c) Use of Estimates and Judgments**

The preparation of these condensed consolidated financial statements requires management to make certain estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements and reported amounts of expenses during the period. These estimates are, by their nature, uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions, and other factors including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities.

Significant areas of estimation include the allowance for doubtful accounts, useful life and recoverability of property and equipment, measurement of provisions, valuation of inventory, fair value of derivative liabilities, fair value of share-based payments, and deferred income tax asset valuation allowances.

## **GREEN 2 BLUE ENERGY CORP.**

Notes to the Condensed Consolidated Financial Statements

March 31, 2017

(Expressed in Canadian dollars)

(Unaudited)

### **2. Basis of Presentation (continued)**

#### (c) Use of Estimates and Judgments (continued)

The Company's policy for property and equipment requires judgment in determining whether the present value of future expected economic benefits exceeds capitalized costs. The policy requires management to make certain estimates and assumptions about future economic benefits related to its operations. Estimates and assumptions may change if new information becomes available. If information becomes available suggesting that the recovery of capitalized cost is unlikely, the capitalized cost is written off to the consolidated statement of operations.

The assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

#### (d) Going Concern

These condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at March 31, 2017, the Company had a negative cash flow from operations, had a working capital deficit of \$572,206, and had an accumulated deficit of \$2,658,654. Furthermore, the Company defaulted on a lease obligation, and incurred a net loss of \$499,644 during the nine months ended March 31, 2017. To obtain future profitability, the Company will need to increase the volume of production and sales, and is reliant on the co-operation on creditors to pay outstanding amounts on a timely basis. These factors, among others, create substantial doubt as to the ability of the Company to continue as a going concern. Management believes that the proceeds from additional equity financing activities that it is currently pursuing, combined with revenue that the Company expects to generate in subsequent periods, will provide the Company with sufficient working capital to satisfy its liabilities and commitments as they become due for the foreseeable future. There can be no assurances that sufficient equity can be raised on a timely basis or on terms that are acceptable to the Company. These factors, current market conditions, and inability to secure new assets to date, however, indicate the existence of a material uncertainty that casts significant doubt on the ability of the Company to continue as a going concern or in its present form. These condensed consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

### **3. Recent Accounting Pronouncements**

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for annual periods beginning after July 1, 2016 or later periods.

The following new IFRSs that have not been early adopted in these consolidated financial statements will not have a material effect on the Company's future results and financial position:

- i) IFRS 9, *Financial Instruments* (New; to replace IAS 39 and IFRIC 9);
- ii) IFRS 15, *Revenue from Contracts with Customers* (New); and
- iii) IFRS 16, *Leases* (New).

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's condensed consolidated financial statements.

### 8. Obligations Under Finance Lease

On October 1, 2014, the Company entered into an agreement to lease machinery used in the production of pellets. During the nine months ended March 31, 2017, the Company amended the terms of the lease. The equipment lease is classified as a finance lease. The interest rate underlying the obligation in the finance lease is 26% per annum.

The following is a schedule by years of future minimum lease payments under the remaining finance lease together with the present value of the net minimum lease payments as of March 31, 2017:

Year ending June 30:	\$
2017	25,083

### 8. Convertible Note Payable – Related Party

On October 13, 2014, the Company entered into a loan agreement with the President of the Company. Pursuant to the agreement, the President of the Company will advance up to \$300,000 to the Company. Advances will bear interest at 5% per annum and mature on October 30, 2016 or such later date at the sole discretion of the President of the Company. The loan is convertible at the holder's option at any time prior to the maturity date at the lower of: (i) \$0.05 per share; or (ii) the price of the common shares most recently issued by the borrower. On February 9, 2015, the parties entered into an amendment to the loan agreement whereby the credit limit referred to in the loan agreement was increased by \$100,000 to \$400,000.

The conversion feature failed to meet equity classification and was accounted for as a derivative liability and accounted for separately from the host instrument. The principal balance was accounted for at amortized cost, and the embedded derivative liability was measured at fair value with changes in value recorded in the consolidated statement of operations.

During the year ended June 30, 2016, the Company received advances of \$51,079 (2015 - \$346,110). The Company recorded a derivative liability related to the convertible debt equal to the estimated fair value of the conversion feature of \$51,079 (2015 - \$286,047) with an equivalent discount on the convertible debenture. During the year ended June 30, 2016, the Company repaid \$10,092 (2015 - \$40,000) of the convertible debt and \$9,908 (2015 - \$nil) of interest.

On January 31, 2016, the Company issued 6,100,000 common shares with a fair value of \$610,000 to the President of the Company and the wife of the President of the Company upon the conversion of \$305,000 of the convertible debt, resulting in a loss on settlement of debt of \$305,000. On March 30, 2016, the Company issued 200,000 common shares with a fair value of \$20,000 to the President of the Company to settle \$20,000 of the convertible debt.

On October 30, 2016, the note matured and the remaining outstanding balance was transferred to a non-interest bearing, due on demand related party advance.

### 8. Convertible Note Payable – Related Party (continued)

During the nine months ended March 31, 2017, the Company recognized accretion expense of \$22,073 (2016 - \$234,044). As at March 31, 2017, the Company had \$nil (June 30, 2016 - \$22,097) of convertible debt outstanding, net of discount of \$nil (June 30, 2016 - \$22,073) resulting in a carrying value of \$nil (June 30, 2016 - \$24).

### 9. Derivative Liabilities

The conversion feature described in Note 9 failed to meet equity classification and, as a result, was accounted for as a derivative liability separately from the host debt instrument. The fair value of the conversion feature (derivative liability) was revalued at each reporting date and the fair value changes recorded in the consolidated statement of operations.

The table below sets forth a summary of changes in the fair value of the Company's Level 3 financial liabilities:

	Nine months Ended March 31, 2017 \$	Year Ended June 30, 2016 \$
Balance at the beginning of period	26,085	451,341
Original discount limited to proceeds of notes	–	51,079
Conversion of derivative liabilities	–	(376,846)
Extinguishment of derivative liabilities upon settlement of convertible debt	–	(12,038)
Change in fair value of derivative liabilities	(26,085)	(87,451)
Balance at the end of the period	–	26,085

During the nine months ended March 31, 2017, the Company recorded a gain on the change in fair value of the derivative liabilities of \$26,085 (2016 – \$90,610).

The Company uses the Black-Scholes option pricing model to calculate the fair values of the derivative liabilities. The following table shows the weighted average assumptions used in the calculations:

	Expected Volatility	Risk-free Interest Rate	Expected Dividend Yield	Expected Life (in years)
As at issuance date	168%	0.97%	0%	2.05
As at June 30, 2016	168%	0.49%	0%	0.33
As at March 31, 2017	–	–	–	–

### 11. Related Party Transactions

- (f) On December 15, 2016, the Company issued 273,700 common shares at a price of \$0.10 per share for proceeds of \$27,370.

### **13. Capital Management**

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and cash equivalents and equity comprised of issued share capital, share-based payment reserve and deficit.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its board of directors, will balance its overall capital structure through new equity issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended June 30, 2016.

Fiscal year ending June 30, 2021		50,168
<u>Total:</u>	<u>\$</u>	<u>376,250</u>

- (b) On November 2, 2016, the Company entered into an agreement to lease equipment until August 1, 2020. The Company made an initial payment of \$5,620 (PLN\$16,718) and agreed to pay \$2,820 (PLN\$8,387) per month. The lease is secured by a cash deposit of \$20,171 (PLN\$60,000) together with a promissory note guaranteed by a shareholder of the Company.
- (c) On November 9, 2016, the Company entered into an agreement for the purchase of feed stock and sale wood pellets for an indefinite period. Pursuant to the agreement, the Company will purchase feed stock from the supplier and sell wood pellets to the supplier. The sale price of the wood pellets will be based on the purchase price of the feed stock and guarantees a fixed margin of production. The agreement may be terminated by either party with 3 months' notice.
- (d) Commencing on January 1, 2017, the Company entered into an agreement to lease property for an indefinite period in exchange for PLN\$25,000 per month plus VAT and utilities. The lease is secured by equipment owned by the Company's subsidiary and a vehicle owned by a shareholder.
- (e) Commencing on January 1, 2017, the Company entered into an agreement for the purchase of electricity for the period of one year. Pursuant to the agreement the Company will purchase an estimated total of 4000 MWh at a price of PLN\$210.90/MWh.
- (f) On January 17, 2017, the Company entered into a share exchange agreement (the "Agreement") with Brigade Resource Corp. ("Brigade"). Under the terms of the Agreement, Brigade will acquire all of the issued and outstanding common shares of the Company in exchange for 47,000,002 common shares of Brigade. As the shareholders of the Company will hold a majority of the common shares of Brigade and will continue its existing business, the Company is considered to have acquired Brigade on an accounting basis, and the transaction will be accounted for as a reverse takeover.

### 15. Financial Instruments and Risk Management

The Company is exposed in varying degrees to a variety of financial instrument and related risks. Those risks and management's approach to mitigating those risks are as follows:

#### (a) Fair Values

The Company categorizes its financial assets measured at the fair value into one of three different levels depending on the observation of the inputs used in the measurement. As at March 31, 2017, the Company has financial instruments in Level 1 as follows:

	Fair Value Measurements Using			Balance, March 31, 2017 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash	5,633	–	–	5,633

There were no transfers between levels during the year.

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities with active markets.

Level 2: Fair value is based on inputs other than quoted prices included within Level 1 that are not observable for the asset or liability, either directly (as prices) or indirectly (derived from prices), and

Level 3: Fair value is based on valuation techniques that require one or more significant unobservable inputs.

The fair values of other financial instruments, which include accounts receivable, accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, and obligations under finance lease, approximate their carrying values due to the relatively short-term maturity of these instruments.

#### (b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's exposure to credit risk is in its cash and accounts receivables. Cash is held with major banks in Canada, which are high credit quality financial institutions as determined by rating agencies. The carrying amount of financial assets represents the maximum credit exposure.

##### Amounts Receivable

Amounts receivable consists of trade receivables and input tax credits. The following table represents the customers that represented 10% or more of total trade receivables as of:

	March 31, 2017	June 30, 2016
Customer A	0%	65%
Customer B	28%	0%
Customer C	36%	0%

### 15. Financial Instruments and Risk Management (continued)

#### (b) Credit Risk (continued)

The following table represents the customers that represented 10% or more of total revenue for the nine months ended March 31:

	2017	2016
Customer A	0%	11%
Customer B	99%	25%
Customer C	0%	11%
Customer D	0%	20%

#### (c) Currency Risk

The Company's functional currencies are the Canadian dollar, US dollar, and Polish zloty. Currency risk is the risk that the fair value of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company's head office and some operating expenses are denominated in Canadian dollars. The Company's revenue and a large portion of operating expenses are denominated in Polish zloty. If the Polish zloty depreciates compared to the Canadian dollar, revenue would decrease in Canadian dollars. A 10% change in the foreign currency exchange rate would have an approximate impact of \$30,000 on net loss. The Company manages its exposure to foreign currency fluctuations by maintaining foreign currency bank accounts to offset foreign currency payables where possible. Management relies on the natural hedge created by this matching process and thus has chosen not to otherwise hedge its foreign exchange risk. Significant balances as expressed in Polish zloty are as follows:

	March 31, 2016 PLN\$	June 30, 2016 PLN\$
Cash	6,341	14,099
Accounts receivable	220,838	26,695
Due from related parties	21,917	-
Prepaid expenses	44,655	19,852
Accounts payable and accrued liabilities	(973,173)	(705,578)
Loans payable	(640,341)	-
Obligations under finance lease	(1,094,422)	(1,129,430)
Net Polish zloty liabilities	(2,414,185)	(1,774,362)

#### (d) Interest Rate Risk

The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates and its short-term term deposits at prescribed market rates. The fair value of the Company's cash is not significantly affected by changes in short-term interest rates. The income earned from the bank accounts and short-term term deposits is subject to movements in interest rates.

#### (e) Liquidity and Funding Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available capital in order to meet its liquidity requirements. Management maintains sufficient cash to satisfy short-term liabilities in highly liquid investments.

Funding risk is the risk that market conditions will impact the Company's ability to raise capital through equity markets under acceptable terms and conditions.

All of the Company's revenue during the three and nine month periods ended March 31, 2017 and 2016 was generated in Poland.

### 17. Subsequent Events

On July 12, 2017, the Company closed the Agreement with Brigade described in Note 14(f). Pursuant to the Agreement, Brigade acquired all of the issued and outstanding common shares of the Company in exchange for 47,000,002 common shares of Brigade. As the shareholders of the Company hold a majority of the common shares of Brigade and will continue its existing business, the Company is considered to have acquired Brigade on an accounting basis, and the transaction will be accounted for as a reverse takeover.

In conjunction with the closing of the agreement, the amounts owed described in Note 7(i) were forgiven.

## **TargetCo Management Discussion and Analysis for the financial year ended June 30, 2016.**

### **Introduction**

This management's discussion and analysis (MD&A) of TargetCo is the responsibility of management and covers the year ended June 30, 2016. The MD&A takes into account information available up to and including May 12, 2017 and should be read together with the audited consolidated financial statements and accompanying notes for the year ended June 30, 2016.

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies applied in the consolidated financial statements are based on IFRS issued and outstanding as of May 12, 2017, the date the Board of Directors approved the consolidated financial statements. All amounts are expressed in Canadian dollars unless otherwise noted.

### **Forward-Looking Statements**

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements.

Forward-looking information includes disclosure regarding possible or anticipated events, conditions or results of operations which are based on assumptions about future economic conditions and courses of action, and includes future oriented financial information with respect to prospective results of operations or financial position or cash flow that is presented either as a forecast or a projection. Forward-looking information is often, but not always, identified by the use of words such as seek, anticipate, believe, plan, estimate, expect and intend; statements that an event or result is due on or may, will, should, could, or might occur or be achieved; and other similar expressions.

### Results of Operations for the Years Ended June 30, 2016 and 2015

Revenues for the year ended June 30, 2016 were \$201,018, compared to \$80,229 for the year ended June 30, 2015. This increase was the result of an increase in operations.

Cost of sales for the year ended June 30, 2016 were \$180,020, compared to \$71,109 for the year ended June 30, 2015. This increase was the result of an increase in revenues and production.

Operating expenses for the year ended June 30, 2016 were \$1,026,416, compared to \$519,824 for the year ended June 30, 2015. The significant differences in expenditures were as follows:

- Consulting expenses were \$513,000 during the year ended June 30, 2016, compared to \$102,000 during the year ended June 30, 2015. Consulting expenditures increased as a result of an increased number of consultants receiving shares for services.
- General and administrative expenses were \$305,036 during the year ended June 30, 2016, compared to \$202,156 during the year ended June 30, 2015. This increase was a result of a general increase in operations.

During the years ended June 30, 2016 and 2015, TargetCo charged accretion expense in respect to a convertible note to the consolidated statement of operations in the amount of \$244,130 and \$70,923, respectively. The increase in accretion expense was the result of a convertible note being outstanding for the full year ended June 30, 2016 as opposed to part of the year for the year ended June 30, 2015.

During the year ended June 30, 2016, TargetCo recorded a gain on the change in the fair value of a derivative liability associated with a conversion feature on a convertible note in the amount of \$87,451 compared to a loss on the change in the fair value of the conversion feature of \$231,986 during the year ended June 30, 2015.

During the year ended June 30, 2016, TargetCo incurred interest expense of \$67,698 compared to \$24,183 during the year ended June 30, 2015. The increase in interest expense was the result of a convertible note being outstanding for the full year ended June 30, 2016 as opposed to part of the year for the year ended June 30, 2015.

As a result of the foregoing, TargetCo recorded a comprehensive loss for the year ended June 30, 2016 of \$1,518,128, as compared to a comprehensive loss of \$644,499 for the year ended June 30, 2015.

## **Outstanding Share Data**

As of the date of this MD&A, TargetCo has 23,500,001 common shares issued and outstanding.

## **Capital Resources**

TargetCo manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of TargetCo consists of cash and cash equivalents and equity comprised of issued share capital, share-based payment reserve and deficit.

TargetCo manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its board of directors, will balance its overall capital structure through new equity issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

TargetCo is not subject to externally imposed capital requirements.

## **Liquidity**

Since our inception, we have incurred significant operating losses. We anticipate that we will continue to incur losses for at least the next several years. As a result, we will need additional capital to fund our operations, which we may obtain from additional financings, debt and operations revenue or other sources. To date, we have financed our operations primarily through the issuance of our common shares, notes and loans payable and advances from related parties.

As at June 30, 2016, we had total assets of \$442,250 compared with \$625,426 as at June 30, 2015. The decrease in assets is attributed to a decrease in current assets of \$96,415 which is primarily from a decrease in receivables and inventory, together with a decrease in property and equipment of \$86,761. TargetCo had a cash balance of \$5,244 and a working capital deficit of \$513,219 at June 30, 2016, compared with a cash balance of \$15,856 and a working capital deficit of \$536,930 at June 30, 2015.

*Operating Activities:* Net cash used in operating activities were \$209,252 during the year ended June 30, 2016 as compared to \$371,962 during the year ended June 30, 2015.

*Investing Activities:* Net cash used in investing activities during the year ended June 30, 2016 was \$29,927 for the purchase of property and equipment, which is comparable to the net cash used in investing activities during the year ended June 30, 2015 of \$20,485 for the purchase of property and equipment.

*Financing Activities:* Net cash provided by financing activities during the year ended June 30, 2016 was \$244,793 as compared to \$352,332 during the year ended June 30, 2015. TargetCo raised proceeds from loans and convertible debt of \$130,068 and repaid \$24,209 during the year ended June 30, 2016 as compared to proceeds of \$346,110 and repayments of \$40,000 during the year ended June 30, 2015. TargetCo also repaid finance lease obligations of \$25,566 during the year ended June 30, 2016 compared with \$104,442 during the year ended June 30, 2015. During the year ended June 30, 2016, TargetCo received cash proceeds of \$164,500 from the issuance of common shares as compared to \$150,000 during the year ended June 30, 2015.

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2016, the Company had a negative cash flow from operations, had a working capital deficit of \$513,219, and had an accumulated deficit of \$2,160,069. Furthermore, the Company defaulted on a lease obligation, and incurred a net loss of \$1,501,902 during the year ended June 30, 2016. To obtain future profitability, the Company will need to increase the volume of production and sales, and is reliant on the co-operation on creditors to pay outstanding amounts on a timely basis. These factors, among others, create substantial doubt as to the ability of the Company to continue as a going concern. TargetCo's strategy is to mitigate risks and uncertainties and to execute a business plan aimed at revenue growth and managing operating expenses and working capital requirements. Failure to implement this plan could have a material adverse effect on TargetCo's financial condition and results of operations.

## Related Party Transactions

During the years ended June 30, 2016 and 2015, TargetCo was engaged in the following related party transactions:

- a) During the year ended June 30, 2016, TargetCo recorded consulting and management fees of \$85,500 (2015 - \$42,000) to the President of TargetCo and \$48,000 (2015 - \$nil) to the Chief Financial Officer of TargetCo.
- b) As at June 30, 2016, TargetCo owed \$142,537 (2015 - \$45,997) to the President of TargetCo, of which \$141,540 (2015 - \$45,000) was included in accounts payable and accrued liabilities.
- c) As at June 30, 2016, TargetCo owed \$33,717 (2015 - \$nil) to the Chief Financial Officer of TargetCo, of which \$28,717 (2015 - \$nil) was included in accounts payable and accrued liabilities.
- d) As at June 30, 2016, TargetCo was owed \$nil (2015 - \$6,307 (PLN18,983)) from the President of G2BE Europe, which was included in accounts receivable.
- e) As at June 30, 2016, TargetCo owed \$2,312 (PLN7,041) (2015 - \$1,095 (PLN3,296)) to a director of G2BE Europe, which was included in accounts payable and accrued liabilities.

## Off Balance Sheet Arrangements

TargetCo has no material off Balance Sheet arrangements.

## Financial Instruments and Risk Management

TargetCo is exposed in varying degrees to a variety of financial instrument and related risks. Those risks and management's approach to mitigating those risks are as follows:

### (a) Fair Values

TargetCo categorizes its financial assets measured at the fair value into one of three different levels depending on the observation of the inputs used in the measurement.

As at June 30, 2016, TargetCo has financial instruments in Level 1 and Level 3 as follows:

	Fair Value Measurements Using			Balance, June 30, 2016 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash	5,244	–	–	5,244
Derivative liabilities	–	–	(26,085)	(26,085)
	5,244	–	(26,085)	(20,841)

There were no transfers between levels during the periods.

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities with active markets.

Level 2: Fair value is based on inputs other than quoted prices included within Level 1 that are not observable for the asset or liability, either directly (as prices) or indirectly (derived from prices), and

Level 3: Fair value is based on valuation techniques that require one or more significant unobservable inputs.

The fair values of other financial instruments, which include accounts receivable, accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, and obligations under finance lease, approximate their carrying values due to the relatively short-term maturity of these instruments.

(b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. TargetCo's exposure to credit risk is in its cash and accounts receivable. Cash is held with major banks in Canada, which are high credit quality financial institutions as determined by rating agencies. The carrying amount of financial assets represents the maximum credit exposure.

Amounts receivable consists of trade receivables and input tax credits. The following table represents the customers that represented 10% or more of total trade receivables as of June 30:

	2016	2015
Customer A	65%	59%
Customer B	0%	18%
Customer C	0%	16%

The following table represents the customers that represented 10% or more of total revenue for the year ended June 30:

	2016	2015
Customer A	11%	33%
Customer B	6%	16%
Customer C	20%	14%
Customer D	25%	0%
Customer E	11%	0%

(c) Currency Risk

TargetCo's functional currencies are the Canadian dollar, US dollar, and Polish Zloty. Currency risk is the risk that the fair value of TargetCo's financial instruments will fluctuate because of changes in foreign currency exchange rates. TargetCo's head office and some operating expenses are denominated in Canadian dollars. TargetCo's revenue and a large portion of operating expenses are denominated in Polish Zloty. If the Polish Zloty depreciates compared to the Canadian dollar, revenue would decrease in Canadian dollars. A 10% change in the foreign currency exchange rate would have an impact of \$29,200 on net loss. TargetCo manages its exposure to foreign currency fluctuations by maintaining foreign currency bank accounts to offset foreign currency payables where possible. Management relies on the natural hedge created by this matching process and thus has chosen not to otherwise hedge its foreign exchange risk. Significant balances as expressed in Polish Zloty are as follows:

		June 30, 2016		June 30, 2015
Cash	PLN	14,099	PLN	24,726
Accounts receivable		26,695		148,795
Prepaid expenses		19,852		13,122
Accounts payable and accrued liabilities		(705,578)		(267,733)
Finance leases		(1,129,430)		(1,248,795)
Net Polish liabilities	PLN	(1,774,362)	PLN	(1,329,885)

(d) Interest Rate Risk

TargetCo's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates and its short-term term deposits at prescribed market rates. The fair value of TargetCo's cash is not significantly affected by changes in short-term interest rates. The income earned from the bank accounts and short-term term deposits is subject to movements in interest rates.

(e) Liquidity and Funding Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. TargetCo's objective in managing liquidity risk is to maintain sufficient readily available

capital in order to meet its liquidity requirements. Management maintains sufficient cash to satisfy short-term liabilities in highly liquid investments.

Funding risk is the risk that market conditions will impact TargetCo's ability to raise capital through equity markets under acceptable terms and conditions.

As at June 30, 2016	Carrying amount \$	Contractual cash flows \$	1 year or less \$	1 -5 Years \$
Trade and other payables	463,446	463,446	463,446	–
Obligations under finance lease	370,791	410,105	67,166	342,939
	834,237	873,551	530,612	342,939

### Critical Accounting Estimates

The preparation of TargetCo's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ significantly from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities.

Significant areas of estimation include:

- i) The useful life and recoverability of long-lived assets:

Management estimates the useful lives of property and equipment based on the period during which the assets are expected to be available for use. The amounts and timing of recorded expenses for depreciation of property and equipment for any period are affected by these estimated useful lives. The estimates are reviewed at least annually and are updated if expectations change as a result of technical or commercial obsolescence, and legal or other limits to use. It is possible that changes in these factors may cause significant changes in the estimated useful lives of TargetCo's property and equipment in the future.

The assessment of any impairment of property and equipment, including intangible assets, is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions, timing of cash flows, the useful lives of assets, and their related salvage values.

- ii) Allowance for doubtful accounts:

TargetCo's method of establishing an allowance for doubtful accounts is estimated and recorded based upon management's assessment both of historical data as well as other pertinent information relative to the receivables in question. The information gathered will result in a specific bad debt expense for accounts which management considers being uncollectible and recorded in the period in which this determination is made.

- iii) Provisions:

Management's judgment is required to determine amounts to be recognized for liabilities of uncertain timing or amounts that have arisen as a result of past transactions. Provisions are the best estimate of the expenditure required to settle the obligation at the reporting date.

- iv) Inventory valuation:

In order to determine whether the inventory is properly stated at the lower of cost or net realizable value, management reviews the amount of inventory on hand, the product life and estimates the time

required to sell such inventory taking into account current and expected market conditions and competition. A reserve for inventory, if recorded, primarily consists of all or a portion of the inventory which is not expected to be sold, based on the specific facts and circumstances.

v) Recognition of deferred income tax assets:

Related deferred income tax assets and deferred income tax liabilities are recognized for the estimated tax consequences between amounts included in the financial statements and their respective tax basis based on the enacted or substantively enacted future income tax rates. Timing of future revenue streams and future capital spending changes can affect the timing of any temporary differences, and the expected usage of existing tax pools and credits, and accordingly can affect the amount of the deferred income tax assets and liabilities calculated at a point in time. These differences could materially impact earnings.

vi) The valuation of share-based payments:

The grant date fair value of share-based payment awards granted to employees is recognized as a stock-based compensation expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

vii) The inputs used in the valuation of derivative liabilities:

The fair value of derivative liabilities related to conversion features are measured using a Black-Scholes model. Measurement inputs include share price on measure date, conversion price of the note, expected volatility, actual and expected life of the debt, expected dividends based on the dividend yield at the date of the valuation, and the risk-free interest rate. The expected life of the debt is based on the stated term of the debt.

### **Significant Accounting Policies**

TargetCo's significant accounting policies are summarized in Note 3 to the audited consolidated financial statements for the years ended June 30, 2016 and 2015.

### **Future Changes Accounting Policies**

#### **Accounting Standards Issued But Not Yet Effective**

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for annual periods beginning after July 1, 2016 or later periods.

The following new IFRSs that have not been early adopted in these consolidated financial statements will not have a material effect on TargetCo's future results and financial position:

- i) IFRS 9, *Financial Instruments* (New; to replace IAS 39 and IFRIC 9)
- ii) IFRS 15, *Revenue from Contracts with Customers*
- iii) IFRS 16, *Leases*

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on TargetCo's financial statements.

## **TargetCo Management's Discussion and Analysis for the period ended March 31, 2017.**

### **Introduction**

This management's discussion and analysis (MD&A) of TargetCo is the responsibility of management and covers the nine months ended March 31, 2017. The MD&A takes into account information available up to and including June 30, 2017, and should be read together with the unaudited interim consolidated financial statements and accompanying notes for the nine months ended March 31, 2017.

The unaudited interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies applied in the unaudited interim consolidated interim financial statements are based on IFRS issued and outstanding as of June 30, 2017, the date the Board of Directors approved the unaudited interim consolidated financial statements. All amounts are expressed in Canadian dollars unless otherwise noted.

### **Forward-Looking Statements**

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements.

Forward-looking information includes disclosure regarding possible or anticipated events, conditions or results of operations which are based on assumptions about future economic conditions and courses of action, and includes future oriented financial information with respect to prospective results of operations or financial position or cash flow that is presented either as a forecast or a projection. Forward-looking information is often, but not always, identified by the use of words such as seek, anticipate, believe, plan, estimate, expect and intend; statements that an event or result is due on or may, will, should, could, or might occur or be achieved; and other similar expressions.

### Results of Operations for the Nine Months Ended March 31, 2017 and 2016

Revenues for the nine months ended March 31, 2017 were \$222,778, compared to \$203,009 for the nine months ended March 31, 2016. This increase was the result of increased production and new sales agreements during the period ended March 31, 2017.

Cost of sales for the nine months ended March 31, 2017 were \$212,301, compared to \$181,802 for the nine months ended March 31, 2016. This increase was the result of an increase in revenues and production.

Operating expenses for the nine months ended March 31, 2017 were \$536,248, compared to \$815,440 for the nine months ended March 31, 2016. The significant differences in expenditures were as follows:

- Consulting expenses were \$202,130 during the nine months ended March 31, 2017, compared to \$446,000 during the nine months ended March 31, 2016. Consulting expenditures were higher during the nine months ended March 31, 2016, as a result of the Company issuing shares for services during the nine months ended March 31, 2016 compared to issuing no shares for services during the nine months ended March 31, 2017. This decrease in stock-based compensation was partially offset by an increase in cash compensation to consultants engaged during the 2017 period;
- General and administrative expenses were \$169,772 during the nine months ended March 31, 2017, compared to \$233,021 during the nine months ended March 31, 2016. This decrease was primarily a result of a decrease in third party services from \$100,574 during the nine months ended March 31, 2016 to \$42,357 during the nine months ended March 31, 2017. The decrease in third party services and other administrative expenses was the result of a decrease in operations during the first part of fiscal 2017 by TargetCo's subsidiary;
- Wages and benefits were \$16,078 during the nine months ended March 31, 2017, compared to \$71,586 during the nine months ended March 31, 2016. This decrease was primarily a result of a decrease in operations during the first part of fiscal 2017 by Target Co's subsidiary which resulted in lower wages and benefits paid to employees;
- Professional fees were \$78,935 during the nine months ended March 31, 2017 compared to \$18,867 during the nine months ended March 31, 2016 to reflect the increase in accounting, audit, and legal services incurred by Target Co.

During the nine months ended March 31, 2017 and 2016, TargetCo charged accretion expense in respect to a convertible note to the consolidated statement of operations in the amount of \$22,073 and \$234,044, respectively. The decrease in

accretion during the nine months ended March 31, 2017, as a result of less convertible debt outstanding during the period.

During the nine months ended March 31, 2016, the Company incurred a \$305,000 loss on settlement of debt as a result of issuing 6,100,000 common shares with a fair value of \$610,000 to the President of the Company and the wife of the President of the Company upon the conversion of \$305,000 of principal of a convertible loan.

During the nine months ended March 31, 2017 and 2016, the Company recorded a gain on the change in the fair value of a derivative liability associated with a conversion feature in a convertible note in the amount of \$26,085 and \$90,610, respectively.

During the nine months ended March 31, 2017, TargetCo incurred interest expense of \$37,988 compared to \$41,152 during the nine months ended March 31, 2016. This increase was the result of having a larger balance owing on a convertible note outstanding during the period ended March 31, 2016.

As a result of the foregoing, TargetCo recorded a comprehensive loss for the nine months March 31, 2017 of \$512,603, as compared to a comprehensive loss of \$1,289,451 for the nine months ended March 31, 2016.

### **Outstanding Share Data**

As of the date of this MD&A, TargetCo has 23,500,001 common shares issued and outstanding.

### **Capital Resources**

TargetCo manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of TargetCo consists of cash and cash equivalents and equity comprised of issued share capital, share-based payment reserve and deficit.

TargetCo manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its board of directors, will balance its overall capital structure through new equity issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

TargetCo is not subject to externally imposed capital requirements.

### **Liquidity**

Since our inception, we have incurred significant operating losses. We anticipate that we will continue to incur losses for at least the next several years. As a result, we will need additional capital to fund our operations, which we may obtain from additional financings, debt and operations revenue or other sources. To date, we have financed our operations primarily through the issuance of our common shares, notes and loans payable and advances from related parties.

As at March 31, 2017, we had total assets of \$532,583 compared with \$442,250 as at June 30, 2016. The increase in assets is attributed to an increase in receivables and inventory offset by a decrease in property and equipment. TargetCo had a cash balance of \$5,633 and a working capital deficit of \$577,427 at March 31, 2017, compared with a cash balance of \$5,244 and a working capital deficit of \$513,219 at June 30, 2016. The decrease in working capital deficit was primarily a result of an increase in loans payable and current lease obligations offset by an increase in accounts receivable and inventory.

*Operating Activities:* Net cash used in operating activities were \$370,131 during the nine months ended March 31, 2017 as compared to \$129,792 during the nine months ended March 31, 2016.

*Investing Activities:* During the nine months ended March 31, 2017, the Company sold property and equipment for proceeds of \$26,558. During the nine months ended March 31, 2016, the Company purchased property and equipment in the amount of \$29,923.

*Financing Activities:* Net cash provided by financing activities increased from \$333,819 during the nine months ended March 31, 2017 to \$181,465 during the nine months ended March 31, 2016. This increase was a result of an increase in proceeds from loans payable.

The consolidated financial statements have been prepared on a going concern basis, which assumes that TargetCo will be able to realize its assets and discharge its liabilities in the normal course of business. As of March 31, 2017, TargetCo did not yet have positive cash flow from operations and had an accumulated deficit of \$2,663,755. These factors, among others, create substantial doubt as to the ability of the Company to continue as a going concern. TargetCo's strategy is to

mitigate risks and uncertainties and to execute a business plan aimed at revenue growth and managing operating expenses and working capital requirements. Failure to implement this plan could have a material adverse effect on TargetCo's financial condition and results of operations.

### Related Party Transactions

During the nine months ended March 31, 2017, TargetCo was engaged in the following related party transactions:

- e) As at March 31, 2017, the Company owed \$nil (June 30, 2016 - \$2,312 (PLN\$7,041)) to a director of G2BE Europe, which was included in accounts payable and accrued liabilities.
- f) As at March 31, 2017, the Company owed \$nil (June 30, 2016 - \$nil) to the President of G2BE Europe, which was included in accounts payable and accrued liabilities.

### Off Balance Sheet Arrangements

TargetCo has no material off Balance Sheet arrangements.

### Financial Instruments and Risk Management

TargetCo is exposed in varying degrees to a variety of financial instrument and related risks. Those risks and management's approach to mitigating those risks are as follows:

#### (d) Fair Values

TargetCo categorizes its financial assets measured at the fair value into one of three different levels depending on the observation of the inputs used in the measurement.

As at March 31, 2017, TargetCo has financial instruments in Level 1 as follows:

	Fair Value Measurements Using			Balance, March 31, 2016 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash	5,633	–	–	5,633

There were no transfers between levels during the period.

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities with active markets.

Level 2: Fair value is based on inputs other than quoted prices included within Level 1 that are not observable for the asset or liability, either directly (as prices) or indirectly (derived from prices), and

Level 3: Fair value is based on valuation techniques that require one or more significant unobservable inputs.

The fair values of other financial instruments, which include accounts receivable, accounts payable and accrued liabilities, loans payable, amounts due to related parties, convertible debt to related parties, and

obligations under finance lease, approximate their carrying values due to the relatively short-term maturity of these instruments.

(e) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. TargetCo's exposure to credit risk is in its cash and accounts receivable. Cash is held with major banks in Canada, which are high credit quality financial institutions as determined by rating agencies. The carrying amount of financial assets represents the maximum credit exposure.

Amounts receivable consists of trade receivables and input tax credits. The following table represents the customers that represented 10% or more of total trade receivables as of:

	March 31, 2017
Customer A	0%
Customer B	99%

The following table represents the customers that represented 10% or more of total revenue for the nine months ended March 31:

	2017	2016
Customer A	0%	11%
Customer B	99%	25%
Customer C	0%	11%
Customer D	0%	20%

(h) Currency Risk

TargetCo's functional currencies are the Canadian dollar, US dollar, and Polish Zloty. Currency risk is the risk that the fair value of TargetCo's financial instruments will fluctuate because of changes in foreign currency exchange rates. TargetCo's head office and some operating expenses are denominated in Canadian dollars. TargetCo's revenue and a large portion of operating expenses are denominated in Polish Zloty. If the Polish Zloty depreciates compared to the Canadian dollar, revenue would decrease in Canadian dollars. A 10% change in the foreign currency exchange rate would have an impact of \$30,000 on net loss. TargetCo manages its exposure to foreign currency fluctuations by maintaining foreign currency bank accounts to offset foreign currency payables where possible. Management relies on the natural hedge created by this matching process and thus has chosen not to otherwise hedge its foreign exchange risk. Significant balances as expressed in Polish Zloty are as follows:

	March 31, 2017
Cash	PLN 6,341
Accounts receivable	220,838
Due from related parties	21,917
Prepaid expenses	4,655
Accounts payable and accrued liabilities	(973,173)
Loans payable	(640,341)
Obligations under finance lease	(1,094,422)
<b>Net Polish liabilities</b>	<b>PLN (2,424,185)</b>

(i) Interest Rate Risk

TargetCo's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates and its short-term term deposits at prescribed market rates. The fair value of TargetCo's cash

is not significantly affected by changes in short-term interest rates. The income earned from the bank accounts and short-term term deposits is subject to movements in interest rates.

(j) Liquidity and Funding Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. TargetCo's objective in managing liquidity risk is to maintain sufficient readily available capital in order to meet its liquidity requirements. Management maintains sufficient cash to satisfy short-term liabilities in highly liquid investments.

Funding risk is the risk that market conditions will impact TargetCo's ability to raise capital through equity markets under acceptable terms and conditions.

As at March 31, 2017	Carrying amount \$	Contractual cash flows \$	1 year or less \$	1 -5 Years \$
Trade and other payables	456,848	456,848	456,848	-
Obligations under finance lease	367,919	376,250	100,333	275,917
	824,767	833,098	557,181	275,917

### Critical Accounting Estimates

The preparation of TargetCo's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ significantly from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities.

Significant areas of estimation include:

viii) The useful life and recoverability of long-lived assets:

Management estimates the useful lives of property and equipment based on the period during which the assets are expected to be available for use. The amounts and timing of recorded expenses for depreciation of property and equipment for any period are affected by these estimated useful lives. The estimates are reviewed at least annually and are updated if expectations change as a result of technical or commercial obsolescence, and legal or other limits to use. It is possible that changes in these factors may cause significant changes in the estimated useful lives of TargetCo's property and equipment in the future.

The assessment of any impairment of property and equipment, including intangible assets, is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions, timing of cash flows, the useful lives of assets, and their related salvage values.

ix) Allowance for doubtful accounts:

TargetCo's method of establishing an allowance for doubtful accounts is estimated and recorded based upon management's assessment both of historical data as well as other pertinent information relative to the receivables in question. The information gathered will result in a specific bad debt expense for accounts which management considers being uncollectible and recorded in the period in which this determination is made.

x) Provisions:

Management's judgment is required to determine amounts to be recognized for liabilities of uncertain timing or amounts that have arisen as a result of past transactions. Provisions are the best estimate of the expenditure required to settle the obligation at the reporting date.

xi) Inventory valuation:

In order to determine whether the inventory is properly stated at the lower of cost or net realizable value, management reviews the amount of inventory on hand, the product life and estimates the time required to sell such inventory taking into account current and expected market conditions and competition. A reserve for inventory, if recorded, primarily consists of all or a portion of the inventory which is not expected to be sold, based on the specific facts and circumstances.

xii) Recognition of deferred income tax assets:

Related deferred income tax assets and deferred income tax liabilities are recognized for the estimated tax consequences between amounts included in the financial statements and their respective tax basis based on the enacted or substantively enacted future income tax rates. Timing of future revenue streams and future capital spending changes can affect the timing of any temporary differences, and the expected usage of existing tax pools and credits, and accordingly can affect the amount of the deferred income tax assets and liabilities calculated at a point in time. These differences could materially impact earnings.

xiii) The valuation of share-based payments:

The grant date fair value of share-based payment awards granted to employees is recognized as a stock-based compensation expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

xiv) The inputs used in the valuation of derivative liabilities:

The fair value of derivative liabilities related to conversion features are measured using a Black-Scholes model. Measurement inputs include share price on measure date, conversion price of the note, expected volatility, actual and expected life of the debt, expected dividends based on the dividend yield at the date of the valuation, and the risk-free interest rate. The expected life of the debt is based on the stated term of the debt.

## Significant Accounting Policies

TargetCo's significant accounting policies are summarized in Note 3 to the audited consolidated financial statements for the years ended June 30, 2016 and 2015.

## Future Changes Accounting Policies

### Accounting Standards Issued But Not Yet Effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for annual periods beginning after January 1, 2017 or later periods.

The following new IFRSs that have not been early adopted in these consolidated financial statements will not have a material effect on TargetCo's future results and financial position:

- ii) IFRS 9, *Financial Instruments* (New; to replace IAS 39 and IFRIC 9)
- iii) IFRS 15, *Revenue from Contracts with Customers*
- iv) IFRS 16, *Leases*

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on TargetCo's financial statements.

## **1. Proposed Transaction**

Brigade Resource Corp. (“Brigade”) and Green 2 Blue Energy Corp. (“G2B”) have entered into a share exchange agreement dated January 17, 2017 (the “Transaction”), pursuant to which Brigade will acquire all of the issued and outstanding capital stock, being 47,000,002 common shares, of G2B in consideration for the issuance of 47,000,002 common shares of Brigade.

On closing of the Transaction, Brigade will have 53,570,402 common shares outstanding, and the former shareholders of G2B will hold 87.74% of Brigade. Accordingly, G2B is considered to have acquired Brigade with the transaction being accounting for as a reverse takeover of Brigade by G2B shareholders (the “RTO”).

Closing of the Transaction is subject to a number of conditions, including regulatory acceptance, shareholder approval, completion of the Brigade share consolidation and appointment of new directors and officers of Brigade. The Transaction cannot close until, among other conditions, the parties conclude their respective due diligence review and required shareholder and regulatory approval is obtained. There can be no assurance that the Transaction will be completed.

## **2. Basis of Presentation**

The unaudited pro forma condensed consolidated financial statements (“pro forma financial statements”) of Brigade give effect to the Transaction as described above. In substance, the Transaction involves G2B shareholders obtaining control of Brigade. The pro forma financial statements give effect to the acquisition of G2B outstanding common shares by Brigade as a reverse takeover that does not constitute a business for accounting purposes. G2B is deemed to be the acquiring company and its assets, liabilities, equity and historical operating results are included at their historical carrying values. The net assets of Brigade will be recorded at fair value as at the Transaction date with any excess recorded as a listing expense. All of Brigade’s deficit and other equity balances prior to the Transaction are eliminated.

The pro forma financial statements are not intended to reflect the financial position that will exist following the Transaction, nor the statement of loss and comprehensive loss that may be obtained in the future. Actual amounts recorded should the Transaction take place will likely differ from those recorded in the pro forma financial statements. Any potential synergies that may be realized and integration costs that may be incurred upon consummation of the Transaction have been excluded from the pro forma financial statements.

The pro forma financial statements are presented in Canadian dollars. The accompanying pro forma condensed consolidated financial statements have been compiled from and include:

- (a) An unaudited pro forma consolidated statement of financial position as at March 31, 2017, combining the audited consolidated statement of financial position of Brigade as at March 31, 2017, with the unaudited consolidated interim statement of financial position of G2B as at March 31, 2017, giving effect to the transaction as if it occurred on March 31, 2017; and
- (b) an unaudited pro forma consolidated statement of loss and comprehensive loss combining the audited consolidated statement of loss and comprehensive loss of Brigade for the year ended March 31, 2017, with the constructed interim consolidated statement of comprehensive loss of G2B for the twelve months ended March 31, 2017, giving effect to the transaction as if it occurred on April 1, 2016. The unaudited interim consolidated statement of comprehensive loss of G2B for the twelve months ended March 31, 2017, was compiled from addition of the unaudited interim consolidated statement of comprehensive loss of G2B for the nine months ended March 31, 2017, and the twelve months ended June 30, 2016, less the unaudited interim consolidated statement of comprehensive loss of G2B for the nine months ended March 31, 2016.

The unaudited pro forma consolidated statement of financial position and statements of loss and comprehensive loss have been presented on the above basis to ensure that the unaudited pro forma consolidated financial statements reflect the RTO financial statements for a period that is no more than 93 days from Brigade’s period end, as required pursuant to pro forma presentation requirements contained in Canadian securities legislation.

These unaudited pro forma consolidated financial statements have been prepared in accordance with International Financial Reporting Standards. These pro forma financial statements do not contain all of the information required for annual financial statements. Accordingly, they should be read in conjunction with the most recent annual and interim financial statements of both Brigade and G2B.

*(expressed in Canadian dollars)*

The accounting policies used in the preparation of the pro forma financial statements are those set out in the audited financial statements of Brigade for the year ended March 31, 2017. In preparing the pro forma financial statements, a review was undertaken to identify differences between Brigade's accounting policies and those of G2B that could have a material impact of the pro forma financial statements. No material differences were noted. On closing of the Transaction, Brigade will adopt the accounting policies set out G2B's financial statements.

The pro forma adjustments and allocations of the purchase price of Brigade by G2B as a reverse takeover are based in part on estimates of the fair value of the assets acquired and liabilities assumed. The final allocation will be completed after asset and liability valuations are finalized. The final valuation will be based on the actual assets and liabilities of Brigade that exists as of the date of completion of the acquisition.

### 3. Pro Forma Adjustments and Assumptions

The pro forma financial statements incorporate the following pro forma assumptions:

- (a) As required under the Transaction, Brigade will undertake a non-brokered private placement of up to 8,348,000 common shares at \$0.10 per share for net proceeds of \$791,120.
- (b) As consideration for the outstanding shares of G2B, Brigade will issue 47,000,002 common shares to G2B shareholders valued at \$657,040. As a result of the RTO, the pro-forma condensed consolidated statement of financial position has been adjusted for the elimination of Brigade's share capital, reserves and accumulated deficit within shareholders' equity, and a listing expense of \$576,447 has been recognized. This reflects the difference between the estimated fair value of G2B shares to Brigade shareholders less the fair value of net assets of Brigade acquired.

The preliminary allocation of estimated consideration transferred is subject to change and is summarized as follows:

---

<b>Purchase Price</b>	
47,000,002 common shares	\$ 657,040
<b>Total Purchase Price</b>	<b>\$ 657,040</b>
<hr/>	
<b>Allocation of Purchase Price</b>	
Cash	\$ 14,118
Loan receivable	136,500
Taxes recoverable	9,484
Accounts and accrued liabilities	(79,509)
Charge related to public company listing	576,447
	<hr/>
	<b>\$ 657,040</b>

The pro forma adjustments and allocations of the estimated consideration transferred are based in part on estimates of the fair value of assets to be acquired and liabilities to be assumed. The final determination of the consideration transferred and the related allocation of the fair value of the Brigade net assets to be acquired pursuant to the Transaction will ultimately be determined after the closing of the transaction. It is likely that the final determination of the consideration transferred and the related allocation of the fair value of the assets acquired and liabilities assumed will vary from the amounts present in the unaudited pro-forma condensed consolidated financial information and that those differences may be material.

- (c) The total cash transaction costs which are expected to be incurred for the reverse asset acquisition amounts to \$100,000 which includes accounting, legal, and regulatory fees. These costs have been accrued and allocated to share issuance costs.
- (d) The \$136,500 advance from Brigade to G2B is eliminated upon consummation of the Transaction.

**SCHEDULE "D"**

**Audit Committee Charter**

See attached.

## AUDIT COMMITTEE CHARTER

This Charter establishes the composition, the authority, roles and responsibilities and the general objectives of the Company's audit committee, or its Board of Directors in lieu thereof (the "**Audit Committee**"). The roles and responsibilities described in this Charter must at all times be exercised in compliance with the legislation and regulations governing the Company and any subsidiaries.

### 1. **Composition**

- (a) *Number of Members.* The Audit Committee must be comprised of a minimum of three directors of the Company.
- (b) *Chair.* If there is more than one member of the Audit Committee, members will appoint a chair of the Audit Committee (the "**Chair**") to serve for a term of one (1) year on an annual basis. The Chair may serve as the chair of the Audit Committee for any number of consecutive terms.
- (c) *Financial Literacy.* All members of the audit committee will be financially literate as defined by applicable legislation. If upon appointment a member of the Audit Committee is not financially literate as required, the person will be provided with a period of three months to acquire the required level of financial literacy.

### 2. **Meetings**

- (a) *Quorum.* The quorum required to constitute a meeting of the Audit Committee is set at a majority of members.
- (b) *Agenda.* The Chair will set the agenda for each meeting, after consulting with management and the external auditor. Agenda materials such as draft financial statements must be circulated to all Audit Committee members for members to have a reasonable amount of time to review the materials prior to the meeting.
- (c) *Notice to Auditors.* The Company's auditors (the "Auditors") will be provided with notice as necessary of any Audit Committee meeting, will be invited to attend each such meeting and will receive an opportunity to be heard at those meetings on matters related to the Auditor's duties.
- (d) *Minutes.* Minutes of the Audit Committee meetings will be accurately recorded, with such minutes recording the decisions reached by the committee.

### 3. **Roles and Responsibilities**

The roles and responsibilities of the Audit Committee include the following:

## External Auditor

The Audit Committee will:

- (a) *Selection of the external auditor.* Select, evaluate and recommend to the Board, for shareholder approval, the Auditor to examine the Company's accounts, controls and financial statements.
- (b) *Scope of Work.* Evaluate, prior to the annual audit by the Auditors, the scope and general extent of the Auditor's review, including the Auditor's engagement letter.
- (c) *Compensation.* Recommend to the Board the compensation to be paid to the external auditors.
- (d) *Replacement of Auditor.* If necessary, recommend the replacement of the Auditor to the Board of Directors.
- (e) *Approve Non-Audit Related Services.* Pre-approve all non-audit services to be provided by the Auditor to the Company or its subsidiaries.
- (f) *Responsibility for Oversight.* Must directly oversee the work of the Auditor. The Auditor must report directly to the Audit Committee.
- (g) *Resolution of Disputes.* Assist with resolving any disputes between the Company's management and the Auditors regarding financial reporting.

## Consolidated Financial Statements and Financial Information

The Audit Committee will:

- (a) *Review Audited Financial Statements.* Review the audited consolidated financial statements of the Company, discuss those statements with management and with the Auditor, and recommend their approval to the Board.
- (b) *Review of Interim Financial Statements.* Review and discuss with management the quarterly consolidated financial statements, and if appropriate, recommend their approval by the Board.
- (c) *MD&A, Annual and Interim Earnings Press Releases, Audit Committee Reports.* Review the Company's management discussion and analysis, interim and annual press releases, and audit committee reports before the Company publicly discloses this information.
- (d) *Auditor Reports and Recommendations.* Review and consider any significant reports and recommendations issued by the Auditor, together with management's response, and the extent to which recommendations made by the Auditor have been implemented.

## Risk Management, Internal Controls and Information Systems

The Audit Committee will:

- (a) *Internal Control.* Review with the Auditors and with management, the general policies and procedures used by the Company with respect to internal accounting and financial controls. Remain informed, through communications with the Auditor, of any weaknesses in internal control that could cause errors or deficiencies in financial reporting or deviations from the accounting policies of the Company or from applicable laws or regulations.
- (b) *Financial Management.* Periodically review the team in place to carry out financial reporting functions, circumstances surrounding the departure of any officers in charge of financial reporting, and the appointment of individuals in these functions.
- (c) *Accounting Policies and Practices.* Review management plans regarding any changes in accounting practices or policies and the financial impact thereof.
- (d) *Litigation.* Review with the Auditors and legal counsel any litigation, claim or contingency, including tax assessments, that could have a material effect upon the financial position of the Company and the manner in which these matters are being disclosed in the consolidated financial statements.
- (e) *Other.* Discuss with management and the Auditors correspondence with regulators, employee complaints, or published reports that raise material issues regarding the Company's financial statements or disclosure.

### Complaints

- (a) *Accounting, Auditing and Internal Control Complaints.* The Audit Committee must establish a procedure for the receipt, retention and treatment of complaints received by the Company regarding accounting, internal controls or auditing matters.
- (b) *Employee Complaints.* The Audit Committee must establish a procedure for the confidential transmittal on condition of anonymity by the Company's employees of concerns regarding questionable accounting or auditing matters.

### **4. Authority**

- (a) *Auditor.* The Auditor, and any internal auditors hired by the company, will report directly to the Audit Committee.
- (b) *Independent Advisors.* The Audit Committee may, at the Company's expense and without the approval of management, retain the services of independent legal counsels and any other advisors it deems necessary to carry out its duties and set and pay the monetary compensation of these individuals.

### **5. Reporting**

The Audit Committee will report to the Board on:

- (a) the Auditor's independence;

- (b) the performance of the Auditor and any recommendations of the Audit Committee in relation thereto;
- (c) the reappointment and termination of the Auditor;
- (d) the adequacy of the Company's internal controls and disclosure controls;
- (e) the Audit Committee's review of the annual and interim consolidated financial statements;
- (f) the Audit Committee's review of the annual and interim management discussion and analysis;
- (g) the Company's compliance with legal and regulatory matters to the extent they affect the financial statements of the Company; and
- (h) all other material matters dealt with by the Audit Committee.
