

Green 2 Blue Announces Incorporation of Wholly Owned Subsidiary and Considers Business Outside of Clean Technology

June 16, 2020 (Vancouver, BC): Green 2 Blue Energy Corp. (CSE:GTBE, OTCQB:GTGEF, FWB:1NZ.F) (the “Company” or “Green 2 Blue”) announces today the incorporation of a wholly owned subsidiary called **Arsenal Health Sciences Corporation (“Arsenal”)**. Arsenal is a newly incorporated entity that was established in anticipation of the possibility of the Company being presented with compelling opportunities outside of the clean technology environmental sector in which it currently operates.

The Company is assessing opportunities in the medical technology sector (“**Med Tech**”). As such opportunities arise, management is taking the time necessary to carefully assess them to determine if pursuing them would lead to improved returns for the Company, thereby serving the interests of shareholders. The incorporation of Arsenal enables the Company to be positioned favourably in the event that a worthwhile opportunity arises for it in the Med Tech sector.

The Company has not signed any term sheet, letter of intent, or indication of interest, and has no particular transaction that it is currently pursuing in the Med Tech sector, nor does it expect the incorporation of Arsenal to have any material impact on the Company at this time.

“We have begun looking seriously at medical technology opportunities and we carefully examine every new opportunity that we encounter in the med tech space,” commented Slawek Smulewicz, CEO of Green 2 Blue. “Our experience and relationships in the med tech industry and our strong connections in the public markets help us determine if opportunities add value to the Company and our shareholders. We are taking the time needed to thoroughly analyze opportunities; however, no deal in particular is imminent at this time,” continues Smulewicz.

On Behalf of the Board,

“Slawek Smulewicz”
