#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Musk Metals Corp. ("Musk" or the "Company") was incorporated under the *Business Corporations Act* (British Columbia). On March 4, 2021, the Company changed its name from Gold Plus Mining Inc. to Musk Metals Corp. The principal business of the Company is the acquisition, exploration and evaluation of mineral properties in Canada. The Company's shares trade on the Canadian Securities Exchange under the symbol "MUSK".

The address of its head office is located at Suite 2905 - 700 West Georgia Street, Vancouver, British Columbia, Canada V7Y 1C6. The address of its registered office is 800 - 885 West Georgia Street, Vancouver, British Columbia, Canada V6C 3H1.

These consolidated financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards ("IFRS"), which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. At June 30, 2021, the Company had not yet achieved profitable operations. The Company expects to incur further losses in the development of its exploration assets. The continued operations of the Company are dependent upon its ability to identify, evaluate and negotiate an acquisition of or participation in an interest in properties, assets or businesses. These conditions represent a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used, then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these consolidated financial statements.

#### 2. BASIS OF PRESENTATION

#### (a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. The subsidiaries are entities controlled by the Company, where control is achieved by the Company being exposed to, or having rights to, variable returns from its involvement with the entities and having the ability to affect those returns through its power over the entities. The subsidiaries are fully consolidated from the date on which control is obtained by the Company and are deconsolidated from the date that control ceases. All inter-company transactions, balances, income and expenses are eliminated on consolidation.

#### (e) Use of estimates and judgements

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the year. Actual results could differ from these estimates.

The preparation of these condensed interim consolidated financial statements require management to make judgments regarding the going concern of the Company, as discussed in Note 1, and the classification / allocation of expenditures as exploration and evaluation expenditures or operating expenses.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- Deferred tax assets and liabilities
- Carrying value and recoverability of exploration and evaluation assets
