Notes to the Condensed Interim Consolidated Financial Statements September 30, 2024 (Expressed in Canadian dollars) (Unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

Musk Metals Corp. ("Musk" or the "Company") was incorporated under the *Business Corporations Act* (British Columbia). The principal business of the Company is the acquisition, exploration, and evaluation of mineral properties in Canada. The Company's shares trade on the Canadian Securities Exchange under the symbol "MUSK".

The address of its head office is located at Suite 2905 - 700 West Georgia Street, Vancouver, British Columbia, Canada V7Y 1C6. The address of its registered office is 800 - 885 West Georgia Street, Vancouver, British Columbia, Canada V6C 3H1.

These condensed interim consolidated financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards ("IFRS"), which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. At September 30, 2024, the Company had not yet achieved profitable operations. The Company expects to incur further losses in the development of its exploration assets. The continued operations of the Company are dependent upon its ability to identify, evaluate and negotiate an acquisition of or participation in an interest in properties, assets or businesses. These conditions represent a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern. These condensed interim consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used, then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these condensed interim consolidated financial statements.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. The condensed interim financial statements of the Company should be read in conjunction with the Company's audited financial statements for the year ended March 31, 2024, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Approval of the condensed interim financial statements

The condensed interim financial statements were reviewed by the Audit Committee and approved and authorized for issue on November 29, 2024 by the Board of Directors of the Company.

(c) Basis of preparation

The condensed interim consolidated financial statements of the Company have been prepared on an accrual basis and are based on historical costs, except for certain financial assets carried at fair value. The condensed interim consolidated financial statements are presented in Canadian dollars, the functional currency of the Company, unless otherwise noted.

(d) Use of estimates and judgements

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim consolidated financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Notes to the Condensed Interim Consolidated Financial Statements September 30, 2024 (Expressed in Canadian dollars) (Unaudited)

2. BASIS OF PRESENTATION (continued)

(d) Use of estimates and judgements (continued)

The preparation of these condensed interim consolidated financial statements require management to make judgments regarding the going concern of the Company, as discussed in Note 1, and the classification / allocation of expenditures as exploration and evaluation expenditures or operating expenses.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- Deferred tax assets and liabilities
- Carrying value and recoverability of exploration and evaluation assets

(e) Basis of consolidation

The Company's condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, VFA Mining Corp. The subsidiary is controlled by the Company, where control is achieved by the Company being exposed to, or having rights to, variable returns from its involvement with the entities and having the ability to affect those returns through its power over the entities. The subsidiary is fully consolidated from the date on which control is obtained by the Company and is deconsolidated from the date that control ceases. All inter-company transactions, balances, income and expenses are eliminated on consolidation.

(f) Future accounting standards, amendments and interpretations

There are no other pending IFRSs or IFRIC interpretations that are expected to have a material impact on the Company's condensed interim financial statements.

3. ACQUISITION OF VFA MINING CORP.

On August 30, 2024, the Company completed a share purchase agreement with VFA Mining Corp. ("VFA") and the shareholders of VFA (collectively, the "Vendors"), pursuant to which the Company acquired all of the issued and outstanding shares of VFA from the Vendors for consideration of 5,500,000 common shares. The acquisition of the VFA shares has been accounted for as an asset acquisition as at the time of the transaction, VFA did not meet the definition of a business. The consideration paid has been allocated to the exploration and evaluation assets as at the date of acquisition.

The purchase price of the acquisition has been allocated as follows:

Purchase Price	\$
Fair value of common shares	165,000

The Company's primary exposure to credit risk is on its cash held in bank accounts. The Company's cash is deposited with a major bank in Canada. This risk is managed by using a major bank that is a high credit quality financial institution as determined by rating agencies.

(b) Liquidity risk

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;
