### **1. NATURE OF OPERATIONS AND GOING CONCERN**

Winston Gold Mining Corp. (the "Company") was incorporated in the Province of Manitoba on January 31, 2013 under the name of 6649930 Manitoba Ltd. On September 19, 2014, the Company changed its name to Winston Gold Mining Corp. On September 25, 2014, Winston Gold Mining USA Corp. was incorporated in the State of Montana, USA. Winston Gold Mining USA Corp. is a wholly owned subsidiary of the Company. On March 23, 2016, the common shares of the Company were approved for listing on the Canadian Securities Exchange (CSE) under the symbol WGC. The shares are deemed to be listed on March 22, 2016 and trading commenced on March 29, 2016. The Company is in the process of exploring mining claims which are under lease and has not yet determined whether or not the leased properties will contain economically recoverable reserves.

The principal address of the Company is 919 Notre Dame Avenue, Suite 201, Winnipeg, Manitoba R3E 0M8.

The unaudited condensed interim consolidated financial statements of the Company were approved by the Board of Directors on August 24, 2016.

#### **Going Concern of Operations**

While these financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business, there are material uncertainties related to adverse conditions and events that cast significant doubt on the Company's ability to continue as a going concern. The Company has incurred losses since its inception and the ability of the Company to continue as a going concern depends on its ability to raise adequate financing and to develop profitable operations.

The Company is in the exploration stage and has not generated revenue from operations. During the six months ended June 30, 2016, the Company incurred a net loss of \$377,084 (December 31, 2015 - \$283,886), and as of that date, the Company had a deficit of \$1,476,382 (December 31, 2015 - \$1,099,298), working capital deficit of \$134,596 (December 31, 2015 - \$306,425) and negative cash flow from operations of \$461,693 (2015 - \$160,036).

The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production and on being able to make payments required under the mining lease agreements. The Company continues to evaluate various options in order to address its financing needs. There can be no assurance that the Company's financing activities will be successful or sufficient.

These unaudited condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the going concern assumption not be appropriate. Such adjustments could be material.

### **2. BASIS OF PREPARATION**

#### **Statement of Compliance**

These unaudited condensed interim consolidated financial statements of the Company present the Company's financial results of operations and financial position under IFRS as at and for the six and three month periods ended June 30, 2016.

## **2. BASIS OF PREPARATION (cont'd)**

### **Statement of Compliance (cont'd)**

The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations Committee.

A summary of the Company's significant accounting policies under IFRS are consistent with those of the Company's consolidated financial statements for the year ended December 31, 2015. Refer to those consolidated financial statements for significant accounting policies and recent accounting pronouncements. These policies have been consistently applied to all periods presented.

### **Basis of Measurement**

The unaudited condensed interim consolidated financial statements are presented in Canadian dollars which is also the Company's and the subsidiary's functional currency.

The unaudited condensed interim consolidated financial statements are prepared on the historical cost basis except for financial instruments classified at fair value through profit and loss ("FVTPL") which are stated at their fair value.

### **Basis of Consolidation**

The unaudited condensed interim consolidated financial statements at June 30, 2016 include the accounts of the Company and its wholly-owned subsidiary, Winston Gold Mining USA Corp. ("Winston-US"), which was incorporated in Montana, U.S.A. and carries out the exploration activities in Montana, U.S.A. The financial statements of the subsidiary are included in the unaudited condensed interim consolidated financial statements from the date that control commences until the date that control ceases.

All intercompany transactions and balances are eliminated on consolidation.

### **Deferred Share Issuance Costs**

Deferred share issuance costs relate directly to the issuance of shares by the Company, as disclosed in Note 8. Upon successful completion of the initial public offering on March 23, 2016, the costs were charged against capital stock.

### **Use of estimates and judgments**

The preparation of the unaudited condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

## **2. BASIS OF PREPARATION (cont'd)**

### **Use of estimates and judgments (cont'd)**

Information regarding significant areas of estimation, uncertainty and critical judgements made in applying accounting policies that have the most significant effect on the amounts recognized in the unaudited condensed interim consolidated financial statements are the following:

#### Share-based payments

Judgment is applied in determining the share price to be assigned to shares issued to enter into mining lease agreements.

#### Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the probability that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

#### Determination of functional currency

In accordance with IAS 21 *The Effects of Changes in Foreign Exchange Rates*, management determined that the functional currency of the Company and its subsidiary is the Canadian dollar.

Other significant accounting estimates include the amounts accrued for restoration liabilities.

## **3. RECENT ACCOUNTING POLICY**

### **Warrants issued in equity financing transactions**

The Company engages in equity financing transactions to obtain the funds necessary to continue operations and explore and evaluate mineral properties. These equity financing transactions may involve issuance of common shares or units. Each unit comprises a certain number of common shares and a certain number of share purchase warrants ("Warrants"). Depending on the terms and conditions of each equity financing agreement, the Warrants are exercisable into additional common shares at a price prior to expiry as stipulated by the agreement.

For private placements of units consisting of common shares and Warrants, the Company uses the relative fair value approach in determining the value assigned to the common shares and Warrants, calculated in accordance with the Black Scholes option-pricing model.

The relative fair value of the Warrant component of a unit is credited to share purchase warrants and the relative value of the common shares that were concurrently issued is credited to share capital. Warrants that are issued as payment for broker or agency fees are assigned a fair value based on the Black-Scholes option pricing mode and accounted for as share issue costs.

#### 5. DUE TO DIRECTORS CURRENT AND PRIOR YEAR

Amounts due to directors are non-interest bearing, unsecured and the directors do not intend to require repayment until after March 31, 2017; therefore, these loans are reclassified as current liabilities during the period ended June 30, 2016.

During the six months ended June 30, 2016, the Company's director loans were revalued to \$75,184 (a reduction of \$2,654) reflecting the change in US exchange on director loans in US funds. No additional funds were received. During the year ended December 31, 2015, the Company received \$77,837 in director loans. The directors did not intend to require repayment within the next 12 months subsequent to December 31, 2015.

#### 6. RESTORATION LIABILITIES AND RECLAMATION BONDS

As at June 30, 2016, management estimated site restoration costs relating to evaluation work completed on the exploration of the Winston property to be \$16,405 (\$12,700 US) (December 31, 2015 - \$13,985 (\$12,700US)) which has been accrued. These costs are estimated by management and approved by the Montana Department of Environmental Quality ("DEQ"). The Company is required to issue reclamation bonds to the DEQ to cover these estimated restoration costs.

The reclamation bonds issued relating to this exploration amount to \$16,405 (\$12,700 US) (December 31, 2015 - \$13,985 (\$12,700US)). The reclamation bonds will be returned to the Company upon the DEQ being satisfied with the site restoration work performed.

#### 7. SHARE SUBSCRIPTIONS

On May 4, 2016, the Company received \$10,000 (7,884US) and on May 25, 2016, the Company received \$50,000 (2015 - \$Nil) for Units to be issued at a value of \$0.10 each. These Units were issued on August 3, 2016 (Note 16).

During the year ended December 31, 2014, the Company received \$80,000 for Class A Common shares to be issued at a value of \$0.10 each. 700,000 of the shares due as at December 31, 2014 were issued on February 11, 2015. 100,000 of the shares due as at December 31, 2014 were issued on March 30, 2015 (Note 8).

#### 10. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(a) Holmes Property (cont'd):

The Company will pay Holmes a production royalty of 2% of Net Smelter Returns (NSR). Advance royalty payments are credited towards the 2% NSR payable on production. The Company has the option to purchase the 2% NSR from Holmes for a payment of \$2,500,000US.

The Company has the option to terminate the H Lease at any time by providing 30 days written notice to Holmes.

(b) Winston Property:

On July 15, 2014, the Company entered into a five-year Mining Lease Agreement ("W Lease") with Winston Realty L.L.C. ("Winston", a limited liability company), an arm's length party, whereby Winston leased sixteen (16) patented lode mining claims located in Broadwater County, Montana U.S.A. to the Company for exploration. Per the terms of the agreement, the Company will keep the minerals extracted except oil and gas. To explore the property the Company paid Winston an advance royalty payment of \$10,729 (\$10,000US) and issued 2,000,000 common shares in the Company valued at \$200,000.

In addition to assuming all underlying payment obligations including governmental taxes, levies and fees, the Company will pay additional advance royalty payments of \$1,000US monthly from August to October 2014 [Paid \$3,300 (\$3,000US)] and \$2,500US monthly from November 2014 to July 2019 [Paid \$66,665 (\$52,500US) to June 30, 2016] based on minimum quarterly expenditures on the property of \$50,000US or \$200,000US annually [Paid \$447,135 (\$384,047US)].

The W Lease is renewable for additional 5 year terms at \$20,000US per renewal with an advanced royalty payment of \$5,000US monthly.

On May 18, 2016, the Company amended the W Lease. The amendment extends the W Lease for an additional 10 years until July 15, 2034 with \$20,000US due at the end of each 5 year period and the continuation of advanced royalty payments of \$5,000US monthly. For consideration of 1,500,000 common shares in the Company valued at \$150,000 (Note 8), the amendment superseded the number of contiguous patented lode mining claims to thirteen (13) and the Company acquired the option to purchase the thirteen (13) Leased claims and the subsurface rights in the Leased property as well as 100 acres of the Company's choice out of 400 acres of land held by Winston for a purchase price of \$2,000,000US. Winston has the right to buy back all rights and terminate the W Lease for \$1US where there is a cessation of all mining, mineral exploration and mineral processing activities for a period of five (5) consecutive years.

The Company will pay Winston a production royalty of 3% NSR if the price of gold is \$2,000US or less and 4% NSR if the price of gold exceeds \$2,000US. Advance royalty payments are credited towards the 3% or 4% NSR payable on production.

The Company has the option to terminate the W Lease at any time by providing 30 days written notice to Winston.

#### **12. RELATED PARTY TRANSACTIONS**

Transactions with related parties are incurred in the normal course of business. Related party transactions have been listed below, unless they have been disclosed elsewhere in the unaudited condensed interim consolidated financial statements. During the six months ended June 30, 2016, the Company incurred the following charges with related parties that include officers, directors or companies with common directors of the Company:

Included in exploration and evaluation expenses is \$1,953 [\$1,503 US] (2015 – \$7,467 [\$5,395 US]) of amounts paid or payable to a director of the Company.

Included in accounts payable and accrued liabilities is \$12,091 [\$9,361 US] (December 31, 2015 - \$10,373 [\$7,495 US]) and \$19,777 (December 31, 2015 - \$74,988) due to directors of the Company. (See Note 5 for amounts due to directors).

#### **13. CAPITAL RISK MANAGEMENT**

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company includes shareholders' equity, comprised of issued share capital, share purchase warrant and deficit, in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to further exploration on its properties. To secure the additional capital necessary to pursue these plans, the Company will attempt to raise additional funds through the issuance of equity, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the six months ended June 30, 2016.

#### **14. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Company is exposed to a variety of financial risks by virtue of its activities. In particular: market risk (composed of currency risk), liquidity risk, fair value risk and credit risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by management under policies reviewed by the Board of Directors. Management is charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the approved policies.

#### 14. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

a) Market risk:

Currency risk:

Foreign exchange risk arises from purchase transactions as well as recognized financial assets and liabilities denominated in foreign currencies.

The Company is exposed to currency risk through the following financial assets and liabilities denoted in United States dollars:

	<b>June 30, 2016</b>	December 31, 2015
Cash	\$ 291	\$ 102
Prepaid expenses and deposits	\$ 10,000	\$ 10,000
Accounts payable and accrued liabilities	\$ 22,579	\$ 77,537
Due to directors	\$ 28,753	\$ 28,753

The above balances were translated into US dollars at the period-end rate of \$1.2917 (December 31, 2015 - \$1.3840) Canadian dollars to every US dollar.

Based on the above net exposures as at June 30, 2016, assuming that all other variables remain constant, a +/- 5% change in the Canadian dollar against the United States dollar would result in an increase/decrease in net loss of approximately \$2,650 (2015 - \$6,650).

b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. Senior management is also actively involved in the review and approval of planned expenditures.

As at June 30, 2016, the Company had a working capital deficit of \$134,596 (December 31, 2015 - \$306,425). As at June 30, 2016, the Company had cash of \$16,966 (December 31, 2015 - \$1,909) to settle current liabilities of \$164,479 (December 31, 2015 - \$336,199) that are considered short term and expected to be settled within 30 to 90 days.

As a result, the Company has liquidity risk at this time and will be required to raise additional capital to fund exploration and operations.

#### 14. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

b) Fair value risk:

Fair value represents the amounts at which a financial instrument could be exchanged between willing parties, based on current markets for instruments with the same risk, principal and remaining maturity. Fair value estimates are based on quoted market values and other valuation methods.

The carrying values of cash, reclamation bonds, accounts payable and accrued liabilities and due to directors approximate fair values due to the relatively short term maturities of these instruments.

c) Credit risk:

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk with respect to its cash and reclamation bonds. The Company reduces its credit risk by maintaining its primary bank accounts at large financial institutions and its reclamation bonds with government agencies.

#### 15. COMMITMENTS

The Company is committed to monthly rent payments for its premises under a lease agreement which expires February 28, 2017. The Company's required minimum payments for future periods are as follows:

2016	\$ 4,500
2017	1,800
<b>Total</b>	<b>\$ 6,300</b>

#### 16. SUBSEQUENT EVENTS

- a) On August 3, 2016, the Company closed a non-brokered private placement consisting of 1,000,000 Units at \$0.10 per Unit for gross proceeds of \$100,000. 600,000 of these Units were in settlement of share subscriptions due in the amount of \$60,000 (Note 7). Each Unit consists of one Class A common share plus one Class A common share purchase warrant with a relative fair value of \$0.04764 per warrant. Each share purchase warrant entitles the holder to acquire one additional Class A common share at a price of \$0.20 for a period of 24 months after closing. In connection with the above financing, finder's fees in the amount of \$3,200 were paid and 40,000 finder's warrants exercisable at a price of \$0.20 for a period of 24 months after closing were issued with a fair value of \$0.182 per warrant.
