1. NATURE OF OPERATIONS AND GOING CONCERN

Winston Gold Corp. (the “Company”) was incorporated in the Province of Manitoba on January 31, 2013. The Company is listed on the Canadian Securities Exchange under the symbol WGC. The Company is in the process of exploring mining claims which are under lease and has not yet determined whether or not the leased properties will contain economically recoverable reserves.

The principal address of the Company is 309 McDermot Avenue, Suite 320E, Winnipeg, Manitoba R3A 1T3.

The unaudited condensed interim consolidated financial statements of the Company were approved by the Board of Directors on May 26, 2022.

Going Concern of Operations

While these financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business, there are material uncertainties related to adverse conditions and events that cast significant doubt on the Company’s ability to continue as a going concern. The Company has incurred losses since its inception and the ability of the Company to continue as a going concern depends on its ability to raise adequate financing and to develop profitable operations.

The Company is in the exploration stage and has not generated revenue from operations. During the period ended March 31, 2022, the Company incurred a net loss of \$1,221,559 (March 31, 2021 - \$4,733,951), and as of that date, the Company had a deficit of \$55,926,317 (December 31, 2021 - \$54,704,758), working capital deficiency of \$6,453,552 (December 31, 2021 – deficiency of \$5,307,231) and negative cash flow from operations of \$1,098,734 (December 31, 2021 – negative \$10,551,666).

The Company’s ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production and on being able to make payments required under the mining lease agreements and debenture agreements. The Company continues to evaluate various options in order to address its financing needs. There can be no assurance that the Company’s financing activities will be successful or sufficient.

These unaudited condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the going concern assumption not be appropriate. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of Compliance

These unaudited condensed interim consolidated financial statements of the Company present the Company’s financial results of operations and financial position under IFRS as at and for the three months ended March 31, 2022.

These unaudited condensed interim consolidated financial statements of the Company have been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting”, as issued by the International Accounting Standards Board (“IASB”) and the interpretations of the International Financial Reporting Interpretations Committee.

2. BASIS OF PREPARATION (cont'd)

Statement of Compliance (cont'd)

A summary of the Company's significant account policies under IFRS are consistent with those of the Company's consolidated financial statements for the year ended December 31, 2021. Refer to those consolidated financial statements for significant accounting policies and recent accounting pronouncements. These policies have been consistently applied to all periods presented

Basis of Measurement and Presentation

The unaudited condensed interim consolidated financial statements are presented in Canadian dollars which is also the Company's functional currency. The functional currency of the Company's US subsidiaries is the US dollar. The unaudited condensed interim consolidated financial statements are prepared on the historical cost basis except for financial instruments measured at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Basis of Consolidation

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its 100% owned subsidiaries Winston Gold Mining USA Corp. and Western States Gold Milling Co. Under the guidance of IFRS 10 *Consolidated Financial Statements*, control is established by having power over the acquiree, exposure or rights to variable returns from its involvement with the acquiree, and the ability to use its power over the acquiree to affect the amount of the acquirer's returns. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. They are de-consolidated from the date that control by the Company ceases.

All intercompany transactions and balances are eliminated on consolidation.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Company makes estimates, judgments and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual results may differ from these estimates and assumptions.

Judgments

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

i) Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

ii) Going Concern

The Company applies judgment in assessing whether material uncertainties exist that would cause doubt as to whether the Company could continue as a going concern.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (cont'd)

Judgments (cont'd)

iii) Deferred exploration expenses

The Company applies judgment in assessing whether material uncertainties exist that would determine whether the Company has reached a phase of development activity whereby its exploration expenditures could be classified as assets. As at March 31, 2022, management has determined the projects have not reached the development stage.

Estimates

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Estimates and judgements are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information regarding significant areas of estimation and uncertainty made in applying accounting policies that have the most significant effect on the amounts recognized in the unaudited condensed interim consolidated financial statements are the following:

Valuation of right-of-use asset and lease liabilities

The application of IFRS 16 requires the Company to make judgments that affect the valuation of the right-of-use assets and the valuation of lease liabilities. These include assessing lease agreements to determine the contract term and interest rate used for discounting of future cash flows.

The lease term determined by the Company is comprised of the non-cancellable period of lease agreements, periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

The present value of the lease payment is determined using a discount rate representing the rate of a commercial mortgage rate, observed in the period when the lease agreement commences or is modified.

Estimating useful life of equipment

Depreciation of equipment is charged so as to write down the value of those assets to their residual value over their respective estimated useful lives. Management is required to assess the useful economic lives and residual values of the assets such that depreciation is charged on a systematic basis to the current carrying amount. The useful lives are estimated having regard to such factors such as asset maintenance, rate of technical and commercial obsolescence, and asset usage. The useful lives of key assets are reviewed annually.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (cont'd)

Estimates (cont'd)

Impairment

Judgment is involved in assessing whether there is any indication that an asset or cash generating unit may be impaired. This assessment is made based on the analysis of, amongst other factors, changes in the market or business environment, events that have transpired that have impacted the asset or cash generating unit, and information from internal reporting.

Share-based payments

Management uses the Black-Scholes Pricing Model for valuation of share based compensation and warrants, which requires the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's results and equity reserves.

Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the probability that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

Determination of functional currency

In accordance with IAS 21 *The Effects of Changes in Foreign Exchange Rates*, management determined that the functional currency of the Company is the Canadian dollar. Management also determined that the functional currency of Winston USA and Western States Gold Milling is the US dollar.

4. RECENT ACCOUNTING PRONOUNCEMENTS

Standards issued or amended

The Company has applied the following revised IFRS that has been issued and was effective January 1, 2022. This accounting standard is not currently expected to have a significant effect on the Company's accounting policies or financial statements.

- IAS 16, *Property, Plant and Equipment - Proceeds before Intended Use*. The amendment prohibits deducting from the cost of property, plant and equipment amounts received from selling items produced while preparing the asset for its intended use. Instead, a company will recognize such sale proceeds and related cost in profit or loss.

8. DUE TO DIRECTORS (cont'd)

As at March 31, 2022, an advance loan is due to Ocean Partners in the amount of \$624,800 (USD 500,00) (December 31, 2021 - \$633,900 (USD 500,000)) with interest due in the amount of \$19,674 (USD 15,744) (December 31, 2021 - \$19,960 (USD 15,744)).

9. DEBENTURES PAYABLE

During the year ended December 31, 2017, the Company entered into non-convertible USD debentures payable agreements. The Series 1 debentures matured on December 1, 2019. The Series 2 debentures matured on March 31, 2020. The debentures are secured on a general lien basis by all property and assets of the Company, non-convertible and pay annual interest at 10% calculated from the date the Subscription Agreement is executed and the funds are received from the investor.

The interest was payable semi-annually on June 1 and December 1 of each year until maturity. On the maturity date, in addition to the interest rate, the Company was obligated to pay a bonus to the lenders in an amount equal to the difference between the Principal Amount and the gold price differential calculated as the difference between the gold price on the Closing Date and the gold price on the Maturity Date to a maximum of USD 1,600 per troy ounce. The Bonus Payment is calculated as Principal Amount x [(Gold Price on Maturity – Gold Price on Closing)/Gold Price on Closing]. If the debentures are not re-paid on the Maturity Dates, the Company shall pay 10% semi-annual interest on the outstanding portion of the principal amount on December 1 and June 1 of each year until the date of repayment. The bonus payment of \$119,266 (USD 89,694) related to the Series 1 debentures was recognized in profit or loss upon their maturity, rolled into the principal and Renewed Series 1 matured on December 1, 2020. The bonus payment of \$154,391 (USD 108,826) related to the Series 2 debentures was recognized in profit or loss upon their maturity, rolled into the principal and Renewed Series 2 matured on March 31, 2021. The Company has the option to repay any portion of the Renewed Series 1 and Series 2 debentures at any time.

In connection with the non-convertible debenture financing, the Company incurred total transaction costs of \$470,031 which were netted with the debentures and amortized over the term of the debentures.

The following is a continuity of non-convertible debentures due from the Company for the three months ended March 31, 2022:

	March 31, 2022	December 31, 2021

17. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(a) Holmes Property:

On May 14, 2014, the Company entered into a five-year Mining Lease Agreement (“H Lease”) with Marcus P. Holmes (“Holmes”), an arm’s length party, whereby Holmes leased five (5) unpatented mining claims located in Broadwater County, Montana, USA to the Company for exploration. Per the terms of the agreement, the Company will keep the minerals extracted except oil and gas. To explore the property, the Company paid Holmes an advance royalty payment of \$11,191 (USD 10,000) and issued 1,000,000 common shares valued at \$100,000.

In addition to assuming all underlying payment obligations including governmental taxes, levies and fees, the Company will pay additional advance royalty payments of USD 1,000 monthly from June 2014 to May 2019 [Paid - \$77,548 (USD 60,000)]. The H Lease is renewable for additional 5 year terms at USD 20,000 per renewal [paid \$26,754 (USD 20,000)] with an advanced royalty payment of USD 2,000 monthly from June 2019 to June 2024 [Paid \$90,970 (USD 70,000) to March 31, 2022].

The Company will pay Holmes a production royalty of 2% of Net Smelter Returns (NSR). Advance royalty payments are credited towards the 2% NSR payable on production. The Company has the option to purchase the 2% NSR from Holmes for a payment of USD 2,500,000.

The Company has the option to terminate the H Lease at any time by providing 30 days written notice to Holmes.

(b) Winston Property:

On July 15, 2014, the Company entered into a five-year Mining Lease Agreement (“W Lease”) with Winston Realty L.L.C. (“Winston”, a limited liability company), an arm’s length party, whereby Winston leased sixteen (16) patented lode mining claims located in Broadwater County, Montana U.S.A. to the Company for exploration. Per the terms of the agreement, the Company will keep the minerals extracted except oil and gas. To explore the property the Company paid Winston an advance royalty payment of \$10,729 (USD 10,000) and issued 2,000,000 common shares in the Company valued at \$200,000.

In addition to assuming all underlying payment obligations including governmental taxes, levies and fees, the Company will pay additional advance royalty payments of USD 1,000 monthly from August to October 2014 [Paid \$3,300 (USD 3,000)] and USD 2,500 monthly from November 2014 to July 2019 [Paid \$188,643 (USD 142,500)] based on minimum quarterly expenditures on the property of USD 50,000 or USD 200,000 annually [Paid \$21,834,540 (USD 17,085,118) to March 31, 2022].

The W Lease is renewable for additional 5 year terms at USD 20,000 per renewal [Paid \$26,408 (USD 20,000)] with an advanced royalty payment of USD 5,000 monthly from August 2019 to August 2024 [Paid \$215,187 (USD 165,000)] to March 31, 2022.

On May 18, 2016, the Company amended the W Lease. The amendment extends the W Lease for an additional 10 years until July 15, 2034 with USD 20,000 due at the end of each 5 year period and the continuation of advanced royalty payments of USD 5,000 monthly. For consideration of 1,500,000 common shares in the Company valued at \$150,000, the amendment superseded the number of contiguous patented lode mining claims to thirteen (13) and the Company acquired the option to purchase the thirteen (13) Leased claims and the subsurface rights in the Leased property as well as 100 acres of the Company’s choice out of 400 acres of land held by Winston for a purchase price of USD 2,000,000.

17. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(b) Winston Property (cont'd):

Winston has the right to buy back all rights and terminate the W Lease for USD 1 where there is a cessation of all mining, mineral exploration and mineral processing activities for a period of five (5) consecutive years.

The Company will pay Winston a production royalty of 3% NSR if the price of gold is USD 2,000 or less and 4% NSR if the price of gold exceeds USD 2,000. Advance royalty payments are credited towards the 3% or 4% NSR payable on production.

The Company has the option to terminate the W Lease at any time by providing 30 days written notice to Winston.

(c) Paradine Mill

On February 12, 2020, the Company entered into a five-year Mill Lease Agreement ("M-Lease") with Paradine LLC ("Paradine", a limited liability company), an arm's length party, whereby the Company leased the Paradine Mill, located in Broadwater County, Montana. In addition to assuming payment obligations of mill repairs, property and liability insurance and governmental taxes, levies and fees, the Company will pay monthly base rent of USD 20,000. In addition to base rent, the Company shall pay a milling fee calculated by multiplying the number of short dry tons of ore processed during the month by the "Applicable Rate" for that month. The Applicable Rate shall be an amount equal to the Average Gold Price as shown on Kitco.com multiplied by .008. The applicable Rate shall not exceed USD 14.40 per short dry ton and shall not be less than USD 11.20 per short dry ton. The Company has the option to purchase the Mill on the last day of the term of the M-Lease. The monthly lease payments began March 1, 2020. Included in Mill expenses is \$53,224 (USD 22,107) (December 31, 2021 \$210,782 (USD 168,138)) in amortization of right of use asset and \$27,992 (USD 27,355) (December 31, 2021 \$127,599 (USD 101,793)) in interest on lease liability (Note 7).

(d) Hard Cash Property:

Jointly, with Bond Resources Inc., a company having a director in common with the Company, entered into a Lease Agreement ("HC Lease"), including an option to purchase, with Montana Reclaim LLC (Lessor) over the Hard Cash property. The Hard Cash property consists of nine (9) patented claims covering 166 acres west of Radersburg, Montana, approximately 3 km from the Paradine mill. The Company and Bond are equal partners in the project and will each be responsible for 50% of expenditures. The HC Lease initial term is five (5) years commencing on the date of execution and is renewable for three (3) additional five (5) year terms. Consideration payable to the Lessor consists of an initial cash payment of USD 2,000, shared with Bond; shared monthly payments with Bond of USD 1,500; annual payments by each of Bond and the Company of USD 25,000 payable in shares of Bond and the Company respectively; and USD 25,000, shared with Bond, upon the expiry of each five year term. In addition to the lease payments, by the end of each calendar year commencing in 2021, Bond and the Company must make minimum shared annual expenditures on the property of USD 75,000. The HC Lease includes the option to purchase the Property at any time for USD 1,500,000, plus a 3.0% net smelter returns royalty with increases to 4.0% should the price of gold exceed USD 2,000 per ounce. The Company, jointly with Bond, has the option to terminate the HC Lease at any time by providing 90 days written notice to the Lessor. As at March 31, 2022, exploration on this project has been suspended.

During the year ended December 31, 2021 the Company granted 4,500,000 stock options to officers and directors of the Company resulting in share-based payments of \$416,943.

19. CAPITAL RISK MANAGEMENT

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company includes items in shareholders' equity (deficiency) in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to further exploration on its properties. To secure the additional capital necessary to pursue these plans, the Company will attempt to raise additional funds through the issuance of equity, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the period ended March 31, 2022.

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risks by virtue of its activities. In particular: market risk (composed of currency risk), liquidity risk, fair value risk and credit risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by management under policies reviewed by the Board of Directors. Management is charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the approved policies.

a) Market risk:

Currency risk:

Foreign exchange risk arises from purchase transactions as well as recognized financial assets and liabilities denominated in foreign currencies.

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

a) Market risk (cont'd)

Currency risk (cont'd):

The Company is exposed to currency risk through the following financial assets and liabilities denoted in United States dollars:

	March 31,	December 31,
	2022	2021
	\$	\$
Cash	34,324	91,368
Deposits	25,000	25,000
Accounts payable and accrued liabilities	1,484,088	1,540,023
Loan payable	500,000	500,000
Due to related party	203,479	203,479
Debenture interest payable	32,114	8,227
Advance interest payable	15,744	15,744
Debenture principal	968,721	968,721
Due to directors	1,506,000	616,000
Long term loan payable to director	300,000	300,000
Lease liability	564,157	602,050

The above balances were translated into US dollars at the period-end rate of \$1.2496 (December 31, 2021 - \$1.2678) Canadian dollars to every US dollar.

Based on the above net exposures as at March 31, 2022, assuming that all other variables remain constant, a +/- 5% change in the Canadian dollar against the United States dollar would result in an increase/decrease in net loss of approximately \$345,000 (December 31, 2021 - \$294,000).

b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. Senior management is also actively involved in the review and approval of planned expenditures.

As at March 31, 2022, the Company had working capital deficiency of \$6,453,552 (December 31, 2021 – deficiency of \$5,307,231). As at March 31, 2022, the Company had cash of \$53,704 (December 31, 2021 - \$114,829) to settle current liabilities of \$6,563,039 (December 31, 2021 - \$5,478,298) that are considered short term and expected to be settled within 30 to 90 days.

As a result, the Company has liquidity risk at this time and is dependent on raising funds from external sources. Since the Company does yet earn revenue, it will be required to raise additional capital to fund exploration and operations

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

c) Fair value risk:

Fair value represents the amounts at which a financial instrument could be exchanged between willing parties, based on current markets for instruments with the same risk, principal and remaining maturity. Fair value estimates are based on quoted market values and other valuation methods.

The carrying values of cash, accounts receivable, reclamation bonds, accounts payable and accrued liabilities, interest payable, due to related parties, loans advanced, loans advanced interest payable, debentures payable and due to directors approximate fair values due to the relatively short term maturities of these instruments.

d) Credit risk:

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk with respect to its cash, and reclamation bonds. The Company reduces its credit risk by maintaining its primary bank accounts at large financial institutions and its reclamation bonds with government agencies.

e) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company currently has no interest-bearing financial instruments other than cash, director loans and debentures payable; therefore, its exposure to interest rate risks is insignificant. The Company's debentures payable bear a fixed interest rate

21. FAIR VALUE HIERARCHY

Financial assets and liabilities measured at fair value are classified in the fair value hierarchy according to the lowest level of input that is significant to the fair value measurement. Assessment of the significance of a particular input to the fair value measurement requires judgement and may affect placement within the fair value hierarchy levels. The hierarchy is as follows:

Level 1 - Values based on unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 - Values based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 - Values based on prices or valuation techniques that are not based on observable market data.

The fair value of accounts payable and accrued liabilities, due to related party, loans advanced, loans advanced interest payable, due to director(s), debenture interest payable, and debentures payable approximates fair value due to the short term nature of the financial instruments. The Company classified its receivables as amortized cost. Accounts payable and accrued liabilities, due to director(s), debenture interest payable, and debentures payable are classified and measured at amortized cost. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy. The carrying amounts of these financial instruments are a reasonable estimate of their fair values because of their current nature.
