Notes to Condensed Interim Consolidated Financial Statements Three Months Ended March 31, 2021 (Expressed in Canadian Dollars) (Unaudited)

1. Nature of operations

Monterey Minerals Inc. (the "Company") was incorporated on May 9, 2014 under the laws of British Columbia, Canada. Its head office is located at 777 Hornby Street, Suite 600, Vancouver, BC V6Z 1S4, Canada. The Company's common shares are listed on the Canadian Securities Exchange ("CSE") under the symbol MREY.

On June 26, 2018, Monterey Minerals Inc. ("Former Monterey") and Landsdown completed a share exchange public listing transaction pursuant to a Share Exchange Agreement (the "SEA"). This resulted in the former Landsdown shareholders acquiring control of the Company, after which the Company effected a change in directors, management and business.

Under the terms of the SEA, Former Monterey acquired all of the issued and outstanding common shares of Landsdown based on a 1:1 share exchange ratio. Based on the distribution of shareholdings on completion of the SEA, Landsdown is deemed to be the continuing entity for financial reporting purposes. The transaction constituted a reverse acquisition.

Prior to the SEA, on October 19, 2016, Former Monterey incorporated four wholly owned subsidiaries: 1093681 BC Ltd., 1093682 BC Ltd., 1093683 BC Ltd., and Blue Aqua Holdings Ltd. (formerly 1093684 B.C. Ltd.) ("Subcos") setup for proposed arrangement transactions. Former Monterey set the share distribution record date of a plan of an arrangement at close of business on April 18, 2018 whereby each Subcos would issue 1,010,549 common shares to shareholders of the Company. Blue Aqua Holdings Ltd. was spun out effective June 12, 2018 with the remaining Subcos spun out on August 28, 2018.

During the year ended December 31, 2019, the Company acquired one mineral property interest located in Canada and three mineral property interests located in Australia (note 12).

On February 28, 2020, the Company issued 625,000 common shares to Greater Arc Resources Limited ("GAR Ltd.") in accordance with the letter of intent ("LOI") with GAR Ltd. to purchase its wholly owned subsidiary Greater Arc Pty Ltd. ("Greater Arc") which owns the Alicia high-grade gold and base metals project in Alicia Municipality, Philippines ("Alicia Project"). On April 1, 2020, the Company issued 312,500 additional common share as per the LOI. On May 22, 2020, the Company signed a definitive agreement (the "DFA") with GAR Ltd. to purchase Greater Arc. On August 13, 2020, the Company closed the acquisition of Greater Arc for 54 million common shares of the Company. In connection with this transaction, the Company also paid a finders' fee of 5 million common shares (note 7). During the three months ended March 31, 2021, the Company disposed of Inner Arc Pty Ltd. the subsidiary that owns the Alicia Project.

The COVID-19 pandemic has not resulted in any material impact on operations and the Company currently doesnot expect it will impact its 2021 exploration activities. Preventative measures are in place to ensure the well-being of employees and contractors and no risks were noted at the end of the reporting period. Management continues to monitor the situation at the site and corporate office to identify any issues that may affect operational or financial reporting activities.

2. Going concern

These unaudited condensed interim consolidated financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Accordingly, it does not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern, and, therefore be required to realized its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in these unaudited condensed interim consolidated financial statements. Such adjustments could be material.

Notes to Condensed Interim Consolidated Financial Statements Three Months Ended March 31, 2021 (Expressed in Canadian Dollars) (Unaudited)

2. Going concern (continued)

At March 31, 2021, the Company had not yet achieved profitable operations and had accumulated losses of \$10,390,284 (December 31, 2020 - \$10,154,966). For the three months ended March 31, 2021, the Company had a net loss of \$235,318 (three months ended March 31, 2020 - net loss of \$108,233). The Company expects to incur further losses in the development of its business, all of which raise material uncertainties which casts significant doubt about the Company's ability to continue as a going concern.

A number of alternatives including, but not limited to selling an interest in one or more of its properties or completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due; all of which are uncertain.

3. Significant accounting policies

(a) Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company's annual consolidated financial statements for the year ended December 31, 2020 other than below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2021 could result in restatement of these unaudited condensed interim consolidated financial statements.

(b) New standards not yet adopted and interpretations issued but not yet effective

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

10. Capital disclosure

The Company defines its capital as as shareholders' equity. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has an interest are in the exploration stage. As such, the Company has historically relied on the equity markets to fund its activities. In addition, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will need to raise additional funds. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's capital management objectives, policies and processes have remained unchanged during the year ended December 31, 2020. The Company is not subject to any capital requirements imposed by a lending institution or regulatory body.

11. Financial Instruments and Risk Exposures and Management

The three levels of the fair value hierarchy are:

- Level 1 unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 inputs that are not based on observable market data.

The Company enters into financial instruments to finance its operations in the normal course of business. The fair values of cash and cash equivalents, loan receivable, accounts payable and loan payable and lease liability approximate their carrying values due to the short-term maturity of these instruments.

The fair value of the Company's financial instruments has been classified within the fair value hierarchy as at March 31, 2021 as follows:

	Level 1	L	evel 2	L	evel 3	Total
Financial assets						
Cash	\$ 34,795	\$	-	\$	-	\$ 34,795
Marketable securities	\$ 30,152	\$	-	\$	-	\$ 30,152

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, foreign currency risk and commodity price risk). Risk management is carried out by the Company's management team, with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance on overall risk management.

Credit risk

Credit risk is the risk of loss associates with a counterparty's inability to fulfil its payment obligations. The Company's cash is largely held in large Canadian financial institutions. The Company does not have any asset-backed commercial paper. The Company maintains cash deposits with a Schedule A financial institution, which from time to time may exceed federally insured limits. The Company is further exposed to credit risk through its loan's receivable. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. As at March 31, 2021, the Company had working capital deficiency of \$101,785 (December 31, 2020 - working capital of \$134,213).

11. Financial Instruments and Risk Exposures and Management (continued)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as price risk, interest rate risk, foreign exchange rate risk and commodity price risk.

Price risk

Price risk is the risk that the fair value of future cash flows of the Company's financial instruments will fluctuate because of changes in market prices. The Company is not exposed to price risks on marketable securities.

The Company's sensitivity analysis suggests that a 10% increase or decrease of the share price of New Age Exploration Limited would have resulted in an approximate \$7,900 increase or decrease in the Company's loss and comprehensive loss.

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company does not hold any financial liabilities with variable interest rates. The Company does maintain bank accounts which earn interest at variable rates, but it does not believe it is currently subject to any significant interest rate risk.

Foreign exchange risk

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company is exposed to currency risk through financial assets and liabilities denominated in currencies other than the Canadian dollar, the Company's presentation currency. The Company's financial instruments denominated in currencies that are not the Canadian dollar as at March 31, 2021 are as follows:

	Australian			
Cost	dollar \$	US dollar \$	C\$ equivalent	
Cash	-	1,319	1,658	
Marketable securities	31,500	-	30,152	
Accounts payable and accrued liabilities	(1,270)	(17,428)	(23,100)	
Loans payable	(89,230)	` -	(85,132)	

The Company's sensitivity analysis suggests that a 10% depreciation or appreciation of the foreign currencies against the Canadian dollar would have resulted in an approximate \$7,600 decrease or increase in the Company's loss and comprehensive loss.

As at March 31, 2021, US dollar amounts have been translated at a rate of C\$1.2575 per US dollar and Australian dollar amounts have been translated at C\$0.9572 per Australian dollar.
