GENCAN CAPITAL INC.

2018 ANNUAL REPORT

TO THE SHAREHOLDERS

Presented herein is your Company's Annual Report for the Fiscal Year ended September 30, 2018.

Revenues for the period under review were $334,724, which together with the Company's gain on sale of its solar energy generation equipment of $823,993, yielded net income of $609,799 and income per share of $0.04. This compares with revenues of $474,288, a net loss of $9,100 and net loss per share of $0.00 for the comparable 2017 period.

The Board regularly assess the Company's operating performance and opportunities with a view to providing shareholders with the opportunity to maximize the value of their common shares. To that end and as a first step in the change of the business process during the year, the Company completed the shareholder approved sale of the Company's solar energy generation equipment. Management is currently evaluating potential new prospects for the Company.

We thank our shareholders for their interest and support and invite all to attend the upcoming Annual Meeting. For shareholders who are unable to attend, a proxy has been enclosed which you should complete and return in the enclosed envelope.

On Behalf of the Board,

Signed "Mark I. Litwin"

Independent Auditor's Report

To the shareholders of Gencan Capital Inc.

We have audited the accompanying financial statements of Gencan Capital Inc., which comprise the statements of financial position as at September 30, 2018 and 2017, and the statements of income (loss) and comprehensive income (loss), changes in equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian Generally Accepted Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Gencan Capital Inc. as at September 30, 2018 and 2017 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

1. NATURE OF OPERATIONS

Nature of operations

Gencan Capital Inc. ("the Company") is a Canadian company and up until July 4, 2018 was the holder of a Solar Energy Feed-In Tariff Program Contract with interests in solar energy generation equipment located in Ontario, Canada. The Company was incorporated on October 31, 2013, and has its registered office address at 106 Avenue Road, Toronto, Ontario, M5R 2H3.

On August 17, 2015, the Company changed its name from Genterra Energy Inc. and on October 30, 2015, pursuant to a Plan of Arrangement (announced on July 21, 2015 between the Company and Genterra Capital Inc. ("GCI"), a Canadian controlled private company), the Company was spun-off as a public company and its shares were listed on the Canadian Securities Exchange under the symbol "GCA". GCI currently retains a 78% controlling interest in the Company.

On July 4, 2018, the Company sold its solar equipment to Highroad Estates Inc. ("Highroad"), a company of which certain directors and officers are also directors and officers of the Company, for gross proceeds of $2,635,000. See Note 5.

2. BASIS OF PREPARATION

(a) Statement of compliance

The Company prepares financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The policies applied in these financial statements are based on IFRS issued and effective as of September 30, 2018.

These financial statements were authorized for issue by the Board of Directors on January 17, 2019.

(b) Functional currency

These financial statements are presented in Canadian dollars, the Company's functional currency.

(c) Basis of measurement

These financial statements are prepared on the historical cost basis.

(d) Critical judgements in the application of accounting policies

The following are the critical judgements that have been made in applying the Company's accounting policies and that have the most significant effect on the amounts in the financial statements:

Leases: The Company's policy for leases is described in note 3(d). In applying this policy, the Company makes judgements in determining whether its leases are operating or finance leases. The Company has determined that all of its leases are operating leases.

Equipment: The Company's policy for equipment is described in note 3(b). In applying this policy, the Company makes judgements in determining whether certain costs are additions to the carrying amount of the equipment. Judgement is also applied in determining whether an impairment in value exists at each reporting date. The Company has determined that an impairment in value does not exist.

Transactions with shareholders: The Company makes judgements in determining whether a transaction with shareholders is in their capacity as shareholders, which would be recorded as a separate component in equity. The Company has determined that the sale of the solar equipment was not a transaction with shareholders in their capacity as shareholders and has recorded the gain on sale in the statement of income and comprehensive income.

Deferred income taxes: The Company's policy for deferred income taxes is described in note 3(h). In applying this policy, the Company makes judgements in determining whether the recoverability of deferred income tax assets is probable. The Company has determined that the realization of certain income tax losses carried forward are probable and has recorded a deferred income tax asset relating to these losses.

Impairment of financial assets: The Company's policy for the recognition of an impairment of financial assets is described in note 3(c). In applying this policy, the Company makes judgements in determining whether an event has occurred to cause the value of the underlying asset to become impaired. The Company has determined that none of its financial assets are impaired.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Foreign currencies

Foreign currency transactions are translated using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period end rates are recognized in the statements of income and comprehensive income.

(b) Equipment

Equipment is stated at the lower of cost, net of accumulated amortization, and its recoverable amount. Equipment is reviewed for indicators of impairment at the end of each reporting period. If it is determined that the net recoverable amount of Equipment is less than its carrying value, the Equipment is written down to its recoverable amount. The recoverable amount of Equipment is the higher of fair value less costs to sell and its value in use. Fair value is determined as the amount that would be obtained from the sale of the Equipment in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows of Equipment is discounted to present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the Equipment. Any impairment in value of Equipment is recorded in the statements of income and comprehensive income. Where an impairment loss of Equipment subsequently reverses, the carrying amount is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized in prior years. A reversal of an impairment loss on Equipment is recognized immediately in the statements of income and comprehensive income.

Amortization is being provided for over the estimated useful life of Equipment as follows:

Solar Energy Generation Equipment:	
Solar modules and racking	straight-line over twenty years
Energy transformer	straight-line over ten years

(c) Financial instruments

The Company's financial assets and liabilities include cash, accounts receivable, accounts payable and accrued liabilities and loan payable.

Classification of financial instruments:

The Company's financial assets and liabilities can be classified into any of the following specified categories: i) available-for-sale ("AFS") financial assets, ii) fair value through profit or loss ("FVTPL"), iii) loans and receivables, iv) held to maturity investments and v) other liabilities. The classification depends on the nature and purpose of the financial assets and liabilities and is determined at the time of initial recognition.

Loans and receivables: The Company's financial assets classified as loans and receivables include cash and accounts receivable.

(i) Cash is initially recognized at the fair value that is directly attributable to the acquisition or issue. They are carried in the statements of financial position at amortized cost using the effective interest rate method. The Company does not hold any asset backed commercial paper.

(ii) Accounts receivable consist of solar energy sales receivable. These are non-derivative financial assets with fixed or determinable payments and are not quoted in an active market. They are initially recognized at the fair value that is directly attributable to their acquisition or issue and subsequently carried at amortized cost using the effective interest rate method. The effect of discounting on these financial instruments is not considered to be material. All other gains or losses are recognized when the instrument is removed from the statement of financial position.

Other liabilities: The Company's financial liabilities classified as other liabilities include accounts payable and accrued liabilities and loan payable.

(i) Accounts payable and accrued liabilities consist primarily of trade payables. They are initially recognized at the fair value that is directly attributable to their acquisition or issue and subsequently carried at amortized cost using the effective interest rate method. The effect of discounting on these financial instruments is not considered to be material.

(ii) Loan payable consists of a loan payable to the Company's parent company and is initially recognized at the fair value directly attributable to the issue of the instrument, net of transaction costs. It is subsequently carried at amortized cost using the effective interest rate method. Interest expense is recognized in the statements of income and comprehensive income in the same period as incurred. All other gains or losses are recognized when the instrument is removed from the statement of financial position.

Derivative financial instruments:

The Company does not have any derivative financial instruments.

Fair value of financial instruments:

Financial instruments that are recorded at fair value on the statements of financial position or disclosed at fair value in the notes to the financial statements are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company does not have any financial instruments which are measured at fair value. See Note 10(f) for fair value disclosures of financial instruments.

Impairment of financial assets:

Financial assets are assessed for indicators of impairment at each financial position reporting date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

Objective evidence of impairment could include, among other evidence: i) significant financial difficulty of the issuer or counterparty; or ii) default or delinquency in interest or principal payments; or iii) it becoming probable that the borrower will enter bankruptcy or financial re-organization.

Certain categories of financial assets that are assessed not to be impaired individually, such as accounts receivable and prepayments, are subsequently assessed for impairment on a collective basis. For these assets, the carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivable, where the carrying amount is reduced through the use of an allowance account. When an amount receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the statements of income and comprehensive income in the relevant period. With the exception of AFS instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

(d) Leases

Where substantially all of the risks and rewards incidental to ownership of a leased asset has been transferred to the Company ("Finance Lease"), the asset is treated as if it had been purchased. The amount initially recognized as an asset is the lower of the fair value of the leased property and the present value of the minimum lease payments payable over the term of the lease. The corresponding lease commitment is shown as a liability. Lease payments are then allocated between capital repayment and interest expense which is charged to the statement of income and comprehensive income over the period of the lease. Where substantially all of the risks and rewards incidental to ownership of a leased asset are not transferred to the Company ("Operating Lease"), the total rents payable in the lease are charged to expense on a straight-line basis over the term of the lease.

(e) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(f) Revenue recognition

Revenue from solar energy generation equipment is recognized as produced and delivered to the local utility.

(g) Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable effective interest rate.

(h) Income taxes

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. This amount is measured using tax rates that have been enacted or substantively enacted at the end of the year.

The Company follows the asset and liability method of accounting for deferred income taxes. Under this method, deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying value and tax basis of assets and liabilities and the benefit of tax losses available to be carried forward for tax purposes.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled. Deferred income tax assets are recorded in the financial statements if realization is considered probable. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the year that the rate changes.

(i) Earnings per share

Basic earnings per common share is calculated by dividing the earnings attributed to common shareholders for the year by the weighted average number of common shares outstanding in the year. Diluted earnings per common share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares. The Company does not have any potential common shares issuable.

(j) Segment reporting

A segment is a component of the Company that: i) engages in business activities from which it may earn revenue and incur expenses, ii) whose operating results are reviewed by the board of directors, and iii) for which discrete financial information is available. Management of the Company has identified one reportable industry segment, solar energy generation, with all equipment located in Ontario, Canada.

(k) New accounting standards not yet effective

IFRS 9, *Financial Instruments: Classification and Measurement*, introduces new requirements for the classification and measurement of financial instruments, a single forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The adoption of IFRS 9 is not expected to have a material impact to the Company.

IFRS 15, *Revenue Recognition:* provides for a single, comprehensive revenue recognition model for all contracts with customers. It contains a single principles based five step approach that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. It also contains new disclosure requirements. IFRS 15 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The adoption of IFRS 15 is not expected to have a material impact to the Company.

IFRS 16, *Leases:* introduces a new standard replacing IAS 17 Leases, that results in bringing many leases on balance sheet that are considered operating leases under IAS 17. Lessor accounting remains largely unchanged. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted if IFRS 15 has also been applied. The adoption of IFRS 16 is not expected to have a material impact to the Company.

4. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

(i) the recoverability of accounts receivable and prepayments totaling $2,609 (September 30, 2017: $118,539);

(ii) the estimated useful lives of solar energy generation equipment totaling $Nil (September 30, 2017: $1,880,016) and the related amortization of $81,504 (2017: $108,672); and

(iii) the provision for income taxes expense of $151,935 (2017: $3,280 recovery).

5. EQUIPMENT

	Solar modules and racking	Energy transformer	Total
Cost			
Balance - September 30, 2016	$ 2,094,832	$ 124,300	$ 2,219,132
Additions	-	-	-
Balance - September 30, 2017	$ 2,094,832	$ 124,300	$ 2,219,132
Disposals	(2,094,832)	(124,300)	(2,219,132)
Balance - September 30, 2018	$ -	$ -	$ -
Accumulated amortization			
Balance - September 30, 2016	$ 206,204	$ 24,240	$ 230,444
Amortization	97,240	11,432	108,672
Balance - September 30, 2017	$ 303,444	$ 35,672	$ 339,116
Amortization	72,930	8,574	81,504
Adjustment on disposal	(376,374)	(44,246)	(420,620)
Balance - September 30, 2018	$ -	$ -	$ -
Net book value			
September 30, 2017	$ 1,791,388	$ 88,628	$ 1,880,016
September 30, 2018	$ -	$ -	$ -

On July 4, 2018, the Company completed the sale of its solar equipment to Highroad for gross proceeds of $2,635,000. Part of the consideration was paid by the assumption of the loan payable to GCI of $2,057,970 with the balance of $577,030 received in cash. Costs of $33,389 were incurred in the sale along with the reduction in the net book value of the equipment of $1,798,512 and prepaid expenses of $5,175 offset by the reversal of deferred rent of $26,069 for a net gain of $823,993.

6. LOAN PAYABLE

The loan payable was due to GCI on August 1, 2019 and was assumed by the purchaser of the solar equipment on July 4, 2018. See Note 10(f) for fair value disclosures of the loan payable.

7. CAPITAL STOCK AND EQUITY

Capital stock

Authorized
Unlimited Common shares, no par value

Issued and outstanding

	September 30 2018	September 30 2017
16,092,284 Common Shares (2017: 16,092,284)	$ 10	$ 10

8. INCOME TAXES

The income of the Company is subject to income tax at a combined federal and provincial rate of 26.5%. The difference between the Company's effective tax rate and the combined statutory tax rate is due to the non-taxable portion of capital gains related to the sale of the Company's solar equipment.

	For the years ended September 30 2018	2017
Net income (loss) before income taxes	$ 761,734	$ (12,380)
Statutory combined income tax rates	26.50%	26.50%
Income tax expense (recovery) computed at statutory tax rates	$ 201,860	$ (3,280)
Decrease in income tax resulting from:		
Non-taxable portion of capital gains	(49,925)	-
Total income tax expense (recovery)	$ 151,935	$ (3,280)

Deferred income tax is calculated using a tax rate of 26.5%. The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and liabilities is as follows:

	September 30 2018	2017
Deferred income tax asset		
Non-capital loss carry forwards	$ -	$ 406,783
Deferred rent	-	7,229
	$ -	$ 414,012
Deferred income tax liability		
Solar energy generation equipment	$ -	$ 441,562
Net deferred income tax liability	$ -	$ (27,550)

9. EARNINGS PER SHARE

(a) Basic earnings per share is calculated by dividing the net income (loss) attributable to common shareholders by the weighted average number of common shares in issue during the period.

	For the years ended September 30 2018	2017
Net income (loss) for the year	$ 609,799	$ (9,100)
Weighted average number of common shares (see Note 7)	16,092,284	16,092,284
Basic and diliuted income (loss) per share	$ 0.04	$ (0.00)

(b) Diluted earnings per share is the same as basic income per share as there are no potential common share issuances.

10. FINANCIAL RISK MANAGEMENT

The Company's financial instruments consist primarily of cash, accounts receivable, accounts payable and accrued liabilities and loan payable. The Company is exposed to various risks as it relates to these financial instruments. The risks and processes for managing the risks are set out below:

(a) Liquidity risk

Liquidity risk arises from the Company's management of working capital and principal repayments on its debt obligations. It is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

The Company's objective is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this goal the Company seeks to maintain cash balances to meet expected requirements for a period of twelve months. At the date of the statement of financial position, the Company expected to generate sufficient liquid resources to meet its obligations under all reasonable expected circumstances.

Accounts payable and accrued liabilities are due within one year.

The Company's major contractual obligations in the subsequent twelve-month periods are as follows:

	2019	2020	2021	2022	2023	Thereafter	Total
Accounts payable and other liabilities	$ 31,419	$ -	$ -	$ -	$ -	$ -	$ 31,419
Income taxes payable	179,485	-	-	-	-	-	179,485
	$ 210,904	$ -	$ -	$ -	$ -	$ -	$ 210,904

(b) Foreign exchange risk

Currency risk is the risk that a variation in exchange rates between the Canadian dollar and foreign currencies will affect the Company's operating and financial results. Any currency gains or losses are included in the consolidated statements of income and comprehensive income.

At September 30, 2018, the Company had no monetary assets and liabilities denominated in foreign currencies and had no outstanding foreign exchange commitments. The Company does not undertake currency hedging activities.

(c) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company has reduced its exposure to interest rate risk over cash flows through the use of fixed rate instruments on certain of its financial liabilities. The Company has not used derivative financial instruments to alter its exposure to interest rate risk.

As of September 30, 2018, the Company has not exposed itself to fluctuations in interest rates that are inherent in such a market.

(d) Other price risk

Other price risk is the risk that the market value or future cash flows of financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company does not have any financial instruments subject to this risk.

(e) Concentration of credit risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash and accounts receivables. The Company does not have any significant amounts outstanding which are past due or impaired.

Cash is maintained at one financial institution. Deposits held with banks may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and are maintained with financial institutions of reputable credit and therefore bear minimal credit risk. Any interest due is included with accounts receivable.

The Company was selling all of its generated electricity to a single utility under a twenty year Feed-In Tariff delivery contract. While this constituted a significant credit concentration, Management believed that the risk was not significant.

(f) Fair value of financial assets and liabilities

Fair Value Measurement

The Company does not have any financial assets or liabilities which are measured at fair value.

Fair Value Disclosures

Fair value represents management's estimates of the market value at a given point in time, which may not reflect fair value in the future. These calculations are subjective in nature, involve uncertainties and are a matter of judgement and therefore cannot be determined with precision.

The carrying values of cash, accounts receivable, accounts payable and accrued liabilities approximate their respective fair values due to the short-term nature of these instruments.

The carrying value and fair value of the loan payable is as follows:

	September 30, 2018		September 30, 2017	
	Carrying value	Fair value	Carrying value	Fair value
Loan payable	$ -	$ -	$ 2,057,970	$ 2,058,075

The Company uses the government of Canada bond yield curve plus an adequate constant credit spread to discount the above financial instruments in order to determine fair value. The fair value of loan payable is based upon level 2 fair value hierarchy inputs.

11. CAPITAL RISK MANAGEMENT

The Company's primary objective when managing capital is to create and maximize shareholder value through the operation and sale of its solar energy generation equipment.

The Company considers its total capitalization to consist of loan payable, Common share capital and accumulated retained earnings. Management reviews its capital management approach on an ongoing basis.

As at September 30, 2018 the Company did not have any externally imposed capital requirements.

The following table provides a summary of certain information with respect to the Company's capital structure and financial position as at September 30, 2018 and 2017:

	September 30	
	2018	2017
Loan payable	$ -	$ 2,057,970
Shareholders' equity	685,705	75,906
	$ 685,705	$ 2,133,876

12. RELATED PARTY TRANSACTIONS

Related parties include the Board of Directors, Officers of the Company, close family members and enterprises which are controlled by these individuals as well as certain persons performing similar functions.

The Company entered into transactions and had outstanding balances with various companies related by virtue of common ownership and management. These transactions were in the normal course of operations and were measured at the amount of consideration established and agreed to by the related parties.

Significant related party transactions and balances not disclosed elsewhere in these financial statements are as follows:

The Company's solar energy generation project was located on the roof of a property owned by GCI. The roof was being rented by the Company from GCI for $52,813 per annum ending in August 2034. This lease was assumed by Highroad on the purchase of the Company's solar equipment (see Note 5).

The Company had entered into an agreement with Highroad to manage this operation for $60,000 per annum. This agreement was suspended on the purchase of the Company's solar equipment by Highroad (see Note 5).

The Company has entered into an administrative services agreement with GCI for $6,000 per annum.

Under the above agreements, management fees of $45,667 (2017: $60,000) were charged by and paid to Highroad and rent of $40,178 (2017: $52,813) and administrative services fees of $6,000 (2017: $6,000) were charged by and paid to GCI.

Director's fees of $50,000 (2017: $50,000) were paid to independent directors.

Loan payable at September 30, 2018 of $Nil (September 30, 2017: $2,057,970) was payable to GCI and due August 1, 2019 bearing interest at 4% per annum. During the year ended September 30, 2018, $62,472 (2017: $98,757) of interest was charged and paid under this loan. During July 2018, the full amount of loan payable was assumed by Highroad on the purchase of the Company's solar equipment (see Note 5).

The Company did not directly pay any remuneration to key management (other than to independent directors as noted above) for the year ended September 30, 2018 and 2017. Key management remuneration (other than director's fees) is included in the above management and administration fees.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2018

The following Management's Discussion and Analysis ("MD&A") provides a review of the financial condition and results of operations of Gencan Capital Inc. ("GCC" or the "Company") for the fiscal year ended September 30, 2018. This MD&A should be read in conjunction with the Company's audited financial statements and notes thereto for the fiscal year ended September 30, 2018, included elsewhere herein.

In this document and in the Company's audited financial statements, unless otherwise noted, all financial data is prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts, unless specifically identified as otherwise, both in the audited financial statements and this MD&A, are expressed in Canadian dollars.

MD&A contains forward-looking statements, including statements concerning possible or assumed future results of operations of the Company. Forward-looking statements typically involve words or phrases such as "believes", "expects", "anticipates", "intends", "foresees", "estimates" or similar expressions. Forward-looking statements involve risks, uncertainties and assumptions, as described from time to time in the Company's reports and filed with securities commissions in Canada, which could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. In addition, the Company expressly disclaims any obligation to publicly update or alter its previously issued forward-looking statements.

The discussion and analysis in this MD&A is based on information available to management as of January 17, 2019.

THE COMPANY

On October 30, 2015, pursuant to a Plan of Arrangement between the Company and Genterra Capital Inc. ("GCI"), the Company was spun-off as a public company and it shares were listed on the Canadian Securities Exchange under the symbol "GCA". GCI currently retains a 78% controlling interest in the Company.

The business objective of the Company is to create and maximize shareholder value through its business operations.

The Company is a Canadian Company operating in Canada, and up to July 4, 2018, held a significant interest in solar energy generation equipment located in Cambridge, Ontario, Canada.

On June 28, 2018 the Shareholders of the Company approved, at a special meeting called for this purpose, the sale to Highroad Estates Inc. ("Highroad") of which certain directors and officers are also directors and officers of the Company, the Company's solar energy generation equipment.

On July 4, 2018, pursuant to the purchase and sale agreement, the Company completed the sale of the solar energy generation equipment to Highroad for gross proceeds of $2,635,000. The sale price was satisfied with a cash payment of $577,030 and the assumption by Highroad of the loan payable to GCI of $2,057,970.

Solar Operations

A Feed-In Tariff ("FIT") Program was developed for the Province of Ontario to encourage and promote greater use of renewable energy sources including on-shore wind, waterpower, renewable biomass, biogas, landfill gas and solar photovoltaic (PV) for electricity generating projects in Ontario. The fundamental objective of the FIT Program, in conjunction with the *Green Energy and Green Economy Act, 2009 (Ontario)* and Ontario's Long Term Energy Plan, 2010, is to facilitate the increased development of renewable generating facilities of varying sizes, technologies and configurations via a standardized, open and fair process.

The FIT Program was open to projects with a rated electricity generating capacity greater than 10 kilowatts (kW) and generally up to 500 kW.

The Company through Highroad, entered into a FIT Contract with the Ontario Power Authority (now the Independent Electricity System Operator "IESO") for a solar PV rooftop facility at GCI's property located at 450 Dobbie Drive, in Cambridge, Ontario to supply the energy produced by the facility to the local utility. Highroad also entered into an agreement with Endura Energy Project Corp. ("Endura") for the Company to install the solar energy generation equipment on the roof of the 450 Dobbie Drive property. Highroad managed the project operation on behalf of the Company up to July 4, 2018.

Endura, which designs, builds and consults on the development of medium and large scale solar energy systems, completed the design and construction of the Company's rooftop solar PV system which began commercial operation on August 18, 2014. The solar rooftop PV system is located in a commercial urban area where the power is needed most and mitigates the need for the transport and distribution of electricity from distant parts of the province and provides enough energy to power approximately 100 average homes and reduces carbon emissions equivalent to planting 450 trees each year.

The rooftop solar energy generation equipment consists of 2,795 solar panels with a modular tilt of 20 degrees and an azimuth of 15 degrees east of south. The total size of the system is 726.7 kW DC capacity with a maximum of 500.0 kW AC production.

Revenue was earned by the Company up and until July 4, 2018 under a twenty year FIT Program Contract with the IESO at a rate of $0.635 per kWh delivered to the local utility provider.

OUTLOOK

The Board and senior management regularly assess the Company's operating performance and opportunities with a view to providing shareholders with the opportunity to maximize the value of their common shares. The Board concluded that in order to increase shareholder value, it would explore potential change of business opportunities for the Company. To that end and as a first step in the change of the business process, the Company completed the shareholder approved sale of the Company's solar energy generation equipment. Management is currently evaluating potential new prospects for the Company.

RESULTS OF OPERATIONS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2018

Summary of Quarterly Results

	2018				2017			
	Q4	Q3	Q2	Q1	Q4	Q3	Q2	Q1
Revenue	**$ 12,071**	**$180,740**	**$ 75,071**	**$ 66,842**	**$149,165**	**$176,570**	**$ 75,975**	**$ 72,578**
Net income (loss)	**640,942**	**44,542**	**(40,248)**	**(35,437)**	**18,261**	**44,567**	**(40,354)**	**(31,574)**
Income (loss) per share	$ 0.04	$ 0.00	$ (0.00)	$ (0.00)	$ 0.00	$ 0.00	$ (0.00)	$ (0.00)

"Q1" refers to the three months ended December 31; "Q2" refers to the three months ended March 31; "Q3" refers to the three months ended June 30; "Q4" refers to the three months ended September 30; "2018" and "2017" refer to the twelve month fiscal years ending September 30, 2018 and 2017.

Selected Annual Information

	Fiscal Years Ended September 30	
	2018	2017
Revenue	$ 334,724	$ 474,288
Net income (loss)	609,799	(9,100)
Distributions per share:		
Common shares	$ -	$ -
	September 30 2018	September 30 2017
Assets	$ 896,609	$ 2,245,701
Non-current financial liabilities	-	2,057,970

RESULTS FOR THE THREE MONTHS AND FISCAL YEARS ENDED SEPTEMBER 30, 2018 AND SEPTEMBER 30, 2017

	Three Months Ended September 30			**Year Ended September 30**		
	2018	**2017**	**Change**	**2018**	**2017**	**Change**
Revenue						
Solar energy generation	$ 10,509	$ 149,165	$ -138,656	$ 333,162	$ 474,288	$ -141,126
Interest income	1,562	-	+1,562	1,562	-	+1,562

Review of Results for the Three Months and Fiscal Years ended September 30, 2018 and 2017

Solar Energy Production

Total kW hours produced for the three and twelve month periods ended September 30, 2018 and September 30, 2017 is as follows:

	Three Months Ended September 30			Year Ended September 30		
	2018	**2017**	**Change**	**2018**	**2017**	**Change**
kW hours produced	17,000	235,000	-218,000	525,000	747,000	-222,000
			-93%			-30%

Solar Energy Generation Revenue

The solar energy generation revenue represents revenue earned from the solar energy generation equipment which was located on the roof of a building owned by GCI, in Cambridge, Ontario. Solar energy generation revenue is seasonal with the highest levels of production experienced during the summer months when there is more sunlight available to the solar panels.

During the three and twelve month periods ended September 30, 2018 compared to September 30, 2017, the Company produced approximately 93% and 30% less electricity and consequently revenue decreased by a similar percentage. The main reason for the decrease in both periods was due to the sale of the solar equipment on July 4, 2018 to Highroad.

	Three Months Ended September 30			Year Ended September 30		
	2018	**2017**	**Change**	**2018**	**2017**	**Change**
Solar energy revenue	$ 10,509	$ 149,165	$ -138,656	$ 333,162	$ 474,288	$ -141,126
			-93%			-30%

Interest Income

Interest income represents interest earned on the Company’s cash balances. Subsequent to the sale of the solar energy generation equipment on July 4, 2018, the Company’s cash balances increased substantially.

	Three Months Ended September 30			Year Ended September 30		
	2018	**2017**	**Change**	**2018**	**2017**	**Change**
Interest income	$ 1,562	$ -	$ +1,562	$ 1,562	$ -	$ +1,562

Operating Costs

Operating costs for the solar energy generation equipment includes insurance, maintenance and rent charges for the rental of the roof where the solar energy generation equipment is located. Operating costs for the three and twelve month periods ended September 30, 2018 decreased compared to September 30, 2017 mainly due to the sale of the Company's solar energy generation equipment on July 4, 2018 along with increased maintenance costs prior to the sale.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Operating costs	$ 2,109	$ 30,182	$ -28,073	$ 72,654	$ 94,461	$ -21,807

Administrative and General Expenses

Administrative and general expenses include management fees paid to Highroad to manage the Company's solar energy generation operation, audit fees, legal fees, liability insurance, director's fees and shareholder related costs such as transfer agent fees, listing fees, printing and meeting costs.

The decrease in administrative and general expenses during the three months and twelve months ended September 30, 2018 compared to September 30, 2017 was mainly due to the sale of the Company's solar energy generation equipment on July 4, 2018 along with an increase in legal fees and shareholder related costs and a decrease in audit fees.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Administrative and general	$ 28,948	$ 44,741	$ -15,793	$ 180,353	$ 184,778	$ -4,425

Interest Expense

Interest expense represents interest charged by GCI on the outstanding loan payable. The decrease in interest expense for the three and twelve month periods ended September 30, 2018 compared to 2017 is due to the assumption of the loan payable by Highroad on the purchase of the Company's solar energy generation equipment on July 4, 2018 and the repayment of $500,000 of principal during July 2017.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Interest	$ 902	$ 22,229	$ -21,327	$ 62,472	$ 98,757	$ -36,285

Amortization

Amortization expense represents the amortization of the solar energy generation equipment and decreased for the three month and twelve month periods ended September 30, 2018 compared to September 30, 2017 as the solar energy generation equipment was sold to Highroad on July 4, 2018. Amortization was provided for over the estimated useful life of the equipment being 20 years for the solar modules and racking and 10 years for the energy transformer.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Amortization	$ -	$ 27,168	$ -27,168	$ 81,504	$ 108,672	$ -27,168

Gain on Sale of Solar Equipment

On July 4, 2018, the Company completed the sale of its solar energy generation equipment to Highroad for gross proceeds of $2,635,000. The net gain on sale of $823,993 resulted from the gross proceeds less the net carrying amount of the equipment at the time of sale of $1,798,512, the write off of prepaid expenses of $5,175 and costs incurred of $33,389 offset by the reversal of deferred rent of $26,069.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Gain on sale of solar equipment	$ 823,993	$ -	$ +823,993	$ 823,993	$ -	$ +823,993

Income Tax Provision

The difference between the Company's statutory tax rate of 26.5% and its effective tax rate for the three and twelve month periods ended September 30, 2018 compared to September 30, 2017 is due to the non-taxable portion of capital gains related to the gain on sale of solar equipment on July 4, 2018.

	Three Months Ended September 30			Year Ended September 30		
	2018	2017	Change	2018	2017	Change
Income (loss) before income taxes	$ 804,105	$ 24,845	$ +779,260	$ 761,734	$ (12,380)	$ +774,114
Income tax expense (recovery)	163,163	6,584	+156,579	151,935	(3,280)	+155,215
Effective tax rate	20.3%	26.5%		19.9%	26.5%	

Net Income (Loss)

Net income for the three months ended September 30, 2018 was $640,942 compared to $18,261 for the three months ended September 30, 2017. Net income for the twelve months ended September 30, 2018 was $609,799 compared to net loss of $9,100 for the twelve months ended September 30, 2017. The main reason for the substantial increase in income is the gain on sale of the solar energy generation equipment on July 4, 2018.

	Three Months Ended September 30			Year Ended September 30		
	2018	**2017**	**Change**	**2018**	**2017**	**Change**
Net income (loss)	$ 640,942	$ 18,261	$ +622,681	$ 609,799	$ (9,100)	$ +618,899

Inflation

Inflation has not had a material impact on the results of the Company's operations in its last quarter or fiscal period and is not anticipated to materially impact on the Company's operations during its next fiscal year.

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal sources of liquidity are cash on hand and cash flow from operations.

	September 30		
	2018	**2017**	**Change**
Working Capital			
Current assets	$ 896,609	$ 365,685	$ +530,924
Current liabilities	210,904	56,996	+153,908
	685,705	308,689	+377,016
Ratio of current assets to current liabilities	4.3	6.4	
Cash	$ 894,000	$ 247,146	$ +646,854

Working capital is primarily represented by cash and accounts receivable offset by outstanding payables and sales taxes payable relating to the solar energy generation operation.

The Company's working capital increased by $377,016 to $685,705 as at September 30, 2018 compared to $308,689 as at September 30, 2017 due to a significant increase in cash and a decrease in accounts payable offset by a decrease in accounts receivable and an increase in income taxes payable.

During the twelve months ended September 30, 2018 the Company's cash position increased by $646,854 to $894,000 from $247,146 as at September 30, 2017. The net increase was due to the following:

- Operating Activities increased cash by $165,685. This was a result of $80,507 of cash generated from operations in addition to an increase of $85,178 from changes in non-cash components of working capital;

- Financing Activities decreased cash by $62,472 due to interest payments on the loan payable;

- Investing Activities increased cash by $543,641 from the net proceeds from the sale of the Company's solar energy generation equipment on July 4, 2018.

The Company anticipates that it will require approximately $135,000 in order to meet its ongoing expected costs for the next twelve months. These costs include insurance, audit fees, director's fees, and shareholder costs. In addition, the Company will require $180,000 in respect of income taxes payable on the sale of the solar energy generation equipment. The Company expects to utilize cash on hand in order to service these expenditures.

RELATED PARTY TRANSACTIONS

The Company entered into transactions and had outstanding balances with various companies related by common ownership and management.

The transactions with related parties are in the normal course of business.

Related party transactions for the fiscal year ended September 30, 2018 are summarized as follows:

The Company's solar energy generation project was located on the roof of a property owned by GCI. The roof was being rented by the Company from GCI for $52,813 per annum ending August 2034. This lease was assumed by Highroad on July 4, 2018 on the purchase of the Company's solar generation equipment.

The Company had an agreement with Highroad to manage its solar energy generation operation for $60,000 per annum. This agreement was suspended on the purchase of the Company's solar generation equipment by Highroad.

The Company has an administrative services agreement with GCI for $6,000 per annum.

Under the above agreements, management fees of $45,667 were charged by and paid to Highroad and rent of $40,178 and administrative services fees of $6,000 were charged by and paid to GCI.

Director's fees of $50,000 were paid to independent directors.

The loan payable $2,057,970 due to GCI on August 1, 2019 and bearing interest at 4% per annum was assumed by Highroad on July 4, 2018 on the purchase of the Company's solar generation equipment. During the year, $62,472 of interest was charged and paid under this loan.

SHARE DATA

The following table sets forth the Outstanding Share Data for the Company as at January 17, 2019:

	Authorized	Issued
Common Shares	Unlimited	16,092,284

RISKS AND UNCERTAINTIES

The Company is subject to a number of broad risks and uncertainties including general economic conditions. In addition to these broad business risks, the Company has specific risks that it faces, the most significant of which are outlined below. **The risks and uncertainties discussed herein highlight the more important factors that could significantly affect the Company's operations and profitability. They do not represent an exhaustive list of all potential issues that could affect the financial results of the Company and are not presented in any particular order of relevance.**

Cash Deposits Held At Banks May Exceed The Amounts Of Insurance Provided On Such Deposits And Any Loss Arising Therefrom Could Have A Material Adverse Effect On The Company's Financial Condition And Results Of Operations

Deposits held with banks may exceed the amount of insurance provided on such deposits. If the Company were to suffer a loss as a result of a failure of one of these Banks and the insurance provided thereon was insufficient to cover the amount of the deposit, results of operations may suffer. This could adversely affect financial condition and cash flow.

The Need To Maintain Liquidity And The Company's Financial Condition Could Be Adversely Affected By Market And Economic Conditions

A liquidity risk arises from the Company's management of working capital and principal repayments on its debt obligations to avoid difficulty in meeting its financial obligations as they become due. Liquidity is essential to the Company and may be impaired by circumstances that management may be unable to control, such as general market disruption or an operational problem which in turn could affect the Company's financial condition and ability to satisfy debt service obligations.

General Uninsured Losses May Result In The Company Losing Its Investment In And Cash Flows From Equipment And Could Reduce Net Income

The Company carries comprehensive general liability with policy specifications, limits and deductibles customarily carried for similar equipment. There are however certain types of risks (generally of a catastrophic nature such as wars or environmental contamination) that are either uninsurable or not insurable on an economically viable basis. Should an uninsured or underinsured loss occur, the value of the Company's assets would be reduced by any such uninsured loss. In addition, the Company could lose its investment in and anticipated revenues, profits and cash flows from its equipment, but would continue to be obliged to repay any recourse indebtedness on such equipment which in turn would reduce net income. Accordingly an uninsured or underinsured loss could impact the Company's financial condition.

Environmental Legislation May Affect The Company's Operating Results

Environmental legislation and policies have become an increasingly important feature of property ownership and management in recent years. Under various laws, owners could become liable for the costs of effecting remedial work necessitated by the release, deposit or presence of certain materials, including hazardous or toxic substances and, accordingly, environmental contamination could be considered a risk factor. The cost of defending against claims of liability, complying with environmental regulatory requirements, or remediating any contaminated property could materially adversely effect the Company, its assets and results of operations.

It May Be Difficult To Sell Shares Of The Company Due To Limited Trading Volume

The securities of the Company were listed on the Canadian Securities Exchange on October 30, 2015 and have since experienced very limited trading volume. As a result there may be less coverage by security analysts, the trading price may be lower, and it may be more difficult for shareholders to dispose of the Company's securities.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its results of operations and financial condition are based upon its financial statements that have been prepared in accordance with IFRS. The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Estimates and assumptions are evaluated on an ongoing basis and are based on historical and other factors believed to be reasonable under the circumstances. The results of these estimates may form the basis of the carrying value of certain assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates.

Notes 2, 3 and 4 of the Company's audited financial statements for the year ended September 30, 2018 provide a detailed discussion of the Company's significant accounting policies and application of critical accounting estimates and judgements.

FINANCIAL INSTRUMENTS, FINANCIAL RISK MANAGEMENT AND OTHER INSTRUMENTS

The Company does not utilize financial instruments such as hedging instruments to manage financial risks.

For cash and cash equivalents, accounts receivable, trade and other payables and loans and borrowings with a maturity of less than one year, fair value is not materially different from the carrying amount due to the effect of the time value of money. See Note 10 of the Company's audited financial statements for the year ended September 30, 2018 for a more detailed discussion and additional fair value disclosures.

Proposed Transactions

Management periodically enters into informal discussions with prospective business partners in the normal course of operations. However, management does not believe that any of these discussions constitute a proposed transaction for the purpose of this report.

Off-Balance Sheet Arrangements

The Company had no off balance sheet arrangements as of September 30, 2018 and 2017.

NEW ACCOUNTING STANDARDS AND ACCOUNTING PRONOUNCEMENTS

Financial Instruments

IFRS 9, *Financial Instruments: Classification and Measurement*, introduces new requirements for the classification and measurement of financial instruments, a single forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The adoption of IFRS 9 is not expected to have a material impact to the Company.

Revenue Recognition

IFRS 15, *Revenue Recognition:* provides for a single, comprehensive revenue recognition model for all contracts with customers. It contains a single principles based five step approach that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. It also contains new disclosure requirements. IFRS 15 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The adoption of IFRS 15 is not expected to have a material impact to the Company.

Leases

IFRS 16, *Leases:* introduces a new standard replacing IAS 17 Leases, that results in bringing many leases on balance sheet that are considered operating leases under IAS 17. Lessor accounting remains largely unchanged. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted if IFRS 15 has also been applied. The adoption of IFRS 16 is not expected to have a material impact to the Company.
