eXeBlock Technology Corporation

Unaudited Condensed Interim Consolidated Financial Statements

For the period ended May 31, 2020

(Expressed in Canadian Dollars)

July 30, 2020

Management's Responsibility for Financial Reporting

The accompanying unaudited condensed interim consolidated financial statements of **eXeBlock Technology Corporation** (the "Company") are the responsibility of management and have been approved by the Board of Directors. The unaudited condensed interim consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS"). The unaudited condensed interim consolidated financial statements include certain amounts and assumptions that are based on management's best estimates and have been derived with careful judgment.

In fulfilling its responsibilities, management has developed and maintains a system of internal accounting controls. These controls are designed to provide reasonable assurance that the financial records are reliable for the preparation of the financial statements. The Audit Committee of the Board of Directors reviewed and approved the Company's unaudited condensed interim consolidated financial statements and recommended their approval by the Board of Directors.

These unaudited condensed interim consolidated financial statements have not been reviewed by the external auditors of the Company.

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

eXeBlock Technology Corporation (formerly 1040433 B.C. Ltd.) (the "Company"), was incorporated pursuant to the British Columbia Business Corporations Act on June 19, 2015. On August 18, 2017, the Company and eXeBlock Technology Inc. ("eXeBlock Inc.") signed a letter of intent and on September 6, 2017, the Company and eXeBlock Inc. entered a Share Exchange Agreement (the "SEA") under which the transaction (see below) was completed and the Company effected a change in directors, management and business. The Company changed its name to eXeBlock Technology Corporation.

The Company acquired eXeBlock Inc. through a reverse acquisition transaction. Under the terms of the SEA, the Company acquired all of the issued and outstanding common shares of eXeBlock Inc. based on two shares of the Company for each share of eXeBlock Inc. eXeBlock Inc. is exploring new technology initiatives and continue to identify and review business opportunities with a definitive path to revenue. eXeBlock Inc. was federally incorporated pursuant to the Canada Business Corporations Act on July 11, 2017. eXeBlock Inc. is deemed to be the continuing entity for financial reporting purposes and therefore its historical operations, assets and liabilities are included.

On November 9, 2017, the Company filed a Prospectus in association with its initial listing application on the Canadian Securities Exchange ("CSE") and its common shares commenced trading on the CSE on November 16, 2017 as a Technology Issuer under the trading symbol "XBLK".

The Company's corporate office address is Suite 280, 1090 West Georgia Street, Vancouver, BC, V6E 3V7. eXeBlock Inc.'s registered office is located at Suite 1100, 1959 Upper Water Street, Halifax, NS, Canada, B3J 3N2. The Company's technical, administrative, sales and marketing office is located at Suite 2001, 1969 Upper Water Street, Halifax, NS, Canada, B3J 3R7.

These consolidated interim financial statements have been prepared on a going-concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. For the period ended May 31, 2020, the Company incurred a net loss of $214,387 (year ended August 31, 2019 - $435,370). The Company has no recurring revenue from operations. In addition to its working capital requirements, the Company must secure sufficient funding to develop its private blockchain business and fund its general operating costs. The Company has a planning and budgeting process to monitor operating cash requirements, including amounts projected for capital expenditures, which are adjusted as input variables change. These variables include, but are not limited to, the ability of the Company to generate revenue from current and prospective customers, general and administrative requirements of the Company and the availability of capital markets. As these variables change, liquidity risks may necessitate the need for the Company to issue equity or obtain debt financing. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern. Management is evaluating alternatives to secure additional financing so that the Company can continue to operate as a going concern. Nevertheless, there can be no assurance that these initiatives will be successful or sufficient.

The Company's ability to continue as a going concern is dependent upon its ability to fund its working capital and operating requirements and eventually to generate positive cash flows from operations. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption determined to be inappropriate and these adjustments could be material.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

Statement of compliance with International Financial Reporting Standards ("IFRS")

The Company prepares its unaudited condensed consolidated interim financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of Chartered Professional Accountants of Canada – Part 1 ("CPA Canada Handbook"), which incorporates International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"), as issued by the IASB. Accordingly, certain information normally included in annual financial statements prepared in accordance with IFRS, as issued by the IASB, have been omitted or condensed. The unaudited condensed interim consolidated financial statements should be read in conjunction with the audited financial statements of eXeBlock Technology Corporation for the year ended August 31, 2019.

Approval of the consolidated financial statements

These unaudited condensed interim consolidated financial statements for the period ended May 31, 2020 were reviewed by the Company's Audit Committee and approved and authorized for issue by the Company's Board of Directors on July 30, 2020.

The policies applied in these unaudited condensed interim consolidated financial statements are based on the IFRS as of July 30, 2020, the date the Board approved the financial statements. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year-ended August 31, 2020 could result in the restatement of these unaudited condensed interim consolidated financial statements.

Basis of Measurement

These annual financial statements are presented in Canadian dollars, the Company's functional currency, and have been prepared on the historical costs basis.

These consolidated financial statements also include the effects of the reverse acquisition transaction as described in note 1. All significant inter-company transactions have been eliminated on consolidation.

Critical accounting judgments and estimates

The preparation of the financial statements in conformity with IFRS requires management to make judgments and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results could differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical accounting judgments and estimates in applying accounting policies that have the most significant impact on the amounts recognized in the financial statements are outlined below.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION (continued)

Stock-Based Compensation

Management is required to make certain estimates when determining the fair value of stock option awards, and the number of awards that are expected to vest. These estimates affect the amount recognized as stock-based compensation in the unaudited condensed interim consolidated statement of loss and comprehensive loss based on estimates of volatility, forfeiture and expected lives of the underlying stock options.

Valuation and amortization of internally generated intangible assets

The Company will capitalize certain costs incurred for the development of its DApps. Estimates are used in order to determine the point in time whereby the recognition criteria are met and the allocation and nature of costs to capitalize in accordance with IAS 38, *Intangible Assets*. The capitalized costs may include the cost of direct labour and other costs directly attributable to preparing the intangible asset for its intended use. Management will then estimate the expected term over which the Company will receive benefits from the software application. A change in these estimates may have a significant impact on the carrying value of the intangible asset and the amortization and expenses recognized in the statements of loss and comprehensive loss.

3. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed interim consolidated financial statements have been prepared using the same policies and methods of computation as the annual consolidated financial statements of eXeBlock Technology Corporation for the year ended August 31, 2019. Refer to note 2, *Significant Accounting Policies*, of the annual financial statements of eXeBlock Technology Corporation for the year ended August 31, 2019 for information on the accounting policies as well as new accounting standards not yet effective.

4. SALE OF SOFTWARE TRANSACTION

On April 26, 2019, the Company completed its transaction with Peerplays Blockchain Standards Association ("PBSA"), Data Security Node Inc., Fallout Complex Inc., 10353027 Canada Corporation ("10353027"), and Jonathan Baha'i (collectively, the "Transaction"). The Transaction was approved by the Company's shareholders at the Company's Annual and Special Meeting of Shareholders held on April 2, 2019 (the "Meeting"). 99.7% of the Company's shares voted at the Meeting were voted in favour of the special resolution approving the Transaction and it subsequently received all required regulatory approvals.

Material terms of the Transaction include:

a) Sale of software including 50/50 Labs, Sidechain and eXeChain (collectively, the "Software") to PBSA for the payment to eXeBlock of $250,000 plus applicable taxes;

b) the assumption by PBSA of amounts owing by eXeBlock to a third party developer in the development of the Software;

c) the acquisition by the Company for no consideration of 9,965,000 common shares of eXeBlock held by 10353027, an entity wholly-owned by Jonathan Baha'i (which represents approximately 16.2% of the Company's outstanding common shares) which have been cancelled;

d) the termination of the software development agreement between eXeBlock and PBSA and release by eXeBlock in any interest in any consideration, including any PPY tokens, if any, which were to be transferred as payment for software development under such agreement;

e) the elimination of amounts owing by eXeBlock to each of Data Security Node Inc., Fallout Complex Inc., and Jonathan Baha'i for certain equipment, furniture, fixtures and Company expenses and the return of certain equipment, furniture and fixtures; and

f) the termination of the bunker lease between eXeBlock and Fallout Complex Inc. which was previously scheduled to extend to February 2023,

The following details the financial impact of the Transaction on the financial statements of the as at April 26, 2019:

	$
Cash proceeds due on sale of Software to PBSA	250,000
Assumption by PBSA of amounts owing by eXeBlock to a third party software developer	455,504
Acquisition by the Company for no consideration of 9,965,000 common shares which have been cancelled with a deemed fair value of $0.03 per share	298,950
Elimination of amounts owing by eXeBlock to each of Data Security Node Inc., Fallout Complex Inc., and Jonathan Baha'i for certain equipment, furniture, fixtures and Company expenses	47,837
Termination of the bunker lease between eXeBlock and Fallout Complex Inc.,	10,910
Total amount of consideration from the Transaction	**1,063,201**

5. SHARE CAPITAL

a) Common shares

Authorized share capital of the Company consists of an unlimited number of fully paid common shares without par value.

12,650,002 common shares of the Company were issued to the directors, officers and the founder of the Company and are subject to an escrow agreement. The terms of escrow agreement stipulate that 1,265,000 (10%) of the escrowed shares were released upon listing, which occurred on November 16, 2017. The remaining escrowed shares were scheduled to be released at a rate of 1,897,500 (15%) every six months thereafter. In April 2019, in association with the Transaction outlined in note 4, the Company cancelled 9,965,000 common shares which included 6,000,000 escrowed common shares. As at May 31, 2020, 397,502 shares remained in escrow.

b) Stock options

The Company has a stock option plan (the "Plan") for directors, officers, employees and consultants of the Company. The Board of Directors have the authority to issue up to 10% of the issued and outstanding common shares of the Company. The options can have up to a ten-year life and the vesting period is set by the Board of Directors. Options are granted at a price no lower than the market price of the common shares on the date issued.

The estimated fair value of options recognized has been estimated at the grant date using the Black-Scholes option pricing model. Option pricing models require the input of highly subjective assumptions, including the expected volatility. Changes in the assumptions can materially affect the fair value estimate and, therefore, the existing models do not necessarily provide a reliable estimate of the fair value of the Company’s stock options.

b) Stock options (continued)

Weighted-average assumptions used in the pricing model for the options issued during the years ended August 31, 2018 and 2019 were as follows:

Risk-free interest rate	1.0%
Expected volatility	140%
Expected dividend yield	-
Expected life	5 years
Weighted-average fair value per option – March 1, 2018 tranche	$0.281
Weighted-average fair value per option – June 21, 2018 tranche	$0.109

Based on the Black-Scholes option pricing model and the assumptions outlined above, the estimated fair value of the 1,400,000 options granted on March 1, 2018 is $393,787. Based on the same Black-Scholes option pricing model and the assumptions outlined above, the estimated fair value of the 500,000 options granted on June 21, 2018 is $54,657. These amounts are amortized over the vesting period and $80,101 has been expensed during the year ended August 31, 2019 (2018 - $340,215). The remaining amount of $28,128 related to options that were cancelled.

5. SHARE CAPITAL (continued)

The following table reconciles the stock option activity during the years ended August 31, 2019 and 2018 and and the period ended May 31, 2020:

	Number of options	Weighted-average exercise price per share ($)
Balance, August 31, 2017	-	
Issued	1,900,000	$0.15 - $0.45
Balance, August 31, 2018	1,900,000	$0.15 - $0.45
Cancelled	(400,000)	$0.45
Balance, August 31, 2019	1,500,000	$0.15 - $0.45
Cancelled	(1,500,000)	$0.15 - $0.45
Balance, May 31, 2020	-	

c) Warrants

The following table reflects the continuity of warrants for years ended August 31, 2019 and 2018 and quarter ended February 29, 2020:

	Number of Warrants	Amount $
Balance – August 31, 2017	-	-
Warrants deemed to be issued in association with the reverse acquisition transaction	2,600,000	220,238
Broker warrants issued in association with private placement financing	1,328,057	316,546
Warrants exercised	(37,500)	(3,177)
Balance – August 31, 2018 and 2019	**3,890,557**	**533,607**
Broker warrants expired	(1,328,057)	(316,546)
Balance – May 31, 2020	2,562,500	217,061

As at May 31, 2020, the Company had 2,562,500 share purchase warrants outstanding with an exercise price of $0.05 per share and an expiry date of August 20, 2020.

Warrant pricing models require the input of highly subjective assumptions, including the expected volatility. Changes in the assumptions can materially affect the fair value estimate and, therefore, the existing models may not necessarily provide a reliable estimate of the fair value of the Company's warrants. The fair values of the common share purchase warrants were estimated using Black-Scholes option pricing models using the following assumptions:

Risk free interest rate	1.0%
Expected volatility	140%
Expected dividend yield	-
Expected life	2-3 years

6. INCOME TAXES

The provision for income taxes reported differs from the amounts computed by applying the applicable income tax rates to the net loss before tax provision due to the following:

	August 31, 2019	August 31, 2018
	$	$
Loss before income taxes	(435,370)	(4,845,803)
Statutory rate	31.0%	31.0%
Tax recovery at statutory rate	(135,027)	(1,502,199)
Non-deductible items and other	267,124	105,467
Tax recovery on losses and deductible temporary differences not recognized in the current period	132,097	1,396,732
Income tax recovery	-	-

At August 31, 2019, the Company has unused non-capital losses in Canada of $4,364,365 available for carry-forward purposes which expire from 2036 to 2038.

At August 31, 2019 the Company has $4,673,713 of deductible temporary differences for which no deferred tax asset has been recognized (2018 - $5,100,311) which is comprised of the following:

	August 31, 2019	August 31, 2018
	$	$
Tax losses	4,364,365	4,429,771
Share issuance costs	309,348	670,540

7. RELATED PARTY TRANSACTIONS

During the period ended May 31, 2020, the Company incurred consultancy fees of $63,000 (year ended August 31,2019 - $180,000) from a related party, Numus Financial Inc. ("Numus"), a company which provided services under a consultancy agreement for a fee of $7,000 per month (prior to September 1, 2019, an average of $15,000 per month) which continues until both Numus and the Company mutually agree to terminate. Numus and its principals are significant shareholders of the Company. Additionally, if the agreement with Numus is cancelled by the Company, a break fee of eighteen months of remuneration, being $108,000, will be payable to Numus, along with the service fees applicable for the 90 day notice period.

The agreement also provides for the rental of office space and general office services for $2,550 per month. The Company incurred office rental charges of $25,500 from Numus for the period ended May 31, 2020 (year ended August 31, 2019 - $40,800). If the office space and general office services agreement is cancelled by the Company without notice, a break fee of six months of remuneration, being $15,300, will be payable to Numus.

In addition, Numus shall have a first right of refusal to act as an advisor on an eXeBlock transaction for a fee of 1.25% of the value of the transaction and Numus, or its subsidiary, shall have a first right of refusal to act as an agent on all financings conducted by the Company.

The Company also incurred consulting and director fees to certain directors and officers. The following table summarizes the expenses incurred during the periods ended May 31, 2020 and 2019:

Related party	Nine months ended May 31, 2020	Nine months ended May 31, 2019
	$	$
Randall Consulting Inc. – for services of Rob Randall, CFO and Corporate Secretary	42,525	35,438
Strategic Concepts Inc. – director fees of Carl Sheppard, Director	-	35,500
Clarity communications Inc. – CEO fees of Ken Marshall	45,000	-

8. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

a) Capital Management

The Company manages its capital to ensure that it will be able to continue as a going-concern while maximizing the return to stakeholders through the optimization of debt and equity balances.

The capital of the Company consists of items included in equity. The Company has capital resources of cash and cash equivalents and are not subject to external capital requirements.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions. The Company has a planning and budgeting process to monitor operating cash requirements, including amounts projected for capital expenditures, which are adjusted as input variables change. These variables include, but are not limited to, the ability of the Company to generate revenue from current and prospective customers, general and administrative requirements of the Company and the availability of capital markets. As these variables change, liquidity risks may necessitate the need for the Company to issue equity or obtain debt financing.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

b) Fair Values of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The carrying amounts reported in the consolidated statement of financial position for cash and cash equivalents, deposits and accounts payable approximate their fair values based on the short-term maturities of these financial instruments.

c) Financial Risk Management Objectives

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, currency risk and interest rate risk. Where material, these risks are reviewed and monitored.

d) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The carrying amounts of financial assets best represent the maximum credit risk exposure at the reporting date. Cash and cash equivalents are held with reputable banks in Canada. The long-term credit rating of these banks, as determined by Standard and Poor's, was A+.

e) Liquidity Risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they become due. Refer to note 1 for additional details related to the ability of the Company to continue as a going concern.

The Company is currently pursuing financing alternatives. There can be no assurance that additional future financings will be available on acceptable terms or at all. If the Company is unable to obtain additional financing when required, the Company may have to substantially reduce or eliminate planned expenditures.

c) Liquidity Risk (continued)

Accounts payables are paid in the normal course of business generally according to their payment terms. In the normal course of business, the Company enters into contracts that give rise to commitments for future minimum payments. The following table summarizes the remaining contractual maturities of the Company's financial liabilities as at May 31, 2020:

	Within 1 year	2-3 years	4-5 years	Over 5 years	Total
	$	$	$	$	$
Accounts payable	41,715	-	-	-	41,715

8. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

d) Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk exposure arises from the Company entering into transactions which are denominated in currencies other than its functional currency.

The Company is exposed to currency risk on its accounts payable and accrued liabilities that are held in currencies that are not in the transacting entity's functional currency. As at February 29, 2020, a 5% decrease in the exchange rate between the functional currency and foreign currencies would have no effect on the net loss; a 5% increase would increase the net loss by approximately $nil. The Company currently does not hedge its currency risk.

e) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates. An immaterial amount of interest rate exposure exists in respect of cash balances on the statement of financial position. As a result, the Company is not exposed to material cash flow interest rate risk on its cash balances.

f) Fair Value Measurements Recognized in the Statement of Financial Position

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

At May 31, 2020 and August 31, 2019, the Company had no financial instruments that were measured and recognized on the consolidated statements of financial position at fair value. In addition, there were no transfers between levels during the period.

9. COMMITMENTS AND CONTINGENCIES

Beginning on March 1, 2019, the Company has a new consultancy agreement with Numus for the provision of management and accounting services and office rent at a fee of $12,550 per month, continuing until both parties mutually agree to terminate. The agreement with Numus is subject to break fees, and a first right of refusal on advisory services, as described in Note 7.

The Company from time to time involved in various claims, legal proceedings and complaints arising in the course of business. The Company does not believe that adverse decisions in any pending or threatened proceedings related to any matter, or any amount which it may be required to pay by reason thereof, will have a material effect on the financial conditions or future results of operations of the Company.
