Zenith Exploration Inc.

Notes to the Condensed Interim Financial Statements
For the Three Months Ended October 31, 2019 and 2018
(Unaudited - Expressed in Canadian Dollars)

1. Nature and continuance of operations

Zenith Exploration Inc. (the "Company") was incorporated on June 19, 2015, under the laws of the Province of British Columbia, Canada. The Company is a resource exploration company that is acquiring and exploring mineral properties.

The head office, principal address, records office and registered address of the Company are located at 1080 - 789 West Pender Street, Vancouver BC. On October 11, 2018, the Company commenced trading on the Canadian Securities Exchange (the "Exchange") under the trading symbol "ZX".

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. At October 31, 2019, the Company had not yet achieved profitable operations, had accumulated losses of \$622,287 (July 31, 2019 - \$601,424) since its inception and expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months with loans from directors and companies controlled by directors.

2. Significant accounting policies and basis of preparation

These condensed interim financial statements were approved and authorized for issue on December 30, 2019 by the directors of the Company.

Statement of compliance with International Financial Reporting Standards

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting. Certain information and note disclosures normally included in the audited annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed. As a result, these condensed consolidated interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended July 31, 2019.

Basis of preparation

These condensed interim financial statements of the Company have been prepared on a historical cost basis except for certain financial assets measured at fair value. These condensed interim financial statements are presented in Canadian dollars unless otherwise specified.

New accounting standards

Leases

On August 1, 2019, the Company adopted IFRS 16. IFRS 16 eliminates the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. The main provision of IFRS 16 is the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases that were previously classified as operating leases. Under IFRS 16, a lessee is required to do the following: (i) recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, on the balance sheet; and (ii) recognize a front-loaded pattern of

2. Significant accounting policies and basis of preparation (cont'd)***New accounting standards*** (cont'd)

expense for most leases, even when cash rentals are constant, as the right-of-use asset is depreciated and the lease liability is accreted using the effective interest method. The adoption of IFRS 16 had no impact on the Company's financial statements as the Company has no leases.

3. Exploration and evaluation assets**Scotch Creek Property**

On November 14, 2017, the Company entered into a definitive agreement to purchase eight (8) mineral claims covering 1,384.12 hectares comprising the Scotch Creek Property in the Kamloops Mining Division of British Columbia. In connection with the Scotch Creek Property agreement, the Company and vendors have also executed a royalty deed agreement pursuant to the terms and consideration of which the vendors shall receive a net smelter return royalty of 2% from the Company. Two directors of the Company are vendors of the property.

In consideration for a 100% undivided interest in the property, the Company issued 15,000,000 common shares for total consideration of \$300,000.

Golden Girl Property

On November 15, 2018, the Company entered into a purchase agreement to acquire a 100% interest in a certain mineral property (the "Golden Girl Property") located in B.C. for the following consideration:

- \$1,000 cash upon the signing of the agreement (paid);
- \$11,000 as a retainer for maintaining exploration for the benefit of the Mantle Property in the years 2018 and 2019, upon the signing of the agreement (paid); and
- 200,000 common shares of the Company to be issued on November 15, 2018 (issued).
- Vendor shall receive a 1% net smelter return royalty.

Pursuant to a plan of arrangement, the Company transferred the Golden Girl Property to Top Exploration Inc. ("Top Exploration"), a former subsidiary of the Company. As of the transaction date, the Company incurred total exploration and evaluation costs on the Golden Girl Property of \$88,682 (July 31, 2019 - \$87,086) (Note 4).

Mantle Property

On November 15, 2018, the Company entered into a purchase agreement to acquire a 100% interest in a certain mineral property (the "Mantle Property") located in B.C. for the following consideration:

- \$1,000 cash upon the signing of the agreement (paid);
- \$11,000 as a retainer for maintaining exploration for the benefit of the Mantle Property in the years 2018 and 2019, upon the signing of the agreement (paid); and
- 200,000 common shares of the Company to be issued on November 15, 2018 (issued).
- Vendor shall receive a 1% net smelter return royalty.

(Unaudited - Expressed in Canadian Dollars)

4. Share capital***Authorized share capital***

Unlimited number of common shares without par value.

Issued share capital

At October 31, 2019, there were 28,796,411 (July 31, 2019 – 28,796,411) issued and fully paid common shares.

During the period ended October 31, 2019, the Company completed a plan of arrangement with its former subsidiaries, High Point and Top Exploration. Pursuant to the plan of arrangement, the Company transferred the Mantle Property to High Point and the Golden Girl Property to Top Exploration. As of the transaction date, the Company had incurred exploration and evaluation costs of \$92,063 on the Mantle Property and \$88,682 on the Golden Girl Property. As a result of the transfer, the total value of share capital was reduced by \$180,745.

Stock options

As of October 31, 2019, and July 31, 2019, 2,879,641 stock options were outstanding and exercisable. The stock options are exercisable at a price of \$0.05 per share until March 6, 2024.

Warrants

The Company has not issued any warrants and no warrants are outstanding as at October 31, 2019.

5. Related party transactions

There were no related party transactions during the period ended October 31, 2019. During the period ended October 31, 2018, the Company received a loan in the amount of \$9,372 from a director of the Company and made total repayments to directors of \$23,884.

As at October 31, 2019, loans to former subsidiaries are \$17,905 (July 31, 2019 - \$Nil).

6. Financial risk and capital management

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is not exposed to credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

Zenith Exploration Inc.

Notes to the Condensed Interim Financial Statements
For the Three Months Ended October 31, 2019 and 2018
(Unaudited - Expressed in Canadian Dollars)

6. Financial risk and capital management (cont'd)***Liquidity Risk (cont'd)***

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity and cash. There were no changes in the Company's approach to capital management during the period. The Company is not subject to any externally imposed capital requirements.

Fair value

The Company's financial instruments consist of cash, receivables, due from former subsidiaries and accounts payable. The fair value of these financial instruments approximates their carrying values due to the short-term nature of these investments. Cash is measured at fair value using Level 1 inputs.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.
