1. Reporting entity and going concern

ChitogenX Inc. ("the Corporation", or "ChitogenX"), previously Ortho Regenerative Technologies Inc., was incorporated under the Canada Business Corporations Act on February 5, 2015. The Corporation's head office, principal address and registered office is located at 16667 Hymus Blvd., Kirkland, Quebec, Canada and its wholly owned US subsidiary, OR4102022 Inc. has been incorporated on April 20, 2022 and is located at 12 Penns Trail in Newtown, Pennsylvania, USA. On September 7, 2022, the Corporation changed its corporate name to ChitogenX Inc. to better reflect its expanded clinical and commercial opportunities, mission, values an d core competencies. Since September 12, 2022, the Corporation's shares are listed on the Canadian Securities Exchange ("CSE"), und er the symbol "CHGX" and on the United States OTCQB ("OTCQB") market, under the symbol "CHNXF". These shares were previously listed on the CSE market under the symbol "ORTH" and on the OTCQB market under the symbol "ORTIF".

The Corporation is an emerging Orthopaedic and Sports Medicine biologics company dedicated to the development of novel therapeutic soft tissue repair technologies to dramatically improve the success rate of orthopaedic and sports medicine surge ries. The Corporation's proprietary biopolymer has been specifically designed to increase the healing rates of occupational and sports related injuries to tendons, ligaments, meniscus, and cartilage. The biopolymer – autologous PRP combination implant, can be directly placed into the site of injuries by surgeons during routine operative procedures without significantly extending the duration of surgeries and without further interventions. Considering the significant bioactivity and residency of our proprietary biop olymer – PRP implants, ChitogenX continues to assess its potential for therapeutic uses outside of the soft tissue repair market.

These unaudited interim consolidated financial statements have been prepared on the going concern basis, which presumes the Corporation will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. In its assessment to determine if the going concern assumption is appropriate, management considers all data available regarding the future for at least, without limiting to, the next twelve months.

The Corporation has yet to generate revenue and has relied upon the issuance of debt and equity instruments to fund its operations. During the three-month period ended April 30, 2023, the Corporation incurred a net income of $97 and used cash in operations of $199. As at April 30, 2023, the Corporation had a negative working capital balance of $6,949.

The ability of the Corporation to fulfill its obligations and finance its future activities depends on its ability to raise c apital and on the continuous support of its creditors. The Corporation believes its efforts to raise sufficient funds to support it s activities will be successful, however, there is no assurance that funds will continue to be raised on acceptable terms. This indicates the exis tence of a material uncertainty that may cast a significant doubt about the ability of the Corporation to cont inue as a going concern without obtaining additional financial resources.

Failure to obtain such additional financing could result in delay or indefinite postponement of the Corporation's strategic g oals. These unaudited interim consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that would be necessary should the Corporation be unable to continue as a going concern. Such adjustme nts could be material.

These unaudited interim consolidated financial statements were approved and authorized for issuance by the Board of Directors on June 29, 2023.

2. Summary of Significant Accounting Policies

Basis of measurement

These unaudited interim consolidated financial statements have been prepared on a historical cost basis, except for the revaluation of certain financial assets and financial liabilities to fair value.

Statement of Compliance

These unaudited interim consolidated financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by International Accounting Standard Board ("IASB"). These unaudited interim consolidated financial statements have been prepared in accordance with those IFRS standards and International Financial Reporting Interpretations Committee (“IFRIC”) interpretations issued and effective or issued as at the time of preparing these unaudited interim consolidated financial statements. The policies set out below have been consistently applied to all the periods presented.

The preparation of the Corporation’s unaudited interim consolidated financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Consolidation

Subsidiaries are all entities over which the Corporation has control. The Corporation controls an entity when the Corporation is exposed to, or has rights to, variable returns from its involvement in the entity and could affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Corporation. They are deconsolidated from the date that control ceases. Inter-company transactions, balances and unrealized gains on transactions between the Corporation’s subsidiaries are eliminated. Unrealized gains or losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform to the Corporation’s accounting policies.

Functional and presentation currency

These unaudited interim consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Corporation.

Transactions denominated in foreign currencies are initially recorded in the functional currency of the related entity using the exchange rates in effect at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the closing exchange rates. Any resulting exchange difference is recognized in the consolidated statement of loss and comprehensive loss. Non-monetary assets and liabilities denominated in foreign currencies and measured at historical cost are translated using historical exchange rates, and those measured at fair value are translated using the exchange rate in effect at the date the fair value is determined. Expenses are translated using the average exchange rates for the period or the exchange rate at the date of the transaction for significant items.

3. Use of Estimates and Judgment

The application of the Corporation's accounting policies requires management to use estimates and judgments that can have a significant effect on the expenses, comprehensive loss, assets and liabilities recognized and disclosures made in the unaudited interim consolidated financial statements.

Management's best estimates concerning the future are based on the facts and circumstances available at the time estimates are made. Management uses historical experience, general economic conditions and assumptions regarding probable future outcomes as the basis for determining estimates. Estimates and their underlying assumptions are reviewed periodically, and the effects of any changes are recognized immediately. Actual results could differ from the estimates used.

Management's budget and strategic plans are fundamental information used as a basis for the estimates necessary to prepare financial information. Management tracks performance as compared to the budget, and significant variances in actual performance are a key trigger to assess whether certain estimates used in the preparation of financial information must be revised.

Information about the significant judgements, estimates and assumptions that have the most significant effect on the recognition and measurement of assets, liabilities, income and expenses are discussed in Note 3 of the Corporation's 2023 annual audited financial statements and are still applicable during the three-month period ended April 30, 2023.

The loan bears no interest and has a maturity date of December 31, 2023. Upon repayment of the loan at or prior to its maturity on December 31, 2023, the Corporation would receive a grant of $10 to reduce the balance repayable.

Current portion	**2,783**	2,681
Non-current portion	**2,421**	2,363
Total	**5,204**	5,044

On December 12, 2022, the Corporation amended its non-convertible debentures and related warrants agreements (the "Amendment"). Mainly, under the terms of the Amendment, the maturity date of the outstanding non-convertible debentures and related warrants were extended to February 1, 2025, as well as introducing a conversion option, with an anti-dilution protection feature, at a maximum conversion price of $0.35 per share or warrant exercise price in a Private Placement financing, whichever is lower.

The Amendment was accounted for as an extinguishment of all outstanding debentures as the present value of the cash flows under the new terms discounted using the original effective interest rate is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability.

At the date of the Amendment, the Corporation derecognized the carrying amount of the outstanding original debentures of $2,621 and a new liability totaling $2,342 was recorded by using the discounted cash flows method assuming an effective interest of 24.6% determined on the estimated rate for a loan with similar terms from comparable companies. The Corporation utilized a Monte Carlo simulation model to determine the fair value of the conversion option. The conversion option of $1,047 is considered as an embedded derivative to be classified as a liability instrument because of its anti-dilution feature. The total value of the new host instrument and conversion option is $3,389. The difference between the total value and the carrying amount derecognized of the outstanding original debentures was recorded as a loss on debt extinguishment of $768.

Accretion charges, included in financing expense on the consolidated statement of loss and comprehensive loss, attributable to the convertible debentures during the three months ended April 30, 2023 was $160. In addition, $145 of interest expense was recorded, and $443 is included as Interest payable on convertible debentures in the consolidated statement of financial position.

During the three months ended April 30, 2023 and the year ended January 31, 2023, no debentures were converted into common shares of the Corporation.

The following table shows the nominal value of the convertible debentures with their maturity date:

On April 5, 2022, the Corporation agreed with some investors to transfer their current investments in a non-brokered private placement of units and issued $220 as a replacement to notes issued in December 2021. In December 2022, the Corporation partially reimbursed the principal balance due at maturity and agreed with the remaining investors to defer payment.

On December 13, 2021, the Corporation announced the closing of a non-brokered private placement offering (the "Private Placement") where it issued 1,075 unsecured Convertible Note Units at a price of $0.975 per Convertible Note Unit for total gross proceeds of $1,048. Each Convertible Note Unit consists of one unsecured convertible note (each a “Note”) of the Corporation in the principal amount of $1,000 and 1,000 Class “A” common share purchase warrants (each a "Warrant"). The Notes bear interest at a rate of 10% per annum from the date of issue, payable in cash, semi-annually in arrears and will mature (the "Maturity Date") on the earlier of (i) 12 months following the closing date of the Private Placement, or (ii) 20 days following the closing of a capital raise in the form of an equity or debt financing of at least $5,000 (the "Capital Raise"). Any unpaid interest payments will accrue and be added to the principal amount of the Notes. Should the Corporation complete a Capital Raise prior to the Maturity Date, the holder of a Note will have the option, but not the obligation, to convert the outstanding value of the Note and any accrued and unpaid Interest thereon, into the equity securities and/or debt instrument to be issued pursuant to the Capital Raise, at the same terms and conditions.

Each Warrant will entitle the holder thereof to purchase one Class “A” common share (each, a "Share") at an exercise price of $0.50 at any time up to 24 months following December 13, 2021. The Notes and the Warrants are subject to a statutory hold period under the applicable securities laws and in such case the certificates evidencing the Notes and the Warrants will bear a legend to that effect, as applicable. The Corporation has paid $21 in commissions and issued 21,700 finders' warrants in connection with the convertible note financing, in compliance with applicable securities laws. This leaves the Corporation with a total net proceeds of $1,027.

The Corporation valued the debt component of the notes by calculating the present value of the principal and interest payments, discounted at a rate of 24%, being management’s best estimate of the rate that a Convertible note would bear as at December 13, 2021. On initial recognition, the host instrument was $958 and the warrants at $170. Since an anti-dilutive clause is attached to the warrants, the Corporation determined that the warrants were classified as financial liability. The Corporation utilized a Monte Carlo simulation model to determine the fair value of the warrants. Transaction costs were netted against the liability and will be amortized using the effective interest method over the period of the debt.

Accretion expense included in financing expense on the consolidated statement of loss and comprehensive loss, attributable to the Notes for the three months ended April 30, 2023 was nil. In addition, $12 of accrued interest expense was recorded and $27 is included as Interest payable on convertible debentures in the consolidated statement of financial position.

The following table shows the nominal value of the notes with their maturity date:

		Nominal amounts outstanding as at

(b) Share based compensation

The Corporation implemented an incentive stock option plan for directors, officers, employees and consultants to participate in the growth and development of the Corporation by providing such persons with the opportunity, through stock options, to purchase common shares of the Corporation. The stock option plan provides that the aggregate number of shares reserved for issuance, set aside and made available for issuance may not exceed 10% of the number of issued shares at the time the options are to be granted. The maximum number of options which may be granted to any one beneficiary shall not exceed 5% of the issued shares, calculated at the date the option is granted.

The stock option plan is administered by the Board of Directors of the Corporation, and it has full and final authority with respect to the granting of all options thereunder. The exercise price of any options granted under the stock option plan shall be determined by the Board of Directors, subject to any applicable regulations or policies. The term and vesting of any options granted under the stock option plan shall be determined by the Board of Directors at the time of grant, and vary from one grant to another, however, subject to earlier termination in the event of dismissal for cause, termination other than for cause or in the event of death, the term of any options granted under the stock option plan may not exceed 8 years.

Options granted under the stock option plan are not to be transferable or assignable other than by will or other testamentary instrument or pursuant to the laws of succession to a qualified successor. In the event of death of an option holder, options granted under the stock option plan expire upon the earlier of the normal expiry date of the options or one year from the date of death of the option holder.

Subject to certain exceptions, if an employee, director, officer, consultant ceases to hold office or provide consulting services, options granted to such a holder under the stock option plan will expire 90 days after the holder ceases to hold office or such earlier date as the Board of Directors may decide at the date the options were granted. Notwithstanding the foregoing, in the event of a termination for cause of an option holder, all unexercised options held by such option holder shall immediately expire.

During the three-month period ended April 30, 2023 and 2022, the Corporation recorded compensation expense of $56 and $42, respectively, with corresponding credits to contributed surplus related to the stock option plan. No option was granted during the three months ended April 30, 2023. The weighted average fair value of the options granted during the three-month period ended April 30, 2022, estimated by using the Black-Scholes option pricing model, was $0.16.

The fair value of the options was estimated on the date of grant based on the following weighted average assumptions:

	April 30, 2023	January 31, 2023
Weighted average exercise price	-	0.21
Weighted average risk-free rate	-	2.73%
Weighted average volatility factor *(i)*	-	106.12%
Weighted average expected life (years)	-	8.0

(i) Volatility was determined using the historical share price of the Corporation.

(c) Restricted Stock Units

On April 8, 2022 (the "Date of Grant") the Corporation granted 551,938 Restricted Stock Units ("RSU") to its newly hired CEO, Philippe Deschamps. Half of the RSU's will vest annually and equally over the first 3 years following the date of grant. The balance will vest based on achievements of predetermined operational and corporate milestones. During the three-month period ended April 30, 2023, no RSU vested.

The following tables present the movement in outstanding RSUs during the current period:

As at April 30, 2023, the Corporation had outstanding warrants as follows:

Number of warrants	Exercise price	Fair value of warrants	Remaining contractual life
1,670,850	$0.75	$0.49	0.59 years
14,421,812	$0.50	$0.03 – $0.11	0.003 – 0.34 years
17,732,650	$0.35	$0.002 – $0.04	0.43 – 0.93 years
33,825,312			

On December 12, 2022, the Corporation amended some of its warrant agreements expiring on the same date as the non-convertible debentures. Under the terms of the amendment, the maturity date was extended to February 1, 2025. No significant impact resulted from the warrants' extension.

12. Advances from shareholders

During the year ended January 31, 2023, the Corporation received an advance of $750 from a shareholder, which is not-interest bearing. During the three months ended April 30, 2023, the Corporation received additional advances of $517 from various shareholders, which are also not-interest bearing. The Corporation settled these advances by the issuance of Units in the non-brokered private placement mentioned in Note 23 (See "Subsequent event").

13. (Income) Loss per share

Basic

Basic (earning) loss per share is calculated by dividing net loss by the weighted average number of commons shares outstanding during the period.

	Three months ended,	
	April 30, 2023	April 30, 2022
Net (income) loss for the period	**(97)**	850

19. Financial Instruments

During the three-month period ended April 30, 2023, conversion options and warrants issued as part of the notes in December 2021 and the convertible debentures conversion options are still being carried at faire value through profit and loss ("FVTPL"). During the year ended January 31, 2023, the conversion option resulting from the Amendment of the non-convertible debentures was classified as liability and carried at FVTPL. The Corporation has no financial instruments carried at fair value through other comprehensive income ("FVTOCI") as at April 30, 2023 and January 31, 2023.

The Corporation categorizes its financial assets and liabilities measured at fair value into one of three different levels depending on the observation of the inputs used in the measurement. The three levels are defined as follows:

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities in active markets;
Level 2: Fair value is based on inputs other than quoted prices included within Level 1 that are not observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3: Fair value is based on valuation techniques that require one or more significant unobservable inputs.

The fair value of a financial instrument is approximated by the consideration that would be agreed to in an arm's length transaction between willing parties and through appropriate valuation methods, but considerable judgement is required for the Corporation to determine the value. The actual amount that could be realized in a current market exchange could be different than the estimated value. The fair values of financial instruments included in current assets and current liabilities, other than warrants classified as liability, approximate their carrying values due to their short-term nature.

All financial instruments at fair value of the Corporation were considered a Level 2, except for the embedded derivative which is a Level 3. The Corporation's policy is to recognize transfers between the different hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

20. Financial Risk Factors

The Corporation's activities expose it to financial risks: market risk, more specifically cash flow and fair value interest rate risk, and liquidity risk. The Corporation's overall risk management program focuses on the unpredictability of the financial market and seeks to minimize potential adverse effects on its financial performance. The Corporation does not use derivative financial instruments to hedge these risks.

(a) Credit risk

Credit risk arises from cash deposited with a financial institution. The Corporation reduces this risk by dealing with credit worthy financial institutions.

(b) Market risk

(i) Cash flow and fair value interest rate risk

The Corporation is exposed to fair value interest rate risk due to its short-term debt and convertible debenture negotiated at a fixed rate.

(ii) Currency risk

The Corporation has cash and accounts payable and accrued liabilities denominated in USD, and EUR. The Corporation does not hold financial derivatives to manage fluctuation in these risks.

The following presents the accounts that are exposed to foreign exchange volatility, as at:

	April 30, 2023		January 31, 2023	
	Foreign Currency	**CAD equivalent**	Foreign Currency	CAD equivalent
Cash – USD	**16**	**22**	(6)	(7)
Accounts payable and accrued liabilities – USD	**1,381**	**1,875**	975	1,301
Accounts payable and accrued liabilities – EUR	**10**	**15**	8	12

A plus or minus 5% variation in exchange rate, all else being held equal, would result in a foreign exchange gain or loss of $96 for the three-month period ended April 30, 2023 ($65 for the year ended January 31, 2023).

(c) Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its obligations as they fall due. The following are the contractual maturities of financial liabilities calculated based on contractual undiscounted cash flows including interest coupons (if applicable):

As at April 30, 2023:	*Carrying value* $	*Contractual cash flows* $	*Less than 12 months* $	*Greater than 12 months* $
Financial liabilities

Notes	480	486	486	-
Total	8,435	9,912	6,562	3,350

(d) Capital risk management

The Corporation's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders. The Corporation's definition of capital includes equity, comprised of issued common shares, warrants and contributed surplus. The Corporation's primary objective with respect to its capital management is to ensure that it has enough financial resources to meet its financial obligations. To secure the additional capital necessary to carry out these plans, the Corporation will attempt to raise additional funds through the issuance of debt, equity or by securing funds from strategic partners. The Corporation is not subject to any externally imposed capital requirements. The Corporation's overall strategy with respect to capital risk management remains unchanged since the year ended January 31, 2023.

22. Commitments

a) Polytechnique contract

In June 2015, the Corporation entered into collaborative research agreement with École Polytechnique ("Poly") which stipulated that when the Corporation's products are commercialized, it must make non-refundable payments to Polyvalor, a shareholder of the Corporation, equal to 1.5% of net sales. The agreement can be extended upon mutual consent of the parties. Following the latest amendment entered in July 2022, the agreement has been extended until August 14, 2024.

b) Platelet-rich plasma Project

In April 2021, the Corporation entered into a collaborative research agreement with École Polytechnique and two industrial partners to delineate the Platelet-rich plasma (PRP) components, the distinct impact of each component and their collective action towards tissue repair. The Corporation's contribution to the PRP project totals $240 over 2 years.

c) Axelys Project

In May 2022, the Corporation entered into a research and financing agreement with Axelys and École Polytechnique whereby Axelys, a non-for-profit organization, agreed to grant the Corporation and Poly, a sum of $524 to advance the development of its second technology platform indication, ORTHO-M, for meniscus repair (the "Axelys Project"). The Corporation's contribution to the Axelys Project totals $139 over 2 years, of which $69 was disbursed during the year ended January 31, 2023. The project commenced on August 1, 2022.

d) NSERC

On February 16, 2023, the Corporation secured, a $3,472 million grant from The Natural Sciences and Engineering Research Council of Canada ("NSERC") and Prima Québec in partnership with Poly. The 4-year grant will be used to advance the scientific development, expand the scope of indications, develop new biomaterials for regenerative medicine and accelerate the commercial readiness of the Company's flagship ORTHO-R technology platform. The Corporation's contribution to the NSERC Project totals $940 over 5 years but eliminates any contractual obligations under the Poly contract. (See 22.a)

23. Subsequent Events

a) On May 1, 2023, convertible debentures for a total value of $3,204 reached maturity. The Corporation reached an agreement with investors to reinvest $2,100 of principal and accrued interest into the Private Placement and agreed with the remaining investors to defer payment.

b) On May 1, 2023, the Corporation announced a non-brokered private placement offering (the "New Offering") of 33,333,333 units (the "Units") at a price of $0.15 (the "Issue Price") per Unit for gross proceeds of $5,000, with approximately $700 of Insider commitments. As part of the New Offering, the Corporation also announced the conversion of $3,000 worth of debentures maturing May 1, 2023 including accrued interest. Each $0.15 Unit of the New Offering will consist of one class A share (a "Share") and one share purchase warrant (a "Warrant") of the Corporation. Each Warrant will entitle the holder to purchase one Share of the Corporation ("Warrant Share") at a price of $0.35 per Warrant Share for a period of 36 months from closing (the "Closing Date"), subject to adjustment in certain events. If, at any time following the Closing Date, the daily volume weighted average trading price of the Shares on the Canadian Securities Exchange is greater than $0.50 per Share for the preceding 10 consecutive trading days, the Corporation shall have the right to accelerate the expiry date of the Warrants to a date that is at least 30 days following the date of such notice to holders of Warrants. The Corporation will pay finders' fees of 8% of the gross proceeds raised from accredited investors introduced to the Corporation by a finder, payable in cash; and finders' warrants equal to 8% of the number of Units issued to accredited investors introduced to the Corporation by a finder, each finder's warrant entitling the holder to purchase one share at a purchase price of $0.35 for a period of 24 months from the date of issuance of the finders' warrants.

c) On May 5, 2023, the Corporation announced the closing of a $3,856 non-brokered private placement offering. The first tranche consists of gross cash proceeds of $1,267, $497 in consulting fees and salaries paid through the issuance of shares and $2,093 in debt and interest payable conversion from holders of convertible debentures which matured on May 1, 2023. The Corporation issued 25,708,988 Units at a price of $0.15 per Unit with the same conditions as the announcement made on May 1, 2023.

d) On June 5, 2023, the Corporation announced the closing of a $288 second tranche of its previously announced non-brokered private placement offering of units. The second tranche consists of gross cash proceeds of $41 and $247 in debt and interest payable conversion from holders of convertible debentures which matured on May 1, 2023. The Company issued 1,922,608 Units at a price of $0.15 per Unit for a total consideration of $288.
