

Glance Technologies to Drive Good Reviews on Yelp and TripAdvisor

February 20, 2017 – Vancouver, B.C. - Glance Technologies Inc. (CSE:GET) (FKT:GJT) (OTCQB:GLNNF) is pleased to announce new in-app features within the Glance Pay app, its groundbreaking mobile payment platform, with a fully redesigned Restaurant Discovery feature and restaurant review system.

"In working with over 130 restaurants over the past four months we have determined that one of the biggest challenges of restaurant marketing is generating good reviews, which Glance Pay now does", says Penny Green, President and COO. "We are excited about the marketing power of the latest version of the Glance Pay app, to be released next week, and the recurring revenues for our many features that we will immediately be generating."

Through a beautifully simple and intuitive design, Glance Pay's updated Restaurant Discovery feature provides a concierge-like experience for users to instantly locate and discover restaurants within their surrounding area. This interactive feature showcases the unique style of Glance Pay restaurants and highlights current promotions, featured specials, and on-going events offered through Glance Pay.

An innovative star-rating system now facilitates the cycle of consumer feedback between customers and restaurants. In-app reviews allow guests to immediately rate their dining experience with a single tap, and allow restaurants to respond faster to each guest's experience.

An established leader in downloaded restaurant payment apps in North America, Glance Pay is enhancing the overall experience and interaction of customers at their favourite restaurants. It is now easier to discover new restaurants, take advantage of exclusive promotions and rewards, experience fast and secure payment processing, and digitally track expenses all within one single app.

About Glance Technologies Inc.

Glance Technologies owns and operates Glance Pay, a streamlined payment system that allows customers to pay their restaurant bill instantly with their mobile device. Glance Pay aims to revolutionize how smartphone users choose where to dine, settle their restaurant bills, access their payment records and interact with their favourite restaurants. Glance Pay intends to become the industry standard as one of the four pillars in restaurant payments, beside credit cards, debit cards and cash. Glance is building a valuable network of restaurants and consumers, to which it plans to expand its service offering over time.
