SUMMARY DESCRIPTION OF BUSINESS

Perk Labs is the owner of Perk Hero, the all-in-one mobile ordering, contact-free payments and loyalty app (the "**Perk Hero App**"). The Perk Hero App's all-in-one fast, frictionless mobile ordering, payments and rewards platform promotes customer loyalty by offering rewards, engaging in-app experiences and other incentives. It allows customers to earn coins every time they pay, and to earn experience points to level up and increase their reward earning power. At the same time, merchants get real time transactional data and access to tools to drive customer loyalty and increase revenue.

Perk Hero Technology

The Perk Hero App is built on a new and advanced technology stack using an Amazon Web Service (AWS) non-relational database and React Native mobile application framework. While it includes some of the best features of our previous app, Glance Pay, such as the ability to make quick secure payments by QR code or paying by photo, it also includes many new advanced features such as:

- Apple Pay integration
- Google Pay integration
- Mobile pre-order
- Powerful, gamified loyalty reward platform allowing users to earn virtual coins as rewards
- All-in-one user and merchant application
- Merchant analytics and dashboard
- Artificial intelligence powered receipt recognition

Perk Hero Security

The Perk Hero App has been engineered with security in mind at all times. The Perk Hero App includes a variety of encryption, antivirus, multi-factor authentication, firewall and patch-management technology to protect and maintain systems and computer hardware across the business. The Company built the Perk Hero App in accordance with best practices of the payment card industry data security standard which was developed to enhance cardholder data security and facilitate the broad adoption of consistent data security measures globally.

Revenue Strategy

The Company plans to generate revenue through the Perk Hero App from a combination of ordering fees, transaction fees, advertising fees, Software-as-a-Service (SaaS) fees, and fees for premium features. For the Company's White Label offering, fees are customized depending on the requirements of the enterprise customer.

RECENT DEVELOPMENTS

Entry into New Verticals

On May 7, 2020, the Company announced that it had formally launched new verticals and unveiled the design of its new contact free payment method for safe-distance payments. There is a tremendous amount of interest in contact free payments from restaurateurs as they prepare to re-open their doors for dine-in following shut downs caused by the COVID-19 pandemic. The Company also sees the need for contact free payments in multiple verticals including dental clinics, medical professionals, retail stores and health and beauty. The initial merchants in these verticals that have signed up to be listed on the Perk Hero App include three dental clinics and a hair salon/barber shop.

There are certain risks inherent in an investment in the Securities, including the factors described under the heading "Risk Factors" in the AIF and any other risk factors described herein or in a document incorporated by reference herein, which investors should carefully consider before investing. Additional risk factors relating to a specific offering of securities will be described in the Prospectus Supplement. Some of the factors described herein, in the documents incorporated by reference herein, and/or the Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any of the risk factors described herein, in the AIF, in another document incorporated by reference herein or in the Prospectus Supplement occur, it could have a material adverse effect on the business, financial condition and results of operations of the Company. Additional risks and uncertainties of which the Company currently is unaware or that are unknown or that we currently deem to be immaterial could have a material adverse effect on the Company's business, financial condition and results of operation. The Company cannot assure purchasers that it will successfully address any or all of these risks. There is no assurance that any risk management steps taken will avoid future loss due to the occurrence of the risks described herein, in the AIF, in the other documents incorporated by reference herein or in the Prospectus Supplement or other unforeseen risks.

These risks and uncertainties are not the only ones facing the Company. Additional risks not currently known to the Company, or that the Company currently deems immaterial, may also impair the Company's business and operations. If any such risks actually occur, the Company's business, financial condition and operating results could be materially harmed.

Negative Cash Flow

The Company has a limited history of operations, and no history of earnings, cash flow or profitability. The Company has had negative operating cash flow since the Company's inception, and the Company will continue to have negative operating cash flow for the foreseeable future. No assurance can be given that the Company will ever attain positive cash flow or profitability or that additional funding will be available for operations.

Dividend Risk

The Company has not paid dividends in the past and does not anticipate paying dividends in the near future. The Company expects to retain earnings to finance further growth and, where appropriate, retire debt.

No Market for the Securities

There is currently no trading market for any of the Securities (other than the Common Shares) that may be offered. No assurance can be given that an active or liquid trading market for the Securities will develop or be sustained. If an active or liquid market for the Securities fails to develop or be sustained, the prices at which the Securities trade may be adversely affected. Whether or not the Securities will trade at lower prices depends on many factors, including liquidity of the Securities, prevailing interest rates and the markets for similar securities, general economic conditions and the Company's financial condition, historic financial performance and future prospects.

Market Risk for Securities

There can be no assurance that an active trading market for the Securities will be established and sustained. Upon listing, the market price for the Securities could be subject to wide fluctuations. Factors such as government regulation, interest rates, share price movements of peer companies and competitors, as well as overall market movements, may have a significant impact on the market price of the Securities. The stock market has from time to time experienced extreme price and volume fluctuations, which have often been unrelated to the operating performance of particular companies.

Speculative Nature of Investment Risk

An investment in the Securities carries a high degree of risk and should be considered as a speculative investment. The Company has no history of earnings, limited cash reserves, a limited operating history, has not paid dividends, and is unlikely to pay dividends in the immediate or near future.

Liquidity and Future Financing Risk

The Company will likely operate at a loss until its business becomes established and the Company may require additional financing in order to fund future operations and expansion plans. The Company's ability to secure any required financing to sustain operations will depend in part upon prevailing capital market conditions and business success. There can be no assurance that the Company will be successful in its efforts to secure any additional financing or additional financing on terms satisfactory to management. If additional financing is raised by issuance of additional Common Shares from treasury, control may change and shareholders may suffer dilution. If adequate funds are not available, or are not available on acceptable terms, the Company may be required to scale back its current business plan or cease operating.

Going-Concern Risk

The Company's financial statements have been prepared on a going-concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. The Company's

future operations are dependent upon the identification and successful completion of equity or debt financing and the achievement of profitable operations at an indeterminate time in the future. There can be no assurances that the Company will be successful in completing equity or debt financing or in achieving profitability. The Company's financial statements do not give effect to any adjustments relating to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

Management Experience and Dependence on Key Personnel and Employees

The Company's success is currently largely dependent on the performance of the Company's directors and officers. Certain members of the Company's management team have experience in development of technology, while others have experience in areas including financial management, corporate finance and sales and marketing. The experience of these individuals is a factor which will contribute to the Company's continued success and growth. The Company will initially be relying on board of director (the "**Board**") members, as well as independent consultants, for certain aspects of the Company's business. The amount of time and expertise expended on the Company's affairs by each of the Company's management team and the Company's directors will vary according to the Company's needs. The Company does not intend to acquire any key man insurance policies and there is, therefore, a risk that the death or departure of any member of management, the Board, or any key employee or consultant, could have a material adverse effect on the Company's future. Investors who are not prepared to rely on the Company's management team should not invest in the Securities.

Business Interruption Risks

The Company may be impacted by business interruptions resulting from pandemics and public health emergencies, including those related to the COVID-19 pandemic. An outbreak of infectious disease, a pandemic or a similar public health threat, such as the recent outbreak of the novel coronavirus known as COVID-19, or a fear of any of the foregoing, could adversely impact the Company. It is unknown whether and how the Company may be affected if such an epidemic persists for an extended period of time. The Company may incur expenses or delays relating to such events outside of its control, which could have a material adverse impact on its business, operating results and financial condition.

USE OF PROCEEDS

Unless otherwise specified in a Prospectus Supplement, the net proceeds of any offering of Securities under a Prospectus Supplement will be used for general corporate purposes, including funding ongoing operations, potential future acquisitions and capital expenditures. For the financial year ended November 30, 2019, the Company had negative operating cash flow. More detailed information regarding the use of proceeds from a sale of Securities will be included in the applicable Prospectus Supplement, including, if applicable, whether such proceeds will be used to fund negative operating cash flow in future periods. See "Risk Factors".

All expenses relating to an offering of securities and any compensation paid to underwriters, dealers or agents, as the case may be, will be paid out of the proceeds from the sale of the Securities, unless otherwise stated in the applicable Prospectus Supplement.

PRIOR SALES

Information regarding prior sales of Securities will be provided as required in a Prospectus Supplement with respect to the issuance of Securities pursuant to such Prospectus Supplement.

TRADING PRICE AND VOLUME

The Common Shares are listed on the CSE under the symbol "PERK". The trading price and volume of the Common Shares will be provided, as required, in each applicable Prospectus Supplement.

DIVIDEND POLICY

The Company has not declared or paid any dividends on its Common Shares since the date of formation. Any decision to pay dividends on Common Shares in the future will be made by the Board on the basis of the earnings, financial requirements, applicable corporate law requirements and other conditions existing at such time.

EARNINGS COVERAGE RATIO

Earnings coverage ratios will be provided as required in the applicable Prospectus Supplement with respect to the issuance of Debt Securities pursuant to this Prospectus.

CONSOLIDATED CAPITALIZATION

Other than as described in this Prospectus, there have been no material changes in the Company's capital structure on a consolidated basis since the date of the Interim Financial Statements. As of June 9, 2020, the Company has 141,606,123 Common Shares issued and outstanding.

DESCRIPTION OF SHARE CAPITAL

Authorized Capital

The Company's authorized capital consists of an unlimited number of Common Shares without par value.

Common Shares

All of the Common Shares are of the same class and rank equally as to dividends, voting powers and participation in assets and in all other respects, on liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, or any other distribution of the assets of the Company among its shareholders for the purpose of winding up its affairs after the Company has paid out its liabilities. The Common Shares are not subject to call or assessment by the Company nor are there any pre-emptive, conversion, exchange, redemption or retraction rights attaching to the Common Shares. All registered shareholders are entitled to receive a notice of any general meeting of shareholders to be convened by the Company. At any general meeting, subject to the restrictions on joint registered owners of Common Shares, on a show of hands every shareholder who is present in person and entitled to vote has one vote and on a poll, every shareholder has one vote for each common share of which he, she or it is the registered owner and may exercise such vote either in person or by proxy.

Subscription Receipts will be exchangeable, for no additional consideration, into Common Shares, Debt Securities, Warrants or Units upon the satisfaction of certain conditions. The Subscription Receipts will be issued under one or more subscription receipt agreements, in each case between the Company and a subscription receipt agent determined by the Company. A copy of any such subscription receipt agreement will be available on SEDAR at www.sedar.com. Description of Warrants

The following sets forth certain general terms and provisions of the Warrants. The Prospectus Supplement relating to any Warrants offered will include specific terms and provisions of the Warrants being offered thereby, and the extent to which the general terms and provisions described below may apply to them.

Each series of Warrants may be issued under a separate warrant indenture to be entered into between the Company and one or more trust companies acting as Warrant agent or may be issued as stand-alone certificates. The applicable Prospectus Supplement will include details of the Warrant agreements, if any, governing the Warrants being offered. The Warrant agent, if any, will be expected to act solely as the agent of the Company and will not assume a relationship of agency with any holders of Warrant certificates or beneficial owners of Warrants. A copy of any such warrant indenture will be available on SEDAR at www.sedar.com. Warrants may be offered separately or together with Common Shares, Debt Securities, Subscription Receipts or Units.

Description of Units

The following sets forth certain general terms and provisions of the Units. The Prospectus Supplement relating to any Units offered will include specific terms and provisions of the Units being offered thereby, and the extent to which the general terms and provisions described below may apply to them.

The Company may issue Units comprised of one or more of the other Securities described in this Prospectus in any combination. Each Unit will be issued so that the holder of the Unit is also the holder of each Security included in the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each included Security. The Unit agreement, if any, under which a Unit is issued may provide that the Securities comprising the Unit may not be held or transferred separately, at any time or at any time before a specified date.

The particular terms and provisions of Units offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in a Prospectus Supplement filed in respect of such Units. This description will include, where applicable:

- the aggregate number of Units offered;
- the price at which the Units will be offered;
- the designation, number and terms of the Securities comprising the Units;
- whether the Units will be issued with any other Securities and, if so, the amount and terms of the Securities;
- terms applicable to the gross or net proceeds from the sale of the Units plus any interest earned thereon;

- whether the Securities comprising the Units will be listed on any securities exchange;
- whether such Units or the Securities comprising the Units are to be issued in registered form, “book-entry only” form, bearer form or in the form of temporary or permanent global securities and the basis of exchange, transfer and ownership thereof;
- any terms, procedures and limitations relating to the transferability, exchange or exercise of the Units;
- certain material Canadian tax consequences of owning the Units; and
- any other material terms and conditions of the Units.

The Company reserves the right to set forth in a Prospectus Supplement specific terms of the Units that are not within the options and parameters set forth in this Prospectus. In addition, to the extent that any particular terms of the Units described in a Prospectus Supplement differ from any of the terms described in this Prospectus, the description of such terms set forth in this Prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Units.

PLAN OF DISTRIBUTION

The Company may from time to time during the 25-month period that this Prospectus, including any amendments hereto, remains valid, offer for sale and issue up to an aggregate of \$100,000,000 in Securities hereunder. We may sell Securities: (a) through underwriters, dealers or agents purchasing as principal or acting as agent; (b) directly to one or more purchasers; or (c) through a combination of any of these methods of sale. Securities may be sold from time to time in one or more transactions at a fixed price or prices which may be changed, at market prices prevailing at the time of sale, or at prices related to such prevailing market price or at prices to be negotiated with purchasers. The sale of Common Shares may be effected from time to time in one or more transactions at non-fixed prices pursuant to transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made directly on the CSE or other existing trading markets for the Common Shares, and as set forth in the Prospectus Supplement for such purpose.

The Prospectus Supplement relating to each offering of Securities will identify each underwriter, dealer or agent, as the case may be, and will also set forth the terms of that offering, including the purchase price of such Securities (or the manner of determination thereof if offered on a non-fixed price basis, including sales in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102), the proceeds to the Company and any underwriters’, dealers’ or agents’ fees, commissions or other items constituting underwriters’ or agents’ compensation. Only underwriters, dealers or agents so named in the applicable Prospectus Supplement are deemed to be underwriters, dealers or agents, as the case may be, in connection with the Securities offered thereby.

In connection with the sale of Securities, underwriters, dealers or agents may receive compensation from the Company in the form of commissions, concessions or discounts. Any such commissions may be paid out of the general funds of the Company or the proceeds of the sale of the Securities.

Under agreements which may be entered into by the Company, underwriters, dealers and agents who participate in the distribution of Securities may be entitled to indemnification by the Company against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments which such underwriters or agents may be required to make in respect thereof.

Sales of Common Shares under an “at-the-market distribution”, if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Common Shares under any “at-the-market” program will be made in transactions

that are deemed to be “at-the-market distributions” as defined in NI 44-102. The volume and timing of any “at-the-market distributions” will be determined at the Company’s sole discretion, subject to applicable law.

Unless otherwise specified in the relevant Prospectus Supplement, in connection with any offering of Securities, other than an “at-the-market distribution”, the underwriters, dealers or agents who participate in the distribution of Securities may over-allot or effect transactions which stabilize or maintain the market price of the Securities at a higher level than that which might exist in the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter of an at-the-market distribution, and no person or company acting jointly or in concert with an underwriter, may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities or securities of the same class as the Securities distributed under this Prospectus, including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities. In the event the Company determines to pursue an “at-the-market distribution” offering in Canada, the Company shall apply for the applicable exemptive relief from the applicable Canadian securities regulatory authorities.

EXEMPTIONS

Pursuant to a decision of the Autorité des marchés financiers dated June 9, 2020, the Company was granted a permanent exemption from the requirement to translate into French this Prospectus as well as the documents incorporated by reference therein and any Prospectus Supplement to be filed in relation to an “at-the-market” distribution. This exemption is granted on the condition that this Prospectus and any Prospectus Supplement (other than in relation to an “at-the-market” distribution) be translated into French if the Company offers Securities to Québec purchasers in connection with an offering other than in relation to an “at-the-market” distribution.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement may describe certain Canadian federal income tax considerations to investors described therein of acquiring, owning or disposing of any of the Securities offered thereunder.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Unless provided otherwise in a Prospectus Supplement, the following is a description of a purchaser's statutory rights. Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment, irrespective of the determination at a later date of the purchase price of the securities distributed. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

Original purchasers of Securities which are convertible or exchangeable or exercisable for other securities of the Company, including Warrants if offered separately, will have a contractual right of rescission against the Company in respect of the conversion, exchange or exercise of such securities. The contractual right of rescission will entitle such original purchasers to receive, upon surrender of the underlying Securities, the amount paid on conversion in the event that this Prospectus, the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such securities under this Prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 131 of the *Securities Act* (British Columbia), and is in addition to any other right or remedy available to original purchasers under section 131 of the *Securities Act* (British Columbia) or otherwise at law.

In an offering of Securities which are convertible or exchangeable into other securities of the Company, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus is limited, in certain provincial securities legislation, to the price at which Securities which are convertible or exchangeable into other securities of the Company are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon the conversion or exchange of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of this right of action for damages or consult with a legal adviser.
