SUMMARY DESCRIPTION OF BUSINESS

Perk Labs is the owner of Perk Hero, the all-in-one mobile ordering, contact-free payments and loyalty app (the “**Perk Hero App**”). The Perk Hero App’s all-in-one fast, frictionless mobile ordering, payments and rewards platform promotes customer loyalty by offering rewards, engaging in-app experiences and other incentives. It allows customers to earn coins every time they pay, and to earn experience points to level up and increase their reward earning power. At the same time, merchants get real time transactional data and access to tools to drive customer loyalty and increase revenue.

Perk Hero Technology

The Perk Hero App is built on a new and advanced technology stack using both the Amazon Web Service (AWS) and the Azure non-relational database and React Native mobile application framework. While it includes some of the best features of our previous app, Glance Pay, such as the ability to make quick secure payments by QR code or paying by photo, it also includes many new advanced features such as:

- Apple Pay integration
- Google Pay integration
- Mobile pre-order
- Powerful, gamified loyalty reward platform allowing users to earn virtual coins as rewards
- All-in-one user and merchant application
- Merchant analytics and dashboard
- Artificial intelligence powered receipt recognition
- Order from Table feature

Perk Hero Security

The Perk Hero App has been engineered with security in mind at all times. The Perk Hero App includes a variety of encryption, antivirus, multi-factor authentication, firewall and patch-management technology to protect and maintain systems and computer hardware across the business. The Company built the Perk Hero App in accordance with best practices of the payment card industry data security standard which was developed to enhance cardholder data security and facilitate the broad adoption of consistent data security measures globally.

Revenue Strategy

The Company plans to generate revenue through the Perk Hero App from a combination of ordering fees, transaction fees, advertising fees, Software-as-a-Service (SaaS) fees, and fees for premium features. For the White Label Solution, fees are customized depending on the requirements of the enterprise customer.

RECENT DEVELOPMENTS

For a further description of the business of the Company, see the sections entitled “General Development of the Business” and “Description of the Business” in the AIF.

Order from Table Feature

On July 21, 2020, the Company announced that the Perk Hero App added a new Order from Table feature to its platform. The Perk Hero App’s new ordering feature includes the customer’s ability to scan a QR code at their table, to place an order and/or also have the option to select the restaurant location then enter a table number manually to place an order. The restaurant can have both options, or choose between either having the QR code or table number displayed. A customer order submitted via the Perk Hero App will include the table number for seamless in-dining service to the customer.

COVID-19

In March 2020, the World Health Organization declared the COVID-19 outbreak a global pandemic, which has led to adverse impacts on the Canadian and global economies, disruptions of financial markets, and created uncertainty regarding potential impacts to the Company’s merchants, user network and operations. The COVID-19 pandemic has impacted and could further impact the Company’s merchants, user network and operations as a result of quarantines, facility closures, and travel and logistics restrictions. The extent to which the COVID-19 pandemic impacts the Company’s business, results of operations, and financial condition will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to the duration, spread, severity, and impact of the COVID-19 pandemic on the Company’s merchants, user network and operations, and the remedial actions and stimulus measures adopted by local and federal governments, and to what extent normal economic and operating conditions can resume.

Over the past few months, the Company has been monitoring the impact of the COVID-19 pandemic on our business, our industry and the broader economy. The pandemic has impacted and could further impact our

operations and the operations of our customers, largely due to stay-at-home orders and restrictions on in-restaurant dining, which have contributed to changes in diner behavior. The COVID-19 pandemic has disproportionately impacted the restaurant industry and specifically restaurants that rely on revenue generated by in-restaurant dining. With restrictions on dining in, many restaurants have limited their operations solely to takeout and delivery, while others have decided to pause or cease operations or drastically cut costs. Historically, a significant percentage of the Company's operating revenue was generated from transaction fees on in-restaurant dining transactions. As a result of the restrictions on in-restaurant dining, we experienced reduced revenues and we may continue to see a reduction in revenue from in-restaurant dining transactions if these conditions continue into future periods.

In response to the decrease in in-restaurant dining transactions, the Company has invested in improvements to its offerings for mobile ordering and contact free payments. As a result of the dine-in restrictions, new users and new restaurants have joined our platform as a way to experience pre-order and pick-up and self-managed delivery. Further we have expanded into new verticals as other types of business have seen a need to adopt contactless payments such as payment by quick response codes or payment by taking a photo of a bill as a better way to serve their customers and provide a safe environment for their employees.

The sustainability and growth of our merchant and user network remains paramount, and therefore, the Company intends to increase its investment in programs designed to drive more business to our merchant partners including promotions, reduced fees and product improvements. We also believe there is an opportunity for our Company to support restaurants and other small businesses with the digital tools such as mobile ordering, contact free payment and digital loyalty that will help small businesses recover and prosper in the post-COVID-19 environment. In order to bring these tools to small businesses the Company will need to invest in its sales and marketing efforts and expand into new geographic areas. We believe that the Company will emerge from these events well positioned for long-term growth, however, the Company cannot reasonably estimate the duration or severity of the economic impact to our users and merchant partners caused by the restrictions on daily life to curb the spread of COVID-19, or the ultimate impact on the Company's operations and liquidity. Conditions may worsen further as governments and businesses continue to take actions to respond to the risks of the COVID-19 pandemic or if there is a second wave of the COVID-19 pandemic. The pandemic has resulted in, and may continue to result in, significant disruption of global financial markets, which could reduce our ability to access capital and could negatively impact our liquidity in the future.

Even after the COVID-19 pandemic has subsided, the Company may experience adverse impacts to its business as a result of any economic recession or depression that has occurred or may occur in the future; therefore, the Company cannot reasonably estimate the impact at this time on our business, liquidity, capital resources and financial results.

RISK FACTORS

An investment in Common Shares of the Company is subject to a number of risks, including those set forth in the AIF, and in the management's discussion and analysis for our most recently completed financial year and in the Base Shelf Prospectus. Prospective investors should carefully consider these risks in addition to information contained in this Prospectus Supplement and the information incorporated by reference herein, as well as the following risk factors, before purchasing Common Shares.

Price Volatility of Common Shares

The market price of the Common Shares has in the past been, and may in the future be, subject to large fluctuations which may result in losses for investors. The market price of the Common Shares may increase or decrease in response to a number of events and factors, including:

- a) the Company's operating performance and the performance of competitors and other similar entities;

- b) the public's reaction to the Company's press releases, other public announcements and filings with the various securities regulatory authorities;
- c) changes in earnings estimates or recommendations by research analysts who track the Company's securities;
- d) the operating and share price performance of other entities that investors may deem comparable;
- e) changes in general economic and/or political conditions;
- f) the arrival or departure of key personnel;
- g) acquisitions, strategic alliances or joint ventures involving the Company or its competitors; and
- h) the number of Common Shares sold on any one day or in the aggregate pursuant to the Offering.

In addition, the market price of the Common Shares is affected by many variables not directly related to the success of the Company and not within the Company's control, including other developments that affect the equity markets generally, the breadth of the public market for the Common Shares, and the attractiveness of alternative investments. These variables may adversely affect the prices of the Common Shares regardless of the Company's operating performance.

Discretion to Use Capital Resources Other than as Specified in the Prospectus Supplement

The Company currently intends to use the net proceeds of the Offering and the Company's working capital, together with future cash flows from operations and borrowings, if required, to accomplish the business objectives set out under "Use of Proceeds" and in the Prospectus and the documents incorporated by reference therein. However, the Board of Directors of the Company (the "**Board**") and/or management will have discretion in the actual application of the Company's capital resources and may elect to allocate proceeds differently from that described under "Use of Proceeds" if they believe it would be in the Company's best interests to do so. Shareholders may not agree with the manner in which the Board and/or management choose to allocate and spend the Company's capital resources. The failure by the Board and/or management to apply the Company's capital resources effectively could have a material adverse effect on the development of the Company's projects and the Company's business, financial condition, results of operations or cash flows. There is also no guarantee that the Company will raise the maximum amount of funds allocated in this Offering, and there is no minimum amount for the Offering, and as a result may have to substantially alter its plans from those set out in the section "Use of Proceeds".

Dilution from Future Offerings

The Company may raise funds in the future through the sale of additional Common Shares or securities convertible into Common Shares. Any such issuances may dilute the interests of holders of Common Shares and may have a negative impact on the market price of the Common Shares, including the Common Shares offered hereunder.

An investment in the Common Shares may result in the loss of an investor's entire investment.

An investment in the Common Shares is speculative and may result in the loss of an investor's entire investment. Only potential investors who are experienced in high risk investments and who can afford to lose their entire investment should consider an investment in the Company.

There is no assurance of a sufficient liquid trading market for the Common Shares in the future.

Our shareholders may be unable to sell significant quantities of Common Shares into the public trading markets without a significant reduction in the price of their Common Shares, or at all. There can be no assurance that

there will be sufficient liquidity of the Common Shares on the trading market, and that the Company will continue to meet the listing requirements of the CSE or achieve listing on any other public listing exchange.

Future issuances of equity securities by the Company or sales by its existing shareholders may cause the price of the Common Shares to fall.

The market price of the Common Shares could decline as a result of issuances of securities or sales by the Company's existing shareholders in the market, or the perception that these sales could occur. Sales of Common Shares by shareholders might also make it more difficult for the Company to sell Common Shares at a time and price that it deems appropriate. With an additional sale or issuance of Common Shares, investors will suffer dilution of their voting power and may experience dilution in earnings per share.

USE OF PROCEEDS

The net proceeds from the Offering are not determinable in light of the nature of the distribution. The net proceeds of any given distribution of Common Shares through the Agent in an "at-the-market distribution" will represent the gross proceeds after deducting the applicable compensation payable to the Agent under the Distribution Agreement and the expenses of the distribution. See "Plan of Distribution". The gross proceeds of the Offering will be up to \$2,000,000. The Company estimates that the total expenses that it will incur for the commencement of the Offering (including fees payable to stock exchanges, securities regulatory authorities and its counsel and its auditors, but excluding the Agent's Fee (as defined below) payable to the Agent under the terms of the Distribution Agreement) will be approximately \$175,000. There is no minimum amount of funds that must be raised under the Offering. This means that the Offering may terminate after raising only a portion of the offering amount set out above, or none at all. See "Plan of Distribution".

The Company currently expects to use the net proceeds from the Offering for investment in sales and marketing initiatives to attract and sign up restaurants to the Perk Hero App, to continue development of the Perk Hero App through a series of build-measure-learn iterations and moving beyond the restaurant vertical, and for general working capital purposes.

After refining its marketing and sales strategy in Vancouver, one of the Company's key business objectives and milestones is to expand into the additional markets of Calgary, Edmonton, Seattle, Portland, Las Vegas, Los Angeles, and the Canadian and U.S. east coast. The Company estimates that these sales and marketing initiatives will cost approximately \$27,000,000 to complete over the next 2 years.

The Company also seeks to further develop the Perk Hero App to include API integrations with cloud-based POS systems and other platforms, improved merchant data analytics, AI-powered recommendation engine, enhanced game-design, and virtual assistant. The Company estimates that these development updates will cost approximately \$3,000,000 to complete over the next 2 years.

The Company had negative operating cash flow in its most recently completed financial period and therefore a portion of the net proceeds from the Offering will be used to fund negative operating cash flow for the 2020 fiscal year and for future financial years. See "Risk Factors".

The Company may, from time to time, issue securities (including equity securities) other than pursuant to this Prospectus Supplement.

DIVIDEND POLICY

The Company has not declared or paid any dividends on its Common Shares since the date of formation. Any decision to pay dividends on Common Shares in the future will be made by the Board on the basis of the earnings, financial requirements, applicable corporate law requirements and other conditions existing at such time.

CONSOLIDATED CAPITALIZATION

There have been no material changes in the consolidated capitalization of the Company since the date of the Interim Financial Statements, which have not been disclosed in this Prospectus Supplement or the documents incorporated by reference herein.

The Company may, from time to time during the period that the Offering remains in effect, issue and sell Common Shares having an aggregate sale price of up to \$2,000,000. See "Plan of Distribution".

DESCRIPTION OF COMMON SHARES

We are authorized to issue an unlimited number of Common Shares, of which approximately 141,710,289 were issued and outstanding as of July 27, 2020. For a summary of certain material attributes and characteristics of the Common Shares, see "Description of Common Shares" in the Base Shelf Prospectus.

PLAN OF DISTRIBUTION

The Company has entered into the Distribution Agreement with the Agent under which the Company may issue and sell from time to time Common Shares having an aggregate sale price of up to \$2,000,000 in each of the provinces and territories of Canada pursuant to placement notices delivered by the Company to the Agent from time to time in accordance with the terms of the Distribution Agreement. Sales of Common Shares, if any, will be made in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made by the Agent directly on the CSE or any other trading market for the Common Shares in Canada. Subject to the pricing parameters in a placement notice, the Common Shares will be distributed at the market prices prevailing at the time of the sale. As a result, prices may vary as between purchasers and during the period of distribution. The Company cannot predict the number of Common Shares that it may sell under the Distribution Agreement on the CSE, or any other trading market for the Common Shares in Canada, or if any Common Shares will be sold.

From time to time, the Company may instruct the Agent to offer the Common Shares under the Distribution Agreement by sending the Agent a placement notice that requests that the Agent sell up to a specified dollar amount or a specified number of Common Shares pursuant to the terms and conditions of the Distribution Agreement, and specifies any parameters in accordance with which the Company requires that the Common Shares be sold. Subject to the terms and conditions of the Distribution Agreement, the Agent will use its commercially reasonable efforts to sell, on the Company’s behalf, all of the Common Shares requested to be sold by the Company by the placement notice.

Under the Distribution Agreement, the Agent does not have any obligation to purchase as principal for its own account any Common Shares that the Company proposes to sell pursuant to any placement notice delivered by the Company to the Agent.

Either the Company or the Agent may suspend the Offering upon proper notice to the other party. The Company and the Agent each have the right, by giving 15 days prior written notice as specified in the Distribution Agreement, to terminate the Distribution Agreement in each party’s sole discretion at any time.

The Company will pay the Agent the Agent’s Fee for its services in acting as agent in connection with the sale of Common Shares pursuant to the Distribution Agreement. The amount of the Agent’s Fee shall not exceed 3.0% of the gross sales price per Common Share sold. The sales proceeds remaining after payment of the Agent’s Fee and after deducting any expenses payable by the Company and any transaction or filing fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal the net proceeds to the Company from the sale of such Common Shares.

The Agent will provide written confirmation to the Company no later than the close of trading on the trading day immediately following the trading day on which it has made sales of the Common Shares under the Distribution Agreement. Each confirmation will include the number of Common Shares sold on such day, the average price of the Common Shares sold on such day, the gross proceeds, the Agent’s Fee payable by the Company to the Agent with respect to such sales and the net proceeds payable to the Company.

The Company will disclose the number and average selling price of the Common Shares distributed under this Prospectus Supplement, Agent’s Fee and gross and net proceeds with respect to sales within seven calendar days after the end of any calendar month during which the Company sells Common Shares under this Prospectus Supplement by filing a notice of proceeds on SEDAR. The Company will also disclose the number and average price of Common Shares sold under this Prospectus Supplement, as well as gross proceeds, commissions and net proceeds, in its annual and interim financial statements and management’s discussion and analysis filed on SEDAR, for any quarters in which sales of Common Shares occur.

Settlement for sales of Common Shares will occur, unless the parties agree otherwise, on the second trading day on the applicable exchange following the date on which any sales were made in return for payment of the

net proceeds to the Company. There is no arrangement for funds to be received in an escrow, trust or similar arrangement. Sales of Common Shares in Canada will be settled through the facilities of CDS Clearing and Depository Services Inc. or by such other means as the Company and the Agent may agree.

The Agent will only sell Common Shares on marketplaces in Canada.

In connection with the sales of the Common Shares on the Company's behalf, the Agent may be deemed to be an "underwriter" within the meaning of the applicable securities legislation, and the compensation paid to the Agent may be deemed to be underwriting commissions or discounts. The Company has agreed in the Distribution Agreement to provide indemnification and contribution to the Agent against certain liabilities, including liabilities under the applicable securities legislation. In addition, the Company has agreed to pay all reasonable out-of-pocket fees, disbursements and other charges of the Agent incurred in connection with the Offering, pursuant to the terms of the Distribution Agreement. The Agent and its affiliates will not engage in any transactions to stabilize or maintain the price of the Common Shares in connection with any offer or sales of Common Shares pursuant to the Distribution Agreement. No underwriter or dealer involved in the distribution, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such an underwriter or dealer has over-allotted, or will over-allot, securities in connection with the distribution or effected, or will effect any other transactions that are intended to stabilize or maintain the market price of the Common Shares.

The Common Shares offered hereby have not been and will not be registered under the U.S. Securities Act, or the securities laws of any state of the United States, and may not be offered, sold or delivered, directly or indirectly, in the United States, or to a U.S. Person unless exemptions from the registration requirements of the U.S. Securities Act and any applicable state securities laws are available. This Prospectus Supplement does not constitute an offer to sell or a solicitation of an offer to buy any of these securities within the United States or to, or for the account or benefit of, any U.S. Person.

The total expenses related to the commencement of the Offering to be paid by the Company, excluding the Agent's Fee payable to the Agent under the Distribution Agreement, are estimated to be approximately \$175,000. Pursuant to the Distribution Agreement, the Offering will terminate upon the earlier of (i) the issuance and sale of all of the Common Shares subject to the Distribution Agreement, (ii) the receipt issued for the Prospectus ceases to be effective, or (iii) the termination of the Distribution Agreement as permitted therein.

The Company has given notice to the CSE to list the Common Shares offered by this Prospectus Supplement on the CSE. Listing will be subject to the Company fulfilling all of the listing requirements of the CSE.

EXEMPTIONS

Pursuant to a decision of the Autorité des marchés financiers dated June 9, 2020, the Company was granted a permanent exemption from the requirement to translate into French the Base Shelf Prospectus, this Prospectus Supplement and the documents incorporated by reference therein and herein to be filed in relation to an "at-the-market" distribution. This exemption is granted on the condition that the Base Shelf Prospectus and any Prospectus Supplement (other than in relation to an "at-the-market" distribution) be translated into French if the Company offers Securities (as defined under the Prospectus) to Québec purchasers in connection with an offering other than in relation to an "at-the-market" distribution.

Pursuant to a decision dated July 24, 2020 granted by the British Columbia Securities Commission (as principal regulator) pursuant to National Policy 11-203 - *Process for Exemptive Relief Applications in Multiple Jurisdictions* (the "**Decision**"): (a) the Agent and any other registered investment dealer acting on behalf of the Agent as a selling agent are exempt from the requirement under securities legislation in each of the provinces of Canada to send or deliver the latest prospectus (including the applicable prospectus supplement(s)) and any amendment to the Base Shelf Prospectus, to a purchaser of Common Shares under any "at-the-market distribution" made under this Prospectus Supplement; (b) the Company is exempt from the requirement to

include in this Prospectus Supplement and any amendment hereto the form of underwriter certificate for a prospectus supplement prescribed by NI 44-102, provided that a specified modified form of forward-looking underwriter certificate in the form set out in this Prospectus Supplement is included; (c) the Company is exempt from the requirement to include in this Prospectus Supplement the statement respecting purchasers' statutory rights of withdrawal and remedies of rescission or damages in the form prescribed by National Instrument 44-101 - *Short Form Prospectus Distributions* provided that the disclosure in the form set out under "Purchasers' Statutory Rights" is included in this Prospectus Supplement and any amendment hereto; and (d) the Company is exempt from the requirement that the market value of the Common Shares distributed does not exceed 10% of the aggregate market value of the outstanding Common Shares as at the last trading day of the month before the month in which the first trade is made hereunder, calculated in accordance with the 10% limitation set out in section 9.1(1) of NI 44-102.

The Decision is also conditional upon: (a) the disclosure of the number and average price of Common Shares sold pursuant to "at-the-market distributions", as well as gross proceeds, commissions and net proceeds, in the Company's annual and interim financial statements and management's discussion and analysis filed on SEDAR and in a report filed on SEDAR within seven calendar days after the end of each calendar month during which sales of Common Shares are made pursuant to the Offering; and (b) the inclusion of a modified form of forward-looking issuer certificate page in this Prospectus Supplement and any amendment hereto.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In this summary, an otherwise undefined term that first appears in quotation marks has the meaning ascribed to it in the *Income Tax Act* (Canada) (the "**Tax Act**").

In the opinion of Borden Ladner Gervais LLP, counsel to the Company, and Goodmans LLP, counsel to the Agent, the following summarizes the principal Canadian federal income tax considerations under the Tax Act generally applicable as of this date to an investor who acquires, as beneficial owner, Common Shares pursuant to the Offering and who, at all relevant times for the purposes of the Tax Act,

- deals at arm's length with the Company and the Agent,
- is not affiliated with the Company or the Agent,
- holds all Common Shares as capital property, and

is not, at any relevant time for those purposes,

- exempt from tax under Part I of the Tax Act,
- a "financial institution" for the purposes of the "mark-to-market" property rules in the Tax Act,
- a "specified financial institution,"
- an entity or partnership an interest in which is a "tax shelter investment,"
- a taxpayer who reports its "Canadian tax results" in a currency other than Canadian currency, or
- a taxpayer, any of whose Common Shares will be the subject of a "derivative forward agreement," "synthetic disposition arrangement", or "dividend rental arrangement"

(each such shareholder, in this summary, a "**Holder**").

A Holder's Common Shares will generally be considered to be capital property of the Holder provided that the Holder does not hold or use the Common Shares in the course of carrying on a business of trading or dealing in securities, and has not acquired or been deemed to have acquired the Common Shares in one or more transactions considered to be an adventure or concern in the nature of trade. A Holder who is resident in Canada and whose Common Shares might not otherwise be capital property may, subject to certain restrictions and

limitations in the Tax Act, be entitled to elect irrevocably pursuant to subsection 39(4) of the Tax Act that the Holder's Common Shares, and every other "Canadian security" of the Holder, be capital property. Any Holder who is considering making a subsection 39(4) election should consult the Holder's Canadian tax advisers before making the election.

This summary is based on the current provisions of the Tax Act and the *Income Tax Regulations* (Canada) (the "Regulations") in force as of the date hereof, all specific proposals to amend the Tax Act or Regulations publicly announced by or on behalf of the Minister of Finance of Canada on or before the date hereof, and counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency (the "CRA"). It is assumed that all such amendments will be enacted as currently proposed and that there will be no other change to the Tax Act, the Regulations, or the CRA's administrative policies and assessing practices, although no assurance can be given in these respects. This summary does not otherwise take into account or anticipate any change in law or administrative policy or assessing practice whether by legislative, governmental, or judicial decision or action, and does not take into account or consider any provincial, territorial or foreign income tax considerations, which may differ significantly from the Canadian federal income tax considerations discussed below.

Additional considerations, not discussed in this summary, may be applicable to a Holder that is a corporation resident in Canada, and is, or becomes, or does not deal at arm's length for purposes of the Tax Act with a corporation resident in Canada that is or becomes, as part of a transaction or event or series of transactions or events that includes the acquisition of the Common Shares, controlled by a non-resident person or group of non-resident persons not dealing with each other at arm's length, for purposes of the "foreign affiliate dumping" rules in section 212.3 of the Tax Act. Such Holders should consult their Canadian tax advisers with respect to the consequences of acquiring Common Shares.

This summary is of a general nature only, is not exhaustive of all possible Canadian federal income tax considerations and is not intended to be, and should not be construed to be, legal or tax advice to any particular Holder. Each Holder should consult the Holder's own tax advisers with respect to the tax and legal consequences of acquiring, holding, and disposing of Common Shares applicable to the Holder's particular circumstances. This summary does not address any tax considerations applicable to persons other than Holders and such persons should consult their own tax advisers regarding the consequences of acquiring, holding and disposing of Common Shares under the Tax Act and an jurisdiction in which they may be subject to tax.

Adjusted Cost Base

A Holder's initial adjusted cost base of the Holder's Common Shares acquired pursuant to this Offering will be determined by averaging the cost of those Common Shares with the Holder's adjusted cost base of all Common Shares owned by the Holder as capital property immediately before the acquisition.

Resident Holders

The following section of this summary applies solely to Holders each of whom at all relevant times is or is deemed to be resident solely in Canada for the purposes of the Tax Act (each a "Resident Holder").

Dividends

A Resident Holder who is an individual (other than certain trusts) and receives or is deemed to receive a dividend on the Resident Holder's Common Shares in a taxation year will generally be required to include the amount of the dividend in income for the taxation year and be subject to the gross-up and dividend tax credit rules applicable to a "taxable dividend" received from a "taxable Canadian corporation," including the enhanced gross-up and dividend tax credit rules applicable to any dividend that the Company designates as an "eligible

dividend” in accordance with the Tax Act. There may be limitations on the ability of the Company to designate dividends as “eligible dividends”.

A Resident Holder that is a corporation will generally be required to include the amount of any dividend received or deemed to be received on the Common Shares in its income for the taxation year, and entitled to deduct an equivalent amount from its taxable income for the year. In certain circumstances, subsection 55(2) of the Tax Act may deem some or all of the dividend to be proceeds of disposition or a gain from the disposition of capital property rather than a dividend, in which case the rules described below under “*Capital Gains and Capital Losses*” would apply. Corporate Resident Holders should consult their own tax advisers regarding the potential application of subsection 55(2) to their particular circumstances.

A Resident Holder that is a “private corporation” or “subject corporation” may be subject to refundable tax under Part IV of the Tax Act on dividends received or deemed to be received on the Common Shares to the extent that the dividend is deductible in computing the corporation’s taxable income.

Disposition of Common Shares

A Resident Holder who disposes or is deemed to dispose of a Common Share in a taxation year will generally realize a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition of the Common Share, net of any reasonable costs of disposition, are greater (or less) than the Resident Holder’s adjusted cost base of the Common Shares determined immediately before the disposition. The tax treatment of capital gains and capital losses is discussed in greater detail below under the subheading “*Capital Gains and Capital Losses*.”

Capital Gains and Capital Losses

A Resident Holder who realizes or is deemed to realize a capital gain or capital loss in a taxation year on the disposition of a Common Share will generally be required to include one half of any such capital gain (a “taxable capital gain”) in income for the year, and entitled to deduct one half of any such capital loss (an “allowable capital loss”) from taxable capital gains realized by the Resident Holder in the year or, to the extent not so deductible, in any of the Resident Holder’s three preceding taxation years or any subsequent taxation year, subject to the detailed rules in the Tax Act regarding the deductibility of allowable capital losses.

The amount of any capital loss realized on the disposition or deemed disposition of a Common Share by a Resident Holder that is a corporation may be reduced by the amount of dividends that the Resident Holder received or is deemed to have received on the Common Share or a share substituted therefor, to the extent and in the circumstances specified by the Tax Act. Similar rules may apply to a Common Share owned by a partnership or trust of which a corporation, trust or partnership is a member or beneficiary, as the case may be. Resident Holders to whom these rules may be relevant should consult their own tax advisers.

Refundable Tax

A Resident Holder that is throughout the relevant taxation year a “Canadian-controlled private corporation” may be liable to pay an additional refundable tax on certain investment income including taxable capital gains, and dividends or deemed dividends that are not deductible in computing taxable income.

Alternative Minimum Tax

A Resident Holder who is an individual (including certain trusts) and realizes a capital gain or receives a dividend may thereby be subject to alternative minimum tax under the Tax Act. Such Resident Holders should consult their own tax advisers in this regard.

Non-resident Holders

The following section of this summary is applicable solely to Holders each of whom, at all relevant times for the purposes of the Tax Act,

- is not, and it not deemed to be, resident in Canada,
- does not use or hold, and is not deemed to use or hold, Common Shares in connection with carrying on a business in Canada, and
- is not an insurer that carries on business in Canada and elsewhere,

(each a “**Non-resident Holder**”).

Dividends

A Non-resident Holder to whom a dividend is or is deemed to be paid or credited on the Non-resident Holder’s Common Shares will generally be subject to Canadian withholding tax equal to 25% of the gross amount of the dividend, or such lower rate as may be provided by an applicable income tax treaty between Canada and another country. The rate of withholding tax under the Canada-U.S. Income Tax Convention (1980) (the “**U.S. Treaty**”) applicable to a dividend paid or credited to a Non-resident Holder who beneficially owns the dividend, and is a resident of the United States under the U.S. Treaty and entitled to its benefits, is 5% if the Non-resident Holder is a company that owns (or is considered to own) at least 10% of the Company’s voting stock, and 15% in any other case.

Disposition of Common Shares

A Non-resident Holder who disposes or is deemed to dispose of a Common Share generally will not be subject to tax under the Tax Act in respect of any capital gain, or entitled to deduct any capital loss, thereby realized unless the Common Share, at the time of the disposition,

- is, or is deemed to be, “taxable Canadian property,” and
- is not “treaty-protected property,”

of the Non-resident Holder.

Generally, a Non-resident Holder’s Common Share will not be taxable Canadian property to the Non-resident Holder at the time of disposition if at that time the Common Shares are listed on a designated stock exchange (which currently includes the CSE) unless, at the time of disposition or at any time in the preceding 60 months,

- the Non-resident Holder, one or more persons with whom the Non-resident Holder did not deal at arm’s length for the purposes of the Tax Act, or one or more partnerships in which the Non-resident Holder or persons with whom the Non-resident Holder did not deal at arm’s length holds or held a membership interest (either directly or indirectly through one or more partnerships), alone or in any combination owned 25% or more of the issued shares of any class of shares of the Company, and
- the Common Share derived more than 50% of its fair market value directly or indirectly from one, or any combination of, real or immovable property situated in Canada, “Canadian resource properties,” “timber resource properties,” or options in respect of, interests in, or for civil law purposes rights in, any such property, whether or not the property exists.

Notwithstanding the foregoing, a Common Share may also be deemed to be taxable Canadian property to a Non-resident Holder in certain circumstances.

Generally, a Non-resident Holder's Common Shares will be treaty-protected property at the time of disposition if, at that time, the terms of a tax treaty between Canada and another country exempt the Non-resident Holder from tax under Part I of the Tax Act on any gain from the disposition of the Common Shares.

Non-resident Holders should consult their own tax advisers regarding whether their Common Shares are taxable Canadian property or treaty-protected property.

A Non-resident Holder who disposes or is deemed to dispose of a Common Share in a taxation year at a time when the Common Share is taxable Canadian property and is not treaty-protected property of the Non-resident Holder generally will be required to file a Canadian tax return to report the disposition. The Non-resident Holder generally will be required to include any resulting taxable capital gain in the Non-resident Holder's taxable income earned in Canada for the taxation year, and entitled to deduct any resulting allowable capital loss from taxable capital gains included in the Non-resident Holder's taxable income earned in Canada for the year or, to the extent not so deductible, in any of the Non-resident Holder's three preceding taxation years or any subsequent taxation year, subject to the detailed rules regarding the deductibility of allowable capital losses in the Tax Act.

ELIGIBILITY FOR INVESTMENT

In the opinion of Borden Ladner Gervais LLP, counsel to the Company, and Goodmans LLP, counsel to the Agent, based on the current provisions of the Tax Act and the Regulations, a Common Share offered hereunder will be a "qualified investment" under the Tax Act and the Regulations for a trust governed by a "registered retirement savings plan", a "registered retirement income fund", a "registered education savings plan", a "registered disability savings plan", a "tax-free savings account" (each one a "**Registered Plan**"), or a "deferred profit sharing plan" (as those terms are defined in the Tax Act), provided that the Common Share is listed on a "designated stock exchange" as defined in the Tax Act (which currently includes the CSE) when it is acquired. Notwithstanding that a Common Share may be a qualified investment for a Registered Plan, if the Common Share is a "prohibited investment" within the meaning of the Tax Act for a Registered Plan, the annuitant, holder, or subscriber of the Registered Plan, as the case may be (the "**Controller**") will be subject to penalty taxes as set out in the Tax Act. A Common Share will generally not be a prohibited investment for a Registered Plan if the Controller:

- deals at arm's length with the Company for the purposes of the Tax Act, and
- does not have a "significant interest" (as defined in the Tax Act for the purposes of the prohibited investment rules) in the Company.

Generally, a Controller of a Registered Plan will not have a significant interest in the Company unless the Controller owns, directly or indirectly, 10% or more of the outstanding shares of any class of the Company or any corporation related to the Company (for purposes of the Tax Act), either alone or together with persons with which the Controller does not deal at arm's length for the purposes of the Tax Act or certain partnerships or trusts. In addition, a Common Share will not be a "prohibited investment" if the Common Share is "excluded property" (as defined in the Tax Act for purposes of the prohibited investment rules) for a Registered Plan.

Purchasers of Common Shares should consult their own tax advisers with respect to whether Common Shares would be prohibited investments having regard to their particular circumstances.

TRANSFER AGENT AND REGISTRAR

The transfer and registrar agent for the Common Shares is Computershare Investor Services Inc. at its principal offices in Vancouver, British Columbia and Toronto, Ontario.

Certain legal matters in connection with the issue and sale of the Common Shares will be passed upon on behalf of the Company by Borden Ladner Gervais LLP, and on behalf of the Agent by Goodmans LLP. As of July 28, 2020, the partners and associates of Borden Ladner Gervais LLP, as a group, and the partners and associates of Goodmans LLP, as a group, each beneficially own, directly or indirectly, less than one percent of any class or series of outstanding securities of the Company.

Any remedies under securities legislation in the jurisdictions that a purchaser of Common Shares under an at-the-market distribution by the Issuer may have against the Company or the Agent for rescission or, in some jurisdictions, revisions of the price, or damages if the Prospectus, prospectus supplements relating to the Common Shares purchased by a purchaser and any amendment contain a misrepresentation remain unaffected by the non-delivery of the Prospectus and the Decision referred to above.

Purchasers should refer to the applicable provisions of the securities legislation of the purchaser's province or territory and the decision referred to above for the particulars of their rights or consult with a legal advisor.

Purchasers should read this Prospectus and any applicable Prospectus Supplement carefully before they invest in any Securities issued pursuant to this Prospectus.

Any offering of Debt Securities, Subscription Receipts, Warrants or Units will be a new issue of securities with no established trading market. Unless otherwise specified in the applicable Prospectus Supplement, Debt Securities, Subscription Receipts, Warrants and Units will not be listed on any securities exchange and there is no market through which the Debt Securities, Subscription Receipts, Warrants or Units may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus. This may affect the pricing of such Securities in the secondary market, the transparency and availability of trading prices, the liquidity of such Securities, and the extent of issuer regulation. See "*Plan of Distribution*".

Unless otherwise specified in the relevant Prospectus Supplement, in connection with any offering of Securities, other than an "at-the-market distribution", the underwriters, dealers or agents who participate in the distribution of Securities may over-allot or effect transactions which stabilize or maintain the market price of the Securities at a higher level than that which might exist in the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter of an at-the-market distribution, and no person or company acting jointly

or in concert with an underwriter, may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities or securities of the same class as the Securities distributed under this Prospectus, including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities. Perk Labs is the owner of Perk Hero, the all-in-one mobile ordering, contact-free payments and loyalty app (the “**Perk Hero App**”). The Perk Hero App’s all-in-one fast, frictionless mobile ordering, payments and rewards platform promotes customer loyalty by offering rewards, engaging in-app experiences and other incentives. It allows customers to earn coins every time they pay, and to earn experience points to level up and increase their reward earning power. At the same time, merchants get real time transactional data and access to tools to drive customer loyalty and increase revenue.

Perk Hero Technology

The Perk Hero App is built on a new and advanced technology stack using an Amazon Web Service (AWS) non-relational database and React Native mobile application framework. While it includes some of the best features of our previous app, Glance Pay, such as the ability to make quick secure payments by QR code or paying by photo, it also includes many new advanced features such as:

- Apple Pay integration
- Google Pay integration
- Mobile pre-order
- Powerful, gamified loyalty reward platform allowing users to earn virtual coins as rewards
- All-in-one user and merchant application
- Merchant analytics and dashboard
- Artificial intelligence powered receipt recognition

Perk Hero Security

The Perk Hero App has been engineered with security in mind at all times. The Company built the Perk Hero App in accordance with best practices of the payment card industry data security standard which was developed to enhance cardholder data security and facilitate the broad adoption of consistent data security measures globally.

Revenue Strategy

The Company plans to generate revenue through the Perk Hero App from a combination of ordering fees, transaction fees, advertising fees, Software-as-a-Service (SaaS) fees, and fees for premium features. For the Company's White Label offering, fees are customized depending on the requirements of the enterprise customer.

RECENT DEVELOPMENTS

Entry into New Verticals

On May 7, 2020, the Company announced that it had formally launched new verticals and unveiled the design of its new contact free payment method for safe-distance payments. There is a tremendous amount of interest in contact free payments from restaurateurs as they prepare to re-open their doors for dine-in following shut downs caused by the COVID-19 pandemic. The Company also sees the need for contact free payments in multiple verticals including dental clinics, medical professionals, retail stores and health and beauty. The initial merchants in these verticals that have signed up to be listed on the Perk Hero App include three dental clinics and a hair salon/barber shop.

RISK FACTORS

Investment in the Securities is subject to various risks including those risks inherent to the industries in which the Company operates. Discussions of certain risk factors affecting the Company in connection with the Company's businesses are provided in the Company's disclosure documents filed from time to time with the Commissions which are incorporated by reference in this Prospectus. In particular, see "Risk Factors" in the AIF and "Financial Instruments and Risk Management" in the Company's management discussion and analysis available under the Company's profile on SEDAR at www.sedar.com.

Before making an investment decision, prospective investors should carefully consider the information described in this Prospectus and the documents incorporated by reference herein. There are certain risks inherent in an investment in the Securities, including the factors described under the heading "Risk Factors" in the AIF and any other risk factors described herein or in a document incorporated by reference herein, which investors should carefully consider before investing. Additional risk factors relating to a specific offering of securities will be described in the Prospectus Supplement. Some of the factors described herein, in the documents incorporated by reference herein, and/or the Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any of the risk factors described herein, in the AIF, in another document incorporated by reference herein or in the Prospectus Supplement occur, it could have a material adverse effect on the business, financial condition and results of operations of the Company. Additional risks and uncertainties of which the Company currently is unaware or that are unknown or that we currently deem to be immaterial could have a material adverse effect on the Company's business, financial condition and results of operation. The Company cannot assure purchasers that it will successfully address any or all of these risks. There is no assurance that any risk

management steps taken will avoid future loss due to the occurrence of the risks described herein, in the AIF, in the other documents incorporated by reference herein or in the Prospectus Supplement or other unforeseen risks.

These risks and uncertainties are not the only ones facing the Company. Additional risks not currently known to the Company, or that the Company currently deems immaterial, may also impair the Company's business and operations. If any such risks actually occur, the Company's business, financial condition and operating results could be materially harmed.

Negative Cash Flow

The Company has a limited history of operations, and no history of earnings, cash flow or profitability. The Company has had negative operating cash flow since the Company's inception, and the Company will continue to have negative operating cash flow for the foreseeable future. No assurance can be given that the Company will ever attain positive cash flow or profitability or that additional funding will be available for operations.

Dividend Risk

The Company has not paid dividends in the past and does not anticipate paying dividends in the near future. The Company expects to retain earnings to finance further growth and, where appropriate, retire debt.

No Market for the Securities

There is currently no trading market for any of the Securities (other than the Common Shares) that may be offered. No assurance can be given that an active or liquid trading market for the Securities will develop or be sustained. If an active or liquid market for the Securities fails to develop or be sustained, the prices at which the Securities trade may be adversely affected. Whether or not the Securities will trade at lower prices depends on many factors, including liquidity of the Securities, prevailing interest rates and the markets for similar securities, general economic conditions and the Company's financial condition, historic financial performance and future prospects.

Market Risk for Securities

There can be no assurance that an active trading market for the Securities will be established and sustained. Upon listing, the market price for the Securities could be subject to wide fluctuations. Factors such as government regulation, interest rates, share price movements of peer companies and competitors, as well as overall market movements, may have a significant impact on the market price of the Securities. The stock market has from time to time experienced extreme price and volume fluctuations, which have often been unrelated to the operating performance of particular companies.

Speculative Nature of Investment Risk

An investment in the Securities carries a high degree of risk and should be considered as a speculative investment. The Company has no history of earnings, limited cash reserves, a limited operating history, has not paid dividends, and is unlikely to pay dividends in the immediate or near future.

Liquidity and Future Financing Risk

The Company will likely operate at a loss until its business becomes established and the Company may require additional financing in order to fund future operations and expansion plans. The Company's ability to secure any required financing to sustain operations will depend in part upon prevailing capital market conditions and business

success. There can be no assurance that the Company will be successful in its efforts to secure any additional financing or additional financing on terms satisfactory to management. If additional financing is raised by issuance of additional Common Shares from treasury, control may change and shareholders may suffer dilution. If adequate funds are not available, or are not available on acceptable terms, the Company may be required to scale back its current business plan or cease operating.

Going-Concern Risk

The Company's financial statements have been prepared on a going-concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. The Company's future operations are dependent upon the identification and successful completion of equity or debt financing and the achievement of profitable operations at an indeterminate time in the future. There can be no assurances that the Company will be successful in completing equity or debt financing or in achieving profitability. The Company's financial statements do not give effect to any adjustments relating to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

Management Experience and Dependence on Key Personnel and Employees

The Company's success is currently largely dependent on the performance of the Company's directors and officers. Certain members of the Company's management team have experience in development of technology, while others have experience in areas including financial management, corporate finance and sales and marketing. The experience of these individuals is a factor which will contribute to the Company's continued success and growth. The Company will initially be relying on board of director (the "Board") members, as well as independent consultants, for certain aspects of the Company's business. The amount of time and expertise expended on the Company's affairs by each of the Company's management team and the Company's directors will vary according to the Company's needs. The Company does not intend to acquire any key man insurance policies and there is, therefore, a risk that the death or departure of any member of management, the Board, or any key employee or consultant, could have a material adverse effect on the Company's future. Investors who are not prepared to rely on the Company's management team should not invest in the Securities.

Business Interruption Risks

The Company may be impacted by business interruptions resulting from pandemics and public health emergencies, including those related to the COVID-19 pandemic. An outbreak of infectious disease, a pandemic or a similar public health threat, such as the recent outbreak of the novel coronavirus known as COVID-19, or a fear of any of the foregoing, could adversely impact the Company. It is unknown whether and how the Company may be affected if such an epidemic persists for an extended period of time. The Company may incur expenses or delays relating to such events outside of its control, which could have a material adverse impact on its business, operating results and financial condition.

USE OF PROCEEDS

Unless otherwise indicated in a Prospectus Supplement, the Company currently expects to use the net proceeds from the sale of Securities for investment in sales and marketing initiatives to attract and sign up restaurants to the Perk Hero App, to continue development of the Perk Hero App through a series of build-measure-learn iterations and moving beyond the restaurant vertical, and for general working capital purposes. Any specific allocation of the net proceeds of any offering of Securities to a specific purpose will be determined at the time of the offering and will be described in the relevant Prospectus Supplement.

After refining its marketing and sales strategy in Vancouver, one of the Company's key business objectives and milestones is to expand into the additional markets of Calgary, Edmonton, Seattle, Portland, Las Vegas, Los Angeles, and the Canadian and U.S. east coast. The Company estimates that these sales and marketing initiatives will cost approximately \$27,000,000 to complete over the next 2 years.

The Company also seeks to further develop the Perk Hero App to include delivery, refer-a-friend, API integrations with cloud-based POS systems and other platforms, improved merchant data analytics, AI-powered recommendation engine, enhanced game-design, and virtual assistant. The Company estimates that these development updates will cost approximately \$30,000,000 to complete over the next 2 years.

The Company had negative operating cash flow in its most recently completed financial period and therefore anticipates that a portion of the net proceeds from any offering of Securities also may potentially be used to fund negative operating cash flow for the 2020 fiscal year and for future financial years. Any specific allocation of the net proceeds of any offering of Securities to a specific purpose will be determined at the time of the offering and will be described in the relevant Prospectus Supplement. See "Risk Factors".

All expenses relating to an offering of Securities and any compensation paid to underwriters, dealers or agents, as the case may be, will be paid out of the proceeds from the sale of the Securities, unless otherwise stated in the applicable Prospectus Supplement.

COVID-19

In March 2020, the World Health Organization declared the COVID-19 outbreak a global pandemic. Over the past few months, the Company has been monitoring the impact of the COVID-19 pandemic on our business, our industry and the broader economy. The pandemic has impacted and could further impact our operations and the operations of our customers, largely due to stay-at-home orders and restrictions on in-restaurant dining, which have contributed to changes in diner behavior. The COVID-19 pandemic has disproportionately impacted the restaurant industry and specifically restaurants that rely on revenue generated by in-restaurant dining. With restrictions on dining in, many restaurants have limited their operations solely to takeout and delivery, while others have decided to pause or cease operations or drastically cut costs. Historically, a significant percentage of the Company's operating revenue was generated from transaction fees on in-restaurant dining transactions. As a result of the restrictions on in-restaurant dining, we experienced reduced revenues and we may continue to see a reduction in revenue from in-restaurant dining transactions if these conditions continue into future periods.

In response to the decrease in in-restaurant dining transactions, the Company has invested in improvements to its offerings for mobile ordering and contact free payments. As a result of the dine-in restrictions, new users and new restaurants have joined our platform as a way to experience pre-order and pick-up and self-managed delivery. Further we have expanded into new verticals as other types of business have seen a need to adopt contactless payments such as payment by quick response codes or payment by taking a photo of a bill as a better way to serve their customers and provide a safe environment for their employees.

The sustainability and growth of our merchant and user network remains paramount, and therefore, the Company intends to increase its investment in programs designed to drive more business to our merchant partners including promotions, reduced fees and product improvements. We also believe there is an opportunity for our Company to support restaurants and other small businesses with the digital tools such as mobile ordering, contact free payment and digital loyalty that will help small businesses recover and prosper in the post-COVID-19 environment. In order to bring these tools to small businesses the Company will need to invest in its sales and marketing efforts and expand into new geographic areas. We believe that the Company will emerge from these events well positioned for long-term growth, however, the Company cannot reasonably estimate the duration or severity of the economic impact to our users and merchant partners caused by the restrictions on daily life to curb the spread of COVID-19, or the ultimate impact on the Company's operations and liquidity. Conditions may worsen further as governments and businesses continue to take actions to respond to the risks of the COVID-19 pandemic or if there is a second wave

of the COVID-19 pandemic. The pandemic has resulted in, and may continue to result in, significant disruption of global financial markets, which could reduce our ability to access capital and could negatively impact our liquidity in the future.

Thus, the holder of a Unit will have the rights and obligations of a holder of each included Security. The Unit agreement, if any, under which a Unit is issued may provide that the Securities comprising the Unit may not be held or transferred separately, at any time or at any time before a specified date.

The particular terms and provisions of Units offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in a Prospectus Supplement filed in respect of such Units. This description will include, where applicable:

- the aggregate number of Units offered;
- the price at which the Units will be offered;
- the designation, number and terms of the Securities comprising the Units;
- whether the Units will be issued with any other Securities and, if so, the amount and terms of the Securities;
- terms applicable to the gross or net proceeds from the sale of the Units plus any interest earned thereon;
- the date on and after which the Securities comprising the Units will be separately transferable;
- whether the Securities comprising the Units will be listed on any securities exchange;
- whether such Units or the Securities comprising the Units are to be issued in registered form, “book-entry only” form, bearer form or in the form of temporary or permanent global securities and the basis of exchange, transfer and ownership thereof;
- any terms, procedures and limitations relating to the transferability, exchange or exercise of the Units;
- certain material Canadian tax consequences of owning the Units; and
- any other material terms and conditions of the Units.

The Company reserves the right to set forth in a Prospectus Supplement specific terms of the Units that are not within the options and parameters set forth in this Prospectus. In addition, to the extent that any particular terms of the Units described in a Prospectus Supplement differ from any of the terms described in this Prospectus, the description of such terms set forth in this Prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Units.

PLAN OF DISTRIBUTION

The Company may from time to time during the 25-month period that this Prospectus, including any amendments hereto, remains valid, offer for sale and issue up to an aggregate of \$30,000,000 in Securities hereunder. We may sell Securities: (a) through underwriters, dealers or agents purchasing as principal or acting as agent; (b) directly to one or more purchasers; or (c) through a combination of any of these methods of sale. Securities may be sold from time to time in one or more transactions at a fixed price or prices which may be changed, at market prices prevailing at the time of sale, or at prices related to such prevailing market price or at prices to be negotiated with purchasers. The sale of Common Shares may be effected from time to time in one or more transactions at non-fixed prices pursuant to transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made directly on the CSE or other existing trading markets for the Common Shares, and as set forth in the Prospectus Supplement for such purpose.

The Prospectus Supplement relating to each offering of Securities will identify each underwriter, dealer or agent, as the case may be, and will also set forth the terms of that offering, including the purchase price of such Securities (or the manner of determination thereof if offered on a non-fixed price basis, including sales in transactions that are

deemed to be “at-the-market distributions” as defined in NI 44-102), the proceeds to the Company and any underwriters’, dealers’ or agents’ fees, commissions or other items constituting underwriters’ or agents’ compensation. Only underwriters, dealers or agents so named in the applicable Prospectus Supplement are deemed to be underwriters, dealers or agents, as the case may be, in connection with the Securities offered thereby.

In connection with the sale of Securities, underwriters, dealers or agents may receive compensation from the Company in the form of commissions, concessions or discounts. Any such commissions may be paid out of the general funds of the Company or the proceeds of the sale of the Securities.

Under agreements which may be entered into by the Company, underwriters, dealers and agents who participate in the distribution of Securities may be entitled to indemnification by the Company against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments which such underwriters or agents may be required to make in respect thereof.

Sales of Common Shares under an “at-the-market distribution”, if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Common Shares under any “at-the-market” program will be made in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102. The volume and timing of any “at-the-market distributions” will be determined at the Company’s sole discretion, subject to applicable law.

Unless otherwise specified in the relevant Prospectus Supplement, in connection with any offering of Securities, other than an “at-the-market distribution”, the underwriters, dealers or agents who participate in the distribution of Securities may over-allot or effect transactions which stabilize or maintain the market price of the Securities at a higher level than that which might exist in the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter of an at-the-market distribution, and no person or company acting jointly or in concert with an underwriter, may, in connection with the distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities or securities of the same class as the Securities distributed under this Prospectus, including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities. In the event the Company determines to pursue an “at-the-market distribution” offering in Canada, the Company shall apply for the applicable exemptive relief from the applicable Canadian securities regulatory authorities.

EXEMPTIONS

Pursuant to a decision of the Autorité des marchés financiers dated June 9, 2020, the Company was granted a permanent exemption from the requirement to translate into French this Prospectus as well as the documents incorporated by reference therein and any Prospectus Supplement to be filed in relation to an “at-the-market” distribution. This exemption is granted on the condition that this Prospectus and any Prospectus Supplement (other than in relation to an “at-the-market” distribution) be translated into French if the Company offers Securities to Québec purchasers in connection with an offering other than in relation to an “at-the-market” distribution.

The applicable Prospectus Supplement may describe certain Canadian federal income tax considerations to investors described therein of acquiring, owning or disposing of any of the Securities offered thereunder.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Unless provided otherwise in a Prospectus Supplement, the following is a description of a purchaser's statutory rights. Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment, irrespective of the determination at a later date of the purchase price of the securities distributed. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

Original purchasers of Securities which are convertible or exchangeable or exercisable for other securities of the Company, including Warrants and Subscription Receipts if offered separately, will have a contractual right of rescission against the Company in respect of the conversion, exchange or exercise of such securities. The contractual right of rescission will entitle such original purchasers to receive, upon surrender of the underlying Securities, in addition to the amount paid on initial purchase, the amount paid on conversion in the event that this Prospectus,

the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such securities under this Prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 131 of the *Securities Act* (British Columbia), and is in addition to any other right or remedy available to original purchasers under section 131 of the *Securities Act* (British Columbia) or otherwise at law.

In an offering of Securities which are convertible or exchangeable into other securities of the Company, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus is limited, in certain provincial securities legislation, to the price at which Securities which are convertible or exchangeable into other securities of the Company are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces and territories, if the purchaser pays additional amounts upon the conversion or exchange of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces and territories. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of this right of action for damages or consult with a legal adviser.
