Notes to the Condensed Consolidated Interim Financial Statements (Unaudited) (Expressed in Canadian Dollars)

## For the Nine Months Ended August 31, 2023 and 2022

#### 1. NATURE OF OPERATIONS

Perk Labs Inc. ("Perk Labs" or the "Company") was incorporated under the laws of the Province of British Columbia on October 24, 2014. The Company's address is Suite 250, PMB 955, 997 Seymour Street, Vancouver, British Columbia, V6B 3M1.

The Company's common shares trade on the Canadian Securities Exchange ("CSE") under the symbol PERK and began trading on September 7, 2016; on the OTCPINK under the symbol PKLBF; and on the Frankfurt Stock Exchange under the symbol PKLB.

These condensed consolidated interim financial statements include the accounts of Perk Labs Inc. and its four wholly owned subsidiaries: Getit Technologies Inc.; Perk Hero Software Inc.; Perk Hero USA, Inc.; and Perks Technologies Inc.

Perk Labs is an innovative solutions company specializing in software development for apps, payments, and loyalty rewards. Our technologies connect businesses and consumers through mobile apps and web-based ordering and payment services that optimize and streamline consumer experience and merchant digitalization.

#### 2. GOING CONCERN

These consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to realize its assets and satisfy its liabilities in the normal course of business for the foreseeable future. Management is aware, in making its going concern assessment, of material uncertainties related to events and conditions that may cast significant doubt upon the Company's ability to continue as a going concern. During the nine months ended August 31, 2023, the Company incurred a net loss from operations of \$1,435,905 and used cash of \$569,172 for operating activities. As of that date, the Company had an accumulated deficit of \$44,332,053.

The Company is continuing to enhance its mobile and online ordering platform. The continued operations of the Company are dependent on future profitable operations, management's ability to manage costs, and the future availability of equity or debt financing. Whether and when the Company can generate sufficient operating cash flows to pay for its expenditures and settle its obligations as they fall due subsequent to August 31, 2023 is uncertain. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption inappropriate and the impact of those adjustments could be material.

The war in Ukraine, which started in February 2022, has generated globally a significant negative impact on consumption and GDP, driving inflation to historical highs. As a measure of managing inflation, the government of Canada has increased interest rates through 2022 and it may continue to do so in the remainder of 2023. These negative economic factors in the market could further impact operations and the ability to obtain funding to support growth.

Even after the uncertainty in the events over the war in Ukraine and inflation, the Company may experience adverse impacts to its business as a result of any economic recession or depression that has occurred or may occur in the future; therefore, the Company cannot reasonably estimate the impact at this time on our business, liquidity, capital resources, and financial results.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited) (Expressed in Canadian Dollars)

#### For the Nine Months Ended August 31, 2023 and 2022

#### 3. BASIS OF PREPARATION

#### a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards 34, "Interim Financial Reporting" ("IAS 34") as issued by the International Accounting Standards Board ("IASB") using accounting policies consistent with International Financial Reporting Standards "("IFRS"). Certain information and note disclosures normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed.

The unaudited condensed consolidated interim financial statements were prepared using the same accounting policies and methods as those used in the annual audited consolidated financial statements for the year ended November 30, 2022, and should be read in conjunction with those consolidated financial statements.

#### b) Basis of measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments that are measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

#### c) Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries on a consolidated basis after elimination of intercompany transactions and balances. Subsidiaries are entities the Company controls where it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

#### d) Critical accounting judgments and estimates

The preparation of condensed consolidated interim financial statements in accordance with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities, income, and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Significant areas requiring the use of estimates include the carrying values of marketable securities and investments, the collectability of amounts receivable, useful lives and carrying values of property and equipment, useful lives, carrying values, and the incremental borrowing rate used for the right-of-use assets and lease liabilities, and the fair value of share-based compensation.

Judgments made by management in the application of IFRS that have significant effect on the condensed consolidated interim financial statements include the factors that are used in determining the fair value of privately held investments, the discount rates applied on marketable

#### 3. BASIS OF PREPARATION (continued)

securities held in escrow and for the lack of liquidity in the trading volume of the Company's investment in certain marketable securities, the incremental borrowing rate used in the valuation of right-of-use assets and lease liabilities, and the application of the going concern assumption which requires management to take into account all available information about the future, at least but not limited to twelve months from the reporting period.

#### e) Government Grants

The Company recognizes government grants when there is a reasonable assurance that the Company will comply with the conditions of the grant and the grant will be received. Government grants receivable are recorded in the amounts receivable on the condensed consolidated interim statement of financial position. The Company recognizes government grants in the condensed consolidated interim statement of income/loss in the same period as the expenses for which the grant is intended to compensate. In cases where a grant becomes receivable as compensation for expenses already incurred in period periods, the grant is recognized in the statement of operations in the period in which it becomes receivable.

#### 4. ADOPTION OF NEW STANDARDS

#### Amendment to IAS 1. Classification of Liabilities as Current or Non-Current

On January 23, 2020, and amended on July 15, 2020, the IASB issued an amendment to IAS 1, Classification of Liabilities as Current or Non-Current ("IAS 1") and has been revised to: i) clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period; (ii) clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and (iii) make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets, or services.

The amendment to IAS 1 is effective for annual reporting periods on or after January 1, 2023 and is applied retrospectively. Early adoption of this amendment is permitted. The Company is currently evaluating the impact of this amendment to its consolidated financial statements.

#### Amendment to IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors

On February 12, 2021, the IASB issued an amendment to IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8") to introduce the definition of an accounting estimate and include other amendments to help entities to distinguish changes in accounting estimates from changes in accounting policies.

The amendment to IAS 8 is effective for annual reporting periods on or after January 1, 2023 and early adoption is permitted. The Company is currently evaluating the impact of this amendment on its consolidated financial statements.

Other new standards and amendments to standards and interpretations are not effective for the period ended February 28, 2022 and have not been early adopted by the Company and are not expected to have a material impact on the Company's consolidated financial statements.

## 8. SHARE CAPITAL (continued)

#### c) Restricted share units

The Company has established a long-term Restricted Share Unit ("RSU") incentive plan for executives and certain employees. This plan was finalized and approved at the Company's Annual General Meeting held on June 10, 2020 and on June 9, 2021. Awards generally vest over a three-year period (100% cliff vesting on the third anniversary date). The Board or Compensation Committee may, in its sole, discretion, determine vesting conditions for RSUs and the method of vesting. The Company's policy is to issue common shares for RSUs in the same month in which they vest.

The fair value of the RSUs granted was estimated on grant date using the fair value of the Company's common shares on the date of grant. For RSUs issued prior to June 10, 2020, the closing share price of the Company's common shares on the day that the RSU plan was finalized and approved was used to determine the fair value of the RSUs.

#### 9. STOCK OPTIONS

The Company is authorized to grant options to directors, officers, employees, and consultants to acquire common shares under the 2016 Incentive Stock Option Plan, as amended November 3, 2020. (the "Plan"). The essential elements of the Plan provide that the aggregate number of shares of the Company's common shares issuable pursuant to options granted under the Plan, together with all of the Company's other compensation or incentive mechanisms involving the issuance or potential issuance of Common Shares, may not exceed 15% of the issued common shares of the Company from time to time. Options granted under the Plan may have a maximum term of five (5) years. The exercise price of options granted under the Plan will not be less \$0.05. Stock options granted under the Plan vest subject to vesting terms which may be imposed at the discretion of the Directors. Stock options granted under the Plan are to be settled with the issuance of equity instruments.

For the quarter ended August 31, 2023, the Company recognized share-based compensation recovery of \$13,333 (August 31, 2022 – \$1,620) related to stock options granted of which \$0 (August 31, 2022 – recovery of \$433) was related to options granted to officers and directors of the Company.

For the Nine Months Ended August 31, 2023 and 2022

#### 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

# a)Fair value of financial assets and liabilities that are measured at fair value on a recurring basis

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether the price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Under IFRS 13, Fair Value Measurement establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist.

	Fair valu			
	Quoted prices in active markets for identical instruments (Level 1)	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	Balance, August 31, 2023 \$
Marketable securities	2,745	-	-	2,745

The fair values of other financial instruments, including cash and cash equivalents, notes receivable, accounts payable and accrued liabilities, and lease liabilities approximate their fair values due the short-term nature of the financial instrument.

## For the Nine Months Ended August 31, 2023 and 2022

#### 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

#### b) Market risk

Market risk is the risk of loss that the fair value of future cash flows of a financial instrument held by the Company will fluctuate because of changes in market prices. The Company faces market risk from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

## (i) Interest rate risk

Interest rate risk consists of two components: to the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk; and to the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to fair value interest rate risk.

Current financial assets and financial liabilities are generally not exposed to significant cash flow interest rate risk because of their short-term nature, fixed interest rates, and maturity.

The Company may be exposed to fair value interest rate risk if the prevailing market rates increase or decrease compared to the interest rates associated with its financial assets. Management does not believe this risk is significant.

#### (ii) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities are denominated in a foreign currency.

The Company is exposed to foreign currency risk with respect to its US denominated bank account. At August 31, 2023, financial instruments were converted at a rate of \$1 US dollar to \$1.3580 (November 30, 2022 – \$1.3508) Canadian. A 10% change in foreign exchange rates is not expected to have a material impact on the condensed consolidated interim financial statements.

The Company has not entered into any foreign currency contracts to mitigate foreign currency risk.

# (iii) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist primarily of cash and cash equivalents. The Company limits its exposure to credit risk by placing its cash and cash equivalents with a high credit quality financial institution in Canada. For amounts receivable, the Company limits its exposure to credit risk by dealing with what management believes to be financially sound counterparties.

The Company's financial assets are not subject to material credit risk as it does not anticipate significant loss for non-performance.

## For the Nine Months Ended August 31, 2023 and 2022

#### 18. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

#### (iv) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments, or the proposed transaction. The Company manages liquidity risk by maintaining adequate cash balances when possible.

The Company's expected source of cash flow in the upcoming year will be through sales and debt or equity financing. Cash and cash equivalents at February 28, 2023 and expected cash flows for the next 12 months are not sufficient to fund the Company's ongoing operational and expansion needs. The Company will need funding through equity or debt financing, entering into joint venture agreements, or a combination thereof. On July 29, 2020, the Company announced an at-the-market equity program that allows the Company to issue and sell up to \$2,000,000 of common shares in the capital of the Company from treasury to the public, from time to time, at the Company's discretion.

On February 17, 2022, the Company announced the renewal of its at-the-market equity program that allows the Company to issue and sell up to \$4,000,000 of common shares in the capital of the Company from treasury to the public, from time to time, at the Company's discretion. On July 14, 2022, the Company announced the end of its at-the-market equity program.

#### (v) Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to stakeholders through a suitable debt and equity balance appropriate for an entity of the Company's size and status. The Company's overall strategy remains unchanged from last year.

The capital structure of the Company consists of equity attributable to common shareholders, comprised of issued capital, reserves, and deficit. The availability of new capital will depend on many factors including positive stock market conditions, the Company's track record, and the experience of management. The Company is not subject to any external covenants on its capital and there was no material change from the prior year.

#### (vi) Price risk

Price risk is the risk that the fair value of investments will decline below the cost of the underlying investments. The Company's marketable securities are exposed to price risk.

#### 19. SUBSEQUENT EVENTS

• **Private Placement of Units:** In September, the Company closed a non-brokered private placement of 1,312,500 units ("Units") at a price of \$0.016 per Unit for gross proceeds of CAD\$21,000. Each Unit consists of one common share of the Company (a "Common Share") and one Common Share purchase warrant (a "Warrant"). Each Warrant entitles the holder to purchase one additional Common Share at a price of \$0.05 per Common Share for a period of 24 months from the closing.

Also, in connection with the private placement, the Company entered into a Debt Settlement Agreement with an arms-length creditor (the "Creditor") for the settlement of a total of CAD\$20,000 debt in consulting and design services provided by the Creditor to the Company. In settlement and full satisfaction of the debt, the Company issued 1,250,000 Units to the Creditor.

• **Private Placement of Convertible Debentures**: The Company also closed a non-brokered private placement of convertible debentures ("**Debentures**") for gross proceeds of \$450,000.
