

Cognetivity Neurosciences Named as Young Company to Watch in 2019 on Forbes.com

- Company named as one of five young companies making an impact on the world to watch in 2019
- Enormous potential of company's technology and role in early diagnosis of dementia highlighted

VANCOUVER, Jan. 9, 2019 /CNW/ - Cognetivity Neurosciences Ltd. (the "**Company**" or "**Cognetivity**") (CSE: CGN; FWB: 1UB; OTCQB: CGNSF) today announced that it has been named as one of five young companies making an impact on the world to watch in 2019 on Forbes.com.

The article highlights the huge cost of treating dementia, the substantial cost-of-care savings generated by early detection and Cognetivity's use of artificial intelligence (AI) driven technology to improve diagnosis rates. The article can be read online at <https://www.forbes.com/sites/alisoncoleman/2018/12/30/five-young-companies-making-an-impact-on-the-world-to-watch-in-2019>

Cognetivity's CEO and Director, Dr. Sina Habibi, commented: "2019 has got off to a great start, with Cognetivity being featured in Forbes as one of five young companies making an impact on the world to watch In 2019. Our main goal is, and always has been for our technology to help as many people as possible, and this recognition is another fantastic endorsement of our aims and the company's enormous potential."

About Cognetivity Neurosciences Ltd.

Cognetivity is a technology company developing a cognitive testing platform, the Integrated Cognitive Assessment (ICA) for use in medical and commercial environments. Cognetivity's ICA uses Artificial Intelligence and machine learning techniques to help detect the earliest signs of impairment by testing the performance of large areas of the brain, potentially allowing early diagnosis of dementia. Cognetivity aims to develop the ICA through planned clinical studies to the market in North America and Europe.
