

VEXT ANNOUNCES OVERNIGHT MARKETED FINANCING

Vancouver, BC, October 7, 2020 /CNW/ - Vext Science, Inc. (CSE:VEXT, OTCQX:VEXTF) (“VEXT” or the “Company”), a vertically integrated multi-state cannabis company in the United States, today announced that it has filed a preliminary short form prospectus, without pricing (the “Prospectus”), in connection with an overnight marketed public offering (the “Offering”) of units of the Company (the “Units”). The Offering will be led by Beacon Securities Limited, as lead agent and sole bookrunner, on its own behalf and on behalf of a syndicate of agents including Canaccord Genuity Corp. (collectively, the “Agents”).

Each Unit will consist of one common share (a “Subordinated Voting Share”) and one share purchase warrant (each, a “Warrant”). Each Warrant will entitle the holder to purchase one Subordinated Voting Share for 36 months from the date of issuance. If the volume weighted average trading price of the Subordinated Voting Shares on the Canadian Securities Exchange (or such other stock exchange on which the Subordinated Voting Shares are then listed) is greater than \$0.80 per share for a period of 10 consecutive trading days, the Company may provide written notice to the holders of the Warrants by way of a news release advising that the Warrants will expire on the 30th day following the date of such notice unless exercised by the holders prior to such date.

The Offering is to be effected on a best efforts agency basis in each of the provinces of Canada (other than Quebec) pursuant to the Prospectus. The Units may also be sold to, or for the account or benefit of, persons in the “United States” or “U.S. persons” (as those terms are defined in Regulation S under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”)) on a private placement basis pursuant to available exemptions from the registration requirements of the U.S. Securities Act and any applicable state securities laws, and in such jurisdictions outside of Canada and the United States as may be agreed upon by the Agents and the Company, in each case in accordance with all applicable laws. The number, pricing and terms of securities will be determined in the course of marketing and are expected to be set out in an amended and restated preliminary short form prospectus to be filed in each of the provinces of Canada (other than Quebec). There can be no assurance as to whether or when the Offering will be completed, or as to the actual size or terms of the Offering.

The Agents will have an option to offer for sale up to additional 15% of the Units sold pursuant to the Offering on the same terms of the Offering for market stabilization purposes and to cover over-allotments, exercisable in whole or in part within 30 days of the date of closing of the Offering. The over-allotment option may be in the form of Units only, Subordinated Voting Shares only, Warrants only, or any combination thereof. Closing of the Offering is expected to occur on or about October 29, 2020 and is subject to a number of conditions, including without limitation, receipt of all regulatory approvals.

The proceeds raised from the sale of Units under the Offering are expected to be used by the Company for working capital and corporate expansion purposes.

The Company also expects that holders of the 10% secured non-convertible debentures of the Company due December 31, 2021 (the “Debentures”) will redeem 20% of the principal amount of their respective Debentures (an aggregate amount of US\$1,100,000) and use the proceeds to participate in the Offering.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would

be unlawful. The securities being offered have not been, nor will they be, registered under the U.S. Securities Act and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons absent registration or an applicable exemption from the registration requirements of the U.S. Securities Act and applicable state securities laws.

COVID-19 Risk Factor

VEXT may be impacted by business interruptions resulting from pandemics and public health emergencies, including those related to COVID-19. An outbreak of infectious disease, a pandemic, or a similar public health threat, such as the recent outbreak of COVID-19, or a fear of any of the foregoing, could adversely impact VEXT by causing operating, manufacturing, supply chain, and project development delays and disruptions, labor shortages, travel, and shipping disruption and shutdowns (including as a result of government regulation and prevention measures). It is unknown whether and how VEXT may be affected if such a pandemic persists for an extended period of time, including as a result of the waiver of regulatory requirements or the implementation of emergency regulations to which VEXT is subject. Although certain VEXT facilities have been deemed essential and/or have been permitted to continue operating during the pendency of the COVID-19 pandemic, there is no assurance that all of the Company's operations will be deemed essential and/or will continue to be permitted to operate. VEXT may incur expenses or delays relating to such events outside of its control, which could have a material adverse impact on its business, operating results, financial condition, and the trading price of the Company's Common Shares.
