#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Vext Science, Inc. (the "Company") owns 100% interest in two vertically integrated cannabis operations in Arizona. Additionally, the company provides management, advisory, cultivation, and dispensary services to entities in the cannabis field through joint operations agreements. The company also is engaged in selling CBD products and branded merchandise. The head office and principal address of the Company is located at Suite 2250 – 1055 W. Hastings St., Vancouver, BC V6E 2E9 and the U.S. headquarters is at 4152 N. 39th Ave, Phoenix, Arizona 85019.

The owned dispensaries are branded as Herbal Wellness Center, with one licensed as Herbal Wellness Center and the other licensed as Organica Patient Group. Prior to passage of Arizona's adult-use of marijuana program; Arizona law required all marijuana licensed dispensaries to operate as nonprofit entities under the state's medical marijuana program. Following the passage of Arizona voter initiative 207 in November 2020, codified as A.R.S. §§ 2850, in addition to allowing for adult use, a marijuana establishment license may operate on a for-profit basis if the licensee promptly notifies the Arizona Department of Health Services ("AZ DHS"), Department of Revenue, and takes all actions necessary to enable its for-profit operation, including converting its corporate form under the Arizona Restructuring Act. See A.R.S. § 36-2858(D)(2).

As referenced above, The Company has restructured its operations from management to the ownership of dispensaries and cultivation centers. Revenue now represents actual sales from the dispensaries as opposed to management fees, professional fees, equipment and property leasing previously. The characterization, classification, and presentation of operating expenses has changed to reflect the dispensary acquisitions.

These condensed consolidated interim financial statements have been prepared using International Financial Reporting Standards, prepared on a going concern basis, which assumes the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. The continuing operations of the Company are dependent upon the Company's ability to continue to earn adequate revenues from operations, and to raise adequate financing.

As at March 31, 2022, the Company had working capital of \$13,444,434 and retained earnings of \$25,861,230. Management has assessed that this working capital is sufficient for the Company to continue as a going concern beyond one year.

These condensed consolidated interim financial statements do not reflect any adjustments, which could be material, to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

#### 2. BASIS OF PRESENTATION

#### a) Statement of Compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

#### b) Basis of Preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments classified as fair value through profit or loss and are stated at their fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for certain cash flow information. The financial statements, unless otherwise specified, are presented in United States ("U.S.") dollars.

#### c) Basis of Consolidation

The condensed consolidated interim financial statements include consolidated accounts of the Company and its subsidiaries, including its economic interest in joint operations and ventures. Subsidiaries are those entities that the Company controls. The Company controls an entity when the Company is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company and are de-consolidated from the date that control ceases. All intercompany transactions and balances have been eliminated on consolidation.

Entities of the Company are listed below.

#### 2. BASIS OF PRESENTATION (CONTINUED...)

#### d) Approval of the Consolidated Financial Statements

These condensed consolidated interim financial statements for the three months ended March 31, 2022 were approved and authorized for issue by the Board of Directors on May 30, 2022.

#### e) Significant Accounting Judgements and Estimates

The preparation of the Company's condensed interim consolidated financial statements is in conformity with IFRS, which requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated interim financial statements and reported revenues and expenses during the reporting period.

#### **Critical Judgements**

The preparation of these condensed consolidated interim financial statements requires management to make judgements regarding the going concern of the Company, as previously discussed in Note 1, as well as the determination of functional currency, and its classification of joint arrangements. The functional currency is the currency of the primary economic environment in which an entity operates and has been determined for each entity within the Company. Management has determined that the functional currency of the parent is the Canadian dollar, while the functional currency of the subsidiaries has been determined to be the U.S. dollar.

#### Joint Arrangements

As at March 31, 2022, the Company holds a 50% interest in a Kentucky joint arrangement (Vapen Kentucky) and a 25% interest in a Oklahoma joint arrangement (Vapen Oklahoma). The Company has joint control over these arrangements as under the contractual agreements, unanimous consent is required from all parties to the agreements for certain key strategic, operating, investing and financing policies. The Company's joint arrangements are structured as a limited liability corporation and provide the Company and its partners (parties to the agreements) with rights to the net assets of the limited liability corporations under the arrangements. Therefore, these arrangements are classified as joint ventures.

Furthermore, the Company holds 50% interest in a California joint arrangement (Happy Travels), but has equal joint control in a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement on a proportionate basis. The arrangement is therefore recognized as a joint operation. Neither of the parties involved have unilateral control of the joint operation. The Company accounts for its interest in joint operations by recognizing its share of assets, liabilities, revenues and expenses in accordance with its contractually conferred rights and obligations. This assessment is to be performed on a continuous basis.

#### Deferred Tax Assets & Liabilities

The estimation of income taxes includes evaluating the recoverability of deferred tax assets and liabilities based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all the deferred income tax assets and liabilities will not be realized. The ultimate realization of deferred tax assets and liabilities is dependent upon the generation of future taxable income, which in turn is dependent upon the successful management of cannabis operations. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets or liabilities, and deferred income tax provisions or recoveries could be affected.

#### **Key Sources of Estimation Uncertainty**

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that

Notes to Condensed Consolidated Interim Financial Statements March 31, 2022 (Expressed in U.S. Dollars)

#### 2. BASIS OF PRESENTATION (CONTINUED...)

affect the reported amounts of assets and liabilities and the disclosure of assets and liabilities at the date of these consolidated financial statements and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates and such differences could be significant.

Significant estimates made by management affecting these consolidated financial statements include:

Allowance for Doubtful Accounts

The Company estimates the amount of accounts receivable that may not be collectable and will allow for a write down of such amounts. Management uses historical information on the recoverability of accounts receivable and also looks at specific account balances in determining the allowance.

Inventory Obsolescence

The Company estimates the amount of inventory on hand that may not be recoverable and will allow for a write down of such amounts.

Useful Life of Property, Plant and Equipment and Intangible Assets

Property, plant, equipment and intangible assets are amortized over their estimated useful life. Estimated useful lives are determined based on current facts and past management experience and take into consideration the anticipated physical life of the asset, the potential for technological obsolescence, and regulations.

Share-Based Payments

Estimating fair value for granted stock options and compensatory warrants requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option or warrant, volatility, dividend yield, and rate of forfeitures and making assumptions about them.

#### Leases

The Company estimates the lease term by considering the facts and circumstances that can create an economic incentive to exercise an extension option, or not exercise a termination option by assessing relevant factors such as store profitability. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The assessment of the lease term is reviewed if a significant event or a significant change in circumstance occurs, which affects this assessment and that is within the control of the lessee. The Company estimates the incremental borrowing rate used to measure our lease liability for each lease contract. This includes estimation in determining the asset-specific security impact.

Current and Deferred Income Taxes

Current and deferred income tax provisions and obligations are calculated for each of the jurisdictions in which the Company operates. Actual amounts of income tax expense and obligations are not final until tax returns are filed and assessed by the relevant taxation authorities. This occurs subsequent to the issuance of the financial statements, and the final determination of actual amounts may not be completed for a number of years. Therefore, financial results in subsequent periods will be affected by the amount that estimates differ from the final tax return.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as as the most recent audited annual consolidated financial statements of the Company with the addition of the new inventory and biological asset accounting policies below. These condensed consolidated interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the Company's December 31, 2021 annual consolidated financial statements.

#### a) Biological Assets

Biological assets, consisting of cannabis plants, are measured at fair value less costs to sell at the point of harvest, which becomes the basis for the cost of inventories after harvest. Gains or losses arising from changes in fair value less costs to sell during the year, including the impact on the carrying amount of inventory, are included in the interim condensed consolidated statement of income (loss) and comprehensive income (loss) of the related year. At the point of harvest, the biological assets are transferred to inventories at their fair value less costs to complete and sell. All direct and indirect costs related to biological assets are capitalized as they are incurred, and expensed when the related item is sold.

While the Company's biological assets are within the scope of IAS 41, Agriculture and are measured at fair value less costs to sell, the direct and indirect costs of biological assets are determined using an approach similar to the capitalization criteria outlined in IAS 2, Inventories. The Company capitalizes all the direct and indirect costs as incurred related to the biological transformation of the biological assets between the point of initial recognition and at the point of harvest including labor related costs, grow consumables, utilities, facilities costs including allocation of overhead costs related to production facility, quality and testing costs, and production related depreciation. Capitalized costs are subsequently recorded within cost of sales in the interim condensed consolidated statements of income and comprehensive income in the period that the related product is sold.

#### b) Inventories

Raw material inventory consists of dried cannabis either internally cultivated or acquired. Inventories of finished goods and packaging supplies are initially valued at cost, and subsequently at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs to sell. The Company reviews inventories for obsolete, redundant and slow-moving goods and any such inventories identified are written down to net realizable value. The direct and indirect costs of finished goods inventory that includes internally cultivated flower and trim, includes the fair value of the biological asset at the time of harvest. They also include subsequent costs such as materials, labor and depreciation expense on equipment involved in processing, packaging, labelling and inspection to turn raw materials into finished goods. All direct and indirect costs related to inventory are capitalized as they are incurred, and they are subsequently recorded within cost of sales on the interim condensed consolidated statements of income and comprehensive income at the time cannabis products are sold. The Company measures inventory cost using the first-in first-out method.

Realized fair value amounts from biological assets included in the cost of inventory sold are separately presented for cost of sales as fair value adjustment on sale of inventory in Note 11.

#### c) New Accounting Pronouncements

The following IFRS standards have been recently issued by the IASB. Pronouncements that are irrelevant or not expected to have a significant impact have been excluded.

#### 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED...)

#### **Amendments to IFRS 9: Financial Instruments**

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued amendments to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Company is currently evaluating the potential impact of these amendments on the Company's consolidated financial statements.

#### Amendments to IAS 1: Classification of Liabilities as Current or Non-current

The amendment clarifies the requirements relating to determining if a liability should be presented as current or non-current in the statement of financial position. Under the new requirement, the assessment of whether a liability is presented as current or non-current is based on the contractual arrangements in place as at the reporting date and does not impact the amount or timing of recognition. The amendment applies retrospectively for annual reporting periods beginning on or after January 1, 2022. The Company is currently evaluating the potential impact of these amendments on the Company's consolidated financial statements.

#### Amendments to IAS 37: Onerous Contracts and the Cost of Fulfilling a Contract

The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts. The amendment is effective for annual periods beginning on or after January 1, 2022 with early application permitted. The Company is currently evaluating the potential impact of these amendments on the Company's consolidated financial statements.

#### Amendments to IAS 41: Agriculture

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued amendments to IAS 41. The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flow when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in IFRS 13. The amendment is effective for annual reporting periods beginning on or after January 1, 2022. The Company is currently evaluating the potential impact of these amendments on the Company's consolidated financial statements.

The members of App Pharms and APP1803 are essentially the same. They are two separate LLCs within the State of Ohio for the purpose of ownership of the separate cannabis licenses.

The Company, through Vapen, funded the Loan Agreements from the Company's internally generated working capital. The Loan Agreements are secured against the processing license held by App Pharms and the assets of APP1803.

#### 8. INVESTMENT

On August 2, 2019, the Company entered into Restricted Unit Grant Agreement with Legacy Ventures Hawaii LLC ("Legacy"), whereby the Company subscribed for 350,000 Class B units of Legacy for \$350,000. As at December 31, 2021, the Company had paid an additional \$75,350 (additional working capital) for a total of \$425,350. In addition to the 350,000 units subscribed, the Company will be granted an additional 350,000 Class A units for services to be provided by the Company to Legacy. 175,000 of these Class A units were issued on August 2, 2020, with the remaining 175,000 to be issued during the year ending December 31, 2021. As a result of the subscription and the units received for services, as at December 31, 2021, the Company had a 19.62% interest in Legacy.

At December 31, 2021, the Company determined that its investment in Legacy Ventures Hawaii was 100% impaired due to delays created from COVID restrictions on Molokai (Hawaiian Islands) and changes within the regulatory positions of Hawaii in regards to CBD cultivation and processing. As a result, the Company wrote off the entire investment of \$425,350, of its investment in Legacy Ventures Hawaii.

#### 11. BIOLOGICAL ASSETS

Biological assets consist of cannabis plants. The changes in the carrying value of biological assets as at March 31, 2022 are as follows:

	 March 31, 2022
Balance, December 31, 2021	_
Acquired beginning balance (Note 14)	\$ 1,833,126
Capitalized costs	2,040,371
Change in fair value less costs to sell due to biological transformation	1,316,601
Transferred into inventory upon harvest	 (3,997,154)
Balance, March 31, 2022	\$ 1,192,944

The fair value less costs to sell of biological assets is determined using a market approach where the fair value at the point of harvest is estimated based on spot prices of wholesale cannabis less post-harvest costs and costs to sell. For in process biological assets, the estimated fair value at point of harvest is attributed based on the plants' stage of growth. Stage of growth is determined by reference to days remaining to harvest over average growth cycle.

The following key inputs are used in determining the fair value of biological assets:

- Average selling price per gram third-party cannabis spot price for wholesale cannabis.
- Average yield per plant the number of grams a finished cannabis inventory which are expected to be derived from each harvested cannabis plant.
- Wastage of plants based on their various stages of growth represents the weighted average percentage of biological assets which are expected to fail to mature into cannabis plants that can be harvested.
- Post-harvest costs calculated as the cost per gram of harvested cannabis to complete the sale of cannabis plants post-harvest; and
- Stage of completion in the cultivation process calculated by taking the weighted average number of weeks in productions over a total average grow cycle of approximately 15 weeks.

Significant unobservable inputs	March 31, 2022	
Average selling price per gram of flower	\$	3.53
Weighted average yield of flower per plant (in grams)	\$	46.88
Effect on fair value		
Sensitivity		March 31, 2022

Increase or decrease by \$0.10 per gram	\$	24,332
Increase or decrease of yield by 10%	\$	80,117
The company estimated the harvest yields for the cannabis plants at vi	arious stages of growth at	each reporting date

The company estimated the harvest yields for the cannabis plants at various stages of growth at each reporting date as follows:

	March 31, 2022
Total expected yield (in grams)	1,520,032

The company's estimates are, by nature, subject to change and differences from the anticipated yield will be reflected in the gain or loss on biological assets in future periods.

The effect of changes in the fair value of biological assets and inventory during the three months ended March 31, 2022:

	March 31, 2022
Unrealized change in fair value of biological assets	\$ 1,316,601
Realized change in fair value of inventory sold in the period	 (100,449)
Net effect of changes in fair value of biological assets and inventory	\$ 1,216,152

Notes to Condensed Consolidated Interim Financial Statements March 31, 2022 (Expressed in U.S. Dollars)

#### 11. BIOLOGICAL ASSETS (CONTINUED...)

As at March 31, 2022, the Company had 8,994 plants in cultivation with 2,144 plants greater than 80% grown; 2,320 plants between 60% and 80% grown; and 4,530 plants less than 60% grown. Expected yields of flower and trim per plant were established and extended to the plants currently under cultivation based upon their percent complete. A standard wastage factor is applied to arrive at the net value of the plants.

#### 20. SHARE CAPITAL

#### (a) Share Capital

The Company is authorized to issue the following shares:

- Unlimited subordinated voting common shares ("Subordinated Voting Shares" or "Common Shares") without par value; and
- Unlimited super voting shares with multiple voting rights ("Multiple Voting Shares"), each convertible into 100 Subordinated Voting Shares.

Period ended March 31, 2022:

- During the period ended March 31, 2022, 369,500 warrants were exercised at \$0.36 (CAD\$0.45) for a total of USD\$129,845; (CAD\$166,275).
- During the period ended March 31, 2022, 8,333 RSUs were exercised into 8,333 Subordinated Voting Shares, for a total value of \$7,901.
- On January 11, 2022, 2,931 Multiple Voting Shares were converted into 293,100 Subordinated Voting Shares.

Fiscal year ended December 31, 2021:

• On February 8, 2021, the Company closed a public offering of 18,515,000 units of the Company (the "Units") at a price of \$0.89 (CAD\$1.12) per Unit for aggregate gross proceeds of \$16,259,725 (CAD\$20,736,800) (the "Offering"). Each Unit is comprised of one Subordinated Voting Share and one-half of one share purchase warrant (each whole warrant, a "Warrant"). Each Warrant entitles the holder to purchase one Subordinated Voting Share at an exercise price of \$1.11 (CAD\$1.40) until February 8, 2024. As compensation, the Company paid to the Agents a cash fee of \$1,121,767 (CAD\$1,420,138) and issued to the Agents an aggregate of 1,357,980 share purchase warrants (the "Agents' Warrants"). Each Agents' Warrant entitles the holder thereof to purchase one Subordinated Voting Share at an exercise price of \$0.89 (CAD\$1.12) per Subordinated Voting Share until February 8, 2024. The Agents' warrants were valued at \$957,786 (CAD\$1,212,540) using the Black-Scholes Option Pricing Model with the following assumption at the issue date: risk free interest rate of 0.24%; dividend yield of 0%; expected volatility of 94.12% and expected life of three years.

In addition, the Company closed a concurrent non-brokered private placement of 1,395,000 units (the "Units") at a price of \$0.89 (CAD\$1.12) per Unit for a total of \$1,225,078 (CAD\$1,562,400) (the "Concurrent Private Placement"). Each Unit is comprised of one Subordinated Voting Share and one-half of one share purchase warrant (each whole warrant, a "Warrant"). Each Warrant entitles the holder to purchase one Subordinated Voting Share at an exercise price of \$1.11 (CAD\$1.40) until February 8, 2024.

The fair values of the Warrants issued pursuant to the Offering and Concurrent Private Placement have been estimated at the issue date using the residual method valuation. Given the market price of the Company's Subordinated Voting Shares on the date of closing of the Offering and Concurrent Private Placements was in excess of the unit offering price, the residual value assigned to the Warrants is \$nil.

In addition to the amounts above, a further \$456,409 was incurred in share issuance costs for the above transactions.

During the fiscal year ended December 31, 2021, 980,210 warrants, 478,700 warrants and 979,933 warrants were exercised at \$0.50 (CAD\$0.64), \$0.36 (CAD\$0.45) and \$0.29 (CAD\$0.36) respectively for a total of \$945,230 (CAD\$1,195,525). In relation to the exercise of the 980,210 warrants, and 979,933 warrants, the proportionate fair value of \$355,422 (CAD\$449,116) and \$183,424 (CAD\$231,362) respectively was relieved from reserves.

#### 20. SHARED CAPITAL (CONTINUED...)

#### (d) Restricted Share Units

The Company approved the implementation of a restricted share units (the "RSU") plan on November 12, 2020, which RSU is designed to provide certain directors, officers, consultants and other key employees of the Company and its related entities with the opportunity to acquire restricted share of the Company. RSUs may be exercised by any holder of RSU to receive an award payout of either: (a) Subordinated Voting Share of the Company for each whole vested RSU; or (b) a cash amount equal to the defined date value of such vested RSU.

The Company uses the fair value method to recognize the obligation and compensation expense associated with the RSUs. The fair value of RSUs issued is determined on the grant date based on the market price of the Subordinated Voting Share on the grant date multiplied by the number of RSUs granted and taking into account market conditions. The fair value is expensed over the vesting term. Upon conversion of the RSU, the carrying amount is recorded as an increase in common share capital and a reduction in the RSU reserve.

On January 6, 2021, the Company granted 140,000 RSUs to employees of the Company, in which one-third can be exercised into Subordinated Voting Shares on January 1, 2022, 2023, and 2024. The RSUs will expire on January 6, 2024 and during the fiscal year ended December 31, 2021, 30,000 RSUs were cancelled. During the period ended March 31, 2022, 8,333 RSUs were exercised into 8,333 Subordinated Voting Shares, for total value of \$7,901, and 16,667 RSUs were cancelled.

On February 23, 2022, the Company granted a total of 331,025 RSUs to a Director and an employee of the Company, in which 250,000 RSUs can be exercised into Subordinated Voting Shares every three months starting from February 11, 2022 and expires on February 11, 2024 and 81,025 RSUs can be exercised into Subordinated Voting Shares on February 23, 2023 and expires on February 23, 2023.

As at March 31, 2022, the Company recognized \$32,823 as share based compensation and 416,025 RSUs are issued and outstanding.

#### (e) Special Advisory Warrants

On May 13, 2019, the Company granted 1,000,000 special advisory warrants (the "Advisory Warrants") to consultants of the Company. The Advisory Warrants are exercisable at CAD\$1.00 and expire on December 31, 2024. The fair value of the Advisory Warrants was calculated to be CAD\$0.82 per warrant. The Company used the Black-Scholes Option Pricing Model to estimate the fair value of the Advisory Warrants using the following assumptions: risk free interest rate of 1.54%; dividend yield of 0%; expected volatility of 111.51%; and expected life of 5.5 years.

During the fiscal year ended December 31, 2021, 465,000 Advisory Warrants were changed from vesting to fully vested and all terms remained the same. The Company recorded \$3,494 as share-based compensation during the period ended March 31, 2022 for the Advisory Warrants vested.

#### (f) Escrow Securities

As at March 31, 2022, the Company had 235,331 Subordinated Voting Shares (2021 - 275,831), 93,794 Multiple Voting Shares (2021 - 93,794), and 22,500 stock options (2021 - 22,500) held in escrow.

Notes to Condensed Consolidated Interim Financial Statements March 31, 2022 (Expressed in U.S. Dollars)

#### 21. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to support the growth and development of its operations and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes its components of equity.

The Company manages the capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets.

In order to maximize ongoing development efforts, the Company does not pay out dividends. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the relative size of the Company.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the year.

#### 23. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The fair value of the Company's accounts receivable, short-term notes receivable, advances to joint operation, deposits and other receivables, payables, approximate their carrying value, due to their short-term nature. The fair value of other financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions.

The Company's cash and investment are measured at fair value under the fair value hierarchy based on level 1 quoted prices in active markets for identical assets and liabilities.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk, price risk, and currency risk.

#### Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The Company is subject to credit risk on its receivables. As at March 31, 2022, 80 wholesale business customers were responsible for the \$3,429,760 outstanding receivable balance. The Company is of the opinion that it is not exposed to significant credit risk from these customers as at March 31, 2022 as it continues to routinely collect accounts receivable.

The Company has no investments in asset-backed commercial paper.

Notes to Condensed Consolidated Interim Financial Statements March 31, 2022 (Expressed in U.S. Dollars)

#### 23. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (CONTINUED...)

The Company records an allowance for doubtful accounts related to accounts receivable that are considered to be non-collectible. The allowance is based on the Company's knowledge of the financial condition of its customer, current business environment, customer and industry concentrations, and historical experience. To reduce credit risk, cash is only held at major financial institutions.

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk through its capital management as outlined in Note 21. As at March 31, 2022, the Company had cash, accounts receivable and short-term notes receivable of \$13,522,504 to settle its current liabilities of \$14,887,537. Management believes the Company has sufficient funds to support ongoing operating expenditures and meet its liabilities as they fall due.

#### Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity and equity prices, and foreign exchange rates.

#### a) Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company does not hold any financial instruments with variable interest rates, and as a result, is subject to insignificant interest rate risk.

#### b) Price risk

The Company is not exposed to significant price risk as it does not hold investments in publicly traded securities.

#### (c) Currency risk

The Company's expenditures are predominantly in U.S. dollars, and any future equity raised is expected to be predominantly in Canadian dollars. As at March 31, 2022, the Company had \$85,875 in financial assets denominated in Canadian dollars. A 10% change in the foreign exchange rate between the U.S. dollar and the Canadian dollar would have an \$8,588 effect on the Company at this time.

#### 24. CONTINGENCIES

As part of the acquisition of RDF and Firebrand, the Company agreed to assist in settling and fund the following lawsuits that were against RDF:

- a) RDF was named as a defendant in a lawsuit in the Yavapai County Superior Court. The plaintiff alleged that he is an owner of RDF, and other entities. The Company and the plaintiff have agreed to resolve all claims and causes of action related to the lawsuit. During the year, the Company settled the claim for \$340,000 on behalf of RDF and the case was dismissed.
- b) RDF was named as a defendant in a lawsuit in Superior Court of Arizona, County of Pima for certain loan agreement and promissory note. The Company and the plaintiff have agreed to resolve all claims

#### 24. CONTINGENCIES (CONTINUED...)

and causes of action related to the lawsuit and settled the claim for \$425,000 on behalf of RDF. During the year, the Company paid \$200,000 for the settlement and the Company entered a secured promissory note with the defendant for the remainder \$225,000 with nil interest rate and due on October 10, 2021. As at December 31, 2021 this obligation has been settled and paid in full for a total of \$425,000.

- As at December 31, 2021 RDF was named as a defendant in a lawsuit in Yavapai County Superior Court, for certain loan agreement and promissory note with a total due of \$340,000. At December 31,2021 the Company has paid on behalf of RDF from the legal settlement allowance a total of \$200,000. The Company and the plaintiff have agreed to resolve all claims and causes of action related to the lawsuit and settled the claim for a balance \$69,786 as of April 1, 2022 to be paid May 1, 2022.
- d) As at December 31, 2021 RDF was named as a defendant in a lawsuit in Maricopa County Superior Court, for certain loan agreement and promissory note. The Company and the plaintiff have agreed to resolve all claims and causes of action related to the lawsuit and settled the claim for the balance of \$250,000 which was paid on March 1, 2022.

#### 25. SUBSEQUENT EVENTS

• On April 18, 2022, the Company announced the resignation of Vahan Ajamian and appointment of Daniel Engel, CPA as CFO & Corporate Secretary effective May 02, 2022.
