**About Geologica Resource Corp.**

Geologica Resource Corp. is a mineral explorer, focused on exploration of copper and critical minerals for electrification. Geologica’s Topley Copper Project is located with excellent infrastructure in the Babine Porphyry Belt of central British Columbia (the “**BPB**”). The BPB is a very active area with major miners investing in junior explorers. The company recently acquired the Titan rare critical minerals/copper/gold and Lincoln copper/gold property in the Atlin camp. Atlin is an under explored area with many operating and past producing precious and base metal mines.
