# The Green Organic Dutchman Hosts Analyst Site Visit at Hamilton and Valleyfield Facilities

- Opportunity to witness the cutting-edge engineering and technology that went into building TGOD's facilities and see how the Company quickly scales organic production to be the global certified organic leader
- Taking participants behind the scenes of what will be the world's largest organic cannabis cultivation facility (Valleyfield site) as the first phase nears completion
- Product portfolio finalized in time for legalization 2.0; participants will have the opportunity to sample non-infused beverage formulations

**Toronto, ON, September 19, 2019** - The Green Organic Dutchman Holdings Ltd. (the "Company" or "TGOD") (TSX:TGOD) (US:TGODF), a leading producer of premium certified organic cannabis, is pleased to announce that it is hosting site visits for analysts at its Hamilton and Valleyfield facilities on September 19-20. Beyond construction timelines, for the first time the Company is sharing Canadian production ramp-up and other updates which are available on TGOD's website at <u>www.tgod.ca</u>.

"We are doing something no other producer has done before, growing premium certified organic cannabis at scale. By leveraging our proprietary growing methods, purpose-built facilities and industry-leading horticultural team, we are creating a wide economic moat within the premium organic segment," commented Brian Athaide, CEO of TGOD. "We are extremely proud to showcase the hard work that went into designing and building these state-of-the-art facilities as well as our cannabis 2.0 portfolio."

# Highlights

- Approximately 25 analysts from Canada and the United States participating.
- Growing team will showcase TGOD's grow differentiation and proprietary horticultural practices.
- Tour includes walk through of TGOD's purpose-built facilities designed specifically for certified organic cannabis cultivation.
- Hamilton hybrid greenhouse now completed; all rooms licensed by Health Canada, bringing total annual production capacity for the site to 17,500 kg.
- Valleyfield first phase on track to be completed in Q4 with the first harvest in early 2020, taking annual production capacity for the site to 65,000 kg.
- Cannabis 2.0 portfolio unveiling, including non-infused beverage formulations sampling.
- Large scale cultivation combined with premium pricing will generate industry-leading margins.

## About The Green Organic Dutchman Holdings Ltd.

The Green Organic Dutchman Holdings Ltd. (TSX: TGOD) (US-OTC: TGODF) is a publicly traded, premium global organic cannabis company, with operations focused on medical cannabis markets in Canada, Europe, the Caribbean and Latin America, as well as the Canadian adult-use market. TGOD also has organic hemp CBD oil operations in Canada, and through its wholly owned subsidiary HemPoland distributes premium hemp CBD oil in the EU. The Company grows high quality, certified organic cannabis with sustainable, all-natural principles. TGOD's products are laboratory tested to ensure patients have access to a standardized, safe and consistent product. TGOD has a planned capacity of 219,000 kgs and is building 1,643,600 sq. ft. of cultivation and processing facilities across Ontario, Quebec, Jamaica and Denmark.

TGOD's Common Shares and warrants issued under the indenture dated November 1, 2017 trade on the TSX under the symbol "TGOD" and "TGOD.WT", respectively.
