NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Pursuant to National Instrument 51-102, Part 4, subsection 4.3(3)(a) issued by the Canadian Securities Administrators, if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of the Company for the interim periods ended December 31, 2021 and 2020 have been prepared in accordance with international accounting standards for interim financial reporting under IAS 34. The accompanying unaudited condensed interim consolidated financial statements are the responsibility of the Company's management.

The Company's independent auditors, Guimond Lavallée, Chartered Accountants, have not performed a review of these interim financial statements in accordance with the standards established for a review of condensed interim financial statements by an entity's auditor.

March 1, 2022

/s/ Mark Billings
President

The accompanying notes form an integral part of the consolidated financial statements.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

1. GENERAL INFORMATION AND NATURE OF OPERATIONS

Auxico Resources Canada Inc. (“Auxico” or the “Company”) was incorporated under the Canada Business Corporation Act on April 16, 2014.

Auxico has three subsidiaries, Auxico Resources S.A. de C.V., incorporated under the laws of Mexico on June 16, 2011, C.I. Auxico de Colombia S.A., incorporated under the laws of Colombia on April 9, 2019 and Minera Auxico Bolivia S.A., incorporated under the laws of Bolivia on December 8, 2021.

Auxico is a mineral exploration company with silver-gold properties in the state of Sinaloa, Mexico. The Company is also actively engaged in exploration mining opportunities in Colombia, in Democratic Republic of Congo (“DRC”) as well as Brazil and Bolivia.

The Company’s head office and primary place of business is located at 500-201 Notre-Dame Street West, Montréal, Québec, H2Y 1T4, Canada.

2. GOING CONCERN

The business of mining exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company’s continued existence is dependent upon the preservation of its interest in its mining properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability to raise alternative financing, if necessary, or alternatively upon the Company’s ability to dispose of its interests on an advantageous basis. Although the Company has taken steps to verify the title to the properties on which it is conducting exploration and has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, aboriginal claims and non-compliance with regulatory requirements.

Several adverse conditions and events cast substantial doubt upon the validity of this assumption. For the three-month period ended December 31, 2021, the Company did not generate revenues (December 31, 2020 - \$Nil) from its operations, it recorded a net comprehensive loss of \$251,649 (December 31, 2020 - loss of \$5,857,656) and a deficit of \$41,059,472 (September 30, 2021 - deficit of \$40,807,866). Its ability to continue as a going concern is uncertain and is dependent upon its ability to fund its working capital, complete the development of its explorations, and eventually to generate positive cash flows from operations. Management plans to explore all alternatives possible, including joint ventures, debt and equity financings, and merger opportunities. In that regard, the Company has created a joint venture in the Democratic Republic of the Congo (“DRC”) for the supply of tantalite. The Company has also entered into agreements with Brazilian suppliers to purchase a quantity of columbite. In addition, the Company signed an agreement with an entity in Colombia that will lead to a joint venture for the production of rare earth elements.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a global pandemic, which continues to spread in Canada and around the world. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services for some periods have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility. During his recent fiscal year, the Company purchased material as inventory and made advances to other companies for material to be delivered; this includes manganese, columbite and tantalite. The Company’s management expects that this material will be sold in the upcoming months and enable the Company to increase significantly its revenues. In addition, the easing of the COVID-19 pandemic restrictions will free up the ports in Brazil, which have either been closed or subject to serious backlogs since the beginning of the pandemic. These factors should have a material positive impact on the commodities trading business.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

3. BASIS OF PREPARATION

Statement of compliance

These interim consolidated financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), considering the accounting policies adopted by the Company for its consolidated audited financial statements for the year ended September 30, 2021.

The accounting policies have been applied consistently for all the periods presented. They do not include all the information required by the IFRS for annual financial statements and should be read in conjunction with the annual audited consolidated financial statements for the year ended September 30, 2021. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these condensed interim consolidated financial statements. Operating results for the three-month period ended December 31, 2021 may not be indicative of the results that may be expected for the year ending September 30, 2022.

These condensed interim consolidated financial statements were approved and authorized for issuance by the Company’s Board of Directors on March 1, 2022.

Basis of measurement

The condensed interim consolidated financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified for specific financial instruments carried at fair value where applicable.

Basis of consolidation

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has the right to, variable returns from its involvement with the entity and has the ability to affect those through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries are aligned with the policies adopted by the Company. The Company’s subsidiaries are:

	2021	2020
Auxico Resources S.A. de C.V. (« Auxico Mexico »)	100%	100%
C.I. Auxico de Colombia S.A (« Auxico Colombia »)	96%	96%
Minera Auxico Bolivia S.A (« Auxico Bolivia »)	100%	

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the consolidated financial statements.

Non-controlling interests represent equity interests in the subsidiary owned by outside parties. The share of net assets of the subsidiary attributable to non-controlling interests is presented as a component of equity. Their share of net loss and comprehensive loss is recognized directly in equity.

Operating segments are reported in a manner consistent with the internal reporting of the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing the performance of the operating segments, has been identified as the management team, which makes strategic decisions.

Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is the Company’s functional and presentation currency.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

4. SIGNIFICANT ACCOUNTING POLICIES

Readers should refer to the September 30, 2021 annual audited consolidated financial statements for the accounting policies used in the preparation of these interim consolidated financial statements. The IASB (International Accounting Standards Board) continues to amend and add to current IFRS standards and interpretations with several projects underway. Accordingly, the accounting policies adopted by the Company for the Company's IFRS annual consolidated financial statements will be determined as at September 30, 2022. In the event that accounting policies adopted at September 30, 2022 differ materially from the accounting policies used in the preparation of these Financial Statements, these Financial Statements will be restated to retrospectively account for the application of those policies adopted at September 30, 2022.

See annual consolidated financial statements for the year ended September 30, 2021 for a list of accounting policies considered significant by management.

5. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

Future accounting changes

Information on new standards, amendments and interpretations that are expected to be relevant to these interim consolidated financial statements is provided in the Company's annual consolidated financial statements for the year ended September 30, 2021. Certain other amendments and interpretations have been issued but had no material impact on the Company's interim consolidated financial statements ended December 31, 2021.

See annual consolidated financial statements for the years ended September 30, 2021 for a list of accounting pronouncements.

6. RECEIVABLES

As at,	December 31, 2021	September 30, 2021
	\$	\$
Sales tax receivables	282,189	205,656
Subscription receivables	-	11,675
Other receivable ^(a)	37,479	37,479
	319,668	254,810

^(a) The other receivable consists of a prepayment of inventory for which the Company and the supplier agreed on a reimbursement schedule. As of December 31, 2021, the gross amount receivable totals \$39,390 on which a \$1,911 provision was recorded. The provision was estimated based on facts known to the Company for the period ended December 31, 2021.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

7. PREPAID EXPENSES

As at,	December 31, 2021	September 30, 2021
	\$	\$
Inventory prepayment ^(a)	1,200,785	1,200,785
Prepaid to related company ^(b)	500,000	500,000
Deposit on Minastyc property ^(c)	225,090	225,090
Deposit on Acquisition of Americanbol ^(d)	53,975	-
Deposit on Agualinda property ^(e)	53,030	-
Deposit on acquisition of Luz Angelica Concession ^(f)	8,971	-
Other prepaids	199,415	121,085
	2,241,266	2,046,960
Current portion	1,741,266	1,546,960
Long-term portion	500,000	500,000

(a) Inventory prepayment

According to the term of contracts with its suppliers, these prepayments do not qualify as inventory as per IAS 2. However, they will eventually transfer to inventory and the Company measured these prepayments at the lower of the cost and net realizable value. The net realizable value of some of the inventory prepayments had a net realizable value inferior to their cost and this resulted in a provision of \$116,000. This provision was recorded in the consolidated statement of loss and comprehensive loss under cost of sales.

(b) Prepaid to related company

On July 28, 2021, the Company signed an agreement with a related company to use the license developed by the related company for a period of 10 years. The Company had to pay a deposit of \$500,000 that will be apply against future license royalties. Both parties agreed that the royalty will represent 2% on all gross revenues on all the sales derived from the projects of a metal production using the licensed technology. Management does not expect to use this license for the upcoming year.

(c) Deposit on Minastyc property

On December 14, 2020, the Company signed an agreement to purchase a parcel of land in Colombia. As at December 31, 2021, the Company paid a total deposit of \$225,090. However, the transfer of property of the land has not been completed at the date of those financial statements. The Company has a commitment of \$49,635 as of December 31, 2021 to complete the purchase of that land.

(d) Deposit on acquisition of Americanbol

On December 4, 2021, the Company signed a contract with Michel Goncalves Pacheco and Angelica Martinez Flores, the principal shareholders of Americanbol. Under the terms of this agreement, the Company agreed to buy 99% of the common shares of Americanbol from Mr. Goncalves and Mrs. Martinez for a total amount of US\$442,500. An initial payment of US\$42,500 (or \$53,975) was made to Mr. Goncalves and Mrs. Martinez upon signature of the agreement. Additional payments are contingent upon the Company's due diligence on Americanbol and the mining assets it has in Bolivia.

(e) Deposit on Agualinda property

On December 8, 2021, the Company announced the acquisition of the surface rights to 1,293 hectares of land titled Agualinda, located in the municipality of Puerto Carreño, in the department of Vichada, Colombia. The land adjoins the Minastyc property, which the Company purchased in December 2020. As per the signed agreement, the Company will pay to the vendors a purchase price of US\$315,000, in addition to a yearly fee in the amount of US\$100,000 for a period of three years following the signing of the agreement. As of December 31, 2021, the Company has made an initial payment of US\$41,100 (or \$53,030).

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

(f) Deposit on acquisition of Luz Angelica concession

On November 3, 2021, the Company signed an MOU with Ronaldo Chavez Serrate concerning the development of the 825-hectare Luz Angelica concession in Bolivia, which has showings of rare earth elements, tantalum and niobium. The Company and Mr. Chavez will form a joint venture if the Company's due diligence on this concession is acceptable to the Company. The Company will retain 70% of the profits generated on this concession by providing all the capital necessary to begin operations; Mr. Chavez will retain the other 30%. As of December 31, 2021, the Company has made an initial payment of US\$7,000 (or \$8,971).

8. INVENTORY

As at,	December 31, 2021	September 30, 2021
	\$	\$
Ore concentrate	126,776	126,776

The cost of inventory recognized as an expense in the consolidated statement of loss and comprehensive loss under cost of sales during the three-month period ended December 31, 2021 was \$Nil (September 30, 2021 - \$583,635). For the year ended September 30, 2021, a write-down of \$26,535 was recorded in the cost of sales.

9. EQUIPMENT

	\$
Equipment - at cost:	
As at October 1, 2021	-
Additions	106,930
As at December 31, 2021	106,930
Depreciation and impairment:	
As at October 1, 2021	-
Depreciation	5,941
As at December 31, 2021	5,941
Net carrying amount as at December 31, 2021	100,989

Equipment is measured at its cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to acquiring the asset and preparing the asset for its intended use. The cost of the equipment is depreciated straight-line over the estimated useful lives being 3 years.

10. FINDER'S FEES PAYABLE

Following the issuance of convertible debentures (note 11), the Company signed a contract on December 30, 2020, with a third party to pay monthly finder's fees until the maturity date of the convertible debentures issued in October 2020. The monthly payment for those finder's fees represents 10% of the total financing under the scope of this contract.

The finder's fees are payable if the investors remain holders of the convertible debentures. As soon as an investor converts their debentures into units of the Company or actions of Central America Nickel, the monthly payment will be adjusted to reflect that conversion. The maturity of this long term-debt is identical to the convertible debentures, which is October 23, 2023.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

At inception, the initial monthly payment was \$23,190, bearing no interest. Under IFRS 9 guidance, the Company determined the initial carrying amount using the discounted fair value and, following initial measurement, the liability will be amortized over the term of maturity using the effective interest rate method. The interest rate used for the calculation of the discounted fair value was 19%. Upon conversion of debentures, the Company derecognizes the associated gross carrying amount of the liability and will be transferred to profit and loss as a “gain on debt settlement”.

For the three-month period ended December 31, 2021 no convertible debentures were converted into units of the Company. For the year ended September 30, 2021, there were \$533,000 worth of convertible debentures converted into units of the Company resulting in a gain of \$98,147 on the long term-debt.

As at,	December 31, 2021	September 30, 2021
	\$	\$

11. CONVERTIBLE DEBENTURES

Issuance – three-month period ended December 31, 2021

For the three-month period ended December 31, 2021 no convertible debentures were issued.

Accounting treatment and evaluation

In accordance with IAS 32, Financial Instruments: Presentation (“IAS 32”), the issuer of a non-derivative financial instrument shall evaluate the terms of the financial instrument to determine whether it contains both a liability and an equity component. In application of this standard, the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument.

At the issuance of the debentures, the Company determined that the conversion options as well as the participating feature constitute an embedded derivative financial instrument. Upon a conversion into units of the Company, the carrying amount of the host debt instrument recorded at amortized cost and the fair value of the related embedded derivative will be transferred to equity. Upon a conversion into common shares of CAN, the carrying amount of the host debt instrument and the fair value of the related embedded derivative will be transferred to profit and loss.

The convertible debentures are a hybrid instrument, which are in their entirety regarded as a financial liability. The initial carrying amount for the debt host issued in October 2020 was valued at \$1,624,355 and represents the residual debt instrument. The Company determined the initial carrying amount using the discounted fair value of the debt host and, following initial measurement, the host component will be amortized over the term of maturity using the effective interest rate method. The interest rate used for the calculation of the discounted fair value was 19%. Any directly attributable transaction costs are allocated to the host and derivative components in proportion to their initial carrying amounts.

At the date of these consolidated financial statements, the Company reviewed the estimated fair value of the conversion options and adjusted the initial fair value to \$24,377,131 (September 30, 2021 - \$25,648,406) using the same valuation technique. The fair value of the Conversion Options was estimated using Monte Carlo simulation (using the Black-Scholes framework). Monte Carlo simulation is a procedure for randomly sampling changes in market variables in order to value derivatives. For the three-month period ended December 31, 2021, the change in fair value of derivatives resulted in a decrease of expense of \$1,271,274 (September 30, 2021 increase of \$23,734,924) and was recorded in the consolidated statements of loss and comprehensive loss.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

	Host Component Component \$	Embedded Derivatives \$	Total \$
Balance as at September 30, 2020 ^(a)	1,381,143	2,443,590	3,824,733
Initial proceeds - October's issuance	2,788,000	-	2,788,000
Fair value adjustment at inception	(1,163,645)	2,098,843	935,198
Transaction costs allocated to host component	(426,402)	-	(426,402)
Accretion ^(b)	475,643	-	475,643
Conversion into units of the Company	(515,098)	(2,628,951)	(3,144,049)
Change in fair value of the derivative	-	23,734,924	23,734,924
Balance as at September 30, 2021	2,539,641	25,648,406	28,188,047
Accretion ^(b)	79,739	-	79,739
Change in fair value of the derivative	-	(1,271,274)	(1,271,274)
Balance as at December 31, 2021	2,619,380	24,377,132	26,996,512
Current portion ^(c)	-	66,232	66,232
Long-term portion	2,619,380	24,310,900	26,930,280

^(a) The Company reviewed the classification of the participating feature during the year ended September 30, 2021. There was an error of presentation in the consolidated financial statements for the year ended September 30, 2020. The participating feature was valued at \$803,830 and was previously presented under the host component and was evaluated at amortized cost. Following the reclassification, the participating feature is now presented under the embedded derivatives in the opening balance and is now evaluated at fair value. There was no material difference between the amortized cost and the fair value as at September 30, 2020. Therefore, no restatement was needed.

^(b) The amortization of transaction costs was presented as an expense with the accreted expenses and was recorded in the consolidated statements of loss and comprehensive loss.

^(c) For the three-month period ended December 31, 2021, the Company estimated the current portion of the debentures payable for an amount of \$66,232, which represent payments for the participating feature.

As at December 31, 2021, the debentures have a nominal value of \$3,650,000 (September 30, 2021 - \$3,650,000)

12. SHARE CAPITAL

Authorized share capital

The Company has authorized an unlimited number of common shares without par value and an unlimited number of preferred shares without par value. As at December 31, 2021, there were 65,704,000 (65,014,000 as at September 30, 2021) issued and fully paid common shares.

Issuances through private placement or conversion of debentures

There was no private placement or conversion of debentures during the three-month period ended December 31, 2021.

Issuance through exercise of options and warrants

During the three-month period ended December 31, 2021, the Company issued 150,000 common shares of the capital of the Company following the exercise of 150,000 options in exchange of \$37,500. The options exercised had an exercise price of \$0.25. Following the exercise of those options, \$27,307 was reclassified from contributed surplus to share capital.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

During the three-month period ended December 31, 2021, the Company issued 540,000 common shares of the capital of the Company following the exercise of 540,000 warrants in exchange of \$125,000. The warrants exercised had an exercise price of \$0.15 for 440,000 warrants and \$0.25 for 100,000 warrants. Following the exercise of those warrants, \$185,064 was reclassified from warrants reserve to share capital.

Warrants

Issuance of warrants

There was no issuance of warrants during the three-month period ended December 31, 2021.

Changes in the number of warrants outstanding for the period are as follows:

	Warrants #	Weighted average exercise price \$
Balance - September 30, 2020	3,279,100	0.40
Issued	10,562,000	0.57
Exercised	(4,300,000)	0.28
Expired	(1,362,500)	0.40
Balance - September 30, 2021	8,178,600	0.68
Exercised	(440,000)	0.25
Exercised	(100,000)	0.15
Balance - September 30, 2021	7,638,600	0.71

The following table summarizes the information on outstanding warrants as at:

Exercise price	Number outstanding and exercisable	Weighted average remaining contractual life (years)	Expiry
\$0.25	16,600	0.67	August 2022
\$0.15	200,000	2.00	December 2023
\$1.00	4,872,000	2.08	September 2024
\$0.15	400,000	2.50	June 2024
\$0.25	1,650,000	2.61	July 2024
\$0.15	500,000	2.67	August 2024

Stock options

In 2017, the Board of Directors of the Company adopted an incentive stock option plan (the "Plan"), for the benefit of employees, consultants, officers and directors. The Plan allows the Company to issue stock options up to a maximum of 10% of the issued and outstanding shares of the Company at the date of grant. The exercise price payable for each option is determined by the Board of Directors at the date of grant, and may not be less than the closing market price during the trading day immediately preceding the date of the grant of the options on the Exchange, for a minimum amount of \$0.10 per option. The vesting period and expiry date are determined by the Board of Directors for each vesting.

On November 24, 2021, the Board of Directors issued 450,000 stock options to consultants of the Company. These stock options have a strike price of \$1.39, no vesting period and expire in 5 years. The fair value of the options was estimated at \$0.796 per option at the grant date for a total of \$358,110 using the Black-Scholes option pricing-model with the following assumptions: risk-free interest rate of 1.235%, expected volatility of 99 % and expected option life of five years.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

Changes in the number of options outstanding for the period are as follows:

	Options #	Weighted average exercise price \$
Balance - September 30, 2020	4,475,000	0.27
Issued	2,585,000	0.76
Exercised	(895,000)	0.27
Cancelled	(625,000)	0.18
Balance - September 30, 2021	5,540,000	0.49
Issued	450,000	1.39
Exercised	(150,000)	0.25
Expired	(500,000)	0.75
Cancelled	(150,000)	0.105
Balance - December 31, 2021	5,190,000	0.56

During the three-month period ended December 31, 2021, the issuance of stock options resulted in a recognition of an expense by the Company of \$358,110 (September 30, 2021 - \$1,202,836).

The following table summarizes the information on outstanding and exercisable options at

Exercise price	Number outstanding and exercisable	Weighted average remaining contractual life (years)	Expiry
\$0,25	1,155,000	0.11	February 2022
\$0,25	300,000	0.81	October 2022
\$0,40	200,000	1.20	March 2023
\$0,25	100,000	1.64	August 2023
\$0,25	500,000	2.24	March 2024

\$1,39	450,000	4.90	November 2026

13. LOSS PER SHARE

Basic EPS

Basic EPS is computed by dividing net loss for a year by the weighted average number of common shares outstanding during that year.

Diluted EPS

Diluted EPS is computed by dividing net loss for a year by the diluted number of common shares. Diluted common shares includes the effects of instruments, such as share options, which could cause the number of common shares outstanding to increase. The Company reported net losses for the periods ended December 31, 2021, and 2020. The Company has accordingly presented basic and diluted EPS, which are the same, on a single line in the consolidated statements of loss and comprehensive loss.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

14. SEGMENTATION INFORMATION

The Company operates in one reportable operating segment, being the acquisition and exploration of mineral property interests and in five geographical segments, Canada, Mexico, Colombia, DRC, Brazil and Bolivia. The total assets and the capital assets identifiable with these geographic areas are as follows:

	For the period ended,		
	December 31, 2021	September 30, 2021	September 30, 2020
	\$	\$	\$

Bolivia	-	36,824	-
Net loss and comprehensive loss	251,649	30,702,087	3,190,814

15. CAPITAL MANAGEMENT

The Company considers its capital structure to include net residual equity of all assets, less liabilities. The Company currently manages its capital structure and makes adjustments to it, based on cash resources expected to be available to the Company, in order to support the planned exploration and development of mineral property interests. Management has not established a quantitative capital structure. Capital needs are reviewed on a regular basis by management relative to the stage of development of the business entity.

The Company currently is dependent on externally provided equity financing to fund its future exploration activities. In order to carry out planned exploration and development and fund administrative costs, the Company will allocate its existing capital and plans to raise additional amounts as needed through equity and related party advances if available.

The Company and its subsidiaries are not subject to any capital requirements imposed by a lending institution or regulatory body. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable, given the relative size of the Company, the current state of the markets and exploration industry. There were no changes in the Company's approach to capital management during the years.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

The Company's capital items are the following:

For the period ended,	December 31, 2021	September 30, 2021
	\$	\$
Cash & cash equivalents	1,238,420	2,563,533
Advance to directors	-	3,098
Advance to companies controlled by a director	11,675	-
Due to directors	-	3,883
Due to companies controlled by directors	736	12,733
Share capital	12,577,067	12,202,196

16. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

As at December 31, 2021, the Company's financial instruments include cash and cash equivalents, accounts receivable, inventories advance to directors, advance to companies controlled by a director, advance to a joint venture, accounts payable and accruals, due to directors, due to companies controlled by directors and the convertible debentures – host component, for which there are no differences in the carrying values and fair values, due to their short-term nature. The types of risk exposures are detailed in Note 16 of the audited consolidated financial statements for the year ended September 30, 2021.

The Company's activities expose it to a variety of financial risks: market risk (including currency risk and cash flows and fair value interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of the financial market and seeks to minimize potential adverse effects on the Company's financial performance. The Company does not use derivative financial instruments to hedge these risks.

Market risk

Foreign exchange risk: Foreign exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. A portion of the Company's financial assets is denominated in United States dollars, in Mexican Pesos and in Colombian Pesos. Consequently, certain financial assets are exposed to exchange fluctuations. Most of the Company's operations are conducted in Canadian dollars. The Company does not hold derivative financial instruments to manage the fluctuation of exchange rate risk. The financial assets denominated in United States dollars and in Mexican Pesos, translated into Canadian dollars at the closing rate, which expose the Company to exchange risk are:

As at,	December 31, 2021	September 30, 2021
	\$	\$
Cash & cash equivalents (United States)	274,000	741,067
Cash & cash equivalents (Mexico)	12,639	23,949
Receivables (United States)	37,479	37,479
Account payables and accruals (United States)	(106,567)	(106,567)
Account payables and accruals (Mexico)	(40,474)	(46,252)

A 10% change in the exchange rate would not have a significant impact.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

i) Fair value interest rate risk:

Interest rate risk is defined as the risk that the fair value or future cash flows of a financial instrument held by the Company will fluctuate, because of changes in interest rates. The Company's financial liabilities other than current liabilities, are comprised of medium to long-term fixed interest rate debt.

Cash & cash equivalents	Fixed interest rates
Advance to directors	Non-interest bearing
Advance to companies controlled by a director	Non-interest bearing
Accounts payables and accruals	Non-interest bearing
Due to companies controlled by a director	Non-interest bearing
Due to directors	Non-interest bearing
Convertible debentures	Fixed interest rates

If the variable interest rates had increased by 1% during the three-month period ended December 31, 2021, the Company's net loss would have increased by approximately \$7,736.

ii) Commodity price risk:

While the value of the Company's core mineral resource is related to the price of precious metals, the Company currently does not have any operating mines and hence does not have any hedging or other commodity-based risks in respect of its operational activities. Precious metal prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial and retail demand, central bank lending, forward sales by producers and speculators, levels of worldwide production, short-term changes in supply and demand because of speculative hedging activities, and certain other factors. Adverse movements in the prices of precious metals may also negatively impact the Company's ability to raise capital and meet its financial commitments.

Credit risk

Credit risk arises from cash with banks and financial institutions. The Company reduces this risk by dealing with creditworthy financial institutions. Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is subject to concentrations of credit risk through cash and cash equivalents.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuance. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. At December 31, 2021, the Company has a working capital of \$2,785,237 (September 30, 2021 - \$3,847,383). The following are the contractual maturities of the financial liabilities' amounts:

December 31, 2021	Less than		
	1 year	1 to 5 years	> 5 years
	\$	\$	\$
Accounts payable and accruals	356,302	-	-
Due to companies controlled by a director	736	-	-
Finder's fees payable	224,988	121,018	-
Convertible debentures - Host component	-	3,650,000	-
Convertible debentures - Embedded derivative	66,232	24,377,132	-

(Unaudited, expressed in Canadian Dollars)

17. RELATED PARTY TRANSACTIONS

The Company's related parties include an entity with significant influence, companies controlled by a director as well as key management personnel and director. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash. All balances of advances receivables and advances payable are measured at fair value and occurred in the normal course of business. Transactions with related parties for the period ended December 31, 2021 were as follows:

For three-month periods ended,	December 31, 2021	December 31, 2020
	\$	\$
Management fees		
Company controlled by a director	60,000	60,000
Key management personnel and director	30,000	30,000
Rent		
Company controlled by a Director	9,000	9,000
Consulting fees		
Company controlled by a director	-	30,000

Amounts payable to related parties included in the non-current liabilities and in the accounts payable and accrued liabilities were as follows:

		Amounts owed by related parties	Amounts owed to related parties
		\$	\$
Key management personnel and directors	December 31, 2021	-	12,023
	September 30, 2021	3,098	3,883
Companies controlled by a director	December 31, 2021	-	-
	September 30, 2021	-	12,733

The dues and advances to directors are unsecured, payable on demand and bears no interest. The dues and advances to companies controlled by a director unsecured, payable on demand and bears no interest.

18. EXPLORATION AND EVALUATION EXPENDITURES

	Geology and prospection	Mining claims	Total E&E Expenditures
	\$	\$	\$

Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

19. COMMITMENTS

Net Smelter Return Royalty ("NSRR")

The Company has a 100% undivided interest in the Zamora Property, pursuant to an assignment agreement signed on July 17, 2013 involving two vendors and Auxico Mexico. As per the terms of this agreement, the Zamora Property is subject to a 2% NSRR from proceeds of first-hand sale of products proceed from the mining concessions on commencement of commercial production. Half of this NSRR can be purchased by the Company at any time for US \$500,000.

Farm-out Agreement

Pursuant to the Farm-out Agreement signed on June 13, 2013, the consideration received of US \$300,000 is repayable on a quarterly basis starting sixty days after the start of the production of gold from the Zamora Property. The quarterly payments shall be equal to 7.5% of the net profits (after taxes) for each tranche of \$100,000 lent by the Lender (75% for a consideration of US \$1,000,000) until full repayment of the consideration.

After the consideration is fully repaid, the Lender will be entitled to receive, on a quarterly basis, an amount equal to 5% of the net profits (after taxes) for each tranche of \$100,000 lent by the Lender (50% for a consideration of US \$1,000,000) until an amount equal to three times the amount of the consideration is received by the Lender. After, the Lender will be entitled to receive, on a quarterly basis, an amount equal to 2.5% of the net profits (after taxes) for each tranche of \$100,000 lent (25% for a consideration of US \$1,000,000) thereafter for the life of the mine.

Net royalty – Central America Nickel

On May 25, 2018, the Company agreed to pay Central America Nickel Inc. ("CAN") a 2% net royalty on the production of gold on any deposit in the world where process is used by the Company. The Company has the option to buy back 50% of this royalty (or 1% of the 2% royalty) at any time through the issuance of 2,000,000 common shares of the Company.

Agreement with the École Polytechnique and Impact Global Systems ("IGS")

On February 1, 2021, the Company signed an agreement with École Polytechnique and IGS concerning the recovery of critical minerals from ore tailings. As per the terms of this contract, the Company has agreed to provide to École Polytechnique \$15,000 in each of 2022 and 2023.

Joint Venture Agreement with Impact Global Systems

On May 25, 2021, the Company signed a joint venture agreement with Impact Global Systems ("IGS") concerning the processing of ores bearing tantalum, niobium, iridium and possibly other minerals. As per the terms of this agreement, the Company will assume all costs related to the purchase and transport of ores to the IGS facility in Delson, Quebec, as well as providing funds for the purchase of equipment and working capital. In return, the Company will receive 80% of the net profits from the sale of these minerals, with the remaining 20% going to IGS.

Agreement with AMCO Consultores ("AMCO") in Colombia

On August 30, 2021, the Company signed an agreement with AMCO, which agreed to provide environmental consulting services to the Company with respect to the Minastyc property in Colombia. The Company will pay to AMCO 126,171,457 Colombian pesos (approximately \$41,000) upon the delivery of the final environmental study on Minastyc. A further and final payment of 126,171,457 Colombian pesos will be paid to AMCO by Auxico upon approval and acceptance of this environmental study by the governmental and regulatory authorities in Colombia.

20. COMPARATIVE FIGURES

Certain prior year figures in 2020 have been reclassified to make their presentation identical to that adopted in 2021 and these reclassifications had no effect on the reported result of operations.

AUXICO RESOURCES CANADA INC.
Notes to the Condensed Interim Consolidated Financial Statements
For the three-month periods ended December 31, 2021 and 2020
(Unaudited, expressed in Canadian Dollars)

21. SUBSEQUENT EVENTS

On January 19, 2022, the Company closed a non-brokered private placement, issuing a total of 1,476,000 units at a price of \$1.20 per Unit raising gross proceeds of \$1,771,200. Each Unit consists of one common share of the Company and one-half of one common share purchase warrant. Each full Warrant is exercisable at \$1.50 for a period of 3 years from the date of issuance. The Company paid finder's fees of \$117,336 in connection with the Private Placement and issued 80,080 broker warrants. The Broker Warrants have the same terms as the Warrants mentioned above.
