Re: Re-Filed Early Warning News Release and Early Warning Report
(SEDAR Project Number: 02942263)

On July 22, 2019, Norm Yurik filed an Early Warning news release and corresponding Early Warning Report on SEDAR under Project Number 02942263 relating to his acquisition of securities of Glorious Creation Limited. The SEDAR filer inadvertently reversed the offeree and offeror profiles in that filing which resulted in the documents not being made public at that time.

The Early Warning news release and Early Warning Report are re-filed at this time for public disclosure.
