1 Nature of operations and continuing operations

Captiva Verde Wellness Corp. ("Captiva Verde" or the "Company") is a sustainable real estate company that invests in assets that contain green residential communities, disruptive manufacturing facilities, organic food production and pharmaceutical products.

The Company was incorporated under the British Columbia Business Corporations Act on November 9, 2015. The Company's registered and records office is located at 1500 Royal Centre, 1055 West Georgia Street, P.O. Box 11117, Vancouver, BC V6E 4N7.

These financial statements have been prepared on the basis that the Company is a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The nature of the Company's primary business is planned to be the acquisition, management, development, and possible sale of real estate projects in addition to organic food production and pharmaceutical products. The Company had income of $1,400,835 for the period ended April 30, 2022 and as at April 30, 2022 has an accumulated deficit of $6,195,644. As at April 30, 2022, the Company has working capital deficit of $1,430,396. To date, the Company has no existing business operations and no history of earning or revenues. If the Company is unable to raise any additional funds to undertake planned development, it could have a material adverse effect on its financial condition and cause significant doubt about the Company's ability to continue as a going concern. If the going concern basis were not appropriate for these consolidated financial statements, then significant adjustments would be necessary in the carrying value of assets and liabilities, the reported expenses, and the classifications used in the statement of financial position.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or results of operations at this time.

2 Basis of presentation and statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended October 31, 2021.

The Company's management makes judgments in its process of applying the Company's accounting policies in the preparation of its unaudited interim condensed financial statements. In addition, the preparation of the financial data requires that the Company's management make assumptions and estimates of the effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of the Company's unaudited condensed interim financial statements are consistent with those applied and disclosed in the Company's financial statements for the year ended October 31, 2021. In addition the accounting policies applied in these unaudited condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended October 31, 2021.

The Company's interim results are not necessarily indicative of its results for a full year.

These interim financial statements were authorized for issue by the Board of Directors on June 27, 2022.

3 Significant accounting estimates and judgments

The preparation of these financial statements in conformity with IFRS requires management to make judgments and estimates and form assumptions that affect the reporting amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period.

On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue, and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

Areas that often require significant management estimates and judgment are as follows:

Share-based payments

Amounts recorded for share-based payments are subject to the inputs used in the Black-Scholes option pricing model, including estimates such as volatility, forfeiture, dividend yield and expected option life.

Tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that taxable earnings will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable earnings together with future tax planning strategies.

Functional currency

The functional currency for the Company is the currency of the primary economic environment in which each operates. The Company's functional and local currency is the Canadian dollar. The determination of functional currency may require certain judgments to determine the primary economic environment. The Company reconsiders the functional currency used when there is a change in events and conditions which determined the primary economic environment.

Assets' carrying values and impairment charges

In determining carrying values and impairment charges the Company looks at recoverable amounts, defined as the higher of value in use or fair value less cost to sell in the case of assets, and at objective evidence that identifies significant or prolonged decline of fair value on financial assets indicating impairment. These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period.

Shares issued in non-cash transactions

The valuation of shares issued in non-cash transactions. Generally, the valuation of non-cash transactions is based on the value of the goods or services received. When this cannot be determined, it is based on the fair value of the non-cash consideration. When non-cash transactions are entered into with employees and those providing similar services, the non-cash transactions are measured at the fair value of the consideration given up using market prices.

4 Sage ranch project

On October 9, 2018, the Company closed a transaction with Greenbriar Capital (U.S.) LLC ("Greenbriar") to earn into a 50% undivided interest in approximately 132 acres of real property located in the City of Tehachapi, California, USA. The transaction represents a non-arm's length transaction as the Chief Executive Officer of the Company, Jeffrey Ciachurski, is also the Chief Executive Officer of Greenbriar. As consideration, the Company issued 10,687,500 common shares of the Company to Greenbriar and a $112,500 one-year interest free loan, which was immediately settled in cash upon closing.

On August 10, 2020, the Company entered into an option and joint venture agreement (the "Option and Joint Venture Agreement") with Greenbriar amending the terms of the original acquisition.

Option and Joint Venture Agreement

Pursuant to the terms of the Option and Joint Venture Agreement, the Company's 50% interest in the land was converted into an option to earn (the "Option") a 50% net profits interest in the Tehachapi Property by:

(amounts expressed in Canadian dollars, except where indicated)

1. paying Greenbriar a cash payment of $112,500 (the "Cash Payment" (the Company satisfied this payment in 2018 under the terms of the Acquisition Agreement);

2. issuing Greenbriar common shares (the "Share Payment") (the Company satisfied this payment in 2018 through the issuance of 10,687,500 common shares under the terms of the Acquisition Agreement); and

3. funding the applicable permitting and development costs for the Sage Ranch Project (the Company is behind on such funding obligations and no determination has been made as to the affects to the JV at this point in time. Risk factors are market conditions and the Company's ability to finance).

The Company has until the earlier of: (i) August 20, 2025 and (ii) the date Greenbriar receives final approval from the City of Tehachapi (and other required regulatory approval) to build houses on the Tehachapi Property, to exercise the Option.

If the Company makes the payments summarized above by the required time, the Company will exercise the Option and will automatically acquire a 50% net profits interest in and to the Sage Ranch Project. If the Company exercises the Option, then the Company and Greenbriar will immediately enter into a joint venture (the "Joint Venture") pursuant to the terms of the Option and Joint Venture Agreement. Pursuant to the terms of the Joint Venture, Greenbriar and the Company are required to evenly split all net profits derived from the Sage Ranch Project.

Total payments, pursuant to the Option:

	April 30, 2022	October 31, 2021
Opening	$ 5,583,788	$ 5,026,598

5 Solargram farms

On May 8, 2019, the Company entered into an agreement to acquire Solargram Farms Corporation ("Solargram"), a Canadian controlled private corporation, having corporate offices in Moncton, NB. As consideration the Company will issue 30,000,000 shares upon acquisition which had a prerequisite of Solargram obtaining their Cannabis Grow License by Health Canada and meeting other certain financial and legal conditions that are not yet met. On June 29, 2020, Solargram received their Cannabis Grow License from Health Canada. As at April 30, 2021, the transaction has not closed.

On January 26, 2021, Solargram has now additionally been approved of a Canadian Federal Health Canada processing license.

Additions	18,135	19,804
	$ 4,148,538	**$ 4,130,403**

On September 30, 2021, the Company announced it was made aware of a lawsuit filed against the Company by Solargram. On November 5, 2021, the Company terminated the acquisition agreement with Solargram and filed a Statement of Defence and Counterclaim in response to the claim filed by Solargram Farms in New Brunswick, Canada.

(amounts expressed in Canadian dollars, except where indicated)

During the period ended April 30, 2022, the Company charged Solargram $nil (2021 - $60,000) in lease fees for the use of the Company's land and buildings in New Brunswick. This amount is recorded in other income in the statement of loss and comprehensive loss. During the period ended April 30, 2022, the Company reversed the provision of $2,884,511 relating to the funding the Company provided Solargram operations based on on-going discussions and management's assessment of the collectability of the receivable. The Company continues to work towards a resolution of the ongoing legal issues and recovery of this amount. The receivable has no repayment terms, is non-secured and non-interest bearing.

6 Mexico operations

In January 2020, the Company entered into an exchange agreement with Salud Esmeralda de Mexico SA de CV ("Esmeralda") for the exchange of all of the shares of Esmeralda for 80,000,000 common shares of the Company. The shares are subject to a pooling agreement for one year. Jeff Ciachurski, CEO, is a shareholder of Esmeralda. As at April 30, 2022, this transaction has not yet closed. Prior to finalizing the agreement, $211,607 was expensed to the statement of loss and comprehensive loss and subsequent to finalizing the agreement the Company capitalized $400,131 in receivables from Esmeralda relating to the Company funding Esmeralda operations until the acquisition closes. The receivable has no repayment terms, is non-secured and non-interest bearing.

Esmeralda and its principals acquired from another Mexican corporation, a comprehensive pharmaceutical license to sell, market and distribute pharmaceutical, health, wellness and veterinarian products which include all psychoactive and non-psychoactive drugs listed under Groups I, II & III.

The Company has capitalized $1,095,510 related to project construction costs in connection with the Company's building in Ensenada Mexico.

9 Financial instruments

The Company reports its financial instruments on its statement of financial position and measures these at fair value. In limited circumstances when fair value may not be considered most relevant, they may be reported at cost or amortized cost. Gains or losses as a result of changes in fair value are recognized in the consolidated statement of loss and comprehensive loss.

The Company's financial instruments consist of cash, receivables (Solargram, Mexico and other), accounts payable and accrued liabilities and loans payable. The fair value of these financial instruments, excluding cash, approximates the carrying value due to the short maturity or current market rate associated with these instruments. Cash is carried at a level 1 measurement.

Categories of financial instrument

	April 30, 2022		October 31, 2021	
	Carrying value $	**Fair value $**	**Carrying value $**	**Fair value $**

Loans payable	774,219	774,219	1,869,696	1,869,696

Fair value

Financial instruments measured at fair value are grouped into Level 1 to 3 based on the degree to which fair value is observable:

Level 1 – quoted prices in active markets for identical securities

Level 2 – significant observable inputs other than quoted prices included in Level 1

Level 3 – significant unobservable inputs

The Company did not move any instruments between levels of the fair value hierarchy during the period ended April 30, 2022.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is currently not exposed to any interest rate risk.

Credit Risk

The Company is exposed to credit risk through its cash, which is held in large Canadian financial institutions with high credit rating, deposits and other receivables. Receivables are primarily due from related entities and government agencies. The Company believes the credit risk is insignificant. The Company's exposure is limited to amounts reported within the statement of financial position.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure. In order to meet its financial obligations, the Company will need to generate cash flow from the development or sale of future properties or raise additional funds.
